
Now people think diseases of the stomach, liver, or kidneys, or bladder, or for kidney or liver troubles, or dyspepsia, while 9/10 of the trouble is from the real cause of all the trouble, namely, heart disease.

The renowned Dr. Cardinal says, startlingly enough, "one third of my subjects have signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a half, resting not day or night! Surely this subject should have careful consideration.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. This known as Dr. GRAVES' Heart Regulator and can be obtained of your druggists, $1, per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

A Maine Mystery.

Early Friday evening, March 30th, Ezra Carville, who lives three miles from Lewiston, Me., heard shots near his house. He paid no attention, but shortly afterward heard a rap at his door. Before answering, Carville put a pistol in his pocket. His dog was much excited and rushed out, when a man at the door said his sleigh had broken down, and asked help. Carville lighted a lantern and followed the man. When near the road he saw a hammer drop from under the man's coat. "You have got a hammer," said Carville. Upon this the fellow turned, presented a revolver and said: "D—n you, surrender, or I'll blow your brains out!" Carville, who had previously cocked his pistol in his pocket, thrust aside the fellow's pistol and fired at his breast. The fellow curled up, groaned, jumped into his sleigh and drove off. Carville, not knowing whether the man had accomplices or not, ran back to his house. In the morning he found blood from the spot where he fired to the road. The fellow had driven toward the city. Carville is a wealthy man, and is one of the heirs in a contested will case.

Hungarian Grass.

This is a valuable crop, supplying good green fodder, as well as hay, and a large quantity can be obtained from a small area of land. It can be sown late in the season, after the ordinary hay crop is pretty accurately estimated, and the demand for fodder known. Hungarian grass may be sown after rye, or on sod ground. Plow the land to a moderate depth and make the surface very fine. A liberal dressing of fine manure, or some commercial fertilizer, is essential, if the soil is not already pretty rich. If the crop is wanted for feeding green during the summer, the seed can be sown at intervals from the last of May (at the north,) to the middle or last of July. If for hay, delay sowing until about the middle of June, as the plants will not grow rapidly until the nights are warm; this will give plenty of time for a full growth. Use fresh and well ripened seed; one bushel per acre is sufficient, though a bushel and a half is sometimes used. The crop should be harvested before the seed ripens, but not until the heads of the grass are well formed.—*American Agriculturist.*

—A diplomatist is having an after-dinner talk with the grand vizier of the oriental sovereign to whose court he is accredited. "The only fault I have to find with your system of government," he says laughingly, "is its murderous tendency. Why, not a single one of your sultans has died in his bed during the last 200 years!" "You mistake, sir," says the grand vizier, with patriotic warmth; "Four of them have died in their beds during that period. Though I must admit that in each case the royal sleeper was found with the mattress on top of him."

IN MINNESOTA & DAKOTA

VARIOUS QUACKS.

Who—Each with his own Pet Scheme—

Cultivate the Fluid of Human

Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks, and medical quacks. Some of them are blind, oily fellows who argue and smile the world into believing in their absolute bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic medicine under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blocks or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared—*never* expected—by one of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external applic tion. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Frazier Conliff, a mulatto of bad reputation, and known as a hanger-on at Casey's saloon in Boston, where Carlton, the husband of the murdered Etta G. Carlton, was bar tender, was arrested on the evening of the 4th inst. on suspicion of having committed the murder, two other colored men, named Tony Smith and John Clark, being held as witnesses. No great hope was entertained by the public that the mystery enveloping the murder was likely to be cleared up by these arrests.

Full returns of the Rhode Island election give Bourn, republican, for governor, 2881 plurality; Rathbun, for lieutenant governor, 2973 plurality; Colt, for attorney general, 3797 plurality. Butler's stumping for Sprague is thought to have injured the latter, who did not stand a ghost of a chance to be elected anyway.

"Golden Days," for boys and girls, published in Philadelphia, by James Elverson, is certainly the thing for the household. Designed for young people, it has many interesting and well-told stories, admirably adapted to the young mind. Its illustrations are good, and calculated to impress; besides, there is much to engage older heads, and the notes on the International Sunday-school Lesson for each week are especially interesting and instructive. It is published in weekly or monthly parts, at $3 per year.

Tuesday afternoon, April 3d, while a salute was being fired at the Soldiers' home near Augusta, Me., in honor of Gen. Tilton, by a premature discharge of the gun Edward Bradeen had a portion of his left hand blown off, only the index finger and thumb remaining. He also had the little finger of the right hand torn off.

Delicate Females.
The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidneys, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:
The old plasters were slow in their action; the Capcine is quick and sure.
The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.
The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.
In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.
Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failures makes to success. Benson's Plasters are parcelled in same and style.
Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

TERRIBLE SUFFERING.
Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.
"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr. Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever pres ribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."
What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

Don't Step on a Rolling Stone :

That's what Captain Allen of the fire department of Worcester did, and that was how he hurt his ankle so badly. After the doctor set the broken bone, Captain Allen used Perry Davis's Pain Killer as a liniment. The suffering was soon over, and the captain was well in a short time. Knowing the accidents to which firemen are constantly subject, Captain Allen advises everybody connected with a fire department to keep a bottle of Pain Killer always on hand.

YORK COUNTY PROBATE COURT.

In the Probate Court held at Alfred, Me., April 3d, 1883, letters testamentary were granted upon the wills of the following-named persons: Ephraim Shorey of South Berwick, Noah Hamilton of Buxton, Mary D. Sherman of Lebanon, Thomas Staples of Eliot, James H. Rowell of Kittery, Louisa J. Bean of Waterborough, John Q. A. Pillsbury of Shapleigh, Benjamin W. Spofford of Buxton.

Letters of administration upon estates of Wm. G. Foye of Berwick, Levi L. Peavey of Dayton, Rev. Joseph Freeman of York, Joseph C. Lord of Sanford, Richard Bacon of Buxton, Thomas B. Smith of Acton, William Dimmock of Limington, Geo. W. Emmons of Lyman; and administration (with the will annexed) upon the estate of Joseph Merrow of Acton.

Wills of the following-named persons were presented for probate: Sarah Warren of Saco, Sewall L. Rankins of Boston, Charlotte Dennett of Biddeford, Timothy Libby of Saco, Geo. W. Scammon of Saco, Lizzie A. Paul of Eliot, Patrick Leonard of Biddeford, Eliza Beaty of Saco, Oliver A. Hill of Berwick, Gilman Hooper of Saco, Abigail Roberts of Lyman, Honora R. Hill of Eliot; and on the duly authenticated copy of the will of Paul A. Chadbourne, from the Berkshire County Registry in Massachusetts.

Petitions for administration were presented upon estates of Charles A. Larrabee of Limington, Sally Butland of Wells, Amos Hobson of Hollis, Nancy P. Whiting of Parsonsfield, Joshua Wakefield of Kennebunk, Oliver West, 2d, of Wells, Hezekiah Fall of Berwick, Tabitha Hutchins of York, and Ira F. Grant of North Berwick.

Accounts of the estates of the following-named persons were presented for allowance: 1st of John W. Lord of Kennebunk, 3d and final of Charles W. Anderson of Limington, Wm. B. Lewis of Berwick, 1st of Joshua Brackett of Acton, 1st and final of Lyman D. Jordan of Saco, 1st and final of Wm. H. Cluff of Waterborough, 1st of Greenleaf Goodwin of South Berwick, 1st of Nancy Goodwin of same place, 1st of Edward Kennard of Cornish, 1st of Geo. A. Warren of Biddeford, 1st of Juliaetta Floyd of Hollis.

The usual amount of business was not quite reached, owing to the bad traveling.

The court-room has been thoroughly changed. One set of jurors' seats has been removed; and the jury room is now entered from the court room, instead of by the hall as before, and the officer in attendance upon the jury will now be under the eye of the judge, without any chance for eaves-dropping; this room is much enlarged, and made lighter. The bar rail now extends across the room, leaving space for spectators in the rear, facing the bench, giving the entire space previously occupied by the jurors' seat on the right of the court, to the bar; this furnishes ample light near the windows on the southwesterly side of the room, at a distance quite removed from those who may be trying a case. The counsel will now sit in such a position as to observe the Court at the time of trying a cause, which could not be done when trying a case before a jury on the right of the court. There is a new bench and clerk's desk; the latter stands upon the floor without any elevation, and is of the rolling-top pattern. The court-room has also been ceiled around its entire walls; had new windows cut in the rear end, affording additional light; and been painted a fine tint throughout. The offices of clerk, registers and county treasurer are to have new floors, and receive new colors upon the walls. The grand-jury room has been changed and enlarged, and the rotunda on the first floor ceiled and painted like the court room. The outside of the building has received its first coat of drab paint, with darker for the trimmings, and the cupola has received a new bell to be rung by the janitor.

For numerous years the bell of the Congregationalist church has done service for the courts here, and the county has paid therefor thousands of dollars to the sextons as they have come and gone, for this service. Now the county commissioners have at last discovered that an investment of about $150 for a bell which can be struck without any expense, will save the county just about that amount annually. The parish will be the loser, however.

There is snow enough yet, and it seems that it will never leave. Sleighs are still the means of conveyance; and in the shade, despite the warm sun, it will not thaw even at mid-day. But the people are sure of a scorcher when the dog star rules, and if anybody don't believe it let them come here and try it. M.

Ladies visiting Boston will find great additions and improvements in the well-known store of Wm. S. Butler & Co., on Tremont street. The *Boston Journal* says: "To the old store has been added that at the corner of Montgomery Place, and this joined to the old makes for business purposes a salesroom on the first floor of double the former size; while on the second floor are fine business rooms; on the third floor ladies' reception-room, counting room, etc.; and above this, two other floors for the wholesale trade of the establishment and manufacturing purposes, besides a large dining room for the help in the establishment. The alterations made are all first-class, an elevator and electric lights being included, and besides these, the light and ventilation are as near perfection as they can well be. The additional room gained by the alteration made affords a fine opportunity for the display of stock, and in the opening of yesterday a beautiful exhibit was made of millinery goods, cotton underwear, upholstery, laces, toilet articles, perfumery, hosiery, kid gloves, handkerchiefs and small wares. The new appearance of the premises was quite a surprise to visitors at the grand opening, all of whom expressed themselves as well pleased with the same and the first-class accommodations gained."

Home Manufactures.

It is with just pride we can point to America's success in manufactures, and especially so is this the case with that most durable of all known floor coverings, "LINOLEUM." It has so completely superseded the best foreign article that only the poorest qualities can now be imported. In use, the foreign goods will continually look dirty and dingy, the domestic, bright, clean and pleasing, while the designs and artistic effects are beyond comparison. All carpet dealers keep these remarkable goods, and the Walton Trade Mark with the word "LINOLEUM" is on the back of every square yard of American make.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod1an9,84

The steamer Fearless was hauled off into the water from the Raynes shipyard on Thursday last, the tide not being high enough to float her, and was beached on Noble's island on Friday, a leak having been discovered in her bottom near her condenser. She will soon be in readiness to take the place of the steamer James Sampson, which will then haul off for repairs.

The stage and brow of the steamer James Sampson have been placed temporarily at the head of Broughton's lumber wharf, near the navy yard landing.

The schooner Annie F. Conlon arrived in Boston on Thursday, the 5th inst., with coal, after discharging which she will go to Windsor, N. S., and take a cargo of plaster from there to New York. On Thursday of the previous week Capt. Seaward was quite badly poisoned by eating snow taken from the schooner's deck, which had been not long painted with white zinc paint.

An Unknown Speaker.

In the House lobby, back of the speaker's desk, is an incomplete collection of portraits of speakers of the past. All are labelled with the correct names except one. This is the second picture on the right hand side of the lobby as you go in from the west. No one apparently knows who this represents, beyond the fact that he was once speaker. The oldest citizen has vainly struggled to identify him. Unknown, the face of the man who once held the third highest office in the United States gazes calmly down upon the procession passing him in a maddening rush for political fame.—*Washington Herald.*

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are taking it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINCKLEY,

THE *Admiration* OF THE *WORLD.* *Mrs. S. A. Allen's* WORLD'S *Hair Restorer* IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT--BATCHELDER, J

FRIDAY, April 6th.

Two young fellows who indulged in a fight on the night of the 5th were each assessed $13.44, fine and costs, which they paid. Another young fellow, charged with drunkenness, was allowed to go on probation.

EASTERN RAILROAD LEASE.

The most striking journalistic stupidity yet afforded the public is found in the recent publication of a reputed despatch to the Boston *Traveller* from this city, to the effect that the proposition for the ratification of the lease of the Eastern railroad to the Boston & Maine will meet with no opposition in the coming legislature of this state. This is equivalent to saying that the representatives of the people, in general court convened, will deliberately and unanimously give their sanction to a measure which nine-tenths of the people themselves emphatically condemn. It is simply wholesale slander of the most preposterous kind.—*Concord Patriot.*

Is it a more striking instance than that of numerous instances daily occurring when some local correspondent assumes to speak for a community, on many questions? As far as can be ascertained this was simply a flippant despatch from some volunteer correspondent, a class of persons of whose services the enterprising Boston publishers in some instances are only too ready to avail themselves. Such persons can manufacture sentiment to order, and often by their ill-judged efforts injure instead of aid the person or object they pretend to advocate.

THE MASQUERADE.

The masquerade in Congress hall on the evening of the 5th inst. was attended by about forty couples in fancy dress, the gallery being thronged with spectators. Harlow's orchestra furnished the music, and the young people had an excellent time. Among the characters represented were the following: "Pop-corn girl," Jennie L. Randall; "Flower girl," Gertie Priest, Nellie Brown, Alice Norton, Lizzie Hanscom; "Night," Jennie H. Williams, Lillian Urch; "Morning," Mrs. David Urch, Mrs. M. Parry, Nellie Walden, Nellie White; "Little Red Riding Hood," Grace Henderson; "Mistress Mary, quite contrary," Gracie Wendell; "Snow," Ella Curtis; "Peasant girl," Nellie Locke; with others that we did not get. The young men ran largely to clowns and military characters, though there were also Indians, Chinamen, darkeys, dandies, bootblacks, etc., and "the author of 'Beautiful snow.' "

GOSSIPS SAY

That the recent musical and dramatic entertainment at Newington was repeated on Fast day evening, by request, the town hall being crowded.

That Carpenter George Anderson, U. S. N., is in this city, having been called home by the serious illness of his mother.

That the winter covering of the custom house steps has been removed, after doing duty for nearly five months.

That Mrs. Langtry will play in Music hall sometime in the early part of June.

That Rev. Dr. Alden will not conclude his service with the Middle street society at present.

That there was a great need of liniments and cushions at the skating rink on Thursday afternoon and evening.

That the "Arkansas Travellers" arrived in New York on Thursday morning last at one o'clock, on their way home.

MATTERS IN RYE.

RYE, April 6th.

Fast day in Rye was of the usual quiet type of legal holidays. Rev. Mr. Jones and family started for their new home in Eastport, Me., on that day, and now the question of his successor becomes one of local interest.

The advent of spring betokens work for the residents of Rye, and preparations for the entertainment of summer guests are already well begun. Horace Sawyer has a new cottage near his attractive house; it will be occupied by Elihu Chauncey of New York, who for many seasons has been an inmate at Sawyer's. Lougee is to erect a cottage on land opposite the Sea View, on the "Jenness" lot. The boarding house of Mr. Drake, near Sawyer's, has received a large addition. At Little Boar's head the Barker cottage is well nigh completion, while a new cottage of the Queen Anne style has been erected near the Minot cottage. The leading boarding houses have as usual many rooms engaged by guests who year after year come to appreciate the fine atmosphere and quiet life at Rye,—who delight to drive over good hard roads, to take a turn to Portsmouth and make a call at Robeck's, or steam out to the Shoals and dine with friends at Appledore or Star, or walk through the town and gaze into the Athenæum, call on some friend at the Rockingham, and drive home by way of the Wentworth.

The visitors at Rye all agree that the season here is always enjoyable to the full; that the drives in the country, the excursions on the ocean, to which will be added in the coming summer the trip to York beach, and withal the comfort of rest in pure air which here is found, make Rye attractive not because it is gay, frivolous and giddy, but because a sojourn here acts as a restorative to the exhausted city resident, because it gives the western inhabitants an opportunity to inhale the pure air of the ocean, to enjoy which so many who have gone from their native east make an annual return to our shores, beside which they sit in such a frame as this and watch the OCEAN SPRAY.

SUNDAY SERVICES.

Elder Chamberlain will preach in the Advent church on Sunday.

Rev. E. Q. S. Osgood of Plymouth, Mass., will preach in the Unitarian church, morning and evening.

In our report of the Good Templars' meeting in this city on the 4th inst., an account of the evening's entertainment was unavoidably omitted, on account of a pressure of other matter. The business of the day having been completed, in the evening a large number assembled; the chair was occupied by Chief Templar Bailey, who introduced Rev. Messrs. Goss and Buffum, who made pertinent addresses. Following this was reading by Mrs. Etta H. Mason of Biddeford, Me., whose readings and recitations in Boston, Augusta, Cambridge and other cities have been so highly commended. Mrs. Mason's visit was intended to have been only in the capacity of Grand Worthy Vice Templar of the Grand Lodge of Good Templars of Maine, but at the urgent solicitation of her friends here she gave several pieces, including "Good night, papa," and a medley comprising selections from different poetic writings,—dramatic, pathetic, humorous and dialect. This was followed by "The Jiners" and "The Bald-headed Man," with "Robert of Lincoln" given in response to a hearty encore. Mrs. Mason's special success seemed to be in her accurate imitation of the voices of old folks; in this she is unrivalled, as those who have heard her in the "Deacon's confession" can testify. Mrs. Mason's appearance lent additional zest to the entertainment of the evening, and her efforts were highly appreciated by all present.

The Concord *Monitor* of the 4th inst. said: "James H. Dow, for the past three years a popular salesman at the Old Reliable Dry Goods Store, has accepted a flattering offer from Cutting & Brandt, dry goods dealers of Lowell, Mass., and enters their employ on Monday next. While in this city, Mr. Dow has made many friends, and has been a capable and valuable clerk. He has had the entire charge of the advertising of the store, and in this connection his relations with the newspaper fraternity have been always pleasant. He has been a judicious and liberal advertiser, as our columns have shown. He goes to Lowell with the best wishes of a large circle of Concord friends."

The schooner Triton, Freeman master, arrived on Thursday, the 5th inst., from Boston, being the first of the brick fleet to complete a round trip. The Emily A. Staples, Capt Coleman, the George W. Raitt, Capt. Coleman, the Golden Eagle, Capt. Maxwell, and the Hattie Lewis, Capt. Brewster, all from up river, brick laden, and the Loella, Capt. Amee, from Kittery with seventy cords of wood, all sailed for Boston on the 6th; the Loella will bring back a load of phosphate for Dover. The schooner Active, Hontvet master, sailed for St. John, N. B., on the 6th, to load lumber for a southern port.

The roller skating at Franklin hall, on the afternoon and evening of Fast day, was well patronized, mostly by residents of this city. Sawyer's band, of Dover, supplied good music, and the participants in the sport seemed to enjoy themselves greatly.

The steamer Lancaster, from Philadelphia with 1671 tons of coal, and the schooner F. O. Dame, From Newport News, Va., with 1198 tons, arrived at this port on the 6th inst., both to J. Albert Walker.

[*For other local matter see second page.*]

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

FIRST
OPENING
— OF OUR —
TRIMMED MILLINERY!
DEPARTMENT.

In order to place this department at once in rank with any first-class millinery establishment, we have secured the best talent to be had to give our Hats that beauty and elegance which is consistent with refined taste, at popular prices to suit all trade.

The success of such a department has never been tried in this city, a department where STYLISH TRIMMED HATS are sold at but small advance on the cost of hat and trimmings, and we trust that the ladies of Boston and vicinity will avail themselves of the opportunity to leave their orders early, so they can receive proper attention.

OPENING
— OF OUR —
Cotton Underwear Dep't.

In order to place this department properly before the public, we shall offer at less than cost our inaugurating sale, as follows:—

Lot 1. Chemises, Drawers, Corset Covers, for Ladies and Children, at 25c. each.

Lot 2. Chemises, Drawers, Skirts, Night Dresses, Hamburg trimmed, at 50c. each.

Lot 3. The same, at 75c.

Lot 4. The same, at $1.00.

We refrain from giving a description of each and every article, and prefer giving good cloth and good trimmings to advertising the different clusters of tucks, etc., and showing a poor article.

We hope ladies will avail themselves of this sale, as we shall not feel able to continue it for any length of time.

OPENING
— OF OUR —
Straw Goods
DEPARTMENT.

This department has been placed at the rear part of our store, and has been made the most attractive place in Boston.

The department faces a sheet of mirror, 50 feet in length and 9 feet in height, so as to give every opportunity to the purchaser to see at a glace whether a hat is becoming or otherwise.

The following New Shapes will be offered at our opening: The Critic, Fedora, Iolanthe, Mignon, Poppy, Patti, Thursby, Nautilus, Casino, Sprite, Marquise, Servia, and many others.

HORSE CARS pass our door from all railroad stations, a great convenience to out-of-town patrons.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the Blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in these days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 5-, by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most exhaustive work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is full explained.—"London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can now much wise, suffering and expense by reading the Science of Life, or Self-Preservation, or they may be consulted on all diseases requiring skill and experience.

Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while it is but much more serious, the real cause lies in the heart.

The renowned Dr. Clendaniel, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and the kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1, per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (3)

Waggish to the Last.

Probably no Indiana lawyer was ever more eccentric and more waggish than was old Jim Brown, of Lawrenceburg. His birth was a joke, and at the deathbed the ruling passion caused smiles when there would otherwise have been tears. Some one of the clergy of the city who had offended him was sent for. As the man of God entered the sick room, Brown said:

"I'm dying and I want you to pray for me."

The minister complied, knelt by the bedside, and, when in the midst of the most fervent invocation, Brown suddenly reached for his trousers, which were lying hard by, thrust his hand in his pocket, extracted his wallet, drew forth a $10 bill and held it before the face of the kneeling man. The minister, hearing the rustling, naturally opened his eyes, and seeing the proffered wealth, ceased praying, solemnly shook his head, and said:

"We never accept any remuneration for offering spiritual consolation."

"Don't you?" gasped the dying man—"don't you? Well, I'll be blamed if I'd make such a plea as you've made for less than $10."—*Cincinnati Enquirer.*

—There are some persons who cannot take a joke, but Fogg is not one of them. One of the boys, acquainted with Fogg's frequent changes of abode, asked him which he thought was the cheaper, to move or pay rent. "I can't tell you, my dear boy," replied Fogg; "I have always moved."

Lotteries originated in Florence in 1530. Most proprietary medicines are a lottery. This is not true of Wheat Bitters. It is a rare and recognized pharmaceutical preparation and is a certain cure for dyspepsia, all types of kidney and liver troubles—in fact a household necessity.

A Maine paper says: "Monday morning, April 2d, Mr. Jonathan Newcomb, of Bath, died at the advanced age of eighty-nine years. He is believed to have been the last survivor of the victims of the infamous Dartmoor prison, where he was confined between five and six months, in which gloomy abode he was when he attained his majority."

Doctor Yourself

and save money, and perhaps your life, send two 3-cent stamps to pay postage to A. P. Ordway & Co., Boston, Mass., and receive a copy of Dr. Kaufmann's great medical work, 100 pages, elegant colored plates.

The health officer of the port of Liverpool, Eng., says in his annual report regarding the sanitary inspection of vessels that the American vessels retain their character of being the best conditioned foreign vessels which enter that port.

"The alphabet is the key which unlocks the store-house of knowledge," says an exchange. Wheat Bitters is both key and store-house. It is an incomparable medical preparation, combining all the curative agents used in the treatment of Bright's disease, liver troubles and general debility.

Three little girls were drowned at Albany, N. Y., April 4th, by breaking through the ice on a pond.

A Much Married Woman.

Mrs. Fowler, of this city, was married last January to her sixth husband, and strange as it may seem, five of them died exactly two years from their marriage-day. Her present husband has been sick for the last four months with chronic jaundice, and was given up by four of our best physicians; as a last resort he began using Sulphur Bitters, and yesterday told our reporter that they had saved his life, smilingly saying that he guessed Mrs. Fowler would be unable to take a seventh better half for some time to come.—*Exchange.*

At Little Rock, Ark., April 4th, a negro boy named Albert Williams was hung by a mob for outraging a little white girl.

A pure, wholesome distillation of witch hazel, American pine, Canada fir, marigold, clover blossoms, etc., fragrant with the healing essences of balsam and pine. Such is Sanford's Radical Cure for catarrh. Complete treatment for $1.

Seven persons were killed by a boiler explosion at Moss Point, Miss., April 3d.

Parents who allow their children to grow up with scrofulous humors bursting from every pore are guilty of a great wrong. Think of them pointed out as branded with a loathsome disease, and you will readily procure them the Cuticura Remedies.

At Baton Rouge, La., on the 4th inst., a newspaper publisher named W. A. Leesner was shot dead by W. T. Sanders, a broker.

Dr. Benson's Skin Cure is without a peer. It consists of both external and internal treatment and costs only $1, per package, at druggists.

Don't Die in the House.

"Rough on Rats" Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

A despatch from Malta reports Comdr. Dewey, who has been very ill in the hospital there, as convalescing.

It's hard to believe Miss Whittier was cured of such terrible sores by Hood's Sarsaparilla, but reliable people prove it.

The Ranger left Vallejo, Cal., April 2d, for San Francisco, preparatory to resuming her survey of the Mexican coast.

Bright's Disease, Diabetes, Kidney, Liver or Urinary Diseases.

Have no fear of any of these diseases if you use Hop Bitters, as they will prevent and cure the worst cases, even when you have been made worse by some great puffed up pretended cure.

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

DR BULL'S COUGH SYRUP

For the Cure of Coughs, Colds, Hoarseness, Croup, Asthma, Bronchitis, Whooping Cough, Incipient Consumption and for the relief of consumptive persons in advanced stages of the Disease. For Sale by all Druggists.—Price, 25 cents.

KIDNEY-WORT

IS A SURE CURE for all diseases of the Kidneys and —LIVER—

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, affecting its regular discharge.

IN MINNESOTA & DAKOTA

VARIOUS QUACKS.

Who—Each with his own Pet Scheme—

Cultivate the Field of Human

Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic pendant under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden buckets or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been long and responsibly patronized by acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Mackerel at our Boarding-House.

Few people who eat salt mackerel stop to think of the adventurous life led by the men engaged in catching the creatures These men are subject to hard knocks and every kind of exposure. The celebrated fishery house of Jas. G. Tarr & Bro., Gloucester, Mass., says: "We have had on board our vessels frequent cases of cuts, bruises, sprains, and summer complaints Our captains say they wouldn't go to sea without Perry Davis's Pain Killer."

—Dr. Talmage insists that he is not a pessimist. Never heard that he was called one. The name "howling dervish" is the most plenty for him.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

—Herr Most is howling to his followers to "kill, kill, kill." He may gain fame, but he's not so clever or amusing a guy as Oscar Wilde.

Delay is dangerous. Do not longer cling to the old method of curing coughs and colds with rum and molasses, it is a dangerous remedy. Adamson's Botanic Balsam is a sure cure every time, pleasant to take and works like a charm.

—General Sherman tells a friend that his mother, when his father died, was left with eleven young children and an income of only $200. The old man's efforts didn't seem to have been altogether in the right direction.

I have no hesitation in certifying to the absolute purity of "G. O. Taylor Old Bourbon" whiskey (obtained for analysis at random from leading druggists), as bottled by Messrs. Chester H. Graves & Sons, Boston. H. L. Bowker, state assayer, Mass.

The Speakership.

We notice in some of our exchanges the name of Samuel C. Eastman, Esq., of Concord, suggested as a probable candidate for speaker of the New Hampshire house next June. We know not what may decide who shall be speaker, but we do know that Mr. Eastman is versed in parliamentary laws, is familiar with legislative duties from frequent observation, and is a gentleman who would honor the position and most acceptably discharge the duties of the office.

Tell it not among the hills of New Hampshire. Let it not be heard in the streets of Concord in June. On Thursday last, as the Secretary of the Navy was convoying the President on his way to Florida, while going over the Petersburg & Weldon railroad the conductor would not allow the party to pass free because they had no passes. Mr. Chandler took out his pocket book, at the sight of which the conductor's eyes glistened, and soon after he returned it to his pocket, and using a Western Union stamp, wired the railway manager, who "made it all right." There's nothing like a telegraph despatch when a great principle is involved.

AROUND HOME.

The Eastern railroad station at Greenland is being repainted, and the artists will it is said go on toward Boston with their brushes, stopping at each station, so that when the Boston & Maine takes a lease of the line the station houses will be found in excellent condition.

Grant, of the Sea Cottage, has much improved his house at York beach. Transoms have been put over the bed-room doors, and the parlors have been refurnished; and two comfortable arbors, with seats for guests to sit and watch the wild waves on the shore before the house at the edge of the beach, have been built. In short, Grant means to keep abreast of the wants of his numerous patrons.

At the annual school meeting in district nine, Kittery, held on the evening of the 4th inst., James E. Chase was chosen agent for the district, D. C. Norton treasurer, and W. F. C. Philbrick clerk. It was voted to raise the sum of $250 to pay the balance due on the school house; voted not to accept the free high school; voted to sell the stoves belonging to the district, now in Armory hall, and to store the seats that are in the same building, as the district has no use for them. Y.

About 10,000 lbs. of fish arrived at this port last week.

Mr. William Huntress of Eliot, Me., brought in on Friday last some wild fowl which he shot that morning in the vicinity of Great bay, consisting of wild geese, ducks and whistlers. Mr. Huntress has for many years engaged in sporting, and has generally been quite successful. One spring he caught by hand-line over sixty bass, some of them weighing over sixty pounds each; the past winter he picked up three bass which had been frozen. He says that before the weirs were placed at the heads of the river these fish were plenty, but in recent years they are scarce and hard to take.

On Saturday afternoon last the tug Ann towed down from Dover two schooners, and all went well until when just above the Gas Co.'s wharf the Laura Robinson, the hindmost schooner, parted her tow line, which let her drift against the engine-scow of C. E. Walker & Co., lying at her wharf; the scow's engine house was demolished by the collision, and some slight injury done to the engine, the total damage amounting to forty dollars, which amount could have been more judiciously invested in the purchase of new rope.

A girl who gave her name as Mary Jeffison, alias Mary Cayton, alias Murilla something, arrived on the Saturday morning Pullman train and went to the Gibson house, where she was given a room. After she had left the house a valuable pin which was supposed to be in the room was missing, and after some search Mary was found in the house on Fleet street occupied by Mr. Jerry Carter, and taken to the station house. After the investigation of the case she was let out on bail until this morning when her trial will take place. A pair of ear rings which laid on the sink were not touched.

On Wednesday of last week four new cars, handsomely painted and furnished, passed through this city to the eastward on a freight train; they were for the Portland & Ogdensburg railroad, and built expressly for the summer travel to the White mountains. On the same day an engine built at the Manchester locomotive works, and destined to run on the Green Mountain railroad, from Bar Harbor to Green mountain, Mt. Desert, came to this city, and was transferred to the Eastern railroad track and hooked on to the same train (Conductor Chick's) which had the Portland & Ogdensburg cars.

Charles Bragdon, of York, on Friday morning made complaint at the police station that he was robbed of twenty dollars the previous night in a house on Bridge street in this city, where he slept in a room with a man who told magnificent stories of his fighting abilities. In the morning the fighter and Mr. Bragdon's money had both departed.

Mr. George F. Lewis, of Eliot, moved his furniture and family from that town to Boston on Friday last.

Some of the fishing vessels which went to Provincetown, Mass., early last week, for bait, finding no bait there returned to this port to paint up and fit out for spring fishing.

The schooner American Chief, Snow master, arrived at Newcastle from Hoboken last week with 135 tons of coal.

The steam tug Naumkeag will be ready to commence towing vessels to Newmaket in about a week, by which time it is supposed the river will be free from ice.

Samples of room paper costing twenty dollars a roll were shown in this city on Saturday.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where our directions are faithfully regarded. We would that we might get before the people a practical part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet, and is continuously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINCKLEY,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

COUNTY COMMISSIONERS' HEARING.

A partial hearing of the appeal of Crowell against the town of Londonderry was had before the county commissioners at Londonderry last week. The selectmen had located a cemetery on the land of Mr. Crowell, and before the proper proceedings had been completed Crowell had, by advice of his attorney, placed a building on the lot, which contained three acres of land. There were two proceedings, one having been alleged to be defective. The appeals were referred to the county commissioners, and there seemed to be no little degree of feeling in the case, which is prosecuted by Crowell's heirs.

Messrs. Frink and C. R. Morrison appeared for the town; Sulloway, G. C. Bartlett and other attorneys from Manchester represented the heirs. The hearing was continued until the latter part of April.

GOSSIPS SAY

That Joseph E. Fernald of this city has several gangs of men at work in Gloucester, Mass., caulking vessels.

That many people were attracted to the Portsmouth bridge on the afternoon of Fast day, to watch the immense cakes of ice—some of them a quarter of a mile in circuit—as they came down river with the tide and were swept against the bridge, where they were broken into fragments as they struck the piles, making a terrific noise, and causing the bridge to tremble from end to end.

That Mr. Thomas Haywood of Boston has built a handsome and costly stable near the Haywood cottage at Newcastle.

That several improvised incubators for the hatching of chickens are in full operation at Kittery Point, the most novel one being an oil stove holding nine dozen of eggs, the lamps being turned down so that a temperature of 120 degrees is constantly maintained.

That a flock of nearly fifty wild geese was seen in Little harbor, just below the Cushing mansion, on Thursday afternoon of last week.

That a select sheet - and - pillow - case party was given at a residence on Miller avenue Wednesday evening of last week.

That a Mr. Hoyt, of Kittery Point, lost fourteen little pigs on the 4th inst., through the mother lying on them.

That one of the Portsmouth men who recently went to Minneapolis, Minnesota, reports the mud in the streets of that city as being now two feet deep on an average, with a little less in some places and a great deal more in others.

That the microscope referred to in the "gossip" last week magnifies 20,000 times, instead of 10,000 as the types made it appear.

That the coal-pocket of C. E. Walker & Co. is the most substantially built structure of the kind east of New York.

That the north millpond was entirely free from ice on the 7th inst.

That Mayor Treat has under consideration a very favorable offer to become president of a Vermont marble company.

That it was in connection with this offer that his honor was in Boston last Saturday.

That workmen were engaged on Saturday last in painting the tower and outside wood-work of the Eastern railroad station.

That the painting of the station, water tank, etc., causes a marked improvement in the appearance of things around there.

A DRUMMER'S STORY.

Mr. Editor: Seeing in your paper a few days since an account of a Portsmouth lady who purchased goods in Boston at a loss to herself, I wish to relate a somewhat similar circumstance in my own experience.

A few years ago I was a commercial agent, selling furniture, and received the agency for a new spring bed, manufactured in New York. I visited a furniture house in Boston, and exhibited my bed to the proprietor; he asked the price, and when informed that a bed 8 ft. 8 in. by 6 ft. 6 in. was $8.50, he offered me $9.50 each, on condition that he should have the exclusive agency for Boston, which offer I accepted, and received an order for four dozen, he paying freight from New York, and selling them for $16 each!

When I visited Portsmouth, sales being very slow, and not wishing to leave the city without making a sale, I offered and sold a half-dozen of the beds to one of our city dealers for $7.50 each, throwing off my own commission to gain a prospective sale at some future time. The Portsmouth dealer sold his beds at $11 each.

Now mark the result. To-day I can locate a round dozen of those beds in our city, which were purchased in Boston for $16 each, with express charges added, and *only five* bought of the Portsmouth dealer at $11, and one at $10, the last one being disposed of at the reduced rate to clear them out, because of their slow sale. Now, if the Portsmouth dealer had expended the profit on our bed in advertising this especial article, I believe he would have sold the whole eighteen, and the eighteen customers might have bought other goods while in his establishment. This not only shows the folly of the Portsmouth merchant, but that of the local buyer as well. A "Boston drummer" could recount innumerable stories like one similar to the above, which would be unsavory to some of our citizens who think they are sharp. EX-DRUMMER.

The tug Knickerbocker arrived at this port on Saturday, having in two a steam freighter of four hundred tons, built at Bath, Me., for parties in New York, where she is bound, and where she will have engines put in. The Knickerbocker is a fine tug, built in Philadelphia especially for the steam towing company on the Kennebec; her engines are of one hundred and thirty horse power, with a thirty-two-inch square cylinder, and she plows the sea, smooth or rough, with vessels in tow, with ease; she made her passage from Bath to this port in eleven hours. The Knickerbocker had but just returned from Philadelphia, where she received new boilers and repairs at a cost of ten thousand dollars, when she was chartered for her present trip.

Willard J. Sampson & Co. have the contract for painting the buildings belonging to Mr. C. C. Lamprey on the North road.

Barlow & Wilson's minstrels will appear in Music hall on the 17th inst., Leavitt's minstrels on the 18th, and Janaushek on the 24th; Lotta will give an entertainment there on the 20th of May.

Householders who last week stored their snow shovels away up garret or in the woodshed loft, had to climb up after them on Sunday morning to clean their sidewalks off with.

Hon. Frank Jones and wife, Hon. Marcellus Eldredge and wife, and Hon. John H. Broughton and wife, arrived home from the Hot Springs, Ark., on Saturday evening.

Police Officer Jos. B. White has been appointed captain of the night watch; he has been an efficient and faithful officer for years, and merits this recognition.

The crew of the schooner F. O. Dame left her on Saturday to go to Boston, but got on the train going east; they found out their mistake at Kittery, and had a go-as-you-please run over the Portsmouth bridge and back again to the railroad station, where they had ample time to rest in waiting for the next train going west.

Mr. M. M. Collis, at the 99-cent store, No. 15 Market street, has included in his large stock of fancy goods of almost all kinds a large line of baby carriages of all qualities and prices; also velocipedes, children's wagons, and an endless variety of toys—all at bottom prices.

It is expected that the reduction of the public debt this month will be very large. Gen. Hazen, who now runs the signal service to suit himself, is saving twenty-five cents a day through the abolishing of the cautionary-display station at this port. A civilian scientist should be at the head of the weather bureau, rather than an army officer who thinks the United States a mere adjunct of the army.

On Friday last a hearing was had by the aldermanic committee on claims, on the cases of Mrs. Richard Fitzgerald, who it is alleged injured her wrist some weeks ago by slipping on the ice, and of Mr. Taylor of Dover, who presented claims against the city for the capsizing of a sleigh on the corner of the private entrance to the Eastern railroad station from Deer street, and the subsequent drowning of his horse in Sise's dock. No decision was announced.

The schooner Grace Choate is being thoroughly repaired by Mr. Warren Keen; among other things, she is to have a new windlass put in. Mr. Keen is also repairing a sloop belonging to the contractor for the removal of Gangway rock, the craft being on the railway at Kittery for that purpose.

There are now nineteen inmates of the Children's Home. There have been forty-nine inmates since the institution opened, of whom twenty-eight have been claimed by their friends, and taken away; and two have died in the Home. So much real good is seldom done by an unpretentious local charity as has been accomplished by this one.

Most of the gondolas on the river are now fully employed. Charles Philpott has contracted to take two thousand tons of coal from this city to Dover during the summer, for the print works in that place. Two coal-laden gondolas, one belonging to Mr. Philpott and the other to Mr. Cheney, were towed to Dover on Friday of last week.

[*For other local matter see second page.*]

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

SPRING OPENING.
WM. S. BUTLER & CO.
Take pleasure in announcing that the alterations in their store are now completed, and that they are occupying Nos 90, 92, 94, 96 and 98 Tremont Street, and 1 and 2 Montgomery Place.

The second floor is now also open for business, and on the third floor is a Ladies' Reception Room, where every attention will be given to the comfort of our customers.

These alterations will give us much-needed additional room for the display of our stock, and will afford to the ladies Better Accommodations and Light than are found in any other store in our line.

FIRST
OPENING
— OF OUR —
TRIMMED MILLINERY!
DEPARTMENT.
In order to place this department at once in rank with any first-class millinery establishment, we have secured the best talent to be had to give our Hats that beauty and elegance which is consistent with refined taste, at popular prices to suit all trade.

The success of such a department has never been tried in this city, a department where STYLISH TRIMMED HATS are sold at but small advance on the cost of hat and trimmings, and we trust that the ladies of Boston and vicinity will avail themselves of the opportunity to leave their orders early, so they can receive proper attention.

OPENING
— OF OUR —
Cotton Underwear Dep't.
In order to place this department properly before the public, we shall offer at less than cost our inaugurating sale, as follows:—

Lot 1. Chemises, Drawers, Corset Covers, for Ladies and Children, at 25c. each.
Lot 2. Chemises, Drawers, Skirts, Night Dresses, Hamburg trimmed, at 50c. each.
Lot 3. The same, at 75c.
Lot 4. The same, at $1.00.

We refrain from giving a description of each and every article, and prefer giving good cloth and good trimmings to advertising the different clusters of tucks, etc., and showing a poor article.

We hope ladies will avail themselves of this sale, as we shall not feel able to continue it for any length of time.

OPENING
— OF OUR —
Straw Goods
DEPARTMENT.
This department has been placed at the rear part of our store, and has been made the most attractive place in Boston.

The department faces a sheet of mirror, 50 feet in length and 9 feet in height, so as to give every opportunity to the purchaser to see at a glace whether a hat is becoming or otherwise.

The following New Shapes will be offered at our opening: The Critic, Fedora, Iolanthe, Mignon, Poppy, Patti, Thursby, Nautilus, Casino, Sprite, Marquise, Servia, and many others.

HORSE CARS pass our door from all railroad stations, a great convenience to out-of-town patrons.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER
that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries, that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Such a work, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 5c.; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

Verona Baldwin has been acquitted at San Francisco of the charge of murdering "Lucky" Baldwin. The murdered man was one of the wealthiest men in California, and his slayer, who was his cousin, charged him with seducing her and then casting her off. The jury seem to have believed her story.

A colored man known as "Louis the grave-digger," who says he is 112 years old, was married at Yonkers, N. Y., the other day, to a mulatto girl aged twenty-three years. Louis, by his seventy years' work as a grave digger, has accumulated considerable property, which he transferred to his wife on their wedding day.

A lame old lady at Keyser,
Had no one to advise her,
Till Doctor John Boyle,
Tried St. Jacobs Oil,
Its action did simply surprise her.

A fire broke out in the Hotel Berkeley Boston, a huge structure with six stories above the basement, on the 6th inst., and though the fire department was promptly on hand, it being in the afternoon when the fire broke out, the damage done by fire and water amounted to $200,000, of which the occupants of the rooms lose at least $150,000. The building was a fire trap of the most dangerous sort, though a very pretentious affair.

Last winter, while Joseph A. Barber of Wauregan, R. I., was a brakeman on the New York, New Haven & Hartford railroad, he saved Mr. James H. Armstrong, a well-to-do Brooklyn merchant, from being crushed to death by the cars. On coming to his senses Mr. Armstrong enquired Barber's name, thanked him cordially and went on to his home. Lately the death of Mr. Armstrong was announced, and Barber was advertised for. He was found as a drummer in the United States army on David's island. He was informed that Mr. Armstrong's will had left him $40,000.

A case is in progress in the probate court in Paris against Mr. Billing, late consul to Tunis, who is alleged to have attempted to pass off a foundling as the son of his late wife by her first husband, Admiral Cavelgie. The case has led to sensational disclosures. The counsel for the prosecution hinted that the foundling was in reality the illegitimate son of the late emperor of France, Napoleon III.

Rev. J. S. Cain, Lewisville, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

At Hartford, Conn., April 6th, a young fellow of twenty years, calling himself Wm. B. Woodhouse, was arrested as he was driving out of the city with his wife, aged sixteen years, in a hired team. The marriage certificate gives the girl's name as Franklin, of Swansea, Mass. The pair were on a honeymoon tour, without means, and the enterprising groom had stolen and sold two teams since their marriage, to pay expenses; they had also "beaten" a number of hotels out of their board bills. The husband was jailed, and the wife put in a charitable institution.

Bright's Disease, Diabetes, Kidney, Liver or Urinary Diseases.

Have no fear of any of these diseases if you use Hop Bitters, as they will prevent and cure the worst cases, even when you have been made worse by some great puffed up pretended cure.

—An English servant-girl who had returned from the United States to visit her friends at home, was told that she "looked really aristocratic." To which she responded: "Yes: in America all of us domestics belong to the hire class."

The old fashioned Hop Poultice or bag is far inferior to a *Hop Plaster* both as a pain-killer and strengthener. Call for it at any drug store.

IN MINNESOTA & DAKOTA

VARIOUS QUACKS.

Who—Each with his own Pet Scheme—

Cultivate the Field of Human Nature.

There have always been quacks—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blocks, etc or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Boatswain James T. Barker is ordered to the New York navy yard.

No matter what may be the name, or how long standing the trouble, Dr. Benson's Skin Cure will always cure skin diseases. Grateful hundreds of cured patients attest this fact. $1. at druggists.

Commander Lewis Clark is detached from the League island navy yard, and placed on waiting orders.

What of Brown's Iron Bitters? It will cure heart disease, paralysis, dropsy, kidney disease, consumption, dyspepsia, rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

Commander Silas W. Terry is ordered to the League island navy yard.

Happy and Hungry.

For over five years I was a constant sufferer with that most terrible and annoying disease, dyspepsia. After paying out hundred of dollars, the only medicine I found that would do me any good was Sulphur Bitters. Six bottles cured me. Now I can eat well and am happy and hungry.—*Editor.*

Lieut. Henry T. Stockton is detached from the Asiatic station, and placed on sick leave.

Mr. A. J. Severance, 115 Broadway, N. Y., writes: "I have used Wheat Bitters for malaria and it cured me. My wife who was in a feeble state of health has been very much benefitted by using it. I think it an excellent remedy."

Chief Engr. George P. Hunt is detached from duty in the bureau of steam engineering at Washington, and placed on waiting orders.

Hood's Sarsaparilla gives an appetite and imparts new life and energy to all the functions of the body. Try a bottle and realize it.

Lieut. J. W. Danenhower has been granted leave of absence for one year.

Passed Assistant Surgeon Robert Whiting has been ordered to the receiving ship Wabash.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

Mate C. J. Bibber of the receiving ship Wabash is detached, and placed on sick leave.

Passed Assistant Surgeon C. G. Herndon of the receiving ship Wabash has been detached, and ordered to the fish commission steamer Albatross.

The Hartford, Essex and Onward were at Callao, Peru, Feb. 28th; the Iroquois went to sea Jan. 27th, under orders to cruise as far south as Juan Fernandez. The Wachusett, at Honolulu, had been ordered to proceed to the Samoan islands and Callao; and the Lackawanna to proceed from Honolulu to Callao direct, under sail.

Senator Ingalls of Kansas, has been frequently spoken of as one of the foremost men in the U. S. Senate. To trace the family tree of the senator would probably be a tiresome task. He may or may not be related to Mr. F. E. Ingalls of Concord, N. H. Both gentlemen are widely known. The senator is said to own thirteen living, bright and promising children. The Concord man owns Dr. Graves' Heart Regulator, recognized since our boyhood as the certain cure for all forms of heart disease.—*Herald.*

Shore duty orders issued by the secretary of the navy dropped Civil Engineer U. S. G. White from the roll, but arrangements have been made for him to stay another year.

Naval Constructor T. E. Webb, and Chief Engineer E. D. Robie, both attached to the Boston navy yard, have returned to duty at that yard from temporary duty at Providence, R. I.

Naval Constructor J. F. Hanscom, and Passed Assistant Engineer C. E. Gragg, have been relieved from temporary duty at the Boston navy yard to which they were ordered during the absence of Chief Engineer Robie, and Naval Constructor Webb.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Summer St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Summer street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever pres ribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman know s.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Also in addition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 400 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, enclosed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There everything what ever that the married or single can either require or wish to know but what is full explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a richer medical book in every sense than can be purchased elsewhere for double the price, or the money will be refunded in every instance.—[Author.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

Verona Baldwin has been acquitted at San Francisco of the charge of murdering "Lucky" Baldwin. The murdered man was one of the wealthiest men in California, and his slayer, who was his cousin, charged him with seducing her and then casting her off. The jury seem to have believed her story.

A colored man known as "Louis the grave-digger," who says he is 112 years old, was married at Yonkers, N. Y., the other day, to a mulatto girl aged twenty-three years. Louis, by his seventy years' work as a grave digger, has accumulated considerable property, which he transferred to his wife on their wedding day.

A lame old lady at Keyser,
Had no one to advise her,
Till Doctor John Boyle,
Tried St. Jacobs Oil,
Its action did simply surprise her.

A fire broke out in the Hotel Berkeley Boston, a huge structure with six stories above the basement, on the 6th inst., and though the fire department was promptly on hand, it being in the afternoon when the fire broke out, the damage done by fire and water amounted to $200,000, of which the occupants of the rooms lose at least $150,000. The building was a fire trap of the most dangerous sort, though a very pretentious affair.

Last winter, while Joseph A. Barber of Wauregan, R. I., was a brakeman on the New York, New Haven & Hartford railroad, he saved Mr. James H. Armstrong, a well-to-do Brooklyn merchant, from being crushed to death by the cars. On coming to his senses Mr. Armstrong enquired Barber's name, thanked him cordially and went on to his home. Lately the death of Mr. Armstrong was announced, and Barber was advertised for. He was found as a drummer in the United States army on David's island. He was informed that Mr. Armstrong's will had left him $40,000.

A case is in progress in the probate court in Paris against Mr. Billing, late consul to Tunis, who is alleged to have attempted to pass off a foundling as the son of his late wife by her first husband, Admiral Cafarelli. The case has led to sensational disclosures. The counsel for the prosecution hinted that the foundling was in reality the illegitimate son of the late emperor of France, Napoleon III.

Rev. J. S. Cain, Lewisville, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

At Hartford, Conn., April 6th, a young fellow of twenty years, calling himself Wm. B. Woodhouse, was arrested as he was driving out of the city with his wife, aged sixteen years, in a hired team. The marriage certificate gives the girl's name as Franklin, of Swansea, Mass. The pair were on a honeymoon tour, without means, and the enterprising groom had stolen and sold two teams since their marriage, to pay expenses; they had also "beaten" a number of hotels out of their board bills. The husband was jailed, and the wife put in a charitable institution.

Bright's Disease, Diabetes, Kidney, Liver or Urinary Diseases.

Have no fear of any of these diseases if you use Hop Bitters, as they will prevent and cure the worst cases, even when you have been made worse by some great puffed up pretended cure.

—An English servant-girl who had returned from the United States to visit her friends at home, was told that she "looked really aristocratic." To which she responded: "Yes: in America all of us domestics belong to the hire class."

The old fashioned Hop Poultice or hop is far inferior to a *Hop Plaster* both as a pain-killer and strengthener. Call for it at any drug store.

IN MINNESOTA & DAKOTA

VARIOUS QUACKS.

Who--Each with his own Pet Scheme--

Cultivate the Field of Human

Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are hardly silly fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled: stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly overstated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external applicaion. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to base holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Beautiful Women

are made pallid and unattractive by functional irregularities, which Dr. Pierce's "Favorite Prescription" will infallibly cure. Thousands of testimonials. By druggists.

Surgeon Charles H. White and Passed Asst. Surgeon A. C. Heffenger are detached from the Lackawanna on the reporting of their relief, and ordered home.

If You are Ruined

in health from any cause, especially from the use of any of the thousand nostrums that promise so largely, with long fictitious testimonials, have no fear. Resort to Hop Bitters at once, and in a short time you will have the most robust and blooming health.

Boatswain John A. Drisco is detached from the New York navy yard, and placed on waiting orders.

A gay cow-boy named Larry Kilfoil,
Cured backache with St. Jacobs Oil,
Freed from his pains,
He roams o'er the plains—
His cure was according to Hoyle.

Boatswain James T. Barker is ordered to the New York navy yard.

No matter what may be the name, or how long standing the trouble, Dr. Benson's Skin Cure will always cure skin diseases. Grateful hundreds of cured patients attest this fact. $1. at druggists.

Commander Lewis Clark is detached from the League island navy yard, and placed on waiting orders.

What of Brown's Iron Bitters? It will cure heart disease, paralysis, dropsy, kidney disease, consumption, dyspepsia, rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

Commander Silas W. Terry is ordered to the League island navy yard.

Happy and Hungry.

For over five years I was a constant sufferer with that most terrible and annoying disease, dyspepsia. After paying out hundred of dollars, the only medicine I found that would do me any good was Sulphur Bitters. Six bottles cured me. Now I can eat well and am happy and hungry.—*Editor.*

Lieut. Henry T. Stockton is detached from the Asiatic station, and placed on sick leave.

Mr. A. J. Severance, 115 Broadway, N. Y., writes: "I have used Wheat Bitters for malaria and it cured me. My wife who was in a feeble state of health has been very much benefitted by using it. I think it an excellent remedy."

Chief Engr. George P. Hunt is detached from duty in the bureau of steam engineering at Washington, and placed on waiting orders.

Hood's Sarsaparilla gives an appetite and imparts new life and energy to all the functions of the body. Try a bottle and realize it.

Lieut. J. W. Danenhower has been granted leave of absence for one year.

Passed Assistant Surgeon Robert Whiting has been ordered to the receiving ship Wabash.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

Mate C. J. Bibber of the receiving ship Wabash is detached, and placed on sick leave.

Passed Assistant Surgeon C. G. Herndon of the receiving ship Wabash has been detached, and ordered to the fish commission steamer Albatross.

The Hartford, Essex and Onward were at Callao, Peru, Feb. 28th; the Iroquois went to sea Jan. 27th, under orders to cruise as far south as Juan Fernandez. The Wachusett, at Honolulu, had been ordered to proceed to the Samoan islands and Callao; and the Lackawanna to proceed from Honolulu to Callao direct, under sail.

Senator Ingalls of Kansas, has been frequently spoken of as one of the foremost men in the U. S. Senate. To trace the family tree of the senator would probably be a tiresome task. He may or may not be related to Mr. F. E. Ingalls of Concord, N. H. Both gentlemen are widely known. The senator is said to own thirteen living, bright and promising children. The Concord man owns Dr. Graves' Heart Regulator, recognized since our boyhood as the certain cure for all forms of heart disease.—*Herald.*

Shore duty orders issued by the secretary of the navy dropped Civil Engineer U. S. G. White from the roll, but arrangements have been made for him to stay another year.

Naval Constructor T. E. Webb, and Chief Engineer E. D. Robie, both attached to the Boston navy yard, have returned to duty at that yard from temporary duty at Providence, R. I.

Naval Constructor J. F. Hanscom, and Passed Assistant Engineer C. E. Gragg, have been relieved from temporary duty at the Boston navy yard to which they were ordered during the absence of Chief Engineer Robie, and Naval Constructor Webb.

Like oil upon troubled waters is Hale's Honey of Horehound and Tar upon a cold. Pike's Toothache Drops cure in one minute. Colden's Liquid Beef Tonic imparts strength to body and mind. No other. Of druggists.

Two revenue cutters are to be sent to Alaska this year instead of one. They will be used to preserve order.

A young man named George Wellner, at one time clerk in the Elkhart (Ind.) roundhouse, but at present a fireman of the Lake Shore & Michigan Southern railway, has fallen heir, through the death of an uncle, to an estate of $520,000.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever pres ribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

Mackerel at our Boarding-House.

Few people who eat salt mackerel stop to think of the adventurous life led by the men engaged in catching the creatures. These men are subject to hard knocks and every kind of exposure. The celebrated fishery house of Jas. G. Tarr & Bro., Gloucester, Mass., says: "We have had on board our vessels frequent cases of cuts, bruises, sprains, and summer complaints Our captains say they wouldn't go to sea without Perry Davis's Pain Killer."

Mrs. Susan E. Batchelder of Derry, who died recently, was a great-grand-daughter of Gov. Josiah Bartlett, a signer of the declaration of independence.

Mr. Josiah Morse, Henniker, N. H., says: "I received much benefit by using Brown's Iron Bitters for general debility.

Col. J. B. Perry, who died recently in Rindge at the age of eighty-two years, was an ex-presentative to the legislature, and formerly commanded a regiment in the old state militia.

The most horrible punishment discovered by the leaders of the inquisition, was to keep their victims awake. Insomnia, or sleeplessness, is a common disease, and one pregnant with danger. Wheat Bitters will cure it, as well as its attendant and resultant ills.

The lasters employed in Cloutman's shoe factory in Farmington struck last week for higher pay.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

Aunt Polly Hatch died at the Ladies' Aid hospital in Manchester last week, at the age of 105 years; she was a native of Lincoln, and the oldest person in the state; and probably the oldest in New England.

I have no hesitation in certifying to the absolute purity of "G. O. Taylor Old Bourbon" whiskey (obtained for analysis at random from leading druggists), as bottled by Messrs. Chester H. Graves & Sons, Boston. H. L. Bowker, state assayer, Mass.

The Irish Rebellion.

There is great excitement and alarm in England over the discovery of a secret nitro-glycerine factory in Birmingham, operated by an Irish-American named Whitehead, and over the arrests in London of four conspirators who are supposed to have been plotting to blow up the government offices. The detectives believe the place raided in Birmingham is the central manufactory of explosives, and the most important depot of all infernal contrivances in the kingdom. The suspected persons are said to be Irish-Americans, and to have had United States money in their possession. The arrests are regarded as of much importance, and since they were made precautionary measures have been renewed. Buildings used by the ministry and public officials are guarded, and extra sentinels have been posted at Windsor castle. The amount of nitro-glycerine captured is said to have been enormous,—enough to blow up almost any city in England.

John Kirton was taken into custody Saturday morning at the Euston railway station in London, on suspicion of connection with the dynamite conspiracy. Kirton recently arrived there from the United States.

Saturday the Cork police seized two jars of nitro-glycerine received from Glasgow by one of the Clyde steamers. The package was directed to O'Herlihy, one of the men now in custody charged with complicity in the dynamite outrages.

Seven farmers were arrested at Crusheen, Ireland, Saturday, and a clerk was taken into custody at Ennis, all being charged with conspiracy to murder. The police made a raid in Tralee, Saturday night, and searched a number of houses for arms. Two arrests were made.

James Stephens, the ex-head centre of the fenians, in an interview at Paris stated that, if Mr. Parnell joined the revolutionists, the wrongs of Ireland could be redressed by the sword. Mr. Stephens condemned the use of dynamite or the knife in the struggle against English misrule.

The Unlucky "Jeannette."

The Washington correspondent of the Boston *Traveller* writes that paper as follows: "The Jeannette board of enquiry, it is said, will not prove the whitewashing machine that has been charged. Your correspondent learns on the best authority that Secretary Chandler has in his possession charges against Lieut. Danenhower by Lieut. DeLong. These charges say that Danenhower went on the expedition when he knew that he was physically incapacitated from duty, and ask that he be court-martialed. One of the officers said to-day that DeLong and Danenhower were constantly at cross-purposes, and that at one time the latter was placed under arrest. From all that can be learned it is safe to say that there was a constant quarrel going on between the officers, and that while on the vessel either Danenhower, Newcomb or Collins were always in trouble."

News and Notes.

The Eade hotel in Greenville, Texas, fell with a crash at midnight on Friday, the 6th inst., and the ruins took fire and were consumed. Thirteen persons are known to have lost their lives, and the cries of some of them were agonizing for a short time, until the flames stilled them. Two other persons were fatally hurt, but rescued alive; and twelve others were slightly injured. The building was of brick, and it is thought a gunpowder explosion in a store near by blew in one end of the building; several adjoining structures were burned.

Freeman Younglove has absconded from Cohoes, N. Y., after forging notes to the amount of $25,000, and ruining the Cohoes Straw Board Co., of which he was treasurer. He has been speculating in stocks.

A destructive fire occurred Saturday, April 7th, at the village of Vallerbe, in the canton of Vaud, Switzerland. One hundred cottages were burned, entailing a lost of 1,500,000 francs. No lives were lost.

At St. Louis, Mo., Rush H. Tevis has been granted a decree of divorce from his wife, Kate R. Tevis, with the custody of their four-years-old daughter. The suit was not opposed. It arose out of the shooting of Frank Iglehart by Tevis as Iglehart was leaving a notorious establishment with Mrs. Tevis in November last. Iglehart is still in the hospital. All the parties moved in the highest social circles of St. Louis.

Lucius Reneday jumped from a fast express train on the Consolidated road, Saturday night, as it was entering Hartford, Conn. Both legs were cut off, and he died soon after reaching the hospital. He jumped off at a crossing near his residence instead of awaiting the train's arrival at the depot.

The Boston & Lowell railroad put a gang of 150 men at work in Canal street, Lawrence, Mass., Friday morning of last week, and laid a track through it without asking permission of the city, which it is claimed does not own the street, though it has been a thoroughfare for more than twenty years. It is said the Boston & Maine would have laid a track there the next day, but the other road got in ahead.

AROUND HOME.

Notwithstanding the rain and mud, on the afternoon of Fast day, about fifty ladies of Hampton held a meeting in the Freewill Baptist vestry in that town for the purpose of organizing a Woman's Christian Temperance Union. Miss A. E. McIntire of Exeter and Mrs. B. F. Thorndike of Portsmouth, officers of the state W. C. T. U., were present, and conducted the exercises. The following officers were elected: President, Miss Lucy E. Dow; vice presidents, Miss Martha Perkins, Mrs. Martha Brown, Mrs. Sarah Lane, Mrs. Joseph Philbrick; recording secretary, Miss Lillian Brown; corresponding secretary Miss S. M. Towle; treasurer, Miss Carrie Lane.

"Last week," says the *Chronicle* of Ipswich, Mass., "we were shown over the works at the Ipswich station. While looking into the huge tanks of 18,000 gallons each, one can hardly imagine that they are emptied twice in a day by the Eastern railroad engines taking water at this place, yet such is the fact. The water is drawn from two large wells in the rear of the house, pumped into the tanks, and transferred from them to the engines, by natural pressure. This season a new tank capable of holding 50,000 gallons will be built further up the hill, thus securing a much larger amount of pressure."

Rev. George M. Adams, formerly pastor of the North church in this city, but for about ten years past settled over a church in Holliston, Mass., has resigned, the resignation to take effect in July.

Hon. Marcellus Eldredge of this city has been elected senior vice president of the New Hampshire Fish & Game League.

The Newmarket *Advertiser* says that Mr. Curt. Doeg of that town has made over what was formerly the sloop yacht Pinafore into a steamer, putting in a four-horse-power engine and boiler, and fitting her with a twenty-four-inch propeller. He calls her the Augusta, and will run two regular trips on Fresh river every evening during the summer, besides letting the boat for excursions. She will carry sixteen persons.

Hon. C. A. Haley, formerly of Newmarket, and son of S. A. Haley, cashier of the Newmarket national bank, was a few days ago elected mayor of Fernandina, Florida, for the fourth time.

John W. Towle and Charles H. Pickering have been drawn as jurors from Newington to serve at the April term of the Supreme court at Exeter.

The *Journal* says "The first anniversary of Agamenticus Commandery, United Order of the Golden Cross, at York, was observed at hotel Bartlett, York beach, on Wednesday evening, by a supper and other festivities."

The following are items of the annual appropriations of Kittery: For support of schools, $2700; contingent, $1700; for the poor, $1000; interest on debt, $860; free high school, $500; repairs of highways, $2400.

Albert Berry of Biddeford, about sixty-five years old, and low-spirited from long-continued ill health, hung himself in his barn at noon on Friday, April 6th.

Cruelty to Animals.

Hon. T. E. O. Marvin, President of the New Hampshire Society for the Prevention of Cruelty to Animals, paid an official visit to our town Thursday of last week, and caused the arrest of Mr. Charles M. Moor, on a charge of depriving his farm animals of necessary sustenance. Officer Robbins served the warrant, and brought the accused before trial justice John R. Miller to answer to the charge. After a long and thorough hearing of the case the respondent was adjudged guilty, and sentenced to pay a fine of $20.00 and costs, amounting to $27.05, and was put under bonds to the amount of $100, to be of good behavior for one year. Complaint was made against another citizen of the town, who is the owner of seven cattle and a horse, which Mr. Marvin visited and found in a terribly reduced condition. A warrant was issued and placed in the hands of officer Robbins for service at any time that it shall appear that they are not properly fed and cared for. There were some extenuating circumstances, which with the promise of better treatment, induced the officer to place him on probation.—*Peterborough Transcript.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtJan9,84

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

ANNIVERSARY OF AN ANCIENT VISIT.

Two hundred and eighty years ago, on the 10th of April, 1603, Capt. Martin Spring arrived in this harbor with two ships, the Speedwell and Discoverer, having sailed from Bristol, England. The ships sailed up the harbor for three or four leagues, and landed somewhere within what is now the limits of Portsmouth.

Eleven years later Capt. Smith explored the coast from Cape Cod to the Penobscot, and made a map upon which the features of the coast were accurately delineated. A fac simile of this map is to be found in the interesting work by John Scribner Jenness entitled the Isles of Shoals, published by Houghton of Boston in 1873. Capt. Smith examined and extolled the deep waters of the Piscataqua, and was much pleased with the aspect of the region.

GOSSIPS SAY

That Mr. William Marvin is finishing a pretty little cottage with piazzas on Goat island, between the second and third Newcastle bridges; also that the some gentleman will in the near future erect other cottages on this charming little island.

That the steamboat pier at Kittery Point should be extended further out from the shore, it being inaccessible at extreme low water to the smallest steamer on the river.

That the James Sampson on her last trip Saturday night was compelled to land her thirty passengers at the old tumble-down wharf at Fort McClary, where the getting on shore was attended with considerable difficulty and no little danger.

That Mr. Reuben E. Gilpatrick of this city has received a flattering offer to travel for a New York nursery concern, at a salary with expenses paid.

That the third Newcastle bridge will be eight hundred and fifty feet long, exclusive of abutments, and will cost over $3000.

That the next thing on the tapis in the local amusement line is a bon-bon skating carnival, with prizes for the best lady and gentleman skaters.

That the poles for the Mitchell weir, owned at Kittery Point, were being driven below Wood island on Monday, the 9th inst.

That during the "robin snow storm" of Saturday and Sunday morning last, the blue birds and robins twittered as if in great glee, and as if the falling of the "poor man's dressing" was rare sport to them.

That on Monday noon forty-eight freight cars and two engines in one train passed over the Eastern railroad, going east, and an hour later two engines with forty cars and a shifter on behind went over the same road going west.

That the North church steeple is sadly in want of paint.

That weather permitting, the street commissioner intends having the whole city cleaned up this week.

That a new coal wharf is shortly to be opened on Water street.

That the opening of the free high school in Kittery, which it was intended should occur on Monday, the 9th inst., was postponed for a week in consequence of a big "kick" in one of the school districts.

That the Kittery Pointers threaten to vote down the free high school altogether, another year, unless their claims are recognized in the premises.

That there will be a roller-skating party at Franklin hall on Thursday evening, and the company will appear in fancy costume.

That the sending of a rodent mammal to a person on Vaughan street, Monday, was not successful as a joke, as the recipient "smelt a rat" in time.

FREIGHTS.

Coal freights were reported last week from Hoboken to this port, to discharge at Dover, $1.20 per ton. Several freights of cement from Rondout are reported, at twenty-four cents a barrel discharged at the Concord railroad wharf in this city, and twenty-nine cents at Dover. Coal from Port Johnson, discharged at Dover, $1.25.

NEWCASTLE LETTER.

NEWCASTLE, April 9th.

I was glad to see by your paper that our neighbors at Rye were up and doing in anticipation of the annual summer sea-side business. Rye has its attractions as a summer resort, and so has Newcastle.

"Great Island" is accessible in so many ways that it is a most desirable spot for the location of a summer residence. It is easily reached from the railway stations at Portsmouth, by two routes, both of which are attractive drives. A steamboat communication also gives a ready and convenient way of reaching the northern part of the island, and the landing from yachts and sail-boats is conveniently and safely effected at many points.

With the magnificent hotel Wentworth constantly made more attractive by improvements, conveniences and additions that would seem to warrant the assertion that nothing could be added to make it nearer perfect; with the elegant summer houses built and projected, with quiet walks, high and airy locations free from marshy or low surroundings, with a swift-running tide purifying all around it, and with its historic interest, Newcastle has attracted the attention of many of its recent visitors, and ere long will become a celebrated place of summer resort.

One of these days some enterprising man will erect a boarding house similar to those seen at Swampscot, Mass., and it will insure, if prove kept, a success.

The many reasons why Newcastle will at some day become a noted place of resort are apparent not only to us who live within her borders, but to the strangers without our gates.

It is stated that H. F. Eldredge has rented of Thos. Haywood one of his cottages, and will occupy it the coming season.

Major Urch is having the bridges under his control put in excellent condition, and the approach to Newcastle by the old Newcastle bridge route will be substantial as well as agreeable.

At the Wentworth this season Harlow is to lead the band, while the large numbers who have engaged rooms betokens a successful season at this celebrated resort. KELPIE

POLICE COURT--BATCHELDER, J

MONDAY, April 9th.

Mary Jellison, charged with stealing a pin from a room in the Gibson house which she occupied for a few hours on Saturday morning, the room having been given up for her use by Miss Grant, the landlord's daughter, was held in $600 to answer at the Supreme court, and was committed to jail in default of sureties.

FIREMEN'S RELIEF FUND.

Fred A. Haraden, the fireman who was hurt at the fire on Water street on the morning of the 1st inst., has received $25 from M. Bufford, Esq. January 30th, 1874, Mr. Bufford, then city clerk, received from Col. Joshua W. Peirce a check for $100 for the benefit of the Portsmouth firemen, as a mark of his appreciation of their efforts at the burning of the Melcher house, corner of Congress and Chestnut streets, on the morning of that day. Mr. Bufford deposited the money with the Trust & Guarantee Co., and upon the reorganization of the Firemen's Relief Association, some time afterward, notified them thereof, but received no answer to his communication. The fund and interest on Jan. 30th of this year amounted to $154.33, and Mr. Bufford, acting as a fireman's relief association of one, has drawn therefrom $25 for Mr. Haraden, as above stated. The remainder will probably be turned over to the Firemen's Relief Association, which is an excellent institution, and whose membership has jumped from sixteen to forty or more since Mr. Haraden was hurt. The association has a fund approximating $2000; any fireman can become a member by paying one dollar a year, and if injured in the execution of his duty draws $5 a week; but unfortunately for Mr. Haraden he had neglected to become a member, as indeed had a majority of the other firemen.

Don't be too previous in putting away your overcoat.

The city teams were employed on Monday in hauling ice out of Ladd street. In some places the ice was seventeen inches thick, by actual measurement, and it would average a foot in depth throughout the whole length of the street.

Mr. Charles Coleman has had his store near the south millbridge connected with the telephone exchange.

Workmen were on Sunday employed on the Portsmouth & Dover railroad bridge at Dover point, in driving spiles and putting stringers across which will materially strengthen the structure. A portable steam pile-driver with a 2800-pound monkey is used in driving the piles, which have to be forced through a bed of broken rocks several feet in depth, these rocks to the amount of many hundred tons having been dumped in between the piles when the bridge was built. The work now being carried on at the bridge can only be prosecuted on the ebb tide.

Some of the Newcastle gold hunters were in this city on Monday. They appear to be strong in the faith yet.

The Portsmouth Shoe factory has shut down for the present; the only men now employed are engaged in getting out samples of spring styles.

An addition has been made to one of the engine houses at the Concord railroad wharf, to admit of the placing of another engine in it.

About six hundred lobsters and twelve hundred pounds of fish were received at this port on Monday.

About one hundred and eighty cords of dressing will be sold by the livery stables in this city this spring, to the farmers in this vicinity.

The Boston *Post* of the 9th inst. says: "Rev. James DeNormandie, recently settled over the First Religious society at Roxbury, preached a sermon of much practical interest at the Christian union, Boylston street, Sunday evening. His subject was 'Honor in Young Men.'"

Rev. A. J. Patterson, D. D., of the Roxbury Universalist church, was taken ill on Sunday last of lingering malarial fever, and was consequently unable to deliver a sermon previously announced in commemoration of his thirtieth anniversary as a preacher. A sermon was preached in the forenoon by the pastor's wife, Mrs. Jane L. Patterson.

The eighth annual session of the Grand Lodge, Knights of Honor, held at Boston on Wednesday of last week, voted down the question of separate jurisdiction for New England, and in order to reduce expenses decided to lessen the number of deputies, so that each should have control of from five to fifteen lodges, according to location, each lodge to have one of its past dictators delegated to install officers.

The brickyards on the river are waking up to the spring work. Hands are very hard to get, and as high as thirty dollars a month, with board, has been offered; twenty dollars a month has previously been the highest price paid for the best workmen, we are informed.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

SPRING OPENING.

WM. S. BUTLER & CO.

Take pleasure in announcing that the alterations in their store are now completed, and that they are occupying Nos 90, 92, 94, 96 and 98 Tremont Street, and 1 and 2 Montgomery Place.

The second floor is now also open for business, and on the third floor is a Ladies' Reception Room, where every attention will be given to the comfort of our customers.

These alterations will give us much-needed additional room for the display of our stock, and will afford to the ladies Better Accommodations and Light than are found in any other store in our line.

FIRST
OPENING
— OF OUR —
TRIMMED MILLINERY !
DEPARTMENT.

In order to place this department at once in rank with any first-class millinery establishment, we have secured the best talent to be had to give our Hats that beauty and elegance which is consistent with refined taste, at popular prices to suit all trade.

The success of such a department has never been tried in this city, a department where STYLISH TRIMMED HATS are sold at but small advance on the cost of hat and trimmings, and we trust that the ladies of Boston and vicinity will avail themselves of the opportunity to leave their orders early, so they can receive proper attention.

OPENING
— OF OUR —
Cotton Underwear Dep't.

In order to place this department properly before the public, we shall offer at less than cost our inaugurating sale, as follows:—

Lot 1. Chemises, Drawers, Corset Covers, for Ladies and Children, at 25c. each.

Lot 2. Chemises, Drawers, Skirts, Night Dresses, Hamburg trimmed, at 50c. each.

Lot 3. The same, at 75c.

Lot 4. The same, at $1.00.

We refrain from giving a description of each and every article, and prefer giving good cloth and good trimmings to advertising the different clusters of tucks, etc., and showing a poor article.

☞ We hope ladies will avail themselves of this sale, as we shall not feel able to continue it for any length of time.

OPENING
— OF OUR —
Straw Goods
DEPARTMENT.

This department has been placed at the rear part of our store, and has been made the most attractive place in Boston.

The department faces a sheet of mirror, 50 feet in length and 9 feet in height, so as to give every opportunity to the purchaser to see at a glace whether a hat is becoming or otherwise.

The following New Shapes will be offered at our opening: The Critic, Fedora, Iolanthe, Mignon, Poppy, Patti, Thursby, Nautilus, Casino, Sprite, Marquise, Servia, and many others.

HORSE CARS pass our door from all railroad stations, a great convenience to out-of-town patrons.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

Pitiful untold miseries that result from indiscretion in early life may be now detailed and cured. Those who doubt these assertions should possess the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR SELF-PRESERVATION.** Extensively, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Now edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25, by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the most exhaustive work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is full explained.—Boston Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

The Church Bank.

The congregations attending the Roman Catholic churches in Lawrence, Mass., Sunday forenoon, were greatly surprised by the announcement made at each that the St. Augustinian society would petition to go into insolvency, foregoing all efforts to reduce by collections their indebtedness to depositors in the savings institution. Rev. C. E. McEvoy, governor of the St. Augustinian order, stated that this course is pursued because the attachments on church property would not be removed, and it is desired by the society that all creditors should share alike. There are now twenty-two attachments on the church property; indebtedness to 703 depositors in the Augustinian banks amounts to $405,000, which with the mortgages makes the total liabilities of the society $567,000. The society claims assets of $569,000, which consist of four churches and the parsonages, and a large stone school-building, formerly used for church purposes. The attachments now on local property of the society amount to over $60,000. If the property is sold by order of the court, depositors will scarcely obtain five per cent of their deposits; but Rev. McEvoy says that they will be paid in full, but it will not be for years that a final settlement is made. The society's appeal for money to reduce their indebtedness did not meet with the general response anticipated.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

It is affirmed that in the year 1881 there was a loss of eight hundred in the American population of New Hampshire, from the excess of deaths over births. The steady stream of emigration from the state, which carries the native population west or south, makes a vacancy in the numbers of our population which is filled by Canadians and Irish, who find work in the manufacturing cities as well as upon the farms in the country towns.

"I buy Dr. Benson's Celery and Chamomile Pills and introduce them wherever I go. Personal knowledge and experience of their effects on others prompts this act." Rev. J. P. Fugett, Rector St. Lukes Ch., Myersburg, Pa. 50 cents at druggists.

"The Lights o' London" drew a great house at Manchester last Friday evening, extra trains bringing large numbers from Pittsfield and Concord to witness the play.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

The Methodist Sunday school of Dover has given 200 books from the school library to the Strafford county farm, for the use of the poor people there. Practical Christianity, that.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

J. W. Currier, a lawyer of Alton, went to Boston last week and had a diseased eye removed.

"The alphabet is the key which unlocks the store-house of knowledge," says an exchange. Wheat Bitters is both key and store-house. It is an incomparable medical preparation, combining all the curative agents used in the treatment of Bright's disease, liver troubles and general debility.

Moses D. Page of Dover lost a valuable gold watch and chain in Lawrence, Mass., on the 28th of March, the day of the Boston & Maine railroad meeting. He supposed the articles were stolen by a pickpocket in the crush on entering the cars, but last week he received a letter from Mrs. A. M. Nelson of East Kingston, announcing that she had a watch and chain corresponding in description with his, which she found in her possession after taking her seat in the cars on "railroad day," it having been caught by a button of her cloak. On reaching home Mrs. Nelson told the depot master of her "catch," but it was not for more than a week that my siblings of the owner were learned. Mr. Page has recovered his goods.

Rev. J. S. Cain, Lewisville, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

In Seabrook, on Friday afternoon last, a large flock of geese flew over the town, and Mrs. Frank E. Locke brought down two of them with her husband's gun.

Bright's Disease, Diabetes, Kidney, Liver or Urinary Diseases.

Have no fear of any of these diseases if you use Hop Bitters, as they will prevent and cure the worst cases, even when you have been made worse by some great puffed up preceded cure.

The Library Association of Durham have purchased a building near the hotel in that town, and will fit it up for the use of the library.

Lotteries originated in Florence in 1530. Most proprietary medicines are a lottery. This is not true of Wheat Bitters. It is a rare and recognized pharmaceutical preparation and is a certain cure for dyspepsia, all types of kidney and liver troubles—in fact a household necessity.

BROWN'S IRON BITTERS.

THE BEST TONIC.

Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints. Druggists and Physicians endorse it.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

KIDNEY-WORT

HAS BEEN PROVED

The SURE CURE for KIDNEY DISEASES.

Does a lame back or disordered urine indicate that you are a victim? THEN DO NOT HESITATE; use Kidney-Wort at once, (druggists recommend it) and it will speedily overcome the disease and restore healthy action.

Ladies. For complaints peculiar to your sex, such as pain and weakness, Kidney-Wort is unsurpassed. It will act promptly and safely.

Either Sex. Incontinence, retention of urine, brick dust or ropy deposits, and dull dragging pains, all speedily yield to its curative power.

☞ SOLD BY ALL DRUGGISTS. Price $1.

Acts at the Same Time on Liver and Bowels.

The genuine have cluster of GREEN HOPS (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of HOP BITTERS published in papers or for sale, as they are frauds and swindles. IN MINNESOTA & DAKOTA

VARIOUS QUACKS.

Who--Each with his own Pet Scheme--

Cultivate the Field of Human

Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, cajoled—for only that is what it means nearly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Few people who eat salt mackerel stop to think of the adventurous life led by the men engaged in catching the creatures. These men are subject to hard knocks and every kind of exposure. Our captains say they wouldn't go to sea without Perry Davis's Pain Killer."

WEEKS & POTTER.

The Antrim *Reporter*, which has been published several months as a bi-weekly, began last week as a weekly.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

William Stalbird, of Jefferson, mysteriously disappeared forty years ago, and his relatives long since presumed he was dead. Recently he wrote a letter to a brother in that town, saying that he was alive and well.

I have no hesitation in certifying to the absolute purity of "G. O. Taylor Old Bourbon" whiskey (obtained for analysis at random from leading druggists), as bottled by Messrs. Chester H. Graves & Sons, Boston. H. L. Bowker, state assayer, Mass.

Not One of Them.

The Supreme court has decided that owing to a legal technicality the Washington Market Co., of Washington, D. C., is absolved from paying to the District of Columbia over $75,000 due in back taxes. Concerning this matter an exchange says:

This amount is taken from the poor of Washington, together with an annual reduction hereafter of $17,500 in taxes paid for their benefit, while the "orphans," for whom Governor Butler pathetically said he appeared in the case, will profit to that amount. It now appears that General Butler is one of the "orphans," as he owns a large block of the market company stock. Among the other "orphans" are Senator Rollins, Governor Ordway and Secretary Chandler.

Senator Rollins has not a cent's interest in the Washington market, although we find in the papers frequent mention of his name as an owner. He is not one of the orphans.

The Irish Rebellion.

The arraignment of the prisoners in the Phœnix park murder case took place April 9th in the Dublin court, Judge O'Brien presiding. After the judge's charge, the grand jury retired, and soon returned to the court room with a true bill against Joe Brady, charging him with the murder of Lord Frederick Cavendish and Mr. Burke. Brady was arraigned at the bar, and pleaded not guilty. The trial of Brady was set, and Mr. Webb Adams was assigned by the court to defend the prisoner. Curley, Kelly, Thos. Caffrey and Fitzharris were next arraigned separately. They each pleaded not guilty; all were held for trial. The grand jury also found true bills of murder against Joseph and Lawrence Hanlon, William Maroney, Patrick Delaney, Fagan and Joseph Mullett.

Owing to the receipt of letters containing threats to blow up the Liverpool post office, great precautions are being taken to prevent the carrying out of such a project.

Twenty-four arrests were made on the 9th inst. in the outskirts of Cork and Limerick, and numerous important documents were seized.

The port authorities of London have seized two cases of explosives on a vessel in the Thames, and have sent them to Woolwich.

Both houses of the British parliament on the 9th inst. passed a bill to amend the law in regard to explosives. It provides that the maximum penalty for causing an explosion by which life or property is imperilled shall be punishable by lifelong servitude. An attempt to cause an explosion, or the making or keeping of explosives with intent to cause an explosion, is made punishable by imprisonment for a term of twenty years. Persons supplying money or material incur the same penalty as principals. The unlawful making or keeping of explosives under suspicious circumstances is to be punishable by fourteen years' imprisonment. Provision is made for the ordering of official enquiries into the crimes specified, for the arrest of absconding witnesses, and for searching for explosives. The penalties are to be inflicted irrespective of the damage done by the explosives. The bill also empowers the master of any vessel to break open any packages to search for explosives; the act applies both to explosives proper, and to materials for making them, or to any machine or part thereof connected with them.

The New Cruisers.

The Washington correspondent of the Boston *Post* says that "before Secretary Chandler went on his trip south with the president, he determined that the three new steel cruisers and the despatch boat should be built by contract, and not in the navy yards. This decision is understood to be not distasteful to Mr. John Roach, or to Cramp, or to the Pusy & Jones company, with all, or some of whom, the millions appropriated for the new vessels must be expended. Mr. Chandler also determined that the new vessels should be built in accordance with the recommendations of the advisory board. Before reaching this conclusion, however, he endeavored to bring about harmony in his department. To that end he invited the chiefs of bureaus to meet and examine the plans of the advisory board. All agreed to them except Wilson, the chief of the bureau of construction. He has been opposed to all the views that have been presented by line officers of the navy, and he has always insisted that they shall not have all to say about how the ships shall be built, or how the men who fight the guns shall be protected. His first objection is that the steel decks that are proposed for deflective armor are too heavy, and that the new ships will not be able to float under them. Then he objects to the double screw, to putting the rams into the ship by hydraulic instead of by hand power, and to Mr. Chandler's contract system. Perhaps it is the last objection that has inspired Mr. Chandler to say that if, when he returns, Mr. Wilson still refuses to agree, he will be voted down. Mr. Chandler, however, will probably miss of getting a unanimous approval of his designs, for Mr. Wilson is a stubborn man, with ideas of his own."

Internal revenue officials say that the refusal of the Canadian government to permit the exportation in bond of American whiskey to Canada, in the form which was desired by the whiskey speculators, has done a great deal to save the revenue of the government; some think that the saving will be as much as $50,000,000. But the whiskey makers are not yet at their wit's end in their endeavor to "beat" Uncle Sam; a despatch from Kentucky says: "Negotiations with Canada for the admission of whiskey in American packages having failed, the railroad companies are making arrangements to put on a line of vessels from Pensacola to Bermuda and back again at a minimum cost;" this would enable the whiskey speculators to store their whiskey in the bonded warehouses for another year without paying the government tax.

The British steamship Brooklyn, before reported ashore in Portland harbor, has bilged, and will probably become a total wreck.

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies do no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

List, maiden, though you're keen of wit
And though of many charms possessed,
You'll never, never, make a hit
Unless with early teeth you're blest.
Unless upon your toilet stand,
Your SOZODONT'S kept close to hand.

What Has Happened Before Will Happen Again.

The event has occurred again. It was certain to happen. The 154th Grand Monthly Drawing of The Louisiana State Lottery took place on time (as it always does,) on Tuesday, March 13th, when the following happy result was elicited: Ticket No. 8,504 drew $75,000, the first capital. Among the holders of fractional parts of the winning ticket were J. Allen Schaeffer, a well-known bookseller at Allentown, Pa.; J. J. Dayer, of Handson's Depot, Va.; F. E. Callender, St. Paul, Minn., each costing $1 only. The second capital, $25,000, was drawn by ticket No. 22,057, held in fractional part s by A. Rauscher, Morristown, Tenn., and Israel Brown, Ocala, Fla. The third capital, $10,000, was won by No. 09,295, held in fractions costing $1 each to O. Allen Pierce, 188 Canal st., New Orleans, La., and S. A. Hataway, Chicago, Ills. There are a few winners who collected their money through National Banks, and others who have withheld their names can attest that $25,000 was scattered under the sole management of Gen'ls G. T. Beauregard of La., and Jubal A. Early of Va., who will do the same thing on Tuesday, May 8, 1883, of which M. A. Dauphin, New Orleans, La., will furnish all information.

—A Washington paper tells a story, probably untrue, to the effect that Senator Beck of Kentucky, who came a poor boy to this country from Scotland, worked on the same farm in Livingstone county, New York, that Secretary Teller worked upon. When they met in the senate Mr. Beck said: "Well, Henry, when we used to drive old Brown's oxen we never expected to meet in the United States senate." "No, Jim," said Mr. Teller, "we didn't know there was such a place."

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINCKLEY,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

BARLOW, WILSON & CO.'S MINSTRELS.

Barlow, Wilson & Co.'s Mammoth Minstrels are advertised to give an entertainment in Music hall on Tuesday evening, the 17th inst. George Wilson, Luke Schoolcraft and other popular favorites, are with the company, of whose performance the Boston *Transcript* recently said:

It opened with the customary "first part," and although there was a notable absence of negro melodies, the songs and jokes were good. The singing was far above the average of such entertainments; the voices were fresh and good, and were well trained. The first part closed with a burlesque "Scene from Patience." The second part opened with impersonations by Milt. G. Barlow, which were followed by songs and dances by two quartets, some remarkably high kicking, and a novel "barrel act." George Wilson gave one of his funny talks, and for ten minutes or more kept the audience in the best of humor. Schoolcraft and Coes gave a little sketch, a clog dance and bayonet exercise by ten men were capitally executed, clog dancing by Barney Fagan, singing by two quartets, and a violin solo by Eddie Fox completed the specialties, and the performance closed with a burlesque of "The Mascot."

Tickets now on sale at Goodrich's store in Congress block.

GOSSIPS SAY

That a large number of views of the Langdon mansion on Pleasant street have been taken recently by a Portsmouth photographic artist.

That during Easter week a lady of this city sold from a few pots of plants in her windows over $6 worth of flowers, seven rosebuds bringing $1.75.

That the *American Wheelman* publication company appropriated $400 to illustrate the serial now being published in their magazine under the title "Pedalling on the Piscataqua."

That the local daily papers make occasional mention of the "schooner G. W. Rajtt," when in fact no such schooner sails out of this port, or was ever christened after a person bearing the above name.

That ladies who are obliged to use the sidewalks when making calls or doing their shopping, complain of the rudeness of servant girls who drive baby-carriages two or three abreast, compelling ladies whom they meet to step into doorways or off the walks into the street on pain of having their dresses muddied or torn.

That the warm day which starts out the lady shopper also starts out the nurse girl, and renders them quite liable to meet on the sidewalks.

That the fashionable colors for the outside of houses this spring are the neutral olive shades.

That several hair rings made by Powers, the hermit of Niagara falls, now deceased, are worn by persons in this city, and are considered very valuable as souvenirs.

That George W. Fellows, who for several years represented the leading New York journals in Europe, was in this city a few hours on Tuesday of this week.

That Mr. Joseph A. Meloon, private secretary to Hon. Wm. E. Chandler, is in this city on a brief visit, and will shortly make a tour as far west as Dakota territory.

That water cresses are starting up in great profusion near the springs at the "fountain head."

That some of the farmers in Rye were ploughing on high land on Tuesday afternoon, April 10th.

That on a little strip of beach at Newcastle nearly thirty boats of various descriptions are hauled up, painted and drying in the sun.

That arbutus blossoms were brought into town on Tuesday by some of the Newington milkmen.

That Senator H. W. Blair arrived at the Quincy house, Boston, from Washington, on Tuesday evening, the 9th inst.

Robert H. Hall, aged fourteen years, was arrested on Tuesday by Acting Marshal Long, on a charge of breaking and entering the dwelling of Mrs. Larrabee, on Bridge street, and stealing therefrom basins, a clock, and a number of toys, part of which have been recovered. The boy, who bears a bad reputation, was found by the officer hidden under a bed; he lives in the other half of the house one part of which is occupied by Mrs. Larrabee.

The steamer Reading, from Philadelphia with 1660 tons of coal, and the schooner Charles H. Briggs, from Baltimore with 1025 tons, arrived on Tuesday. Also the schooners Harry P. Percy, Maud Malloch, Willie DeWolf and Alice T. Boardman, all from Hoboken with coal for South Newmarket; the Laura H. Jones, from Port Johnson with coal for Dover; and the Damon, from South Amboy, also with coal.

A special meeting of the Temperance Reform club will be held this (Wednesday) evening at 7:30 o'clock in Sons of Temperance hall, for the election of officers.

The pool tournament at White's saloon on Fleet street ends on Thursday evening, the 12th inst. Three persons have made runs of fourteen balls, and the close of the contest will be interesting.

The combined earnings of the Maine Central and European & North American railroads for the five months ending March 1st, 1883, were $1,121,000, as against $992,090 for the corresponding period last year, a gain of about $26,000 a month, or 12 1-2 per cent. The month of March also shows an increase in the earnings of several thousand dollars.

Mr. John B. Hutchings, of this city, has been offered the position of mate on board the new ship building by Currier and others of Newburyport. Mr. Hutchings has sailed on vessels built by this company some years ago.

A party of two hundred ladies and gentlemen from Dover, with Sawyer's band, will visit this city on Tuesday evening, the 17th inst., and have a roller-skating carnival at Franklin hall. Probably a number of them will attend the Barlow & Wilson minstrel show, which will be given in Music hall on the same evening.

A recent examination of the tower of the Eastern railroad station in this city has shown that a new one will soon have to be built.

A considerable number of persons left this city by the Tuesday morning train over the Concord railroad, on their way to Exeter to attend the opening of the Supreme court that day.

There came near being trouble at the house of Augustus C. Wells on Hanover street, Tuesday forenoon, a quantity of wood which had been placed too near a stove taking fire, and raising a great smoke; the fire was put out without damage, and without the raising of an alarm.

Some weeks ago John T. Shea, a marble worker employed by Mayor Treat, got angry with his wife and her sister, and drove them out of the house; and when they returned he had disappeared, leaving no word, and they have not since heard from him. He was last seen on the railroad track, near the roundhouse, on Sunday, March 18th; it is not supposed that he had more than $5 with him, and his friends are very uneasy over his prolounged and unexplained absence. There was considerable money due him from Mr. Treat.

Major Green Clay Goodloe, paymaster of the marine corps, was at this navy yard on Tuesday, the 10th inst., settling the quarterly accounts of the marines stationed here.

Dr. Ordway, of Manchester, has sold 1100 quassia cups in this city since January.

There is to be a change in the night operator at the telephone exchange, Mr. Wm. Britt retiring and a gentleman named Colley taking his place.

Mr. George Trafton, blacksmith on Market street, is getting out the frame for the gasometers to be built for Hon. Frank Jones; they will be twenty feet in diameter.

One of the marine bicycles made in this city was sent by rail to Boston, on Tuesday, and will be shipped from there to Mr. H. W. Peabody of Melbourne, Australia.

The removing of the obstructions in Newmarket river commenced some two weeks ago.

Preparations for re-commencing work in removing Gangway rock are nearly finished; the sloop will haul out the last of this week to place the "band stand." No work will be done on Badger's island ledge for three weeks.

The schooner Adeliza, Capt. Frisbee, is taking in ballast, and will shortly sail for the West Indies to load with fruit for New York.

E. F. Sise & Co. have had a brow fifty-two feet long built on Lyman's wharf, for wheeling coal on.

Four boats of a kind made expressly for the navigation of shallow streams which are obstructed by rapids were freighted over the Eastern railroad to Plymouth, N. H., on the 4th inst. They are different from anything ordinarily seen around here, being built very light, flat-bottomed, and having a pointed overhanging bow and stern projecting some three feet from the bottom plank. They are called batteaus.

The steamer Three Brothers, when ready, will engage in towing scows loaded with coal, to Newmarket and South Newmarket.

Mr. George F. Spinney, employed on the night shifter on the Eastern railroad, intends to move to Haverhill, Mass.

It is reported that Mr. Thomas J. Goodwin will soon leave for California.

Mr. Robie, successor to Mr Josiah S. James, has given up business in this city, and moved to Raymond.

J. Buckley, hair dresser on Water street, went to Boston on Monday.

Mr. George Manning and family left this city for California on Tuesday.

Grant & Co., proprietors of the line of stages between York and this city, have recently purchased seven horses for use on their stages during the coming summer, indicating their intention to furnish the same stage accommodation as in late previous years, notwithstanding the establishing of a steamboat line.

Mr. Nathan F. Gilson of Kittery is reported as intending to go to St. Paul, Minnesota.

The Thompson house at Union Bluff, York beach, will be conducted during the coming season by the son of the late proprietor, who died last fall.

The schooner Rambler came off the Kittery marine railway on the 10th inst.

The teams of Samuel Paul and John Goodsoe, of Kittery, collided on Tuesday; Mr. Goodsoe's wagon was damaged, and he was thrown out, and becoming entangled in something was dragged several hundred yards, receiving severe cuts about the head and being badly bruised.

The schooner Mystery, Capt. Seaward, which wintered at Kittery Point, is chartered to take a load of bricks to Hingham, Mass.

—A debate has just taken place at Amherest college upon this question: "Resolved, That a college-bred man is better fitted for American citizenship than any other." It is not exactly certain whether this means any other man or any other citizenship, but as of course it was carried overwhelmingly in the affirmative, it doesn't matter.

—It is estimated that 160,000,000 pounds of wire fence have been made in the United States the past year. Luckily, "kissing over the garden wall" has been immortalized in song, for soon it will be but a tradition of the past.

—It was Tom Corwin who said that the best course of study for a law student would be two years' service on the jury.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

SPRING
OPENING.

WM. S. BUTLER & CO.

Take pleasure in announcing that the alterations in their store are now completed, and that they are occupying Nos 90, 92, 94, 96 and 98 Tremont Street, and 1 and 2 Montgomery Place.

The second floor is now also open for business, and on the third floor is a Ladies' Reception Room, where every attention will be given to the comfort of our customers.

These alterations will give us much-needed additional room for the display of our stock, and will afford to the ladies Better Accommodations and Light than are found in any other store in our line.

FIRST
OPENING
— OF OUR —
TRIMMED MILLINERY!
DEPARTMENT.

In order to place this department at once in rank with any first-class millinery establishment, we have secured the best talent to be had to give our Hats that beauty and elegance which is consistent with refined taste, at popular prices to suit all trade.

The success of such a department has never been tried in this city, a department where STYLISH TRIMMED HATS are sold at but small advance on the cost of hat and trimmings, and we trust that the ladies of Boston and vicinity will avail themselves of the opportunity to leave their orders early, so they can receive proper attention.

OPENING
— OF OUR —
Cotton Underwear Dep't.

In order to place this department properly before the public, we shall offer at less than cost our inaugurating sale, as follows:—

Lot 1. Chemises, Drawers, Corset Covers, for Ladies and Children, at 25c. each.

Lot 2. Chemises, Drawers, Skirts, Night Dresses, Hamburg trimmed, at 50c. each.

Lot 3. The same, at 75c.

Lot 4. The same, at $1.00.

We refrain from giving a description of each and every article, and prefer giving good cloth and good trimmings to advertising the different clusters of tucks, etc., and showing a poor article.

☞ We hope ladies will avail themselves of this sale, as we shall not feel able to continue it for any length of time.

OPENING
— OF OUR —
Straw Goods
DEPARTMENT.

This department has been placed at the rear part of our store, and has been made the most attractive place in Boston.

The department faces a sheet of mirror, 50 feet in length and 9 feet in height, so as to give every opportunity to the purchaser to see at a glace whether a hat is becoming or otherwise.

The following New Shapes will be offered at our opening: The Critic, Fedora, Iolanthe, Mignon, Poppy, Patti, Thursby, Nautilus, Casino, Sprite, Marquise, Servia, and many others.

HORSE CARS pass our door from all railroad stations, a great convenience to out-of-town patrons.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

PILLS untold miseries, that result from indiscretion or disease in early life, are described and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Extensively illustrated, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Both editions, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the most ever sterling work on Physiology ever published. There nothing whatever that the married or single can either require or which they know but what is full explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Atlantic.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

American Beer.

A New York brewer thus tells of the business: "We make the best beer in the world in the United States; my father came out here from Wurtemberg in 1828 as an ale brewer, before lager was known, and he raised Betts, Clausen and some of the richest brewers in the country. After the war I went to Richmond, Virginia, and put a half a million dollars in a brewery and came back without a dollar, and by hard labor have made another fortune in New York; the farmers of Virginia forced their taxes upon the manufacturers, making me pay eighty-five cents a barrel on my beer and admitting distant beers free; the railroads would bring beer from Milwaukee and Baltimore at less than they would carry it twenty miles out of Richmond for me. The brewery is there yet, idle, and no brewer has been successful in the south; they won't drink beer. Lager beer such as my father used to ripen in vaults without ice turned sour in July. The ice-houses now used are as much an improvement as the addition of corn and wheat sugar is to the barley sugar, and that is the extent of what is called adulteration in any well-fathered New York beer."

A despatch from Easton, Pa., says Mrs. John Dillman, whose husband cut her throat near Hecktown, is sinking rapidly. In her ante-mortem statement she said that her husband threw her on the ground in a lane, and placing a knee on her body, said he was tired of her and would kill her. She implored him to desist and to let her live apart from him, but he paid no heed to her, but drew a piece of cord from his pocket, tied her hands, and then, opening a knife, cut her throat. He then ran across the fields.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a ravening appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

Rufus A. Wills, of Wills, Thompson & Co., commission merchants at No. 53 Kilby street, Boston, committed suicide by shooting himself through the head at his apartments in the Hotel Bristol, Monday morning. No reason is assigned for the act by his partners or acquaintances, who are reticent as to the affair. Mr. Wills was a native of Newburyport, was forty-three years old, and leaves a family. The Newburyport *Herald* says he had insurance on his life in various companies to the amount of $50,000.

"I buy Dr. Benson's Celery and Chamomile Pills and introduce them wherever I go. Personal knowledge and experience of their effects on others prompts this act." Rev. J. F. Fugett, Rector St., Lukes Ch., Myersburg, Pa. 50 cents at druggists.

The Logan house at Murphysboro, Ill., owned by Mrs. Rogers, sister to Gen. Logan, was burned Sunday night, the 8th inst. Mrs. Rogers and two girls narrowly escaped with their lives. R. W. Swope, a traveller for Adams & Watkins of St. Louis, was burned to death.

Washington and Henry Tobias, of New York, trustees of their father's estate, have stolen $50,000 or more from the other heirs, and gone to Europe.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

Williston, Knight & Co., a heavy button-dealing firm in New York city, have failed. H. Williston Knight, the junior partner, having stolen about $100,000 from the firm, and cleared out for Europe with an actress. The fugitive has been rather a "fast man about town," gambling in stocks, and particularly affecting the society of actresses. The Williston & Knight company of East Hampton, Mass., manufacturers of covered buttons, have also suffered heavily by the villainy of young Knight, who was treasurer of the concern.

Rev. J. S. Cain, Lewisville, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

An ancient sword, described as having been the veritable weapon which the patriot John Hampden was waving to cheer on his men against Prince Rupert's cavaliers at the moment when he received his mortal wound, was sold in London, recently, for the handsome sum of £60 18s.

Don't be Alarmed

VARIOUS QUACKS.

Who--Each with his own Per Scheme--

Cultivate the Field of Human Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, slightingly only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is greatly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look for the name of the plaster for the word "CAPCINE." Price 25 cents.

"The Federal Reporter," which has become an indispensable aid to every practitioner in the federal courts, because it publishes immediately upon their delivery the opinions in all cases in the Circuit and District courts of the United States, has reached its 15th volume. The West Publishing Co. of St. Paul, Minn., who publish the "Reporter," have recently published an Index-Digest of volumes one to eight, inclusive, with a table of cases. The book, which includes a similar digest of the North Western Reporter, makes a volume of nearly four hundred pages, and is a work which will save much time in looking up decisions of cases in the United States courts, is sent free upon receipt of price, $3.50, by the West Publishing Co. of Saint Paul.

—"Yes," said the deacon, "the organist certainly did play opera bouffe airs and the can-can in his voluntary yesterday. But, dear me, I can't kick up a row about it, without giving myself away by showing that I recognized the music."

—About this time, according to the Graphic, the summer country boarding-house will clean out the duck pond (good bathing), put a shingle over the largest crack in the hand saw (good boating,) renew the stock of tadpoles (good fishing), and plant another clothes pole (plenty of shade) in preparation for the victims.

—While the procession was passing up School street, a sympathizing Irishman, who evidently was not posted as to the make-up of the column, is said to have explained to a companion that the "fellas" in carriages were the wholesalers, those on horseback the retailers, and those on foot the consumers.—*Boston Herald.*

Skill in the Workshop..

To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organic trouble appears, take plenty of Hop Bitters. His system will be rejuvenated, his nerves strengthened, his sight become clear, and the whole constitution be built up to a higher working condition.

—"Those people," said the pastor, solemnly, after giving out the text, "who are either too poor or too stingy to afford fly-screens at home are perfectly welcome to sleep in this church every Sunday morning." And then he went on with his sermon, but he preached to the wide-awakest congregation a good man ever looked down upon.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

—"Spring Poetry!" The spring has come, the lazy hen has just commenced to lay, the little lamb, the bleating calf, are noisy all the day. Put on your sundown, little maid, your rosy cheeks will tan; get out your silken parasol, and sport your Chinese fan.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

—Peddler to peasant: "I have here two different almanacs from which you may choose. One of them contains the most holidays, but the other contains more good-weather."

"Golden Medical Discovery" is not only a sovereign remedy for consumption, but also for consumptive night-sweats, bronchitis, coughs, influenza, spitting of blood, weak lungs, shortness of breath, and kindred affections of the throat and chest. By druggists.

—An Iowa bank posted this notice on its doors after the sudden departure of the cashier: "Another pioneer of American civilization lights out for Polynesia."

Happy and Hungry.

For over five years I was a constant sufferer with that most terrible and annoying disease, dyspepsia. After paying out hundred of dollars, the only medicine I found that would do me any good was Sulphur Bitters. Six bottles cured me. Now I can eat well and am happy and hungry.—*Editor.*

—The nearest approach to a sensation, and really the first signs of life that has appeared in a London newspaper office for half a century, was caused by the explosion of some kind of an infernal machine in the *Times* building. The home office has offered a thousand pounds reward for the guilty parties, but if he succeeds in breaking the respectable sleep of this high-toned journal, he should be pensioned for life.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

—She stood in the middle of Richmond street helpless from terror, says the New York *Tribune*, while a great crowd of unnamed males, cars dormant and mules rampant, bore down upon her like a hurricane. He dropped his valise, sprang to her side, whirled her over the gutter, and the mules rushed past in the darkness. Miss Alice Beauchamp of Boston is about to become Mrs. Louis Shearer of West Point, Miss., and at last a credit can be entered on the mule's debt-burdened ledger.

Sprains, lameness, pains and stitches, weak back or disease of the spine will be immediately relieved on application of a *Hop Plaster* over the affected part. It's penetrative power is wonderful. Warranted to be the best made.

—The governor of Virginia offers $50 reward for the arrest of a murderer. Evidently money is no object.

Cape Cod shipped 35,000 bbls. of cranberries during the season of 1882. More than 50,000 persons have been relieved of dyspepsia, loss of vitality, liver troubles and indeed, most of the every day ills of humanity—by having used a bottle of Wheat Bitters.

—A Philadelphia youth begged a West End belle to give him something he could wear next his heart. She sent him next day a flannel chest protector.

Senator Ingalls of Kansas, has been frequently spoken of as one of the foremost men in the U. S. Senate. To trace the family tree of the senator would probably be a tiresome task. He may or may not be related to Mr. F. E. Ingalls of Concord, N. H. Both gentlemen are widely known. The senator is said to own thirteen living, bright and promising children. The Concord man owns Dr. Graves' Heart Regulator, recognized since our boyhood as the certain cure for all forms of heart disease.—*Herald.*

—The latest conundrum exchange between variety actors in New York is: "What's the difference between New York and Brooklyn?" The jocose reply is: "Two cents or swim."

Like oil upon troubled waters is Hale's Honey of Horehound and Tar upon a cold. Pike's Toothache Drops cure in one minute. Colden's Liquid Beef Tonic imparts strength to body and mind. No other. Of druggists.

—A young man in Des Moines loved a girl so wildly that he wrote her fifteen letters a day for five weeks. At the end of that time she eloped with another fellow as a matter of self-protection.

What of Brown's Iron Bitters? It will cure heart disease, paralysis, dropsy, kidney disease, consumption, dyspepsia, rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

—A commercial marriage: Father—"I congratulate you, Bertha; I have just arranged for your betrothal." Bertha—"To whom, papa?" "Hush, child, how can you be so inquisitive. It is as yet a business secret."

No matter what may be the name, or how long standing the trouble, Dr. Benson's Skin Cure will always cure skin diseases. Grateful hundreds of cured patients attest this fact. $1, at druggists.

—The hair of a girl employed in an eastern cotton mill was caught in the machinery, torn from her head, and ground into bits. But the girl didn't mind it much. She kept right on at her work, simply remarking that it only cost four dollars, anyhow.

A man suffering from debility and loss of appetite took two bottles of Hood's Sarsaparilla, gained ten pounds and got well.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever pres ribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

Few people who eat salt mackerel stop to think of the adventurous life led by the men engaged in catching the creatures. These men are subject to hard knocks and every kind of exposure. The celebrated fishery house of Jas. G. Tarr & Bro., Gloucester, Mass., says: "We have had on board our vessels frequent cases of cuts, bruises, sprains, and summer complaints. Our captains say they wouldn't go to sea without Perry Davis's Pain Killer."

J. F. Carter's building in Rochester, N. Y., fell Tuesday morning, April 10th. There were seventeen men in the building, and one, Matthew Pearl, was killed. Ten others were seriously hurt. Loss, $25,000.

Mr. Josiah Morse, Henniker, N. H., says: "I received much benefit by using Brown's Iron Bitters for general debility."

Gen. Judson Kilpatrick's personal property at Deckertown, N. J., brought enough at the recent sale to pay off a mortgage on the farm and to leave a snug sum for the widow.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

News and Notes.

The Boston barque Lepanto was abandoned at sea, March 26th, in a sinking state, the captain, his wife and eight seamen being taken off by the schooner Olive.

A Columbia, S. C., despatch says that Allen Gordon, a white farmer of York county, is "wanted" to answer to the charge of having ravished a colored girl eight years old. He is missing, and officers are on his track. Gordon is forty-five years old, and has a family of five children. His wife has been dead about a month.

On the 10th inst. Wallace Ross, the carsman of St. John, N. B., received a telegram from Hanlan stating that Ogdensburg, N. Y., had offered a purse of $2,500 and expenses to have the Hanlan-Ross race take place there. Ross replied that he was willing to row at Ogdensburg on the terms mentioned, and instructed Hanlan to close with the parties there.

Walter E. Curtis of Deerfield, Mass., arraigned for the murder of Charles S. Bigelow in June, 1882, at Greenfield on the 10th inst. pleaded guilty to manslaughter. The plea was accepted, Attorney General Sherman considering the shooting the result of carelessness, not malice. Curtis was sentenced to five years in the state prison.

Sam Lewis, a colored murderer, was hung by a mob at Amberson Station, Ala., on Tuesday night, April 10th.

Lighthouse Keepers Henry W. Colburn and Bernard A. Ashley, at Point New Year, San Mateo county, Cal., and two visitors to the lighthouse, were drowned on Sunday, April 8th.

Joseph Murphy, assistant baggage-master at the Central depot in Taunton, Mass., was thrown under a moving train, Tuesday afternoon, April 10th, while attempting to board it, and was killed.

One of the Acton Powder company's corning mills at South Framingham, Mass., blew up about noon, April 10th, seriously injuring John Ryder and John McCoy, two workmen who belong in the west. It is feared the men's injuries will be fatal.

A colored man named Ben Johnson, who is now on trial out west for murder, and who was the principal witness in the Hirth murder case in Washington, D. C., three years ago, has made a confession in which he states that he murdered Hirth. Two colored boys were convicted and hanged for the murder, protesting their innocence to the last.

Tom Conroy and James Sullivan escaped from the jail in Portland, Me., April 10th, by throwing pepper in the turnkey's eyes. They were confined for burglary.

Ford Gay, aged sixty years, of East Orleans, Me., was struck on the 10th inst. with an edging which flew from a machine in Hayford's mill. The jugular vein was cut, and he bled to death.

The lumber dealers of New England held a meeting at the Falmouth hotel in Portland, Me., April 10th, their object being to make uniform living prices for lumber for building purposes. There were present prominent dealers of Maine, New Hampshire, Vermont and New York. They propose to raise the price $1 per thousand feet.

At a meeting of the Maine Steamship company at Portland on the 10th inst., it was voted to reduce the stock from $100 to $30 per share; also to create $25,000 new stock at $30 per share. The old board of officers were re-elected.

By the late tornado in the country near the Hot Springs, Ark., much property was destroyed, and at least ten lives.

The suit against the Maine Central railroad by Mrs. Martha P. Chase, whose husband was killed at Richmond, Me., last spring, has been decided in favor of the plaintiff, the jury giving her $3,708.-33. The road will appeal.

John F. Keene hung himself in his stable at Gorham on the 10th inst. No cause is assigned save momentary insanity.

Charles W. Ordway, who was indicted for manslaughter in the second degree, in causing the death of his stepmother at Loudon by shooting her on the 2d of February last, was released on his own recognizance, on the 10th inst.

The 20th annual session of the state musical festival commenced in Concord, Tuesday, April 10th, to continue until Friday, with Carl Zerrahn of Boston as conductor, and Mrs. Martha Dana Shepard of Ashland as pianist.

Miss Bayard and Oscar Wilde.

Miss Bayard is not only very pretty but extremely bright. She was the young lady who so astonished Oscar Wilde by her keen repartee to his patronizing remarks. "Are you going to the german, Mr. Wilde?" she asked, the night of his lecture here. "Yes," drawled the æsthetic, "If my lecture don't fatigue me too much. Are you going, Miss Bayard?" "Yes; if your lecture don't fatigue *me* too much." And again, when he complained to her of the lack of ruins and curiosities in this country, she replied: "Oh, Mr. Wilde, we import our curiosities."—*Washington paper.*

No Chaw in the Meat.

"We can't stand this sort of meat, sir," said the spokesman of a delegation of the crew of the steamship Louisiana to Captain Gager on a recent trip.

"What's the matter with the meat?" inquired the captain of the steward.

"Nothing at all, sir. It's a piece of the cabin roast that I was obliged to send down because the stock of meat for the crew ran short. It is fresh, tender meat. Taste it yourself." Captain Gager tasted it, and said to the spokesman of the delegation:

"I can see nothing the matter with that meat. It is as good as I get, and is very tender."

"Well sir," said the spokesman, "we don't like it. There's no chaw in it."

Why They Went Out.

A country dance was held in a neighboring town over the New Hampshire border the other evening, and the ladies noticed that the young men had frequent occasion to leave the ball. Of course each one as he went out put on the handiest coat he could find in the waiting room and a close observer would have noticed that it was the same coat every time. By and by the owner, a young physician of Essex north, himself went out, and as he pulled from his different pockets various bottles, all of which were empty, a cloud settled over his countenance. The young men had found the secret of his coat pockets, and that explained it.—*Newburyport Herald.*

A Strange and Startling Dream!!

Is There a Spirit World?

A remarkable dream or preternatural visitation recently occurred in Louisville, Ky.: Mr. V. E. Morera, a gentleman well and favorably known about town, on retiring for the night, feeling unwell and nervous was very restless in his sleep, but seemed to himself to be wide awake and in full control of his senses. A vision appeared in his dream showing him a large flaming number commanding him to obtain it from the lottery, and then vanished. The dream was so startling as to fully awaken him, and although one who never believed in lotteries or upheld them, yet try as he would he could not shake off the vision or forget the number which seemed to be burned in his brain. Finally he called at the office of the Commonwealth Distribution Co., and paying $1, asked for a ticket with the number of his dream on it. Fortunately the number was unsold and his ticket given him. The drawing was soon to come off and so nervous and excited had he become that, although against his principles, he determined to witness it, and strangely enough, he saw his number drawn from the wheel and the handsome prize of $5,000 was his. Was this simply a coincidence? Who can tell? Next drawing takes place in Louisville, Ky., April 30th; 1,960 prizes, amounting to $117,600. Whole Tickets only $2. Address E. M. Boardman, Louisville, Ky.

Digest your Food

If you want to be healthy. How can you if your teeth refuse to do their work? Get them put in order by skillful dentists, and use SOZODONT to keep them right. SOZODONT is the best preparation for the teeth.

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City.

SOLITUDE.

Laugh, and the world laughs with you;
Weep, and you weep alone;
For the sad old earth must borrow its mirth,
But has trouble enough of its own.
Sing, and the hills will answer;
Sigh, it is lost on the air;
The echoes bound to a joyful sound,
But shrink from voicing care.

Rejoice, and men will seek you;
Grieve, and they turn and go;
They want full measure of all your pleasure,
But they do not need your woe.
Be glad, and your friends are many;
Be sad, and you lose them all;
There are none to decline your nectared wine,
But alone you must drink life's gall.

Feast, and your halls are crowded;
Fast, and the world goes by;
Succeed and give, and it helps you live,
But no man can help you die.
There is room in the halls of pleasure
For a large and lordly train,
But one by one we must all die on
Through the narrow aisles of pain.

How "Pa" Was "Given Away."

A not very old Harvard alumnus lives not very far from Brighton, and is the father of a bright and promising daughter now rising three years of age. A few evenings since he had as a guest at tea a college chum. At the tea table occurred the following colloquy between the little miss and her father's friend:

The little one—"Mr. W.,—, I wish you'd drink some of the water in your goblet."

The guest—"Why, my dear, I seldom drink when I'm eating."

Little one—"But I want to see you drink."

Guest—"Why, my dear?"

Little one—"Cause papa says you drink like a fish."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtjan9,84

Commercial Drummers.

There seems to be a move on foot among a number of merchants to try and dispense with the services of these hard working and faithful employees, and go back to the old fashioned way of selling goods, but it cannot succeed, for the drummers controlling their customers control the trade. Many of the fraternity have drawn large prizes in the lotteries, and as their opportunity for observing the workings of the lotteries is great, they are unanimously of the opinion that the Commonwealth Distribution Co. is the fairest in the world and that the great drawing which takes place in Louisville, Ky., April 30th, offers an unprecedented chance to win a fortune for a small outlay. Capital prize, $30,000. Tickets only $2 each. Address your orders to E. M. Boardman, Louisville, Ky.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT--BATCHELDER, J

WEDNESDAY, April 11th, *Bufford J.*

Dennis Sullivan was arraigned on three complaints. For an assault on Ebenezer McCombie he was fined $4, and costs $8.78; for an assault on Thomas Smith the fine and costs amounted to $9.41; and for a drunk to which he pleaded guilty he was assessed $6.76. Total $31.09. He was committed to jail.

William Gammon, for an assault on Annie Gammon, paid a fine of $1, and costs $5.76.

Henry R. Hall, a boy of fourteen, was charged with breaking into the dwelling house of Ellen Larrabee, and taking several articles. He was sent to the Industrial School at Manchester for three years, on the request of his father.

SUPREME COURT, APRIL TERM.

[CARPENTER J.]

The April term of the Supreme court for Rockingham county opened at Exeter on Tuesday, the 10th inst., Judge Carpenter presiding. The following were the grand jurors:

Solomon S. Perkins, Exeter; William B. Lang, Stratham; E. B. Smith, Windham; Wm. Severance, Auburn; John H. Fellows, Brentwood; Arthur M. Towle, Candia; Geo. W. Currier, Chester; John H. Bailey, Danville; Jonas L. Jenness, Frank G. Howe, Derry; Charles H. Smith, East Kingston; Albert A. Barber, Epping; Almus H. Spalding, Fremont; Joseph A. Holmes, Greenland; George Allen, Hampstead; Charles H. Perkins, Hampton; Henry E. Tilton, Hampton Falls; Abram Hilliard, Kensington; Gorham Pillsbury, Kingston; Henry J. Caldwell, Londonderry.

The following are the petit jurors for the first and second weeks:

Frederick W. Brown, Amos Clark, Sandown; Reuben Eaton, 2d, William F. Smith, Seabrook; Frank M. Jewell, Smith M. Wells, South Hampton; George E. Hardy, Greenleaf B. Rundlett, South Newmarket; Alanson P. Haines, (excused,) Levi McDaniel, Newmarket; Andrew J. Fogg, Joseph O. Marsh, Exeter; Harrison J. Tilton, Stephen Prescott, Deerfield; Thomas Moore, Benj. Chase, Jr., Derry; Walter C. Prentice, George H. Swain, (excused,) Epping; Samuel A. Harts, (excused,) Sam. W. Cottle, (excused,) Nicholas P. Bryant, (excused,) J. K. Simpson, L. Evans, S. Langdon, Jr., Portsmouth; Willard W. Merrill, George W. Thom, Salem; Charles A. Batchelder, George P. Prescott, Raymond; Adams G. Drake, Howard S. Rand, Rye.

The grand jury reported on Wednesday, the 11th, having found twenty-eight indictments, among them being the following from this city: John Perkins and William McCarty, larceny from the person; John Smart and George Parks, breaking, entering and stealing; William Randall, larceny; Jennie Hoyt, disorderly house; May Green, stealing clothes.

Case Johnson vs. Coffin, for damages occasioned by the bite of a dog, assigned for trial Wednesday, was not taken up owing to the absence of Dr. Potter, a witness for the plaintiff. No jury case was on trial.

GOSSIPS SAY

That Willis C. Hidden, formerly city messenger of Portsmouth, is now chief clerk for the Republican State Central committee of Massachusetts, with headquarters on Tremont street, Boston.

That Joseph E. Amazeen of this city leaves town for Minneapolis, Minnesota, to-day.

That at last accounts that city was under snow, and cut off from the rest of the world save by telegraph, snow shovels and shovellers being in great demand there.

That his honor Mayor Treat will to-day have the little steamer Swan, belonging to Hon. Frank Jones, taken into the north millpond, where she will remain for several weeks, stirring up the filth from the bottom with the hope that it may run off through the gates into the river.

That while the project is perhaps worth trying, many people think the mud will settle as fast as stirred up, there being no perceptible current a hundred yards distant from the gates inside the pond.

That Mayor Treat has declined the proffered presidency of a Vermont marble company, as the duties of the position would require his absence from this city most of the time.

That the grass on the terrace in front of the Rockingham house is almost as green as in midsummer.

That Frank Hayden, well known in this city as the leading tenor in the Little Corinne Opera Co., was arrested as he was going on the stage at the Academy of Music in Chelsea, Mass., on the evening of the 9th inst., for non-payment of a bill of $38.50 for a suit of clothes.

That very few went to Boston from this city on Wednesday of this week to attend the New Hampshire club dinner at Young's.

That R. O. Wright, M. I. G. M., and George P. Cleaves, M. I. G. R., will visit Davenport Council, R. & S. M., of this city, this (Thursday) evening, to witness the exemplification of the Royal and Select Master's degree.

That the committee on Memorial day observance are preparing a more elaborate programme for this year than heretofore.

That the chairs in the centre of Music hall on the evening of Memorial day will be fifteen cents each, and in the rest of the house ten.

Andrew J. Callahan and "Capt." Meloon, the two young fellows arrested in this city some months ago, and taken to Maine to answer to a charge of breaking into a store, and stealing therefrom, have been sent to the Maine state prison for three years, the companion in crime who informed on them getting the same sentence. The city is well rid of the pair, who were hoodlums of the worst class.

Messrs. Joseph A. Meloon and Walter N. Meloon of this city, and J. Madison Meloon of Newcastle, started for Erie City, Dakota, on Wednesday.

At the Reform Club meeting on the evening of the 11th inst. the following were elected officers for the ensuing quarter: President, James W. Marden; vice presidents, Morris Tobin and James Sanborn; treasurer, James Janvrin; secretary, Francis Hall; chaplain, Geo. W. Randall: janitor, Oliver Dennett.

The Southend Surprise Party club made a call on Mr. Frank Pearson and wife, on Tuesday evening of this week. The visitors were cordially received and entertained; and conversation, a choice supper, and various games, sufficed to make along evening appear much too short.

A full attendance is requested at the meeting of the Woman's Temperance League this (Thursday) afternoon; business of importance comes up.

At the annual meeting of Co. B, (Portsmouth cavalry,) held at their armory on Tuesday evening, the 10th inst., Capt. E. D. Coffin, 1st Lieut. J. S. Perry and Corporal Levi Marston were elected a finance and general committee; Quartermaster Sergt. John P. Tibbets, treasurer and janitor; and Arthur Brewster clerk.

The Portsmouth Cavalry will entertain the Strafford Guards of Dover in Congress hall on Thursday evening, April 19th.

The schooner Mary S. Hontvet arrived at this port on Tuesday of this week from Gloucester, Mass., where she has been repaired, to fit for a trip to the Grand banks. The schooners E. A. Williams and Daniel C. Baker arrived from Provincetown, Mass., on the same day, without the bait which they went there in hope to procure. The schooner Albert Woodbury arrived on Wednesday, having succeeded in procuring some frozen bait. A new seine two hundred and thirty fathoms long, and a new seine-boat thirty-six feet long, are being made for the Albert Woodbury.

The schooner W. B. Keen is reported to have carried into Boston four thousand pounds of fish, and the Sylph seven seven thousand pounds, on Monday.

The new five-cent nickel has again made its appearance, this time with the word "cents" stamped immediately under the "V."

Mr. C. V. Smith, freight agent of the Eastern railroad company at Salem, has resigned to accept the position of superintendent of the Fort Popham Improvement company. He has been in the railroad service for thirty-two years.

A despatch of the 10th inst. from Minneapolis, Minnesota, says: "One of the worst snow storms of the winter is now in progress. Street car travel is suspended for the first time this winter, and railroad trains are behind time. The storm is general throughout the state. The roof of the roller skating rink fell in this afternoon, from the weight of the snow, demolishing the walls. No one was injured." The young men who recently went from this vicinity to that backwoods village are no doubt sorry, just about now, that they did not remain and enjoy the balmy air and sunny skies of New England.

The schooner Hattie Lewis, in coming up the river early Wednesday morning, touched on Peirce's island, but was pulled off without damage by the tug Ann, and proceeded up river to take on board another cargo of bricks for Boston. The schooner Satellite arrived from Boston the same day with her main topmast gone, having carried it away on the passage down; she also went up river to load.

About four thousand pounds of fish and four hundred lobsters were brought in on Wednesday, the 11th inst.

The sloop employed in the removal of the Badger's island ledge was on the 11th inst. towed to Kittery by the steamer James Sampson, in readiness to go on the marine railway at the afternoon tide. One of the scows was already on the ways.

Mr. John T. Shea has been heard of as living in Norwalk, Conn. He will probably return to this city.

The Eastern railroad company have furnished life preservers to persons along the line having charge of bridges over which their trains run.

The question of establishing a silver-plate manufactory in this city will probably be decided this week.

An indignant correspondent writes us that "Those ladies who are so annoyed by servants with baby-carriages, (or nurses, I think the proper term,) should have an elevated walk made for themselves, or have the nurses and baby-carriages go in the middle of the street, like horses."

A pair of babies were married the other night in Kenton county, Ky. The groom, George F. Kyle, is fourteen years old, and the bride, Lizzie M. Hollinshead, is one year younger. The combined age of the twain is only a few years more than the lawful matrimonial age in the commonwealth. The bride resembled a child that had not passed the spanking age, and the groom was not much her superior in this respect. The bride was modestly and neatly attired, and resembled a little girl that was dressing for her first attendance at a children's party. The twain were evidently quite fond of each other. There was none of that style of love which is generally displayed at a wedding, and when the minister pronounced them man and wife they faced each other for a moment, and suddenly the childish groom bashfully embraced his diminutive bride.

—Take no stock in the assertion that kissing cures freckles. It has been tried and failed.

—A writer in Harper's commences a poem with the line, "Some day I shall be dead." It is indeed a beautiful thought.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

WM. S. BUTLER & CO.,

90 TO 98 TREMONT STREET, BOSTON.

SPRING OPENING.

WM. S. BUTLER & CO.

Take pleasure in announcing that the alterations in their store are now completed, and that they are occupying Nos 90, 92, 94, 96 and 98 Tremont Street, and 1 and 2 Montgomery Place.

The second floor is now also open for business, and on the third floor is a Ladies' Reception Room, where every attention will be given to the comfort of our customers.

These alterations will give us much-needed additional room for the display of our stock, and will afford to the ladies Better Accommodations and Light than are found in any other store in our line.

FIRST
OPENING
— OF OUR —
TRIMMED MILLINERY!
DEPARTMENT.

In order to place this department at once in rank with any first-class millinery establishment, we have secured the best talent to be had to give our Hats that beauty and elegance which is consistent with refined taste, at popular prices to suit all trade.

The success of such a department has never been tried in this city, a department where STYLISH TRIMMED HATS are sold at but small advance on the cost of hat and trimmings, and we trust that the ladies of Boston and vicinity will avail themselves of the opportunity to leave their orders early, so they can receive proper attention.

OPENING
— OF OUR —
Cotton Underwear Dep't.

In order to place this department properly before the public, we shall offer at less than cost our inaugurating sale, as follows:—

Lot 1. Chemises, Drawers, Corset Covers, for Ladies and Children, at 25c. each.

Lot 2. Chemises, Drawers, Skirts, Night Dresses, Hamburg trimmed, at 50c. each.

Lot 3. The same, at 75c.

Lot 4. The same, at $1.00.

We refrain from giving a description of each and every article, and prefer giving good cloth and good trimmings to advertising the different clusters of tucks, etc., and showing a poor article.

☞ We hope ladies will avail themselves of this sale, as we shall not feel able to continue it for any length of time.

OPENING
— OF OUR —
Straw Goods
DEPARTMENT.

This department has been placed at the rear part of our store, and has been made the most attractive place in Boston.

The department faces a sheet of mirror, 50 feet in length and 9 feet in height, so as to give every opportunity to the purchaser to see at a glace whether a hat is becoming or otherwise.

The following New Shapes will be offered at our opening: The Critic, Fedora, Iolanthe, Mignon, Poppy, Patti, Thursby, Nautilus, Casino, Sprite, Marquise, Servia, and many others.

HORSE CARS pass our door from all railroad stations, a great convenience to out-of-town patrons.

HEART DISEASE

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

—A Newton man was recently relieved of a bullet which he had carried ever since the first battle of Bull Run. The bullet was as flat as a nickel. A thief stole his pocket-book in which he carried the memento.

"I buy Dr. Benson's Celery and Chamomile Pills and introduce them wherever I go. Personal knowledge and experience of their effects on others prompts this act." Rev. J. P. Fugett, Rector st., Lukes Ch., Myersburg, Pa. 50 cents at druggists.

—Gruff voices are said to be heard much more readily at the telephone than squeaky ones. This is also the case in domestic life. For instance, the mother of a small boy might yell until her throat snapped, yet the youth couldn't hear her; but as soon as the "old man" sounded his slogan that same boy would come scooting into the house like a streak of unletted electricity.

Rev. J. S. Cain, Lewisville, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

—A man was discovered a few days ago concealed behind the door of a back entry in a house near Boston. When asked what he wanted, he said, "Beg pardon. I should have knocked. Do you want your life insured?"

She Blushed

awfully when I told her what to do for those horrid pimples with which her face was covered. She now says if you want a pink and white complexion with a nice clear smooth skin, you must use that best of all blood purifier, Sulphur Bitters.

—The tight style of pantaloons is going out of fashion and the young men of the country can now draw a long breath of relief.

Somebody once wrote that "none so old as those who have outlived enthusiasm." The patrons of Wheat Bitters are always enthusiastic. It cures shattered constitutions, and will add years to any man's life. The druggist all sell it at $1 per bottle. Everybody needs a bottle.

—Gentleman (by a request of lady) "Conductor, put that lady off at the next corner." Polite new conductor: "Excuse me, sir: seems as how she is behavin' of herself; don't seem no occasion for proceedin' to extremes."

"Our life is March weather," wrote the illustrious Emerson, "savage and serene in one hour." Wheat Bitters is a savage foe to Brights disease, and all blood disorders. Its use makes life serene. Emerson's metaphor is fanciful. The effect of Wheat Bitters is practical, settled fact.

—A young man was entrusted with the money to bring his father home a good family sewing machine. He carried off a neighbor's daughter, married her, and brought her home, declaring she was the best sewing machine he could procure.

Wells' "Rough on Corns."

Ask for Wells' "Rough on Corns." 15c. Quick, complete, permanent cure. Corns, warts, bunions.

—A California editor declares that a brother editor of that state ought not to have gone abroad for his education. "A three years course of bullwhacking on the plains would have placed him more en rapport with his readers."

Don't be Alarmed

at Bright's Disease, Diabetes, or any disease of the kidneys, liver or urinary organs, as Hop Bitters will certainly and lasting cure you, and it is the only thing that will.

The "Dude."

It is "the propah capah" now with a certain class of beings in the large cities to be "dudes." The exact definition of a "dude" is rather difficult to give, but a southern paper attempts it by stating that "the dude is not a man. It is a thing which parts its hair in the middle, combing it on each side of the forehead into little bangs, wears excruciatingly tight pants, stretches a plated watch chain across its stomach, and is a breathing illustration of the fact that an object can live without brains." The following dissertation on "dudes" is credited to Chauncy M. Depew:

I was walking up and down Fifth avenue yesterday afternoon with a friend and I noticed a number of those graceful shapes who wear sharp-pointed boots, tall hats, standing collars and pantaloons so tight that one wonders how they walk. I believe they call them "dudes." I had been explaining to my friend how much misery results from the overstocking of the labor market. But I do not see how any such thing can come to pass when these young gentlemen are growing up to take the republic on their shoulders.

The New York *Post* explains how the demand for the "dude" has arisen, as follows:

The girl, as she has become more and more conscious of her own power, has felt the need in the opposite sex of something different from herself—something milder, softer, more gentle, quiet and dependent. She has often to seem hard and worldly, for otherwise society could not be carried on by her, but she is really fond of other and better things. For these she looks to man. Intellect, vigor, enterprise, she finds in her own sex. The ineffable charm of quiet refinement and repose, society must get elsewhere.

—Lady Carteret, wife of the lord lieutenant of Ireland, one day remarked to Dean Swift, "The air of your country is exceedingly fine." Swift immediately fell down on his knees, and exclaimed, "For heaven's sake, madame, don't say so in England, or they'll lay a tax on it."

A Freak of the Flood.

One of the strangest freaks of the recent flood is reported from Whitewater river, a few miles above Lawrenceburg, Ind., where Farmer Hunt lost forty acres of land, and his neighbor, Fred. Newhouse, had a barren and rocky mill-site converted into ten acres of as rich land as the fertile valley affords. The land along the Whitewater is as rich as any in the west. An acre of ground here is an independence for a gardener, and ten acres are little less than a bonanza. During the flood the Whitewater bottoms were overflowed for miles along the stream, and the extraordinary height of the water created currents that had never been known before. Since the subsidence of the flood it has been found that forty acres of Farmer Hunt's richest soil have been carried away, leaving that portion of his farm practically worthless until restored by a system of tillage and fertilizing. Fred Newhouse, who recently removed to the Whitewater bottoms from Aurora, owned a mill-site just below Hunt's farm. Newhouse's property consisted of ten acres of barren land, unfit for farming purposes. A portion of this was a large millpond. The millpond is now filled to the level of the breast of the dam with the richest soil in the valley, and Mr. Newhouse's remaining acres of unproductive rocks are covered to the depth of several feet with the same rich deposit. Instead of being a loser by the flood he is ahead the value of ten acres of Whitewater valley land, which, when there is any of it in the market, commands from $200 to $500 an acre.—*Cincinnati Enquirer.*

—Colonel Percy Yerger was suddenly seized in the midst of his family with a violent attack of the cramps. "For heaven's sake gimme a swallow of brandy," he said to his wife, as he twisted himself in agony on the sofa. "I haven't got any in the house," replied his wife with appalling indifference. "You must get some and keep it in the house so as to prevent these attacks," howled Yerger, kicking like a mule. "If I were to keep it in the house, old man, you would be having these attacks all day long. The proper way to cure you of these bad spells is not to keep any liquor of any kind in the house."

—Old Fairsee came down to the office the morning after a committee of his employees had made him a surprise visit and presented him with an elegant and valuable clock. His face was sickliest o'er with a pail cast o' thought, which was noticed by the clerk. The latter asked the old man what was the matter. "It's just this," answered the capitalist, after a long pause. "That clock couldn't have cost less than one hundred dollars. It was an extravagant piece of business, and must not be allowed to occur again. You may give notice of a ten per cent reduction in wages, to commence with the first of the month."

—A neatly-dressed and thirsty individual entered a saloon in Virginia City, Nevada, approached the bar-tender and said: "I have no money. Will you accept stamps in payment for a gin cocktail?" The bar-tender smiled, answered in the affirmative, and prepared the drink, which soon went sizzling down the parched throat of the customer. He smacked his lips, complimented the bartender on his ability, walked to the lunch table, regaled himself, and then, giving three resounding "stamps" with his foot upon the floor, smiled sweetly at the proprietor and vanished.

Skill in the Workshop.

To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organic trouble appears, take plenty of Hop Bitters. His system will be rejuvenated, his nerves strengthened, his sight become clear, and the whole constitution be built up to a higher working condition.

—"Do you pretend to have as good a judgment as I have?" said an enraged wife to her husband. "Well, no," he replied deliberately, "our choice of partners for life show that my judgment is not to be compared with yours."

*Mrs. Lydia E. Pinkham's Vegetable Compound is a most valuable medicine for ladies of all ages who may be afflicted with any form of disease peculiar to the sex. Her remedies are not only put up in liquid forms but in pills and lozenges, in which forms they are securely sent through the mails.

—The other day a stage-driver in the Black Hills undertook to horsewhip the passengers into getting out of the stage and pushing it up-hill; but the passengers emptied their revolvers into him a few times, held a coroner's inquest, and found that he had died of pneumonia.

*"Wisdom is bred in the bone, will never out of the flesh." But rheumatism, piles, malaria, constipation and all other confusents from derangements of the functions of the liver, kidneys and bowels will "out of the flesh" without fail after the thorough use of Kidney-Wort, the cure for all such diseases.

—A Taunton woman relates that she recently sat beside another woman, a stranger to her, in an Old Colony car. As the train passed Quincy the stranger pointed to the crowded burial place so near the track, and remarked in a complacent tone: "I've got three of the best husbands laying there that ever a woman had."

Only Two Bottles.

Messrs. Johnston, Holloway & Co., wholesale druggists, of Philadelphia, report that some time ago a gentleman handed them a dollar, with a request to send a good catarrh cure to two army officers in Arizona. Recently the same gentleman told them that both the officers and the wife of Gen. John C. Fremont, Gov. of Arizona, had been cured of catarrh by the two bottles of Ely's Cream Balm.

—A chorus of growls comes up from Key West because an incoming Cuban steamer has left at that port the body of a Chinaman who died on the passage from Havana, and who was en route to the Flowery empire. If things have got to the pass that a Chinaman cannot find decent burial in this country without violating an act of Congress, we had better call in all copies of "The Star Spangled Banner" and burn them.—*Post.*

Now is the time to treat catarrh of long standing. Ely's Cream Balm reaches obstinate cases, where all other remedies fail. It is not a liquid or snuff and is easily applied. Price 50 cents.

The Chicago *Times* says that when the telephone conversation between that city and New York began the other day, the Chicago speaker sent his "hello," and the answer came so quickly that he could not believe it was from New York, till he recognized the voice of the chemist of the Postal Telegraph company.

—This is the way a Tennessee local editor writes about the management of funerals in his town: "Isn't it about time for the local authorities to sell the mule, used to draw the town hearse, and buy a horse? Twice, lately, he has balked and detained processions, on bitterly cold days, for over an hour, and only last week he kicked in the front of the vehicle and seriously damaged the corpse. People are beginning to get enough of this sort of thing, and if the authorities don't take proper action, a citizens' meeting will be called."

What of Brown's Iron Bitters? It will cure heart disease, paralysis, dropsy, kidney disease, consumption, dyspepsia, rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do. I know that; but I must get help from some other source or die.' Finally I was induced to try Dr Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why not? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever pres ribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

Few people who eat salt mackerel stop to think of the adventurous life led by the men engaged in catching the creatures These men are subject to hard knocks and every kind of exposure. We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

John M. Stoddard, a New York publisher, has brought a libel suit for $100,000 against the New York *Tribune*. That paper charged Stoddard with pirating an edition of the "Enclycopædia Britannica."

Extensive frauds upon the New York city treasury are reported to have been discovered. John Carroll, a bond clerk, who died six months ago, perpetrated the frauds by not cancelling bond coupons when they had been paid. The frauds extend over several years, and the amount lost to New York city may reach $100,000.

Ex-Constable L. A. Savage was fatally shot at North Adams, Mass., April 11th, by James Barrett, a saloon keeper. In October last Barrett shot Savage through the head, and was tried for the offence, but acquitted. Savage went to Barrett's saloon on the 11th to raise a row, and was shot from behind by Barrett as he was going up stairs.

A despatch of April 11th from Hermosillo, Mexico, says. "Ninety-three persons have been killed in the state of Sonora since the outbreak of the Apaches, of whom twenty-seven were Americans. It is believed that many others who were killed have not yet been reported. At Palmo ranch, ten persons were killed last Tuesday. Two women were hung up by the hands, and their bodies ripped open. The unborn child of one was found mangled at its mother's feet. The bodies of the men were also horribly mangled."

The extensive ice houses of the Knickerbocker Ice Co., at Boothbay, Me., with all the runs, engines, hay, wharves, etc., and 60,000 tons of ice, were burned April 11th. Loss $150,000.

The Connecticut house of representatives has passed a bill forbidding railroads in that state from discriminating in freights by charging more for a short haul of freight than for a long one; that is, a railroad cannot charge a higher rate for carrying freight from New York to Hartford or any other point on the route than is charged for the same freight from New York to Boston.

The government has accepted the offer of $20,000 compromise in the case of Ferrynaud S. Bayond of New York, who had pleaded guilty of complicity in illicit whiskey transactions with Bush, the Westfield (Mass.) distiller, who was acquitted recently in Boston. The government will bring another suit against Bush.

The flood and ice jam in the Maitland river, at Goderich, Ont., carried away Hart's mill and dam, Wednesday, April 11th. The mill hands jumped from the windows barely in time to save their lives. The mill was valued at $20,000.

The Keelridge mine, in the Menomonee range of the Michigan iron district, caved in on the 10th inst., as the men were hoisting out certain huge pipes, the mine being about to be abandoned. About nine feet of ground between the main engine-house and shaft caved in, carrying with if the entire engine house, mine machinery, four large boilers, and nine men. It is estimated that the ground dropped over one thousand feet.

In the suit of Lizzie Gannon vs. Father Fleming in Boston, which was brought to recover damages because the latter had taken away some paper images which the child had become attached to, causing an alleged serious injury to her health and mental condition, the jury brought in a verdict of one cent damages. The plaintiff claimed $5000.

Henry Nichols, twenty-two years old, shot himself at home in Phipsburg, Me., April 10th. He placed the muzzle of a Springfield rifle under his chin and pulled the trigger with a cord attached to his foot, blowing his head to pieces. Domestic trouble is believed to be the cause.

The schooner Maria Webster, which arrived at this port this week with oysters to W. Freeman, brought the first cargo of that description to arrive for about a year; she was the last vessel to load this season in Maryland waters, where the fishery is closed on the 1st of April. The schooner was taken down through the draw of Newcastle bridge, to bed her oysters near Salter's island.

The schooner Anna M. Nash, formerly of this port, sailed from Gloucester, Mass., on the 9th inst., on a mackereling trip, but returned on the 11th, having carried away her main rigging.

On Monday, the 9th inst., as the schooner B. F. Nealley was being towed to Dover, when in the narrows of the Cocheco river she took the ground, the high wind, aided by a strong flow of fresh water down the river, setting the schooner out of the channel. She came off at the next high tide and anchored in "the gulf," and was taken to the wharf on the 10th.

Ramsdell of York, five acres of field land for $20; Jeremiah Norman to Hannah J. Ramsdell, land near Chase's pond, York, for $10; Hiram D. Wood of Newmarket, N. H., to Mary Piper of Manchester, N. H., land and buildings in York for $750; Charles E. Stover of York to Howard M. Stover of Cambridgeport, Mass., land and buildings at Cape Neddick for $200. South Berwick—Adeline Freeman of Wells to John W. Gray of South Berwick, woodland for $1; John Hanscom of South Berwick to George W. Hanscom of Hyde Park, Mass., land near Conway junction, South Berwick, for $500; Alvah Foss to Samuel B. Foss, land in South Berwick and York for $250.

Hon. Barak Maxwell, of Wells, a member of the Maine senate, was in town on Thursday last to give his testimony in regard to his claim before the Court of Commissioners of Alabama Claims. Mr. Maxwell had built the brig Betsy Ames at Wells in 1855, and in 1861, while on the voyage to Cuba, she was chased and captured by the rebel privateer Sallie, and sent into Charleston, S. C., in charge of a prize master. Capt. R. C. Bartlett, of this city, was at the time master, and owner of one-eighth of the brig. After her capture her rig was changed, and she was called the Litta; and she was finally captured by the U. S. S. "Quaker City," brought into Boston, and sold at auction by decree of the prize court. The master builder of the Betsy Ames was John Brewster of York. Mr. Maxwell built in 1843 the schooner Betsy Ames, subsequently owned in this port by Barker & Adams, A. T. & M. H. Goodrich and others, and which ran for several years between this port and Bangor. Betsy Ames was the name of the senator's wife before her marriage.

—In a suit for separation the counsel for the wife pleaded among other motives the incompatibility of temper, and began to trace a portrait of the husband: "Brutal, violent, angry." The lawyer for the husband, in his turn painted the wife: "Wicked, violent, peevish." "Excuse me," said the judge, interrupting the advocate, "where do you find the incompatibility of temper?"

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT.

THURSDAY, Apr. 12th; *Bufford J.*

Mrs. Annie Gammon was before the court on a charge of selling liquor, the complaint being made by William Quinn, who was fined on the previous day for an assault on Mrs. Gammon. The defendant was adjudged guilty, and fined $10, with costs; she gave notice of appeal, and was ordered to furnish sureties in $100 for her appearance at the October term of the Supreme court.

SUPREME COURT, APRIL TERM.

[CARPENTER J.]

The following is a list of the indictments returned by the grand jury on Wednesday, the 11th inst.:

John Purchase, (a marine,) larceny from the person; plea, guilty; sentenced to one year's confinement in Portsmouth jail.

Wm. McCarthy, larceny from the person; plea, guilty; one year in jail.

John Smart, breaking and entering, and larceny; let off on probation.

George Parks, breaking and entering, and larceny; let off on probation.

William H. Randall, petty larceny; plea, guilty; three months in jail.

Jennie Hoyt, keeping a disorderly house.

Frank Reid, (a marine,) larceny of a suit of clothes from William Devine.

All the foregoing were from this city.

Charles T. Ware, Raymond, horse stealing.

Fred Turner, alias Hartford, breaking and entering the store of Doe & Kelsey in Newmarket. [The accused is now in jail at Portland, Me., awaiting trial on a similar charge.]

Moses Southworth, Seabrook, assault.

George P. Towle, Seabrook, larceny.

William Robinson, Newton, selling liquor, eight indictments.

George Creeley, breaking and entering the store of Blake & Co., of Newmarket; plea, guilty; three years in state prison.

Joseph W. Ackerman, assault.

Harry Villers, larceny.

Case Mary White vs. city of Portsmouth was tried on Thursday. A claim to recover damages for injuries alleged to have been sustained by a fall upon the sidewalk in a street near the Eastern railroad station. Hatch for plff.; Frink & Batchelder for deft.

PIGEON SHOOTING IN MAINE.

The following is the section of the anti-cruelty act passed by the Maine legislature, and approved by the governor on the 9th of March, referring to the use of living-bird targets at shooting matches:

Sect. 2. Any person who shall keep or use any live pigeon, fowl or other bird for the purpose of a target, or to be shot at either for amusement or as a test of skill in markmanship, and any person who shall shoot at any bird as aforesaid, or be present as a party, umpire or judge at any such shooting of any pigeon, fowl or bird, and any person who shall rent any building, shed, room, yard, field or premises, or shall knowingly suffer, or permit the use of any building, shed, room, yard, field or premises, for the purpose of shooting any pigeon, fowl or bird as aforesaid, shall be punished by imprisonment in the county jail not exceeding thirty days, or by a fine not exceeding fifty dollars, or by both such imprisonment and fine. Nothing in this act shall be construed as prohibiting the shooting of wild game in its wild state.

It will be seen that the members of the Tremont Gun club of Boston, and their guests, who have for several years past been accustomed to leave their own state, and crossing New Hampshire to penetrate Maine as far as Eliot, and there have their shooting-matches, will have to select some other shooting ground or use some other kind of target, on pain of getting themselves and the owner of the ground where they shoot, into trouble.

A considerable number of men with guns passed through this city on the Eastern railroad, going east, on Thursday forenoon last, and returned in the afternoon. It was reported that they were the Tremont Gun club of Boston, and that they that day shot eight hundred pigeons in Eliot.

A SUGGESTION.

A Plank Walk to the new church at the west end.

Who will follow the example of one well known among us, and take the first step towards obtaining so desirable an acquisition? If her "praise is not in all the churches," it certainly must be heard often from the lips of the summer sojourners by the sea-side at Rye. Through her instrumentality—in part, at least—they are enabled to walk comfortably the forest-path that leads to "St. Andrew's by the Sea." There, the plank walk testifies to her generosity, energy and thoughtfulness, in giving for the purpose a hundred dollars, the proceeds of one of her pleasant entertainments. The spot is pointed out to which Mrs. Bartlett's contribution extended the walk; and though she may be forgotten *in* the church, she will *not* be forgotten on the ever-green path that leads *to* it.

Who will follow in a like laudable effort, for the new and magnificent Christ church, where all are welcomed, from the least unto the greatest?

ONE WHO APPRECIATES.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, April 12th, Mayor Treat in the chair:

Present the full board.

The records of the last meeting were read and approved.

A communication was received from the board of instruction asking that $19,500 be appropriated, in addition to the literary fund and to what sums may be received for tuition from non-resident pupils, for the support of the schools for the year ending Dec. 31st, 1883.

Bills amounting to $2841.64 were ordered to be paid.

Bills of William F. Ham, $19, and B. F. Rice, $9, for hens killed by dogs, were referred to the committee on claims.

Bill of Levi W. Pryor, $10, for extra services in lighting gas lights, was referred to the committee on gas lights.

Adjourned.

GOSSIPS SAY

That Capt. Frederick Dorr, of Kittery Point, will have charge of the steamer Fearless during the coming season.

That the Fearless will relieve the James Sampson next week.

That Mayor Treat was in attendance on the court at Exeter on Thursday.

That the numerous boy with case-knife and basket already searcheth the back yards for dandelions.

That W. I. Trafton has just put up the largest and showiest sign on Congress street.

That Hon. John R. Reding of this city and Hon. Robert C. Winthrop of Boston are the only living ex-members in New England of the 27th Congress.

That Col. A. H. Young of Dover and Aaron Young of this city will erect a factory in Madbury for the evaporation of apples.

Mr. Martin Hoyt has formed a partnership with Mr. Edgar D. Wood, and the firm will conduct the business of hair dressing in all its branches at the rooms on Congress street, over W. Freeman's, for many years occupied by Mr. Hoyt as a hair dressing saloon, and for a year or two past by Mr. Wood for the same purpose. They are both too well known to need any introduction, or any endorsement of their skill as workmen.

The family of Gunner Mack, U. S. N., left this city on Thursday last for Somerville, Mass., where they will hereafter reside. A family moved from Gates street in this city to Charlestown, Mass., on Thursday. Mr. James R. Eaton's family went west on Wednesday.

Mr. Wilbur I. Trafton will to-day remove his stock to a store on the opposite side of the street from the one he has for some years occupied in Franklin block.

Janauschek, the greatest living tragedienne, will appear at Music hall on Tuesday evening, the 24th inst., as Mary, Queen of Scots.

An extra freight train of forty cars passed through this city for the east over the Eastern railroad on the 10th inst.

An adjourned meeting of the Portsmouth Mercantile Library Association will be held this (Friday) evening, when the future disposition of the library will be acted upon. It is important that every member be present.

A very decided, and, it may be said, not unhealthful reaction from the grand opera epidemic has set in at the Boston Theatre this week. The entertainment now offered at the house by Barlow, Wilson & Co.'s Mammoth minstrels serves as the best possible relaxation after a fortnight of such serious excitement as the lovers of the lyric art have recently been subjected to. Assuredly if any, one is suffering from over-indulgence in the strong wine of grand opera he can find no more agreeable and effective seltzer water with which to overcome the effects of his mental and spiritual intoxication than a good dose of minstrelsy; and he will have to search long for a better brand of the article than that having the label, "Barlow, Wilson & Co.'s Mammoth." It has all the sparkle and effervescence of the pure article; every bottle when opened, goes off with a vigorous pop; and, best of all, it leaves no bad taste in the mouth. In a word, Barlow, Wilson & Co.'s show is first-class in every particular.—*Boston Advertiser.*

Mr. John Clark, shoemaker on Hanover street, has sold out to Mr. Jefferson C. Tilton, and contemplates going west.

The vital statistics of the city are being taken, in ward one by Mr. Walter L. Chesley, in ward two by Mr. Frank Marden, in ward three by Mr. Alex. M. Rand, and in ward four by Mr. George S. Leach.

The steamer Naumkeag on Thursday last made her first trip to Newmarket for this season, having in tow a schooner with a cargo of coal.

Shifting engine No. 63 has been sent from the Eastern railroad station in this city to Portland, and shifting engine No. 1 from Boston takes her place here.

Edmund B. Dearborn, son of Mr. Frank E. Dearborn, has recently taken a position as fireman on the Eastern railroad.

Elwood Hutton leaves this city for Norwalk, Conn., on Saturday.

Mr. Wilbur I. Trafton has received notice from the pension office at Washington that his application for "Improvement in ear-pieces for telephone receivers" has been granted. The improvement consists in the enlargement of the cap, which completely covers the ear, and prevents any outside noise from obstructing or excluding the sound in the transmitting of messages. The cap pieces now used by the telephone companies are small, and press against the ear so that the voice is in many cases indistinct. Those who are acquainted with the workings and merits of this patent pronounce it a valuable one. Mr. Trafton has also another invention on which he will soon apply for a patent.

The steamer Three Brothers made a trip down the river on Thursday, the 12th inst. She has lately received a new engine with condenser attached, of fifty horse power, built by Osborne & Co. of East Boston, and worked admirably on her first trial; her speed is greatly increased, and she is well adapted for the purpose she is designed for, as an excursion boat to run from "the Willows" in Salem harbor to Boston, and among the islands in that vicinity. She is allowed to carry a pressure of one hundred and twenty-five pounds of steam, and can carry seventy-five passengers comfortably. She is a fine sea boat for her size, and Capt. Upton is much pleased with her late improvements.

[*For other local matter see second page.*]

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

TRIMMED MILLINERY!
DEPARTMENT.

In order to place this department at once in rank with any first-class millinery establishment, we have secured the best talent to be had to give our Hats that beauty and elegance which is consistent with refined taste, at popular prices to suit all trade.

The success of such a department has never been tried in this city, a department where STYLISH TRIMMED HATS are sold at but small advance on the cost of hat and trimmings, and we trust that the ladies of Boston and vicinity will avail themselves of the opportunity to leave their orders early, so they can receive proper attention.

OPENING
— OF OUR —
Cotton Underwear Dep't.

In order to place this department properly before the public, we shall offer at less than cost our inaugurating sale, as follows:—

Lot 1. Chemises, Drawers, Corset Covers, for Ladies and Children, at 25c. each.

Lot 2. Chemises, Drawers, Skirts, Night Dresses, Hamburg trimmed, at 50c. each.

Lot 3. The same, at 75c.

Lot 4. The same, at $1.00.

We refrain from giving a description of each and every article, and prefer giving good cloth and good trimmings to advertising the different clusters of tucks, etc., and showing a poor article.

☞ We hope ladies will avail themselves of this sale, as we shall not feel able to continue it for any length of time.

OPENING
— OF OUR —
Straw Goods
DEPARTMENT.

This department has been placed at the rear part of our store, and has been made the most attractive place in Boston.

The department faces a sheet of mirror, 50 feet in length and 9 feet in height, so as to give every opportunity to the purchaser to see at a glance whether a hat is becoming or otherwise.

The following New Shapes will be offered at our opening: The Critic, Fedora, Iolanthe, Mignon, Poppy, Patti, Thursby, Nautilus, Casino, Sprite, Marquise, Servia, and many others.

HORSE CARS pass our door from all railroad stations, a great convenience to out-of-town patrons.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

MANY middle aged men suffer from indiscretion in early life, may be invigorated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

230th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 $2; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is by far the best, most valuable and cheapest work on Physiology ever published. There never has been one such before, and there never can be another, equally as valuable, or at such a price, but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

PEABODY MEDICAL INSTITUTE, or W. H. PARKER, M. D., 4 Bulfinch St., Boston, Mass.

Deep Plowing: Useful and Injurious.

Mr. Orange Judd discusses the subject of plowing in the *American Agriculturist* for April, and among other things says the following:

The sun's warmth greatly assists the preparation of the food-material collected by the leaves, adapting it for plant nourishment. We speak of warm "growing weather." But while the hot sun rapidly increases the preparation of plant food, it dries off the sap faster from the leaves, and also the moisture from the surface soil, so that the roots can not get a full supply. In both these ways the sap—the life blood of the plant—is diminished, and for the want of this the food distribution or growth is lessened, and frequently is stopped altogether. The leaves curl, the plants droop, often dying out after a few hot days. This is especially the case on shallow soils, and on land which by reason of its dark color absorbs more of the sun's heat than those of lighter color. Owing to the loose texture of such soils they bring up moisture from below much less rapidly than fine, compact loams and clays.

Is it not plain then, that if a soil is plowed deep and made fine, so that air will penetrate deeply, and the plant roots be thus invited well below the surface, out of the sun's reach even in a drouth, which seldom dries more than two to four inches deep, the plants having such roots will be always supplied with the needed sap, and the growth will proceed rapidly even in the dryest days? There is a rule, deep plowing and working of the soil are highly advantageous.

But not always. The porous prairie soils are usually in fair condition a foot deep or more; the air has circulated through them, destroying deleterious acids, poisonous salts, etc. On heavier soils, so compact that the air has never circulated below the immediate surface, the subsoil may be actually filled with poisonous substances. We know that earth brought up in digging wells and deep ditches will seldom support vegetable life, for a year or two at least. To run a plow down into such a soil three or four inches below the previously stirred surface, and turn up a heavy layer of it, may actually kill the first crop sown or planted.

The right way, with such soils, is to go down an inch or two annually, and bring up a little new soil each time, but not enough to materially harm the growing crops. In this way we may in time secure a healthful, porous, aerated, deep plant bed, that will furnish abundant moisture in the hottest season, besides providing new supplies of inorganic food needed for the best growth of crops.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

Jonathan Leavitt, of Chatham, says that on the first of April, 1843, the snow was five feet deep in open ground.

"I buy Dr. Benson's Celery and Chamomile Pills and introduce them wherever I go. Personal knowledge and experience of their effects on others prompts this act." Rev. J. P. Fugett, Rector St., Lukes Ch., Myersburg, Pa. 50 cents at druggists.

Three cows belonging to W. F. Jones, of Deerfield, broke through the ice and were drowned, recently.

Rev. J. S. Cain, Lewisville, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

Mrs. William Belford, who fell through a scuttle-hole in the floor at the shoddy mill in Laconia a few weeks since, has died from the injuries received at that time.

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Mackerel at our Boarding-House.

Few people who eat salt mackerel stop to think of the adventurous life led by the men engaged in catching the creatures. These men are subject to hard knocks and every kind of exposure. The celebrated fishery house of Jas. G. Tarr & Bro., Gloucester, Mass., says: "We have had on board our vessels frequent cases of cuts, bruises, sprains, and summer complaints. Our captains say they wouldn't go to sea without Perry Davis's Pain Killer."

Willie, son of William Taylor of Woodstock, was drowned in a bucket of water a few days since.

Mr. Josiah Morse, Henniker, N. H., says: "I received much benefit by using Brown's Iron Bitters for general debility."

Ira Perrington, a lad of sixteen years, had his right hand torn to pieces by the premature discharge of a shot-gun at Epping on the 7th inst. Three fingers have already suffered amputation, and the loss of the hand is feared.

Mr. F. W. Kinsman: We must have some more *Adamson's Balsam*, for they do say that it is the best thing out. Please send us ten gross immediately by freight. Yours very respectively,

WEEKS & POTTER.

Benjamin F. Howard, car inspector at Gorham, had his head crushed between two cars a few days since, sustaining severe injuries.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, billousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

John Moore of Madison met with a very distressing accident on the 31st ult. He had an attack of heart disease, so severe that he fell from his chair into an open wood fire, and was severely burned about the head and face. At the same time he upset a kettle of boiling sap hanging over the fire, and was severely scalded.

It is Not Strange

That the "G. O. Taylor old Bourbon" Whiskey has grown in popularity since its high character has been maintained from the beginning. Druggists and Grocers sell it. See that the signatures of the proprietors, Chester H. Graves & Sons, is over each cork.

News and Notes.

The lighthouse board are making preliminary arrangements for the construction of a lighthouse at Fourteen Foot bank, Delaware bay, for which there is an appropriation of $175,000 available. This will be the largest structure of its kind in the world.

The steamer Wylly on the night of the 11th inst. struck the bridge across the river at Fort Gaines, Ga., carrying away the cabin, and sinking immediately. The first and second clerks, a negro child, and three deckhands, are missing. She had a miscellaneous cargo. The boat and cargo are a total loss.

Charles Rhoades, a young man eighteen years old, started from Muncie, Ind., on Wednesday, the 11th inst., for the country, with a box of Hercules cartridges, used to blow up stumps, under his arm. When about half a mile from the city the entire box of cartridges exploded, blowing his body to pieces.

The steamer City of Merida, from Vera Cruz for New York with 100 passengers and a cargo of merchandise, ran into an unknown schooner off Hatteras about noon on the 11th inst.; her bow was smashed, and she put into Hampton roads leaking; the captain tried to reach Norfolk, but was forced to beach the steamer off Lambert's Point light, she having eleven feet of water in her hold. The passengers were taken off without accident. The steamer is owned by F. Alexander & Son, of New York, and with her cargo was valued at $350,000. The crew of the schooner hailed the steamer to lie by, but the latter's injuries were so great that she was compelled to make for the shore.

The marquis of Lorne arrived in Boston Friday morning.

The jury in Dublin, Ireland, on the 13th inst. found Joe Brady guilty of the murder of Lord Frederick Cavendish and Mr. Burke, and he was sentenced to be hanged.

Samuel Persip, a negro, was killed at Hinsdale, Mass., April 12th, by a train.

Monday night, April 9th, on returning home from work, Robert Darrah of Portland, Me., found his wife, his two children and his brother John missing. They took with them various articles, including a watch and a valuable meerschaum pipe. The eloping couple went to Cumberland Mills, where John abandoned his partner in guilt, who, with the children, spent the night in Deering woods. John Darrah has shipped for the sea, and Robert's wife has returned to her husband, who has recovered his property and concluded to overlook the past.

William M. Crockett, who murdered Joseph H. F. Hurt in Wytheville, Va., some time ago, was taken from jail by a mob on the 12th inst., hung to a tree, and riddled with bullets.

George C. Lewis hung himself in Pepperell, Mass., April 12th. He was a well off farmer.

Frederick W. Botham, one of the oldest lawyers of Worcester county, Mass., shot himself April 11th.

Some local officers are looking up new clews in the Johanna Sullivan tar and feather outrage at Sandisfield, Mass., nearly two years ago, with which to convict several implicated parties.

The wife of Hartwell Gray of Orland, Me., gave birth on the 7th inst. to triplets, weighing respectively five, six and seven pounds. At last accounts they were all doing well.

The following story was told to the writer by an eye witness, for a fact: A man in Rockland wanted to buy some sheep. Knowing that a certain farmer living not many miles from Rockport had some, he went to see them. When he arrived at the place, he saw eight or ten dead sheep lying about the barnyard. Twenty or thirty sheep were in the barn, some of them in the last stage of starvation. A cow was lying on the barn floor, too weak to get on her feet. An ox had just died—the other ox was too thin to cast a shadow. The farmer had got just about half a ton of meadow hay, (poor at that,) somewhere in the neighborhood, and this was the only thing he had for his stock to eat. The man asked the farmer if he wanted to swap his sheep for a cow. The farmer replied "that he guessed he didn't want another cow." He then asked if he would sell his sheep. The farmer said that "he didn't want to part with his sheep."—*Biddeford (Me.) Times.*

Wasn't aware of the Change.

Shortly after the adjournment of Congress the old Washington club, which had become famous in history as "Chamberlin's," was sold to the Young Men's Christian association, and was immediately thereafter transformed from a cure of morning headaches into a cure for souls. Probably there was no hostelry in America which had been so well patronized by distinguished men as was Chamberlin's. The frequenters of the resort were largely composed of congressmen and lobbyists, and when Congress adjourned they hied away to their several destinations; some to be defeated for nominations; some to spend their salaries at camp-meetings and county conventions, and a great many of the lobbyists to paint patent-medicine signs on vagrant fences and mossy rocks.

Many of the individuals did not know that Chamberlin's had been sold and evacuated, and among them was a distinguished southern statesman, who arrived in Washington on a Sunday evening. After he was ensconced in Willard's he found that things were dull. Accordingly, about ten o'clock, he concluded he would go up to Chamberlin's, have a chat with John, drink a small bottle (*of spiritus frumenti*) and return to bed in a happy frame of mind. He climbed up Fourteenth street, reached New York avenue, crossed over to the Young Men's Christian association and meandered in. He noticed several changes and rather a lack of tables, but nevertheless he sat down at the only table in the room, and rapped.

A well-dressed young man quickly answered his call.

"What will you have, sir?" he inquired.

"A little whiskey, sah; cawn whiskey, sah, with a lemon squoze into it, sah," answered the representative of chivalry.

The horror-stricken attendant promptly explained the change of affairs, and the statesman mournfully muttered, as he rose:

"I have heard that naught so much the sperrit calms ex rum an' true religin, but what I want jest now is rum." And he went down to get it.

—The foreman of a California printing office has been appointed a brigadier-general by Governor Stoneman. The man who can navigate a printing office will find no trouble in being a successful brigadier general.

—Two learned but despondent university professors met not along ago at an afternoon coffee, and dined sympathetically together in a corner. "What a world this would be without coffee," said one. "Yes," replied the other, stirring the fragrant cup in a dejected aspect, "yes, but what a h—l of a world it is with coffee!"

A Remarkable Floor Covering.

The astonishing durability and beauty of the American make of "LINOLEUM" demands special commendation. It is a floor covering of wonderful excellence, but as inferior foreign imitations are on the market, it is well to know that these imported goods, besides being of a poor quality, will look increasingly dirty and dingy in use, while our own make will be clean, bright and satisfactory. Domestic goods are all six feet wide, and the Walton Trade Mark with the word "LINOLEUM" is printed on the back of every square yard. All carpet dealers keep it.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINCKLEY,
No. 264 Broadway, Lowell, Mass.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

RETURN OF THE "SONS."

The committee of '73 on the Return of the Sons of Portsmouth invite the attendance in the Common Council chamber, on Monday evening at 7:30 o'clock, of all citizens who are in favor of having a reunion in this city of the absent sons and daughters on the coming 4th of July, in accordance with the resolution passed at the reunion ten years ago.

SUNDAY SERVICES.

Mr. John E. Maude, of the Harvard Divinity School, will preach for the South Parish on Sunday, morning and evening. Miss Flora S. Hayes, soprano, of Kittery, will sing at both services.

Elder Sibley will preach in the Advent church.

Rev. Mr. Gould will preach in the Freewill Baptist church.

Rev. O. A. Roberts, of Salisbury, Mass., will preach in the Middle street church.

The male choir organized some time time ago for Christ church will sing at the service Sunday evening.

SUPREME COURT, APRIL TERM.

[CARPENTER J.]

In case White vs. Portsmouth, given to the jury in the afternoon on the 12th, the verdict was in favor of the plaintiff for $50; the claim was for $2000.

THAT "PIGEON SHOOT."

The pigeon-shooting match in Eliot, Me., on Thursday last, instead of being, as reported, a grand field day of the Tremont Gun club of Boston, at which eight hundred pigeons were shot at, was a challenge match for the possession of the championship badge of the Tremont club, the contestants being Mr. J. C. Haskell of Lynn, a former holder of the badge and the challenger on this occasion, and Mr. Charles H. deRochemont of Newburyport, holder of the badge, and winner of the late match. Twenty-five birds were shot at by each contestant, Mr. deRochemont scoring twenty-two and Mr. Haskell eighteen.

The badge is an elaborate affair, costing $80, and has been many times won, no winner however having been able to hold it for six months, the time specified by the rules of the club before the ownership becomes permanent. It was first held by Capt. Creamer of Baltimore, then by a Mr. Ellis of Boston, then by Harry Dutton of Boston, and then by Mr. Haskell, from whom Mr. deRochemont won it last fall. Mr. Haskell held it through four trials, and has a high reputation as a marksman, having beaten Capt. Bogardus in shooting at glass balls from a trap. It is probable that the present holder of the badge will be its permanent owner, as the six months during which he must hold it subject to challenge expires about the last of April.

GOSSIPS SAY

That the Rye farmers who drive to this city by way of Lafayette road would be greatly obliged to the street commissioner if he would have the loose stones picked up from the hill near Oxford's store on Middle street.

That the city will purchase the vacant Hall lot on South street, opposite Prospect street, for a gravel pit.

That the fire engine Sagamore was at work Friday pumping the water out of the cellar of Mr. Wm. K. Hill's residence on Deer street.

That the navy yard ferry steamer Emerald will be laid up for a week or ten days, owing to lack of funds.

That the lease of the north millpond was received from the officials of the Eastern railroad on Friday last by Mayor Treat, and by him referred to the city solicitor, to be signed if found correctly drawn.

That a lively stream of water is running over the dam at Eldredge's brewery, into the north pond.

That Albany street is in bad condition and needs fixing, George Boss having had a spring of his meat cart broken there on Friday.

Thomas K. Locke, Francis W. Ham, Hermas W. Oxford and Horace E. Frye have been drawn as jurors from ward two, to report at Exeter on the 23d inst., for duty in the Supreme court. It is more than probable that the court will adjourn before the date mentioned.

The wife of Passed Assistant Paymaster Z. T. Brown, U. S. N., with her daughter, arrived in this city on Monday evening of this week from the Pensacola navy yard, to remain a few days.

The "cooking utensil" recently patented by Mr. Charles W. Taylor of this city is a quite simple but very ingenious device, intended to prevent the odor from cabbage, onions, etc., when cooking, from permeating the whole house. It is by far the best thing of the kind yet invented, and can be used with either boiler or frying pan; and we should judge that if a stove had "draw" enough to it to cook anything at all, this contrivance would prove effective in preventing the escape of offensive steam and gases. The castings are made by Critchley & Whalley of this city, and the complete "utensil" is sold by Mr. Taylor at $1.50; he has sold between forty and fifty since Feb. 20th, and ladies who have had them in their kitchens border on extravagance in language when speaking of their merits.

The grand jury at Exeter failed to find an indictment against Mary Jellison, the young woman charged with stealing a pin from Miss Bertie Grant, daughter of the proprietor of the Gibson house.

The *Journal* of the 14th inst. says: "The following vessels, built in Portsmouth since 1860, were omitted in our list of last week. There may be others. Mr. Wm. F. Fernald launched schooners Ella Amsden, Anna Amsden, and Emma L. Porter, each 300 tons; Albert Clarence, 150 tons; and Lettie Lenwood, 120 tons. Messrs. Tobey & Littlefield launched bark Sarah Smith, of about 600 tons."

The Grand Lodge of Good Templars of Maine met in Lewiston on Tuesday, the 10th inst. Among the visitors was George A. Bailey, G. W. C. T. of New Hampshire. Mrs. J. T. Mason, G. W. V. T. of Maine, who by her reading added so much to the interest of the evening exercises on the occasion of the recent meeting of New Hampshire Good Templars in Portsmouth, gave some choice readings before the Maine Grand Lodge; and Mr. George Beatty, of Kittery, favored the gathering with a fine entertainment consisting of songs and imitations. The order was reported to be flourishing in Maine, there being now 305 lodges in the state, with a membership of 20,651; eighty-two lodges were instituted during the previous year.

Miss Belle Cushman Eaton of Boston, a grand niece of the late Charlotte Cushman, and a gifted public reader only seventeen years of age, gave some readings at South Newmarket on Wednesday evening, the 11th inst., giving excellent satisfaction. Miss Eaton is a pupil of the New England Conservatory of Music, and appears to inherit some of the histrionic talent of her distinguished aunt.

Several farmers in Newington commenced plowing on high ground this week, but no great amount of work in that line was done.

We are indebted to Mr. Ed. H. Hall for a copy of the Denver (Col.) *Republican*, "Colorado-Utah edition," a sixteen-page paper with an immense woodcut of the Union railroad station at Denver occupying nearly the whole of the first page, and a bird's-eye view of Salt Lake city and part of the valley taking up more than half of another page. Besides these, there are eight or ten pictures of special place of interest on the line of the Denver & Rio Grand railway, public buildings, hotels, etc., and a large amount of reading matter.

General Road Master Bissell of the Eastern railroad, accompanied by Mr. Snow, roadmaster of the Portland, Saco & Portsmouth road, came from the eastward Tuesday forenoon of this week on an extra, the car immediately returning to Portland. General Manager Tucker and others went east by the 11:05 o'clock A. M. train the same day, and returned at 4:50 P. M. on an extra composed of one passenger car and the directors' car, both being full.

Six new engines are now in course o construction for the Eastern railroad, which will make the number belonging to the road 112; it already has the best rolling stock of any railroad in New England.

In the case of Franklin Low vs. the Concord railroad, appeal from the award of the commissioners for land damages, the jury in the supreme court increased the compensation allowed from $5,500 to $10,241.

One of the changes projected by the Eastern railroad company is to have the North Conway freight stop at Conway junction, instead of as under the present arrangement, coming through to this station. This will involve the having of a shifting engine at that point, to distribute the cars going east or west.

The schooner E. A. Creed, belonging to Laighton Bros., of the Isles of Shoals, was hauled up to Broughton's wharf from the south end on Friday, having been overhauled and put in thorough repair by Mr. Warren Keen.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

SPRING OPENING.

WM. S. BUTLER & CO.

Take pleasure in announcing that the alterations in their store are now completed, and that they are occupying Nos 90, 92, 94, 96 and 98 Tremont Street, and 1 and 2 Montgomery Place.

The second floor is now also open for business, and on the third floor is a Ladies' Reception Room, where every attention will be given to the comfort of our customers.

These alterations will give us much-needed additional room for the display of our stock, and will afford to the ladies Better Accommodations and Light than are found in any other store in our line.

FIRST
OPENING
— OF OUR —
TRIMMED MILLINERY!
DEPARTMENT.

In order to place this department at once in rank with any first-class millinery establishment, we have secured the best talent to be had to give our Hats that beauty and elegance which is consistent with refined taste, at popular prices to suit all trade.

The success of such a department has never been tried in this city, a department where STYLISH TRIMMED HATS are sold at but small advance on the cost of hat and trimmings, and we trust that the ladies of Boston and vicinity will avail themselves of the opportunity to leave their orders early, so they can receive proper attention.

OPENING
— OF OUR —
Cotton Underwear Dep't.

In order to place this department properly before the public, we shall offer at less than cost our inaugurating sale, as follows:—

Lot 1. Chemises, Drawers, Corset Covers, for Ladies and Children, at 25c. each.

Lot 2. Chemises, Drawers, Skirts, Night Dresses, Hamburg trimmed, at 50c. each.

Lot 3. The same, at 75c.

Lot 4. The same, at $1.00.

We refrain from giving a description of each and every article, and prefer giving good cloth and good trimmings to advertising the different clusters of tucks, etc., and showing a poor article.

☞We hope ladies will avail themselves of this sale, as we shall not feel able to continue it for any length of time.

OPENING
— OF OUR —
Straw Goods
DEPARTMENT.

This department has been placed at the rear part of our store, and has been made the most attractive place in Boston.

The department faces a sheet of mirror, 50 feet in length and 9 feet in height, so as to give every opportunity to the purchaser to see at a glace whether a hat is becoming or otherwise.

The following New Shapes will be offered at our opening: The Critic, Fedora, Iolanthe, Mignon, Poppy, Patti, Thursby, Nautilus, Casino, Sprite, Marquise, Servia, and many others.

HORSE CARS pass our door from all railroad stations, a great convenience to out-of-town patrons.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who desire these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, a volume of 300 pages by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25, by mail, post paid, on receipt of price. Illustrated sample six cts. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a bolder medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or consulting with the author, who may be consulted on all diseases requiring skill and experience. Address,

Hartwell Smith, of Sandwich, had one of his legs broken while wrestling recently.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Geo. D. Lawrence, of Sandwich, had three ribs broken by a piece of board which was thrown from a saw in his mill, a few days since.

"Our life is March weather," wrote the illustrious Emerson, "savage and serene in one hour." Wheat Bitters is a savage foe to Brights disease, and all blood disorders. Its use makes life serene. Emerson's metaphor is fanciful. The effect of Wheat Bitters is practical, settled fact.

Rev. John Ferguson, formerly pastor of Christ church at Exeter, has been chosen to a professorship in Trinity college.

Somebody once wrote that "none so old as those who have outlived enthusiasm." The patrons of Wheat Bitters are always enthusiastic. It cures shattered constitutions, and will add years to any man's life. The druggist all sell it at $1 per bottle. Everybody needs a bottle.

On Wednesday, April 4th, Jasper Smith of Alstead, a farmer, had his arm shattered by a shot-gun in the hands of one Moultrop. The trouble grew out of disputed possession of a farm owned by John Dugan. Moultrop was arrested.

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it has been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way try to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

IN MINNESOTA & DAKOTA

VARIOUS QUACKS.

Who—Each with his own Pet Scheme—

Cultivate the Field of Human Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, adjudging only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blocks, or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by a competent physician of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Mr. Henry Wallace will move his family to Lynn, Mass., this week.

Commanders Yates and Cromwell, Engineer Whitaker, and Constructor Boush were appointed the quarterly board to regulate the pay of the workmen at the navy yard for the quarter ending June 30th, 1883. Two reports have been made, the majority signed by Messrs. Yates, Cromwell, and Whitaker, recommending reduction, while the minority report, signed by Constructor Boush, recommends that the pay remain undisturbed, believing that such a course is the only one by which the present corps of skilled workmen can be retained. Constructor Boush has been here a short time, but long enough to realize that the government, so far as this yard is concerned, is particularly favored with an excellent class of mechanics.—*Journal.*

At Salem, Mass., on Friday evening, the 13th inst., as Barlow & Co.'s minstrels were performing in Mechanics hall, some parties entered Howard hall below, where the baggage of the company was stored, broke open the trunks, and stole goods valued at $1,300, consisting of diamonds, silk handkerchiefs, gold chains and other valuable articles. Entrance was effected through the windows. This is the company that will play here on Tuesday evening.

The Princess Louise arrived in Boston on Saturday evening from Newport, R. I., and with her husband, the Marquis of Lorne, and suite, put up at the hotel Brunswick. The British man-of-war Tenedos, from Bermuda, with the princess on board, arrived in Newport harbor at nine o'clock Saturday morning, having been prevented by fog from entering the harbor the night before.

"It is not necessary to enter in particulars in reference to the complicated organic and functual difficulties to which the more delicate classes of American women are subject; but we take pleasure in saying that Mrs. Lydia E. Pinkham's Great Remedy for all these troubles has an unbounded popularity.

The Alabama claims court has completed arranging its docket. There are now 5,770 cases on it, divided into two classes. First, claims for destruction of vessels and cargoes, and second, claims for war premiums. There are 1,591 of the first class, and the remainder of the second. The cases cannot be considered in their regular order because they are not prepared. One hundred cases have been tried.

***Fools take to themselves the respect given to their office." But Kidney-Wort commands respect for its own solid merits, tested, tried and found not wanting in any essential principle required for the cure of dyspepsia, piles, malaria, and all diseases of the kidneys, bowels and liver: Prepared in dry and liquid form.

The steamer City of Merida, before reported as beached near Norfolk, Va., after being in collision with an unknown schooner, was towed to Norfolk on the 13th inst.

Skill in the Workshop.

To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organic trouble appears, take plenty of Hop Bitters. His system will be rejuvenated, his nerves strengthened, his sight become clear, and the whole constitution be built up to a higher working condition.

A successful revolution in Hayti is announced. Gen. Boyer Basslay with an army of 103 men having captured and fortified Miragoane, and since taken three more towns.

Only Two Bottles.

Messrs. Johnston, Holloway & Co., wholesale druggists, of Philadelphia, Pa., report that some time ago a gentleman handed them a dollar, with a request to send a good catarrh cure to two army officers in Arizona. Recently the same gentleman told them that both the officers and the wife of Gen. John C. Fremont, Gov. of Arizona, had been cured of catarrh by the two bottles of Ely's Cream Balm.

Charles Smith, a well-to-do farmer living four miles north of Earlville, Iowa, went to his barn on the morning of the 13th inst., where his two sons, aged nine and thirteen years, were at work, and killed them with an axe. Returning to the house, he killed his wife with the same weapon. He attempted to kill his two daughters, the only remaining members of his family, but they succeeded in reaching a neighbor's house in safety, and gave the alarm. When they returned it was found that Smith had killed himself by cutting his throat with a butcher knife. No reason is assigned for the deed.

Now is the time to treat catarrh of long standing. Ely's Cream Balm reaches obstinate cases, where all other remedies fail. It is not a liquid or snuff and is easily applied. Price 50 cents.

When you wish to remove all feeling of weakness, weariness, lack of energy, try a bottle of Brown's Iron Bitters and see how greatly it will benefit you. It surpasses all known remedies as an enricher of the blood and a perfect regulator of the various bodily functions. Ask your druggist.

A telegram from Hong Kong, dated the 11th inst., says the French minister to China had arranged the Tonquin affair satisfactorily in December, but the new French minister rejected the arrangement. The result, the despatch says, will probably be a long and costly war for France. China will use her best troops, which will probably be commanded by European leaders, and will perhaps have the assistance of a European ally.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr. Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever prescribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

Popular Clergyman Under A Mule.

It was in the Yosemite, on a steep and rugged mountain road. The party numbered about a dozen, and the jolliest of all was a well-known dominie. Somehow or other his mule stumbled and rolled over and over, the dominie clinging fast to him. When they came to a stop the mule was on top. Both the dominie and the mule were badly bruised. One of the party happened to have a bottle of Perry Davis's Pain Killer. In a few hours they were ready to proceed on their journey.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

Bedford, province of Quebec, is excited over a death by criminal malpractice, of which Jennie Hanver was the victim. The skating party who visited us a short time since by special train from Dover, were so well pleased with their good time and cordial reception by our people that they propose to pay us another visit next Tuesday evening, April 17th. They will arrive by special train with Sawyer's band at eight o'clock. The party will be much larger than before, as a large delegation from Great Falls will join them. Our skating admirers are already making preparations to give them a welcome worthy of old Portsmouth, and we predict that our neighbors will remember their visit long and pleasantly.

Owing to the failure of the late Congress to pass a river and harbor bill at its last session, the work of removing obstructions from the Cocheco river will cease Nov. 1st, and in Portsmouth harbor on Nov. 30th. In Boston harbor the work will cease June 30th; in Portland harbor and Kennebunk river, on Nov. 1st.

Mr. Charles E. Walker pays another dividend to the owners of the schooner Annie F. Conlon on Tuesday.

The daily *Express*, of Fort Collins, Colorado, under date of April 9th says: "E. H. Hall, of Loveland, is come from Loveland to-day, accompanied by Mr. Wm. D. Grace, of Portsmouth, N. H., who is paying Colorado his first visit."

Mr. R. C. Whicher, who was a member of Co. B, 5th New Hampshire Volunteers, during the rebellion, stopped in this city on Friday on his way from the Soldiers' Home at Augusta, Me., to Boston; his errand to the latter city is to procure a wooden leg, he having been obliged to submit to the amputation of a leg about two years ago, from wounds received at the battle of Cold Harbor, Va., June 3d, 1864. He met in this city some of his old comrades, and while here was the guest of the G. A. R.

The schooner Damon, Haskell master, in working down the river Saturday forenoon with a light wind took the mud on Pumpkin island; it was nearly low tide at the time, and the schooner came off on the flood unharmed, and proceeded on her way as far as the narrows, where she again struck, on the Peirce's island side, soon getting off and coming to an anchor above the narrows. At a later hour she made another attempt to get to sea, and this time succeeded.

Since the gates of the north pond have been opened the silt which has been carried out by the retreating tide has very sensibly filled in the bed of the river above the Noble's island bridge, so that on a recent low tide the channel was not more than forty feet across at the surface.

The schooner Julia A. owned by Mr. William B. Keen, has been thoroughly repaired and repainted, and looks as fresh as if just ready to make her maiden trip.

The schooner Mary S. Hontvet, fitting out for the Grand banks, will ship a new crew, as those who sailed in her during the winter have reshipped in other vessels.

Four vessels arrived at this port on Sunday, bringing in a total of 9000 lbs. of fish. The schooners Christie Campbell and Albert Woodbury were in Boston on Saturday with good fares.

At the April meeting of the New Hampshire club, held at Young's hotel in Boston, an invitation was received for the club to hold the June meeting on board the steamer City of Portsmouth, of the Portsmouth & York beach line; the matter of accepting the invitation was left with the executive committee of the club.

R. H. White & Co., of Boston, sent to this city recently a large number of their illustrated catalogues for the spring and summer of 1883. It is a book of over two hundred and fifty pages. Messrs. White & Co. make a specialty of sending these books to towns and cities where the local dealers do not advertise, and as the head of the mailing department remarked recently, "This is where the conservative dealers in other places do not come in competition with us; and from some of these localities our orders, as well as our daily visitors, would astonish one unfamiliar with our trade."

The navy yard ferry steamer Emerald will ply between the yard and this city only on Wednesdays, Saturdays and Sundays from now until the 26th inst., owing to a lack of funds. On other days of the week the steamer Mystic, Capt. Trefethen, will make trips between the two government landings, keeping as close to the Emerald's time table as she can without omitting her own regular trips. Whether the Emerald will be given "full time" after the 26th, or hauled off altogether, we are not informed.

The steam pile driver was again at work last Sunday on the Portsmouth & Dover railroad bridge at Dover point, driving additional piles for strengthening the bridge. The train with the workmen left this city at four o'clock Sunday morning.

Mr. M. Garrity has now on draught the Milwaukee bock beer, at his saloon No. 23 Daniel street.

A locomotive combining several novel features appeared on the Eastern railroad last week. It was built by the Taunton Locomotive Works, and is called the "Robert L. Walker" after the inventor. It has a double fire box, so arranged that one is kept at full draught while the other is being supplied with coal. It is also claimed to be a perfect smoke consumer, and the experimental trips which this engine is making on the several roads demonstrate the correctness of the claim. The engine is said to be a beauty. It was reported that she would arrive at this station on Saturday, at three o'clock P. M., but she did not return to Boston from a trip to Gloucester in time to take the train down. Quite a number of interested persons collected at the depot to see her, but got disappointed.

The schooner Mary Willey, Capt. Williams, is to load bricks at York for Boston. She sailed from this port Saturday.

The steamer James Sampson hauled off from the Kittery Point line on Saturday evening, to receive a general overhaul before the summer's work commences. The steamer Fearless made a satisfactory trial trip on Saturday, and will commence running in place of the James Sampson today.

The schooner R. S. Leaming arrived from Philadelphia on Saturday, the 14th inst., with 757 tons of coal for the gas company in Manchester. The Uncle Sam arrived from Rockland, Me., the same day, with 575 barrels of lime to go over the Concord railroad; and the British schooner Pleasantville, Publicover master, arrived from Bridgewater, N. S., with 2700 ties to the Eastern railroad. Eight or ten vessels loaded with ties are reported as being bound from the British provinces to this port. The schooner G. W. Raitt, with a cargo of bricks from Eliot for Boston, and the Loella, Amee master, with sixty-five cords of wood from Kittery for Mr. Choate Burnham of South Boston, sailed on Saturday. The schooner Adeliza will sail to day for the West Indies, where she will load fruit for north of Hatteras.

Mr. John Wentworth, with his family, moved from this city to Greenland on Thursday of last week.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINCKLEY,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

RETURN OF THE "SONS."

The committee of '73 on the Return of the Sons of Portsmouth invite the attendance in the Common Council chamber, this (Monday) evening at 7:30, of all citizens who are in favor of having a reunion in this city of the absent sons and daughters on the coming 4th of July, in accordance with the resolution passed at the reunion ten years ago.

A SWAN IN THE POND.

The steamer Swan entered the north millpond on Friday afternoon last, passing through the gates in fine style at high water, under the skillful management of Rear Adm. Nelson (N. Downing.) She is about the size of a schooner's yawl-boat, being twenty feet long, and five feet beam, and she draws about fifteen inches of water. On her first trip she had as passengers his honor Mayor Treat, and Ald. Sampson, of the special committee on the north pond; another member of the committee, after a careful inspection of the steamship, concluded that he was too valuable to be wasted in experiments, and that he would stop on shore, which he proceeded to do. The steamer went tearing up the northern shore of the pond at the rate of several knots an hour, some spectators thinking that even this speed was exceeded; and everything went well until the cruiser reached Hale's point, on her return trip down the southerly side of the pond, where the top of the earth and the bottom of the ship came in contact, and stuck together. After the vessel was floated off the point by the rising tide no further obstacle was encountered till she reached the lower end of the pond, where Clam island got exactly in the way, and was vigorously thumped in consequence, as it deserved, the steamer remaining on top of the island several minutes, when she came off, landed her passengers, and was made fast to the bridge. It is said a harrow, or drag of some kind, is to be fitted to the steamer, to be hauled through the mud for the purpose of stirring it up.

ENFORCE THE DOGLAW.

The street commissioner, and one of his neighbors, a short time ago lost some hens. Nineteen birds belonging to Mr. Ham, and nine belonging to his neighbor, were killed by dogs. Now a bill for the hens, at $1 each, has been put in for the city to pay. A very good price for hens, we should think.—*Times.*

A dollar is not a very high price for a good hen, and would go but a short way toward paying for a fowl of some of the fancy varieties; and a dollar each is certainly no more than the city should be forced to pay for every hen killed by dogs, no matter how inferior in breed the fowls might be.

The city swarms with dogs of all kinds, some of them quite valuable—to their owners—but most of them worse than worthless. A city ordinance provides for the taxation of all dogs, makes it the duty of the city marshal to cause all unlicensed dogs to be killed, and fixes a penalty to be paid by the keeper of any house in which an unlicensed dog is harbored. This law, if properly enforced would rid the city of two-thirds if not of nine-tenths of the worthless curs, and to that extent would reduce the likelihood of claims for damages committed by dogs being presented to the city; but the law is not enforced, the dogs are allowed a free swing, and it is only just that the city should suffer the consequence of its own neglect, rathers than that the individual should.

There may be, and probably are, some licensed dogs in the city; but there are very few. In years past, at various times, there have been spasmodic attempts made—not really to enforce this law, but to make it a means of income to the city, and in some years several hundred dollars have been raked in from this source; but of late not even this much has been done. If the city will not aid in repressing the dog nuisance by collecting the dog tax, it deserves to be itself taxed to pay for the damages done by the dogs.

GOSSIP'S SAY

That a skating rink will be held in Franklin hall on Tuesday and Thursday evenings of each week hereafter.

That there will be no rink Thursday evening of this week, as the hall is engaged by the Portsmouth Cavalry, who on that evening will there entertain the Strafford Guards of Dover.

That Mr. Wallace Lear is the best gentleman performer, and Miss Clara French the most skillful young lady performer, of the local roller-skaters.

That a three-cornered fight, very similar to the triangular duel told of by Capt. Marryatt in "Midshipman Easy," is progressing on the navy yard among those in high places.

That after the navy yard ferry steamer Emerald stops running—if she *does* stop—the naval officers on the yard will have to pay their own fare across the river—if they cross it—for the first time since the yard was established.

That they are quite as well able to pay their own fare as are laborers and mechanics who work on half time.

That an average of two car-loads of groceries, in small packages, arrives in this city daily over the Eastern railroad.

That certain aldermen hint that if ward two does not soon present a candidate for assistant marshal, some other ward will.

That the steamer Swan arrived at the Raynes shipyard on Thursday last, to be put in the north millpond that day.

That she wasn't put in the pond that day, having to wait until Friday for an entrance owing to the state of the tide.

That the Swan does not create much of a swell in the pond, now she has got in.

That a handsome new burgee was flying from the flagstaff at Pocahontas point on Saturday last.

That the Public library is the best-patronized institution in Portsmouth, the rooms being uncomfortably crowded by applicants for books whenever the doors are opened.

That increased accommodations and printed catalogues are needed, and would greatly facilitate the labors of the courteous managers, and lessen the long waiting of the patrons.

That strawberries were sold in Boston on Saturday last at twenty cents a box, and that several boxes at that price found their way to this city.

That the government should at once establish a second-order flashing light on Hale's point, and a first-order fixed light with fog-horn attachment on Clam island, to facilitate the navigation of the north millpond by the U. S. S. "Swan," Admiral Nelson commanding.

That the south side of Congress street opposite Franklin block, from Chestnut street nearly to Fleet street, ordinarily looks as if an orange grove had been struck by a hurricane close by.

That the general cleaning out of cellars and clearing up of backs yards, consequent on the departure of winter, gives the men employed on the city teams about all the work they can attend to,

That nearly forty men are employed in the shipyard of Mr. Wm. F. Fernald at Freeman's point.

That Capt. Joseph Grace, the oldest sea captain in Portsmouth and probably in New Hampshire, who has been confined to his house for several days by a severe cold, is again about town, looking wonderfully hale and hearty for a man of his years.

SUPREME COURT, APRIL TERM.

[CARPENTER J.]

On Friday the case State vs. Harry Villers, indicted under the tramp act, was tried. Evidence enough was offered to prove that Villers was a vagrant and bummer, of just the class of fellows the tramp law was designed to hit. In defence, he made oath that he was not yet seventeen years of age, the law making exception of persons under that age. The jury evidently thought it possible he told the truth as to his age, for they returned a verdict of not guilty. Mr. Villers will probably do his vagabondizing in some other state after this.

THE MINSTREL SHOW.

Of Barlow, Wilson & Co.'s minstrels, who will appear in this city to-morrow evening, strong commendation is given by the press.

The Boston *Advertiser* says "the entertainment is unexceptionable in point of good taste, and offers nothing to 'bring the blush to the check of the young person.'"

The *Post* says "their efforts well deserve a hearty reception," and that "the performance, as a whole, is one calculated to cure the severest fit of blues."

The *Journal* says "the musical selections were good, and well rendered," the burlesque on the Mascot is "very laughable," and the whole "a very lively entertainment."

The *Traveller* says "a long and varied programme was acceptably given," the singing, the skating act, the clog dancing and the burlesque being especially commended.

The *Star*, *Globe* and *Herald* all speak in the same strain, and this universal approval would be convincing that lovers of modern minstrelsy are to have a treat at Music hall to-morrow evening, even were the names of Barlow, West, Schoolcraft, Coes and the dozen other "end men" of the company not a sufficient guarantee in themselves.

Tickets can be secured at Goodrich's.

WILLIAM WHITE NUTTER.

A prominent resident of Newington, died in that town quite suddenly on Saturday afternoon last, having worked in the field that day up to within a very short time of his death. He was the son of Matthias Nutter, who was a ship carpenter, and died in 1818. Mr. Nutter was originally a democrat in politics, but became a free soiler, and in 1855 was elected a representative to the legislature. He married, in 1873, Frances I. Brackett, daughter of the late Isaac Dow, and widow of the late Isaac Brackett. Mrs. Nutter died July 15th, 1880. Mr. Nutter had for many years carried on the Rollins place, the seat of Paul Rollins on the Piscataqua river, one of the most attractive spots in the town. He was of a kind disposition, a man of no little degree of insight, fond of reading, well informed on general topics, with ideas and opinions of his own gathered from reading and reflection. He was born Sept. 22d, 1808.

OSGOOD LODGE--FUNERAL NOTICE.

The members of Osgood Lodge are hereby notified to meet at Odd Fellows' hall on Tuesday, April 17th, at 1:30 o'clock P. M., for the purpose of attending the funeral of our late Bro. Benjamin M. Austin. Dark clothes, white gloves.

Per order of the N. G.
E. T. MORRISON, Secretary.

A large excursion party from Dover and Great Falls will hold a skating carnival in Franklin hall next Tuesday evening, Sawyer's band furnishing the music.

[*For other local matter see second page.*]

The Government Chemist Analyzes two of the Leading' Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

SPRING OPENING.

WM. S. BUTLER & CO.

Take pleasure in announcing that the alterations in their store are now completed, and that they are occupying Nos 90, 92, 94, 96 and 98 Tremont Street, and 1 and 2 Montgomery Place.

The second floor is now also open for business, and on the third floor is a Ladies' Reception Room, where every attention will be given to the comfort of our customers.

These alterations will give us much-needed additional room for the display of our stock, and will afford to the ladies Better Accommodations and Light than are found in any other store in our line.

FIRST
OPENING
— OF OUR —
TRIMMED MILLINERY!
DEPARTMENT.

In order to place this department at once in rank with any first-class millinery establishment, we have secured the best talent to be had to give our Hats that beauty and elegance which is consistent with refined taste, at popular prices to suit all trade.

The success of such a department has never been tried in this city, a department where STYLISH TRIMMED HATS are sold at but small advance on the cost of hat and trimmings, and we trust that the ladies of Boston and vicinity will avail themselves of the opportunity to leave their orders early, so they can receive proper attention.

OPENING
— OF OUR —
Cotton Underwear Dep't.

In order to place this department properly before the public, we shall offer at less than cost our inaugurating sale, as follows:—

Lot 1. Chemises, Drawers, Corset Covers, for Ladies and Children, at 25c. each.

Lot 2. Chemises, Drawers, Skirts, Night Dresses, Hamburg trimmed, at 50c. each.

Lot 3. The same, at 75c.

Lot 4. The same, at $1.00.

We refrain from giving a description of each and every article, and prefer giving good cloth and good trimmings to advertising the different clusters of tucks, etc., and showing a poor article.

☞ We hope ladies will avail themselves of this sale, as we shall not feel able to continue it for any length of time.

OPENING
— OF OUR —
Straw Goods
DEPARTMENT.

This department has been placed at the rear part of our store, and has been made the most attractive place in Boston.

The department faces a sheet of mirror, 50 feet in length and 9 feet in height, so as to give every opportunity to the purchaser to see at a glace whether a hat is becoming or otherwise.

The following New Shapes will be offered at our opening: The Critic, Fedora, Iolanthe, Mignon, Poppy, Patti, Thursby, Nautilus, Casino, Sprite, Marquise, Servia, and many others.

HORSE CARS pass our door from all railroad stations, a great convenience to out-of-town patrons.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

THE ART OF DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheesman, of Philadelphia, says "one third of my patients show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. This known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottle for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors —

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at relief from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits it is recommended and prescribed by the best physicians in the country. She says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the nature of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Liver Complaint *of either sex* this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect as an Angel of Mercy whose solicitude is to do good to others.

The queer ways of juries were illustrated in New York on the 12th inst., in the trial of the suit of Ernestine Cloos against David W. Bruce, the type founder, for breach of promise. The testimony, much of which was not fit to be published, showed that the girl was not as pure as snow, and that she had written to Mr. Bruce demanding money. Bruce, who is an old gentleman, admitted intimacy with the girl, but swore that he always gave her money. The plaintiff claimed that he had led her astray. The jury were out two and a half hours. Their verdict was for $3,792. When they relired they stood: One for a verdict of $50,000 for the plaintiff; four for $5,000; two for $20,000; one for $10,000; one for $1,000; one for $2,000; one for $500; and one for six cents, making an average of $10,991.67. They would have agreed sooner, but the six-cent juror was obstinate. He finally yielded on a compromise. After the jury were discharged several of them admitted that they did not believe there was any promise of marriage, but justified the verdict on the ground that the conduct of Mr. Bruce toward the girl deserved punishment.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

In the trial at Milwaukee, Wis., April 13th, of Scheller, the barkeeper of the Newhall house, charged with setting fire to that building, Mr. Linehan, chief engineer in the Newhall house at the time of the fire, said he was recently approached by J. C. McKenny, attorney for Scheller, and a saloon keeper named Adam Roth, who asked him to swear that the fire was caused by a gas jet in the bottom of the elevator shaft, as that testimony would clear the accused. It was this fire, it will be remembered, by which seventy-five or more lives were lost.

—Dr. Benson's Skin Cure consists of internal and external treatment at same time and it makes the skin white, soft and smooth. It contains no poisonous drugs. $1 at druggists.

Solon M. Lynch, aged twenty-one years, of Fort Ann, N. Y., a student at Middlebury, Vt., committed suicide in the woods near the latter place on the 11th inst. In his pockets were found an ounce vial of prussic acid, partly emptied, two ounces of arsenic, and some blue vitriol; on the ground near by was a razor, with which he had made an incision in one wrist, and attempted to cut his throat.

KIDNEY-WORT

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

IN MINNESOTA & DAKOTA

VARIOUS QUACKS.

Who—Each with his own Pet Scheme—

Cultivate the Field of Human Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue: He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology or introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

In Killingly, Conn., April 14th, Olney Burgess went to the house of Daniel and Henry Burlingcue, brothers, dined with them, and then without provocation shot them both, but not seriously. He then fled, but was arrested and put in the lockup at Danielsonville, where he committed suicide by poison. He said he did not know what possessed him to shoot his friends. A year or two ago he shot a young man named Owen, putting out both his eyes.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr. Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever prescribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

Popular Clergyman Under A Mule.

It was in the Yosemite, on a steep and rugged mountain road. The party numbered about a dozen, and the jollest of all was a well-known dominie. Somehow or other his mule stumbled and rolled over and over, the dominie clinging fast to him. When they came to a stop the mule was on top. Both the dominie and the mule were badly bruised. One of the party happened to have a bottle of Perry Davis's Pain Killer. In a few hours they were ready to proceed on their journey.

Nothing has been discovered to connect Frazier Conliff, the colored man arrested on suspicion of his having been concerned in the murder of Mrs. Etta G. Carlton of Watertown, Mass., with that crime.

Schools of herring are reported as having been seen off Halfway rock, between Cape Ann and Boston.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

A Boston Notion.

The Maverick National bank of Boston, of which Asa P. Potter is president and Col. Jonas H. French is a prominent director, has issued its annual publication for 1883, which contains within its one hundred and twenty-five pages much financial information. It has tables as to public indebtedness showing the amount of debts, state, county and municipal, with the indebtedness per capita of the leading cities of the United States; also where the United States debt is held, in which states registered bonds are owned, etc. It gives an authentic account of the growth of the American manufacturing interests, and has much of this kind of information.

From this little book we learn that the District of Columbia contains more private holders of registered bonds in proportion to its population, than any of the states of the Union. Massachusetts comes next, with 950 bond holders in each 100,000 of population. Then comes New Hampshire with 850 bloated B. H.'s in 100,000 of population; while Vermont comes next with 570, followed by Connecticut with 380, Rhode Island with 300, New York with 290, and Maine with 260. In our state there are 610 holders of $500 and less in amount of bonds, nearly double of any New England state except Massachusetts. There are $4,658,100 in United States bonds held in this state, or .72 of the entire debt, and our bond-holders are 4.02 per cent of the entire number.

The Maverick National bank is one of the progressive institutions in Boston, and it has sold many millions of United States bonds.

The book, which is a very handy one for reference, may be had free of charge by sending to the Maverick National bank, corner of Water and Congress streets, Boston, Mass.

Catching the Eye of the Speaker.

The order of morning business (says Ben Perley Poore, writing in the *Century* of Congress and the "Capitol at Washington,") is unintelligible to strangers, and is merely the successive recognition by the speaker of those members who have obtained from him a promise that they can have the floor. In keeping these promises the speaker often pays no heed to members in the front seats who are endeavoring to attract his attention by cries of "Mister Speaker!" in every note in the gamut, accompanied by frantic gesticulations, and "recognizes" some quiet person beyond them. "I have been a member of the house three successive sessions," said an indignant Tennessean who had vainly tried to obtain the floor, "and during that time I have caught the measles, the whooping-cough and the influenza, but I have never been able to catch the speaker's eye."

Pacific Coast Salmon.

Mr. LeRoy J. Gates, of Eureka, Humboldt bay, on the Pacific coast, states in a communication to the San Francisco *Examiner* that the valuable salmon will virtually become extinct if the causes of the diminution are not remedied. The reason of the great falling off in the stock of salmon in the rivers Mr. Gates states as follows:

By a resort to relays of help the seines are kept running night and day, and the streams are swept from bank to bank as rapidly as possible when the fish are sufficiently plentiful to make it pay even the expense of running. This is continued without rest except for a limited period on Sunday. Such fish as escape the first seines are apt to get picked up at fishing grounds above, or are followed up the stream to their spawning grounds and captured there. The fishermen generally provide themselves with a fine meshed net for the young salmon and a large meshed one for the grown fish. The average catch of young salmon on Eel river, at the best period of the running season, has been known to reach the enormous number of 20,000 a day. Sturgeon are fed to hogs, given away and even thrown away. The fishermen do not want them in the river to bother the seining, and are cleaning the river of them as fast as possible. Besides this, it is known that a large number of Chinamen are engaged along the coast south of the Columbia river in netting and canning the small fishes upon which the salmon are dependent for their subsistence. These young and small fish, including young salmon, move along the shores in schools, and by means of fine-meshed seines and nets are caught by the millions and canned and marketed. This system of robbing the salmon of its food threatens to deprive the people of the Pacific coast of a most valuable and favorite fish. The salmon were so abundant in the streams of New Brunswick and Maine at one time that the fish did not bring a dime apiece. The reckless practices were permitted to go on there till the fish became so scarce as to bring the enormous price of a dollar a pound. Finally a law was put in force in New Brunswick which prohibited the seining of salmon, with severe penalties, and the result is that the supply of salmon in the river is again large.

A sad death occurred April 9th at the Union house in Hampton, of a man about thirty-five years of age, by the name of Hall. He had been sick there several months with consumption, and while knowing that he could live but a short time, would not tell where his friends were until within a few hours of the last. He then said he had a sister who was a teacher in Boston, and a mother in Bangor. Not trusting to the telegraph, Mr. Whittier, proprietor of the Union house, took the next train for Boston to find the sister, and soon returned with her, only to find that the brother had breathed his last a little while before. The sister thought he had been in Portland during the winter, and had written to him there and been surprised by not receiving replies. The body was taken to Boston the following day, to be taken from there to Canada for interment.

Rev. Dr. Rufus W. Clark, of Albany, N. Y., formerly pastor of the North church in this city, preached his farewell sermon in the First Reformed church at Albany on Sunday, the 8th inst., and on the Tuesday evening following took final leave of his parishioners and fellow-clergymen, on which occasion he was presented, very unexpectedly to himself, with a purse containing $5,023.

Speaking of the consummation of the lease of the Eastern railroad to the Boston & Maine, and what might result if the New Hampshire legislature should fail to affix its approval, a prominent railroad man propounded this query: "Would there be anything to prevent the two companies from choosing the same board of directors, and operating the roads every way as a consolidated line?"—*Newburyport Herald.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodjan9,84

A lady in Hampton who has been very successful in cultivating a window-garden, has a variety of plants which are usually found only in out-door gardening, among them being candy-tuft, sweet alyssum, poppy, acanthus, pink, verbena and mignonette, and they have afforded her more real satisfaction than any other of her collection, except perhaps, the winter-blooming fuchsia. In the fall were taken from the garden young plants which had come up from fallen seed of the early blossoming; these were potted in good garden soil, and with little care more than a daily watering they have furnished many little bouquets sent to friends. Their familiar faces and sweet perfume have been much more appreciated than choice rose-buds, or rare exotics from costly conservatories, would have been.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and, through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite, could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

SUPREME COURT, APRIL TERM.

CARPENTER J.

On Saturday, the 14th, George F. Hartford, of Epping, was found guilty of rape on a little girl, and was sentenced to twenty years in state prison.

On Monday, in case State vs. Moses E. Souther, for aggravated assault on his father, the defendant pleaded guilty, and was sentenced to be confined in Portsmouth jail for three months, and to pay costs of prosecution. Parties from Seabrook.

State vs. L. N. Carpenter of Exeter, for embezzlement, was put on trial.

The new docket was called. The number of new entries at this term is seventy-one.

RAILROAD CONSOLIDATION.

It is announced with a good deal of assurance that negotiations for consolidating the Concord, the Northern, and the Boston, Concord & Montreal railroads into one corporation are well advanced, the plan being further for the consolidated roads to lease the Boston & Lowell road if possible. The Boston & Maine and Eastern roads it is said will give all the influence they can bring to bear on the legislature, in support of favorable action on this movement, in return for which the northern roads are to give all the legislative aid they can to the consolidation of the coast lines.

GOSSIPS SAY

That Mr. John Leach of Greenland has declined to accept the postmastership of that town in place of the present incumbent.

That the Burnham farm on Gerrish's island, Kittery, is advertised for sale in the Boston papers.

That the crew of the steamer Emerald were discharged on Saturday last, and that the crew to run her on official mail days and Sundays will be taken from the U. S. S. Leyden.

That the officers on the yard could have kept the steamer running by paying the expenses of the boat, but declined, preferring if they had to pay, to pay to some private enterprise.

That promenaders on Richards avenue, Sunday evening, remarked the merry singing of the frogs.

That the catching of gold fish in the numerous little ponds about Portsmouth is getting to be quite an industry.

That the netting will be placed on both the weirs at the mouth of this harbor this week.

That Mr. Charles F. Shillaber astonished the citizens of Little Rock, Ark., last Thursday afternoon, by gliding up and down the river in front of that city on a marine bicycle, and the papers of the place made very favorable mention of the novelty.

This evening, at Music hall, a grand variety entertainment will be presented by Barlow, Wilson & Co.'s Mammoth Minstrels. Barlow, Wilson, Schoolcraft, Coes, Cal Wagner—all are well known as shining lights in their line, and they are aided by a score of specialists of more than ordinary merit. See advertisement, and then get your tickets at Goodrich's today.

The steamer Swan was fitted on Monday with a drag, a piece of iron a foot or two long, to be hauled over the mud of the north pond with the object of converting the water of the pond into a kind of soup, which on flowing out through the gates shall carry with it the long-growled-about "millpond nuisance."

A gravel sidewalk has been laid on the south side of Hill street, between Vaughan and Bridge streets.

Reserved seat tickets are now on sale at Goodrich's for the entertainment to be offered at Music hall on Thursday evening, the 19th inst., by Frank I. Frayne and his dramatic company, the "company" including trained lions, performing bears and other creatures not usually enrolled as actors. The play, "Mardo, or the Nihilists of St. Petersburg," is of the sensational order.

Jackson & Co.'s Express carried to Boston on Monday sixteen veals weighing fourteen hundred pounds; one of them weighed one hundred and sixty-four pounds.

Mr. Fred B. Coleman has connected his store on Congress street with the Central telephone office.

The Mary Stuart of Janauschek is the most powerful and best received of all the Mary Stuarts on the stage; and that she has no equal, nor even rival, in this line of parts, is certain. The sale of tickets to her performance in Music hall on the evening of the 24th inst., will commence at Goodrich's on Wednesday, the 18th.

The schooner S. J. Lindsey, from Rondout, N. Y., with 700 casks of cement for John H. Broughton, arrived at this port on Sunday. Also the brick schooners Emily A. Staples, D. K. Ham and Triton, all from Boston, light.

Mr. Otis F. Philbrick is going into the coal business on Philbrick's wharf, Water street.

The steamer Clara Batemen towed one of the scows to be used by the Gangway rock contractors over to the navy yard on Monday.

Thirteen piles were driven at the Portsmouth & Dover railroad bridge on Sunday, which is a good day's work, considering the delay caused by the tide.

Timothy Falvey 2d, who lived on Hunking street, died suddenly on Monday afternoon.

The Strafford Guards of Dover, with ladies and honorary members, numbering about fifty couples in all, will arrive Thursday evening on the eight o'clock train. They will be received by the Portsmouth company, who will entertain them with a dance at Franklin hall, and a supper furnished by Mr. Frank Robeck. No doubt the occasion will be one of great pleasure to all. The visitors will return by a special train.

Three divers with their apparatus arrived from the westward on Monday, for the purpose of examining the condition of the piles of the Portsmouth bridge. They are employed by the Eastern railroad, and will commence operations today.

A New York correspondent writes to the CHRONICLE that Mr. Albee's book of poems will be out in a few days. It will be published by G. P. Putnam's Sons, as a 16-mo with 213 pages, and will be sold at $1.25. We presume that the friends of the poet in this city and vicinity will be supplied by Goodrich with copies of the coming volume, which we shall notice as soon after its receipt as our literal critic can sufficiently rise to an appreciation of its contents.

Norman W. Lord on Saturday put up two handsome signs, one on each side of the entrance to his saloon on Vaughan street. They were painted by Jervis, and are fine specimens of ornamental work in that line.

The steamer Three Brothers came down from Newmarket on Monday, and will be employed at present in towing scows loaded with coal to Newmarket and South Newmarket.

Mr. Nathan F. Gilson of Kittery, formerly a grocer on Market street in this city, left for Minneapolis, Minn., on Monday.

Mr. A. S. Zara of Kittery will move his family to Boston this week.

See notice of carriages and harnesses for sale to-day by Auctioneer Wendell, at the Congress street auction rooms.

Mr. F. F. Grant is to be steward of the hotel Wentworth the coming season.

The schooner Mary S. Hontvet is having a jibboom put into her. Most of the crew who sailed in her during the winter have shipped on the schooner Joseph O. Proctor, commanded by Capt. Thomas Jameson of this city. The Proctor has fitted out for fishing on the Western banks.

Mr. Charles E. Walker is putting a run in the monitor of his coal pocket.

Jones, Cook & Co., proprietors of the Bay State brewery of Boston, last year sold 100,620 barrels of ale, an increase of 26,214 barrels over their business of the previous year, and nearly 10,000 barrels more than was sold by any other brewer or brewing firm in that city in 1882. There are employed in the Bay State brewery about seventy men, of whom fifteen are from this city.

The schooner Grace Choate has been repaired and repainted, and looks as good as new.

Capt. Maxwell, who for many years has commanded the schooner Ocean Eagle, of Wells, last fall gave up following the sea, owing to increasing age, and the schooner is this season in command of Capt. Perkins of Wells. She has brought many cargoes of wood to this port from Maine, for use in the up-river brickyards, and has carried many cargoes of bricks from those yards to Boston.

Improvements are being made to the road which leads from the Post road in Kittery across Gerrish's Island to the Thaxter farm, near Sea point. The town of Kittery at the late town meeting appropriated $200 to improve this road; Mr. Thaxter appropriated $75 for the same purpose, and Mr. George W. Patch, proprietor of the Centennial house on Sea point, $25; and a number of the people living on the line of the road are giving the services of themselves and their teams free.

At the recent annual meeting of the Grand Lodge of Good Templars of Maine, Rev. H. C. Munson of South Berwick was chosen grand worthy counsellor, and Mrs. E. H. Mason of Biddeford grand worthy vice templar.

In the appeal of Ranlet & Prescott vs. the Concord railroad the jury awarded the plaintiffs $3,172, against $4,126 allowed by the railroad commissioners and by the mayor and aldermen of Concord.

The freight business on the Maine Central railroad is constantly on the increase. There never has been so much lumber of various kinds shipped from Mattawamkeag as this season. All along the Maine Central line there are great amounts of lumber awaiting shipment

OSGOOD LODGE--FUNERAL NOTICE.

The members of Osgood Lodge are hereby notified to meet at Odd Fellows' hall on Tuesday, April 17th, at 1:30 o'clock P. M., for the purpose of attending the funeral of our late Bro. Benjamin M. Austin. Dark clothes, white gloves.

Per order of the N. G.

E. T. MORRISON, Secretary.

The Government Chemist Analyzes two of the Leading' Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

SPRING
OPENING.

WM. S. BUTLER & CO.

Take pleasure in announcing that the alterations in their store are now completed, and that they are occupying Nos 90, 92, 94, 96 and 98 Tremont Street, and 1 and 2 Montgomery Place.

The second floor is now also open for business, and on the third floor is a Ladies' Reception Room, where every attention will be given to the comfort of our customers.

These alterations will give us much-needed additional room for the display of our stock, and will afford to the ladies Better Accommodations and Light than are found in any other store in our line.

FIRST
OPENING
— OF OUR —
TRIMMED MILLINERY!
DEPARTMENT.

In order to place this department at once in rank with any first-class millinery establishment, we have secured the best talent to be had to give our Hats that beauty and elegance which is consistent with refined taste, at popular prices to suit all trade.

The success of such a department has never been tried in this city, a department where STYLISH TRIMMED HATS are sold at but small advance on the cost of hat and trimmings, and we trust that the ladies of Boston and vicinity will avail themselves of the opportunity to leave their orders early, so they can receive proper attention.

OPENING
— OF OUR —
Cotton Underwear Dep't.

In order to place this department properly before the public, we shall offer at less than cost our inaugurating sale, as follows:—

Lot 1. Chemises, Drawers, Corset Covers, for Ladies and Children, at 25c. each.

Lot 2. Chemises, Drawers, Skirts, Night Dresses, Hamburg trimmed, at 50c. each.

Lot 3. The same, at 75c.

Lot 4. The same, at $1.00.

We refrain from giving a description of each and every article, and prefer giving good cloth and good trimmings to advertising the different clusters of tucks, etc., and showing a poor article.

☞ We hope ladies will avail themselves of this sale, as we shall not feel able to continue it for any length of time.

OPENING
— OF OUR —
Straw Goods
DEPARTMENT.

This department has been placed at the rear part of our store, and has been made the most attractive place in Boston.

The department faces a sheet of mirror, 50 feet in length and 9 feet in height, so as to give every opportunity to the purchaser to see at a glace whether a hat is becoming or otherwise.

The following New Shapes will be offered at our opening: The Critic, Fedora, Iolanthe, Mignon, Poppy, Patti, Thursby, Nautilus, Casino, Sprite, Marquise, Servia, and many others.

HORSE CARS pass our door from all railroad stations, a great convenience to out-of-town patrons.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work just published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

200th edition, revised and enlarged, just published. It is a plain and medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, one cent extra, on receipt of price. Illustrated sample, 10 cts. in stamps. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Extract from the most extraordinary work on physiology ever published. There is nothing whatever that the married or single, or other require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and die for lack of a good dose for Kidney or liver trouble, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cleaveland, of Worthington, says "one-third of our sudden deaths are due to heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! During this period it must have copious supplies.

Dr. Grove a celebrated physician has prepared a specific for all heart troubles and kindred disorders. This known as Dr. Graves' Heart Regulator and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is seriously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing the special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the treatment of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

Mrs. Pinkham's use as Angel of Mercy whose sole ambition is to do good to others."

An Immense Meteor.

A despatch from Fort Worth, Texas, of April 16th, says that on the 15th there fell at Williams' ranch a meteor that covers an acre of ground, is buried a hundred feet deep in the earth, and projects seventy feet above the surface. It made a young earthquake when it struck, broke all the windows in the town, killed a number of cattle, and smashed the dwelling of Martinez Garcia, a Mexican herdsman, burying him, his wife and five children. This sounds very much like a story of a cock and a bull.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

Under the recent civil damage act of Vermont, providing that where damages result from intoxication the party selling the liquor shall be liable, Mrs. Richards of Richmond sues Dan Moore of East Berkshire to recover $5,000 for the loss of her husband, accidentally killed while intoxicated. The case is on trial in the Franklin county court.

Cape Cod shipped 35,000 bbls. of cranberries during the season of 1882. More than 50,000 persons have been relieved of dyspepsia, loss of vitality, liver troubles and indeed, most of the every day ills of humanity—by having used a bottle of Wheat Bitters.

Capt. Carey of the British army, who it will be remembered acquired unhappy notoriety and obloquy from riding off and leaving the prince imperial, Napoleon, in his moment of peril in South Africa, has just died of a broken spirit at Kurrachee, in the Bombay presidency of India, where he has served the last three years with his regiment, the 98th.

For Over Three Months

my son suffered night and day with rheumatism so much so that he was unable to feed himself. Your Sulphur Bitters cured him, and I am truly thankful to say they are an honest medicine.—Mrs. W. H. Carleton, wife of Deacon Carlton, First Baptist Church, Winchester, Mass.

The Cincinnati Society for the Prevention of Cruelty to Animals have got a decision from Judge Higley that the word "animals" in the statutes included every living dumb creature, and that the words "torture" and "cruelty" included every act of omission or neglect whereby unnecessary physical pain or suffering is caused or permitted.

KIDNEY-WORT

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

IN MINNESOTA & DAKOTA

VARIOUS QUACKS.

Who—Each with his own Pet Scheme—

Cultivate the Field of Human

Nature.

There have always been quacks—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and persuade the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic band around your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it has been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only genuine Capcine Porous Plaster. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE". Price 25 cents.

Favored The Plaintiff.

An Arkansas man who was ejected from a railroad car shortly afterward brought suit for damages, and after a long and interesting hearing of the case the judge delivered the following charge to the jury:

"The plaintiff boarded the train for the purpose of traveling a short distance. He had no money—a fact which he frankly confessed. There was plenty of room in the car, so the plaintiff was in no one's way. The train was in the habit of traveling the road—in fact, it has to go along there. The train would have to arrive at its destination just as soon if the plaintiff had not been on board. The machinery would not have been worn any more by hauling the plaintiff. The president of the road would not have been in the least injured. And now, in view of all these facts—that the train had to go any way, that there was plenty of room in the car, and that the train would not have been injured by the plaintiff—I charge you to bring in a heavy judgment in favor of the plaintiff, and then, as a healthful example to all parties concerned, the conductor to be sent to jail for six months, and also that the clerk of this court furnish the president of the road with an account of these proceedings, together with an opinion that he, the president, don't live far enough up the creek to tramp on the coat-tail of this court."

—It was suggested to Henry Ward Beecher the other day that he ought to go to Europe and plead the cause of Madagascar. "Not any more ocean for me," replied the Plymouth pastor. "Never! I agree with Dr. Thompson, who said that when he came on deck the ocean looked like one vast dose of ipecac. One of the attractions of Heaven to me is that there shall be no more sea.' I will visit Europe when I can walk there, or go on wheels."

"I have lived to know that the secret of happiness," said Adam Clark, "is never to allow your energies to stagnate." Where Bitters is a rich blood food, and matchless curative agent. Its use restores flagging energies.

—Brown struck an icy place in the sidewalk, and down he went all in a heap. A gentleman stepped up and helped Brown to his feet, politely remarking, "It is quite slippery, sir." Brown was so mad he forgot to return thanks. "What in thunder did he want to tell me it was slippery for?" soliloquized Brown; "didn't the fool suppose I knew that before he told me?"

Skill in the Workshop.

To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organic trouble appears, take plenty of Hop Bitters. His system will be rejuvenated, his nerves strengthened, his sight become clear, and the whole constitution be built up to a higher working condition.

—According to the decision of an Arkansas judge, the passenger who places his satchel in a seat of a railroad car reserves it for himself. If the window happens to be open and a big fellow who wants that seat comes along, the probabilities are that the valise will be fired out and the owner will get left. The value of a judge's decision depends to a great extent upon circumstances.

—At a fashionable wedding in New York the other day, the ceremony was performed under a floral umbrella. This was probably a little suggestion of the bride's mother, who wanted the groom to understand by the emblem that he ought to put up something for a rainy day.

Diphtheria poisons the blood. Convalescents should take Hood's Sarsaparilla to neutralize and eradicate the poison matter.

—Concerning Hank Monk, the famous stage driver, now dead, the Salt Lake *Tribune* says: "He died simply a dissipated old stage driver; but if in the long ago, when life was bright and hope was exultant, his heart did not receive a wound which changed his whole life, and all its purposes, then a man's face, and acts, and moods and modes of thought are no indication of what he has done and suffered."

WILKIE COLLIN'S last story is called "My Lady's Money." In this country it would have been: "Mother-in-law has got the stamps," or "The Old Woman is Well Heeled," remarks a paragrapher. All Americans do not employ such outrageous slang phrases as the above. In speaking of Ely's Cream Balm, however, they do say: "It's perfect," "It's as fragrant as flowers, and certain death to catarrh," &c., &c. This Balm is not a liquid or snuff, and is easily applied. Thousands of grateful persons attest its efficacy. "One in our family had catarrh for eight years," said R. W. Merrill, Sec'y Phœnix Manuf'g Co., Grand Rapids, Mich. "She ineffectually tried other remedies and several speciality doctors in Boston. Ely's Cream Balm has restored her health and hearing, which were considered incurable." Try it, reader. Price, 50 cents.

—A bad ending: "Well, William, what has become of Robert?" "What, 'ain't you 'eard, sir?" "No! not defunct, I hope!" "That's just exactly what he 'as done, sir, and walked off with everything he could lay his 'ands on!"

Benjamin Johnson, the celebrated English play writer, said, "to speak, and to well, are two things." The patrons of Wheat Bitters all combine this attribute. They speak uniformerly well of the cures which attend the use of the Bitters. Have you tried them, reader?

—The last three prayer meetings held at Abilene, Kas., have broken up in shooting scrapes, and the clergyman says if it happens again, he shall begin to think there isn't much religious sentiment in the community.

*It is not necessary to enter in particulars in reference to the complicated organic and functual difficulties to which the more delicate classes of American women are subject; but we take pleasure in saying that Mrs. Lydia E. Pinkham's Great Remedy for all these troubles has an unbounded popularity.

—"Mean," said the Texas man of his neighbor, "why, there isn't a drop of the milk of human kindness in that man's body. He's got a dog that's an elegant match for Jenk's bull-pup, and he won't let em fight."

*"Fools take to themselves the respect given to their office." But Kidney-Wort commands respect for its own solid merits, tested, tried and found not wanting in any essential principle required for the cure of dyspepsia, piles, malaria, and all diseases of the kidneys, bowels and liver: Prepared in dry and liquid form.

—A Hartford girl, pursued by a ferocious dog, turned and faced the animal courageously and the brute turned tail and fled. And yet she wonders why the young men seem shy about offering to marry her.

When you suffer from dyspepsia, heartburn, malarial affections, kidney disease, liver complaint and other wasting diseases. When you wish to enrich the blood and purify the system generally. When you wish to remove all feeling of weakness, weariness, lack of energy, try a bottle of Brown's Iron Bitters and see how greatly it will benefit you. It surpasses all known remedies as an enricher of the blood and a perfect regulator of the various bodily functions. Ask your druggist.

—A bride complained to her husband that she had been too busy all day to get off her feet once, and that unhappy man, who had already discovered several make-ups in her construction, exclaimed in amazement, "Great heavens, do they come off, too?"

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's elder engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession fallure makes to success. Benson's Plasters are paralleled in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Summer St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Summer street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr. Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever pretended for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

Popular Clergyman Under A Mule.

It was in the Yosemite, on a steep and rugged mountain road. The party numbered about a dozen, and the jolliest of all was a well-known dominie. Somehow or other his mule stumbled and rolled over and over, the dominie clinging fast to him. When they came to a stop the mule was on top. Both the dominie and the mule were badly bruised. One of the party happened to have a bottle of Perry Davis's Pain Killer. In a few hours they were ready to proceed on their journey.

S. A. True, a teamster of Amesbury, Mass., hung himself April 16th. He was fifty years old.

Dr. M. T. Gamble, Farmington, Ill. says: "I prescribe Brown's Iron Bitters in my practice and they give satisfaction."

Wm. A. Simonton, a truckman aged thirty-seven years, of Rockland, Me., hung himself on the 16th inst., while rum crazy.

This is indeed an enlightened age, and yet there are thousands of people ignorant of the fact that a slight cold neglected often terminates in consumption. *Adamson's Botanic Balsam* cures Coughs and Colds as by magic. Trial size, 10 cts. Larger bottles, 75 cts.

A despatch of the 16th inst., from Galveston, Texas, says "The report that a meteor fell yesterday at Williams' ranch is entirely without foundation." Probably very few people believed the yarn from the first.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

Nellie Hubbard, the youngest daughter of Ex-Gov. Hubbard of Connecticut, who eloped with and was married to her father's coachman, Frederick Shepard, four years ago, has been granted a divorce for abandonment. The girl was eighteen years of age at the time of her elopement, and Shepard was thirty; the coachman was illiterate, and in teaching him to read and write, the girl lost her heart and her head.

The Mackerel Fishermen.

On Monday and Tuesday, April 9th and 10th, eleven fishing vessels arrived at New York with fares of mackerel, all caught off Hog island, near the Delaware and Maryland coast; some of the fish were of very large size, but the most of them were about on an average with those usually caught at this season. The names and fares of the successful vessels were as follows: Rush Light, Moro Castle, Glover and J. S. Godfrey, about seventy barrels each; L. S. Reed, forty barrels; P. & C. Small, fifty; Goldsmith Maid, sixty-five; Island Queen, seventy-five; Oceanus, eighty; M. Fernald, 100; and Vesta, 200 barrels. Several fares were sold in bulk at $5 per hundred fish.

The schooners Island Queen and Lettie S. Reed, of Portland, landed 125 barrels of mackerel in New York on the 12th. The schooner Lizzie W. Hannum, of Plymouth, Mass., was reported as having landed her second fare in New York, stocking $1600, the fish bringing from eight to fifteen cents each.

The schooner Nellie N. Rowe, of Gloucester, on the 13th arrived at New York with 250 barrels,—her second fare this season.

The southern mackerel fleet now comprises 110 vessels—seventy-two from Gloucester, nineteen from Portland, nine from Boothbay, Me., and ten from other ports.

The schooner Lizzie Thompson, of Newburyport, bound into New York with 250 barrels of mackerel, was run down and sunk off Cape May on the 16th inst. in a dense fog, by the steamer Nacoochee; the crew of the schooner escaped in their boats, with only the clothes they stood in. A seine valued at $1000 was lost with the vessel.

News and Notes.

Janauschek gave a gratuitous performance to the mill hands of Willimantic, Conn., on Monday afternoon, the 16th inst., to a crowded house. The madame assumed all expense, and played with even more than her usual fervor.

A despatch of the 16th inst. from Dublin, Ireland, says the enquiry made by Mr. Clifford Lloyd into the plot to murder in the Crusheen district, in connection with which a number of arrests have been made, has led to remarkable disclosures, showing that the society called Invincibles, or vigilantes, was an organized band of murderers. Three gunboats are cruising off Cork. It is stated that they are waiting to intercept a vessel from America having on board a consignment of infernal machines.

John A. Andrew Post, G. A. R., of Boston, has unanimously voted to do away with flowers and floral emblems for the decoration of graves on Memorial day, and instead will place on each grave a silken flag twelve inches wide and eighteen inches long, bordered with yellow silk fringe, and mounted on a varnished staff three feet long and having a spear head, each flag having printed on it the name of the post.

The dead body of Mrs. Margaret Patterson was found on Sunday, April 15th, under a large snow bank near West Stockbridge, Mass., having lain apparently many weeks. The woman was a daughter of Patrick Carr, a farmer of Austerlitz, N. Y., living some four miles from where the body was found. The cause of death is not known, though it was probably exposure.

On the 16th inst. a horse and caravan, with three buggies boxed and ready for shipment, were stolen from the Eastern railroad station in Boston.

Timothy Driscoll is under arrest in Boston for fatally stabbing John M. Sullivan with a pocket knife.

Forepaugh opened the circus season on the 16th inst., in Philadelphia, with good success.

John H. Plumb, aged sixty-five years, formerly a prominent railroad contractor in Massachusetts, but of late a dissipated resident of Meriden, Conn., blew his brains out on the night of the 14th inst.

Charles R. Miller, the new editor-in-chief of the New York *Times*, is probably the youngest man holding such a position in New York. He is a Dartmouth graduate, a very bright fellow, a logical and brilliant writer, and a horrible penman.

John Finn, Thomas Finn and John Fahey, all under fourteen years of age, have been sent to the reform school for burglarizing a store in Milford, Mass. They had keys to several residences and places of business.

George H. Smith, financial secretary of the Superior lodge of Odd Fellows at Central Falls, R. I., has been arrested for embezzling $1,145 of the lodge funds. He pleaded guilty, and said he had used the money for family expenses.

The Despatch arrived at Washington on the 17th inst. from Norfolk, Va., having as passengers Secretary Lincoln, Commodore Walker, and others.

Uncle Sam's and Patent Rights.

Last week several unscrupulous Philadelphians attempted to sell on our streets some cough candy on which they had willfully neglected to put the U. S. revenue stamps. Of course, Uncle Sam speedily fined them and confiscated their stock. Yesterday another chap thought to fill his pockets with sundry change by trading on the wide-spread and well known reputation of Dr. Bull's Cough Syrup. Armed with a goodly supply of his choicest "Honeyed Herb Drops," claiming them to be "prepared by Dr. Bull's original recipe," he takes his stand on one of the thoroughfares of our city, reasoning in this way: Dr. Bull's Cough Syrup sells always, everywhere, and to every body; ergo, these "Honeyed Herb Drops," made from the recipe of Dr. Bull, will roll me up such a nice little fortune that—this illusory day-dream is suddenly ended by the appearance on the scenes of the representatives of the *genuine* Dr. Bull's Cough Syrup, whereupon the fellow is compelled to beat a sudden retreat and to leave his spurious goods on the field. Moral.—Unscrupulous dealers, and venders of fraudulent imitations, will find it quite as dangerous to infringe the patent rights of Bull's Cough Syrup as to break the revenue laws of Uncle Sam. —*Baltimore, Md., Sun.*

Schaeffer, the book and news man, who made the big hit in the Louisiana State Lottery the other day, got his money yesterday per Central Express Company. It wasn't much of a package, the amount consisting of three $5,000 bills. Mr. Schaeffer will continue in business, and not allow his good fortune to spoil his one bit. Thus far he has made a great success out of a small beginning, throug work.—*Allentown (Pa.) Chronicle and News, March 23.*

Judge Deming, in the New Haven, Conn., court, has found probable cause for three cases of assault with intent to commit rape by John H. A French Canadian family which arrived at Bangor, Me., recently, consisted of father, mother, and five pairs of twins, the oldest being seventeen years of age.

Reasonably well-to-do were two late English clergymen, whose wills, just proved, dispose of personalties amounting to about $1,150,000 and $685,000 respectively.

It is estimated that not fewer than 10,000 persons now arrive weekly in St. Paul, Minnesota, and are forwarded to the remote northwest by the Northern Pacific and Manitoba lines.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week, and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINCKLEY,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

RETURN OF THE "SONS."

The call for a meeting in the common council chamber, on Monday evening, of citizens favoring a public reception of the returning sons and daughters on the coming 4th of July, was responded to by about fifty persons.

The gathering was called to order by Col. Wm. H. Sise, chairman of the committee of 73, and who ever since that year has had a meeting of the committee in the forenoon on each succeeding 4th of July; Col. Sise was chosen chairman, and Walter H. Page secretary.

Remarks were made by Capt. John G. Moses, J. Albert Walker, Esq., and Alderman Stavers, setting forth the advantages and pleasures which would result from the proposed reunion. Col. Sise gave some figures and details, and explained that $500, properly laid out, would cover all the necessary expenses; and Mr. Walker promptly announced that he would be one of five to make up the sum named. Remarks were also made by Capt. Edward D. Coffin and Alderman Sampson.

A committee consisting of J. Albert Walker, James M. Carr and Dr. John W. Parsons was appointed, to draw up a plan of action to be reported to the meeting on the evening of the 28d inst., to which time an adjournment was taken.

The meeting was quite enthusiatic, the numbers and standing of the gentlemen in attendance, and the interest evinced, going far to ensure the entire success of the projected reunion.

MERCANTILE LIBRARY ASSOCIATION.

At the adjourned annual meeting of the Mercantile Library Association the following-named gentlemen were elected officers for the ensuing year:

President, Wm. G. Billings;
Vice President, Floron Barri;
Secretary, Albert H. Sides;
Treasurer and Librarian, John H. Lowd;
Trustees, Wm. H. Sise, Wm. E. Hadley, J. R. Connell;
Directors, Charles A. Hazlett, Frank L. Pryor, R. H. Perkins, C. N. Wells, Michael Crowley.

GOSSIPS SAY

That the drag which the steamship Swan is wearing herself out in hauling around the north millpond weighs ten pounds, is made in the shape of the letter "T," and would not wake up a sleeping eel if dragged over him.

That there is talk of presenting the stirring-up committee with tin whistles.

That the young men and maidens of Goose point, Christian Shore, had a fine moonlight excursion in the municipal steamer on Monday evening.

That the *Times* reporter on Tuesday made a coasting voyage around the north pond in the steamer Swan, by invitation of Mayor Treat.

That the north millbridge is being repaired and having new planking laid.

That the snobbishness which ten years ago attempted to rechristen "Haymarket square" into "Manhattan park," has under consideration the calling of Market square the "Place de la Strawberry Bank!"

That it is hoped the originators of this proposed change will subscribe liberally toward defraying the expenses of the "return of the sons."

That changing the name of our three-cornered "Parade" to "Market square" was bad enough, and if any further change is to be made, it should be to take up the old name again.

That the "return of the sons" project is in good hands, and with J. Albert Walker as chairman of the committee the city treasury will not be depleted for the sake of making a great but useless "splurge."

That the Boston *Post*, in its "Personals" of Tuesday, says that "Maj. Gen. George Butler and wife, of the Portsmouth navy yard, are at Parker's."

That the original and only genuine cure for fleas on a pet poodle is to hang the animal by the tail to a clothes line, and beat him with a club.

That coal has dropped a dollar and a half a ton in Boston, and it is thought will not go lower this year.

That the stone crusher has given out, and is being repaired by Critchley & Whalley.

That Hon. Frank Jones went to Canada on Tuesday of this week, to buy barley.

The entire teaming outfit of the late Benjamin Canney will be sold by auction to-day, commencing at ten o'clock, at the red stable on New Vaughan street. The outfit includes horses, harnesses, job wagons, timber wheels, hay rack, open buggy, and other articles. See advertisement.

J. M. Tebbetts' spring opening of trimmed hats and bonnets takes place at Nos. 3 and 14 Market street, to-day and to-morrow.

To-morrow evening, in Music hall, "Mardo, or the Nihilists of St. Petersburg," a highly sensational drama introducing trained lions, performing bears and an educated dog, and a startling fire scene, will be performed by the Frank I. Frayne combination. See advertisement.

Barlow, Wilson & Co.'s Minstrels gave a fine variety entertainment in Music hall on Tuesday evening, most of the attractions offered being of more than ordinary merit. The large audience was appreciative, and many of the pieces were deservedly encored. 'Tis a big show in its line.

Mrs. Eliza Marston gives notice that she will continue to carry on the ice business, delivering the ice in quantities to suit, and on the most favorable terms. Orders may be left at A. P. Wendell & Co.'s store on Market square, or sent through the post-office, addressed to Box 1181.

The funeral of the late William W. Nutter occurred at Newington on Tuesday, in the Congregational church, Rev. W. A. McGinley of this city officiating. Quite a large number of the friends of the deceased in that town evinced their respect for his memory by an attendance upon the last rites. Mr. Nutter left a brother, Alfred Nutter, who resides in Lowell, Mass., and three sisters, one of whom is the wife of Benjamin Akerman of Newburyport.

The street commissioner has done a good job in repairing and grading the part of Vaughan street between Deer street and the railroad tracks with crushed stone. The street men were on Tuesday engaged in similar work on that portion of High street between Hanover street and Market square.

The Maverick National bank of Boston offers for sale at 92 1-2 and accrued interest, the second mortgage six per cent bonds of the New York & New England railroad, in $1000 pieces, either registered or coupon. The bank recommends these bonds as a safe and secure investment,—a recommendation to which the high standing of the bank lends much weight.

The divers, three brothers named Phillips, commenced examining the piles of the Portsmouth bridge on Tuesday afternoon, and found some of them in bad condition. Each pile is numbered, and a report made of each one's state. The bridge at Dover point is to be thoroughly examined in the same way.

The steamer Naumkeag was inspected at Newmarket on Monday.

Three British schooners laden with railroad ties were lying at the Eastern railroad wharf on Tuesday, waiting a chance to discharge, their names and cargoes being as follows: Cordelia Vogler, with 1400 ties; Mary E, 1600; Bridgewater, 1350; Rosemary, 1665; and Pleasantville, with 2600.

The schooner Abby Frankfort, Higgins master, from Virginia with 2400 bushels of oysters, arrived on Tuesday.

The painters finished work on the Eastern railroad station in this city on Saturday last.

Mrs. R. W. Sargent, of Kittery, on Tuesday of this week sent to Montana, California and Lower Canada eggs of the Langsham breed of hens, the value of the shipments being one hundred and nineteen dollars.

The schooner Satellite, which was run into by a vessel in the lower harbor some days ago, was on Tuesday lying at the draw-pier of Portsmouth bridge, repairing her rigging and getting up a new maintopmast. She expected to be ready to sail next day.

Editor Chronicle: I saw by your columns of the 14th, that a meeting was called to consider the reunion of the absent "sons and daughters," the coming 4th of July. Permit me to say through your columns that I think many of these sons and daughters, who have lately had to absent themselves from dear old Portsmouth, would deem it of far greater benefit if the large amount of money that will have to be used on that occasion could only be extended toward a good mill, or something, whereby these absent ones might return,—and not only for a day, but to spend the remainder of their days in the dear old home of their boyhood and girlhood. If we ladies only had it in our power, we would put some of the other sex to shame.

LADY RESIDENT.

The steamer Naumkeag came down from Newmarket on Tuesday, having in tow the schooner Harry P. Percy, which had discharged a cargo of coal at Newmarket. She returned to Newmarket the same day, with the schooner Maud Malloch, coal laden.

The schooner Triton, with a cargo of bricks bound for Boston, came down the river on Tuesday.

Mr. James Hooper, formerly conductor on the North Conway freight train, takes the position made vacant by the retirement of Mr. George Spinney, who has moved to Haverhill, Mass.

The Boston *Post* of the 17th inst. says: "The *Traveller*, in one flop, comes over to the support of those who favor the lease of the Eastern to the Boston & Maine railroad. None of the Boston dailies are now fighting against the proposed lease, but we hear that the feeling against it is strong in nearly all parts of New Hampshire, and that there are as yet no signs that the current will set in in the opposite direction."

Proprietors or managers of beach hotels and boarding houses will find in another column of this paper, under the heading "To hotel keepers," an announcement which may be of special value. The articles offered for sale are indispensable in a boarding house or hotel, and will be sold cheap, the owner having no use for them.

Chief Engineer Charles H. Lovering, U. S. N., and Mr. A. D. Mullett, of the commission to investigate and report upon the advisability of selling one or more of the government navy yards, will in pursuance of that duty this week make a final examination of this yard.

—Beecher says Washington was an accomplished swearer. He must have found the accomplishment mighty convenient during some portions of the war.

—It is announced that the coronation of the Czar will be free. That is about the only greatest show on earth where a free ticket would be no inducement for a man to attend.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from inflicrte ition in early life may be avoided and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 5-; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extensive work on Physiology ever published. There's nothing what ever that the married or single can either require or wish to know but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Argus.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while all the time it is the heart that is out of order.

The renowned Dr. Cardinal says, startlingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Benefactress of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1 per bottle, or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. Pinkham, stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is the good of suffering Woman.

Youthful Suicides.

Recently a writer, making some general observation upon French affairs, remarked upon the number of children, of the age of twelve and under, that annually commit suicide in Paris. The writer speculated upon the motive that could have induced the little unfortunates to commit the act. But youthful suicides are to be found in the United States, also. If statistics were taken, the result would probably be discovered to be startling. Shame and fear have sometimes been the motives, mingled, perhaps, with feelings of indignation. Thus children, and particularly boys, who had received or who expected to receive corporal punishment, are frequently found to exhibit little or no hesitation in compassing their own death. We cannot say that the evil is on the increase in the United States, but it certainly does not seem to be decreasing.—*New York Telegram.*

A Lover's Catechism.

A young man of this city who possesses a large share of presumption, has been paying close attention to a very pretty girl, who has given him no evidence of her feelings concerning him until very recently. The denouement was brought about in this way: He had decided to make her a formal offer of his hand and heart—all he was worth—and then he hoped to be indulged in some lover-like demonstrations, the young lady so far being coolly indifferent in her manner to him. He attributed this to maidenly reserve, for it never occurred to him that she was not in love with him. He cautiously prefaced his declaration with a few questions.

Did she love him well enough to live in a cottage with him? Was she a good cook and bottle-washer? Did she think it a wife's duty to make home happy? Would she consult his tastes and wishes concerning her associates and pursuits in life? Was she economical? Could she make her own clothes, etc.?

The young lady said that before she answered his questions she would asure him of some negative virtues she possessed. She never drank, smoked or chewed; never owed a bill to her laundry or tailor; never staid out all night playing billiards; never lounged on the street corner ogling giddy girls; never "stood in" with the boys for cigars and wine suppers.

"Now," said she, rising indignantly, "I am assured by those who know, that you do all those things, and it is rather absurd for you to expect all the virtues in me while you do not possess any of them yourself. I can never be your wife," and she bowed him out and left him standing on the cold door step, a madder if not a wiser man.—*Detroit Post.*

☞The Scarlet, Cardinal Red, Old Gold, Navy Blue, Seal Brown, Diamond Dyes give perfect results. Any fashionable Color, 10 cents.

—The Crow Indians have become civilized enough to bale up rocks with their hay.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a good appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass

—M. Lefebure de Fourcy was examining a student in physics once on a time, and the young man being nervous failed utterly on the first question put to him—a very simple one. "Bring this gentleman a bundle of hay for his breakfast," remarked the disgusted examiner to one of the attendants. "Bring two—the professor and I will breakfast together!" added the student, who thus suddenly regained and asserted his self-possession.

—Dr. Benson's Skin Cure consists of internal and external treatment at same time and it makes the skin white, soft and smooth. It contains no poisonous drugs. $1 at druggists.

—A New York real estate agent gave permission to a telephone line man to place a wire across the top of one of the houses under his charge. The first he knew there were over 100 wires stretched across the property. The side-wall was bulged out, and some of the brick work was loosened, by the weight of the wires. He had given the company an inch, and they had taken, not an ell, but a whole house.

Mr. R. A. Bartt, Hillsborough Bridge, N. H., says: "I took Brown's Iron Bitters for lung difficulty, cough, etc., and received much benefit."

—A bonnet covered with birds does not sing, but the fellow who has to pay for it whistles when the bill comes in.

Don't be Alarmed

at Brights Disease, Diabetes, or any disease of the kidneys, liver or urinary organs, as Hop Bitters will certainly and lastingly cure you, and it is the only thing that will.

—A "bearded woman" was being exhibited at a fair in Paris. At the entrance of a booth sat a cheerful little girl who took the money. One of the spectators, who had been feasting his eyes on the phenomenon, thought he would have a little joke with the pretty child. Taking her gently by the chin, he said—"I say little girl, the woman with the beard is your mamma, isn't she?" "No, sir; she is my papa," was the reply.

"Buchu-Paiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists.

—A man uptown made a wager with a lady that he could thread a needle quicker than she could sharpen a lead pencil. The man won—time, fourteen minutes and forty seconds. It is thought the result would have been different if the woman had not run out of lead pencil inside of five minutes.—*Norristown Herald.*

A French author once wrote, "The tongue is the worst part of a bad servant." Wheat Bitters is a public servant, but a benefactor as well. Every tongue that sounds its praises, as a certain cure for blood disorders and everyday ills, speaks the truth.

KIDNEY-WORT

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

"The International Standard"

Is a bi-monthly magazine of 64 pages, devoted to the preservation and perfection of the Anglo-Saxon weights and measures, and the discussion and dissemination of the wisdom contained in the Great Pyramid of Jeezeh in Egypt. Published by the International Institute for preserving and perfecting weights and measures, at two dollars per annum payable in advance. Address: International Institute, Y. M. C. A. Building, 349 Euclid Avenue, Cleveland, Ohio.

Weights and measures is a subject that will be forced upon the people of these states, and it becomes all intelligent persons to inform themselves on this important subject, and act understandingly, for they will have to act sometime. It is their duty to act upon such subjects first, and then through their representatives; but if they do not, a system that is foreign to their interests may be forced upon them, and cause endless expense and trouble. An attempt has been made, and is still at work, to induce Congress to make compulsory the French metric system without the consent of the people. A bad feature of this is: it is a system that has had to be forced upon the people of other countries, at the point of the bayonet as it were, and even then it was so at variance with the wants and interests of the masses it had to be modified from its essential characteristics that made it so very nice and convenient in the representations of its advocates. This subject is not confined by any party lines, but is as broad and deep as the nation, and the co-operation of all good citizens is earnestly solicited. Do not take for granted the arguments of the advocates of the metric system, but hear the other side; and in the above magazine is the opportunity given, for in it the subject will be thoroughly discussed. ANGLO-SAXON.

Skill in the Workshop.

To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organic trouble appears, take plenty of Hop Bitters. His system will be rejuvenated, his nerves strengthened, his sight become clear, and the whole constitution be built up to a higher working condition.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Hard Lumps in Breast.

Dr. R. V. Pierce, Buffalo, N. Y.: Dear sir—I wrote you some time ago that I thought that I had a cancer. There was a large lump in my breast as large as a walnut, and had been there for months. A despatch of April 17th from Victoria, British Columbia, says: "A shipping disaster, unparalleled at this port, occurred yesterday, four vessels being blown ashore in the harbor. The wind blew a hurricane for fifteen hours, and vessel after vessel parted her cable and was driven ashore. One sailor was killed by a falling spar. The vessels ashore are the ships Gettysburg of Richmond, Me., and Southern Chief of New York; ship Tiger and bark Connaught, British. On shore, little or no damage was done, except to trees and fences. It is said the shipmasters were warned on their arrival to take their ships inside of Esquimaux harbor, but neglected the warning."

That Wicked Ring.

Three or four years ago, when there was a grip on the potato market, there lived near an interior village a farmer named Peters. He raised good crops, paid his depts, and was down on ringe of all sorts. The price of potatoes kept going up and up, and the old farmer grew uneasy. He came into the village every evening to see how the market stood, and although he never said much it was evident that he would burst his hoops pretty soon if things continued in that way. At length the climax came. One evening the old man and his son had a warm corner in a grocery, when a citizen entered with a newspaper in his hand and said:

"This newspaper says that the price of potatoes is certain to advance again before the week is out."

"What!" exclaimed Peters, "another advance in 'taters?"

"Yes, the Lord only knows what is to become of the poor if this potato ring isn't bursted!"

The farmer arose, buttoned his old white overcoat clear to his chin, brought his fist down hard on the cheese-box, and sternly said: "The time has come! I've stood it, and stood it as long as I can, and now I'm going to act. George, we'll go home and get ready to throw fifty-six bushels of peachblows on the market to-morrow, and smash that wicked ring all to pieces!"

—Common sense: During the recent Egyptian war, a officer, it is said, scaled a pyramid unaccompanied, save by a heliograph. He signalled from the summit to the general, "Forty centuries salute thee!" But the victorious one had a heliograph too, and with it spake these words, "Come down directly, and don't make a confounded fool of yourself!"

A COLOSSAL SALE

— OF —

Dry Goods!

— AT —

JORDAN, MARSH & CO.'S,

BOSTON.

From the Manufacturer to the Consumer Direct Without any Intermediate Profit.

$2,500,000 of Desirable Merchandise from the Leading Markets of the World.

To be offered over our Retail counters at the Lowest Prices Ever Known.

The new departure of JORDAN, MARSH & CO., in giving up their Wholesale Business and devoting their entire time to the demands of their enormous Retail Establishment, has been inaugurated by a Colossal Sale of Dry Goods, aggregating $2,500,000 in value.

In giving up the wholesale department, the easiest and most profitable way for us would have been to have made a slight markdown and closed out the stock to our wholesale customers. Instead of doing this we saw the opportunity to show the people of New England that we appreciate their patronage during the last twenty-five years, and decided to remove the wholesale stock to our retail establishment and give the people the whole benefit of cost prices, having cut off the manufacturers', jobbers' and retailers' profits. This is a mark-down of 25 per cent, in all cases, and 50 per cent, in many, from the prices at which these goods are selling to-day.

Bear in mind the fact that these goods are all new and fresh, as they were selected expressly for our spring trade, and they are of such an infinite variety and extent that the wants of all classes of people in all conditions of life can be met, at prices which are not likely to be duplicated in the lifetime of this generation.

The sale was begun on Monday, April 16, and we have such a tremendous crush every day that all of our out-of-town customers who can make their purchases between 8 and 10 A. M. will find it a much more convenient time for making their selections than later in the day. Orders by mail will be promptly filled, when received before the lots are all sold.

See Boston daily papers for particulars of special trains to this great sale.

Popular Clergyman Under A Mule.

It was in the Yosemite, on a steep and rugged mountain road. The party numbered about a dozen, and the jolliest of all was a well-known dominie. Somehow or other his mule stumbled and rolled over and over, the dominie clinging fast to him. When they came to a stop the mule was on top. Both the dominie and the mule were badly bruised. One of the party happened to have a bottle of Perry Davis's Pain Killer. In a few hours they were ready to proceed on their journey.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

George F. Miller, entry clerk for the Wm. Rogers Manufacturing company of Hartford, Conn., silver platers, was arrested April 17th for stealing goods from the factory. Over $1000 worth of spoons and forks were found where he had secreted them, and he confessed to taking a large amount, showing that the thefts during the past year had reached nearly or quite $3000 worth.

It is Not Strange

That the "G. O. Taylor old Bourbon" Whiskey has grown in popularity since its high character has been maintained from the beginning. Druggists and Grocers sell it. See that the signatures of the proprietors, Chester H. Graves & Sons, is over each cork.

The Campaign in Florida.

It is said that the president took Secretary Chandler with him to Florida to be sure of a "fair count" of the fish caught. The region of Florida seems to be an unfortunate one for New Hampshire senatorial aspirants. Hardly have we recovered from the shock incurred by receipt of the tidings of the secretary of the navy being tipped out of the rear of a buckboard before we learn that "Gen. Aaron F. Stevens of Nashua, who is recreating, with his wife, in Florida, has been thrown backward from a team by an accident while riding, and considerably injured in his shoulder. The general, however, is hoping to be able to reach home in May." This set back is one of the incidents to political life, as not all the aspirants can ride on the front seat.

General Butler's "Tyranny."

The Le More Brothers were French makers of gray cloth. Their New Orleans branch house supplied the Confederate army. After Butler captured New Orleans they continued to send gray cloth to the Confederates. For this he arrested them, and punished them without trial. A ball and chain was put on one. They brought a claim for reparation before the Franco-American claims commission, now in session in Washington. Their counsel eloquently described Butler's "tyranny." Ex-Secretary Boutwell, counsel for the United States, tried to show that it was a necessary act of war, but the commission on the 16th gave the brothers $14,000—$10,000 to the one who had borne the ball and chain, and $4000 to the other—to sooth their feelings. The commission was carried away by the French counsel's description of Butler's arbitrary conduct.

News and Notes.

Daniel Curley was on the 18th inst. convicted of the Phenix park murders at Dublin, and sentenced to be hanged.

At Palestine, Texas, early in the morning of the 17th inst., the room of a Mr. Reinalds, in the Arlington hotel, was entered by a thief, and Reinalds was chloroformed and robbed of $3000 in money and jewelry. His wife, waking, was silenced by a levelled revolver. The burglar escaped.

Captain Whythe, of the English steamship Nettlesworth, which arrived at Philadelphia on the 17th inst., from Cardenas with a cargo of sugar, reports that on April 15th, Cape Henlopen bearing twenty-five miles distant, passed a light screen and attachments with the word "Alert" upon it. A short time previous passed a number of petroleum cans and barrels. The wreckage had the appearance of having been but a short time in the water, and was apparently the result of a collision. It is from this supposed that the unknown schooner sunk by collision with the steamer City of Merida was the schooner Alert.

Eight houses in Essex, Mass., were entered by burglars on the night of the 16th inst., and a moderate amount of plunder secured. The thieves, who operated with nippers on the keys left in doors, entered the town on bicycles, and left in the same way.

Frank N. Earle, foreman in the jewelry establishment of Messrs. Hunt & Owens, of Providence, R. I., has pleaded guilty to a charge of stealing $3000 worth of gold stock, which he had lost in stock speculations.

The United States courts in Boston and at other points in the country are to be forthwith closed until July, because of the failure of approriations for witnesses' and jurors' fees.

The Wicked Little Girl.

"Ma's up stairs changing her dress," said the freckled-faced little girl, tying her doll's bonnet-strings and casting her eye about for a tidy large enough to serve as a shawl for that double-jointed young person.

"Oh, your mother needn't dress up for me," replied the female agent of the missionary society, taking a self-satisfied view of herself in the mirror. "Run up and tell her to come down just as she is, in her every-day clothes, and not to stand on ceremony."

"Oh, but she hasn't got on her every-day clothes. Ma was all dressed up in her new brown silk 'cause she expected Miss Dimond to-day. Miss Dimond always comes over here to show off her nice things, and ma don't mean to get left. When ma saw you coming she said 'The Dickens!' and I guess she was mad about something. Ma said if you saw the new dress she'd have to bear all about the poor heathen, who don't have silk, and you'd ask her for money to buy hymn books for 'em. Say, do the nigger ladies use hymn-book leaves to do their hair up on and make it frixy? Ma says she guesses that's all the good the books do 'em, if they ever get any books. I wish my doll was a heathen."

"Why, you wicked little girl; what do you want of a heathen doll?" inquired the missionary lady, taking a mental inventory of the new things in the parlor to get material for a homily on worldly extravagance.

"So folks would send her lots of nice things to wear, and feel sorry to have her going about naked. Then she'd have hair to friz; and I want a doll with truly hair, and eyes that roll up like Deacon Slideback's when he says amen on Sunday. I ain't a wicked girl either, 'cause Uncle Dick—you know Uncle Dick, he's been out west, and swears awful and smokes in the house—he says I'm a 'holy terror' and he hopes I'll be an angel pretty soon. Ma'll be down in a minute, so you needn't take your cloak off. She said she'd box my ears if I asked you to. Ma's putting on that old dress she had last year, 'cause she said she didn't want you to think she was able to give much this time, and she needed a new muff worse than the Queen of the Cannon Ball islands needed religion. Uncle Dick says you oughter go to the islands, 'cause you'd be safe there, and the natifs'd be sorry they was such sinners anybody would send you to 'em. He says he never seen a heathen hungry enough to eat you, 'less 'twas a blind one, an' you'd set a blind pagan's teeth on edge so he'd never hanker after any more missionary. Uncle Dick's awful funny, and makes pa and ma die laughing sometimes."

"Your Uncle Richard is a bad, depraved wretch, and ought to have remained out west, where his style is appreciated. He sets a horrid example for little girls like you."

"Oh, but I think he's real nice. He showed me how to slide down the banisters, and he's teaching me to whistle when ma ain't 'round. That's a pretty cloak you've got, ain't it? Do you buy all your good clothes with missionary money? Ma says you do."

Just then the freckled-faced little girl's ma came into the parlor and kissed the missionary lady on the cheek and said she was glad to see her, and they proceeded to have a real sociable chat. The little girl's ma can't understand why a person who professes to be so charitable as the missionary agent does should go right over to Miss Dimond's and say such ill-natured things as she did, and she thinks the missionary is a double-faced gossip.—*Boston Globe.*

The Newer Arithmetic.

If it cost $5 to make use of one oath in New Jersey, how much will it cost a man to swear all day in Iowa?

A merchant finds himself with $3000 in bad debts on hand, and he divides the amount so as to make his best customers foot the bill. How much does each have to pay?

A political candidate promises the position of market clerk to 320 different friends and after his election gives the place to his uncle. Find words in which to express the feelings of the 320.

A lady pays seven dollars for a pair of fashionable shoes, and endures $14 worth of agony How much will she endure in walking three weeks?

If it takes a fall of twenty-eight feet from a chestnut tree to break a boy's arm, how far must he fall to break his neck?

It takes twenty blows of a hammer in the hands of a woman to drive a tenpenny nail three inches. She misses the nail twice where she hits it once. How many blows does she strike in all, and how far can her voice be heard when she strikes her thumb?

Seeing by Electricity.

Rev. Mr. Gilbert, during an address at Christ church the other night, (remarks the Chicago *Times,*) while speaking of the telephone, asked his audience if they would be astonished if he were to tell them that it was now proved to be possible to convey by means of electricity vibrations of light—to not only speak with your distant friend, but actually to see him. The electroscope, the name of the instrument which enables us to do this, is the very latest discovery, and to Gaidrah of Victoria belonged the proud distinction. The trial of this wonderful instrument took place at Melbourne on the 31st of October in the presence of some forty scientific and public men, and was a great success. Sitting in a dark room, they saw projected on a large disk of white burnished metal the race course at Flemington with its myriad hosts of active beings. Each minute detail stood out with perfect fidelity to the original, and as they looked at the wonderful picture through binocular glasses it was difficult to imagine that they were not actually on the course itself, and moving among those whose actions they could so completely scan.—*Scientific American.*

Notice to Mariners.

Notice is given by the lighthouse board that on May 1, 1883, the whistling buoy now marking the ledge off the southwest end of Block island, R. I., will be removed. On the same date a whistling buoy, painted black, will be placed off the north end of Block island, in place of the black nun buoy now there. This buoy will be in eight fathoms of water, and will mark the northern limit of the reef extending from the north point of the island.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codtjan9,84

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.
MESSRS. C. I. Hood & Co.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,
A. L. HINCKLEY,

OF THE
WORLD.
Mrs. S. A. Allen's
WORLD'S
Hair Restorer
IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

GOSSIPS SAY

That at a recently-advertised auction sale of real estate in this city but one person was attracted to the place of sale, and the auctioneer, after vainly trying to sell him the property, rolled up his red flag and retired in disgust.

That a prominent coal dealer in this city cleared $50,000 in his business last year.

That to-day being Fast day in Maine, there will be no work on the navy yard.

That no city of its size in New England has so good streets as Portsmouth, and no city of its size pays its street commissioner so little as does Portsmouth.

That the poorest lot of roller skates ever brought into town were those furnished by a Great Falls bill poster at the "carnival" on Tuesday evening of this week.

That the ladies of Portsmouth are getting together their ducats in anticipation of the half-fare excursion to Jordan, Marsh & Co.'s on the 24th inst.

That for the first time in its history, Franklin block next week will have every one of its stores occupied.

That Rev. J. E. Robins, of the Methodist Episcopal church in this city, is in attendance on the Methodist Conference in Concord.

Mr. Frank I. Frayne, who appears in Music hall this evening, played in Farmington on the evening of the 16th inst. to a fair house, and gave much satisfaction. An exchange says: "The company is a good one, especially Mr. Frayne, Mr. Chester, and Miss Tessie Dugall. The play is good and very sensational, the animals were really there as advertised, and without exception the lion, Emperor, is the finest and largest ever round in these parts. Then Jack; well, it fills the bill to say, that all he needs is to talk. Taking it all together it was a capital show, and one that is worthy of a large attendance."

The sale of seats in Music hall for next Tuesday, when Janauschek will appear as Mary Stuart, opened yesterday morning, and the number of tickets taken before night indicated that the greatest living tragedienne will be greeted by a large audience. The fact that reserved seats are placed at $1, 75 cts. and 50 cts. need not deter any from attending, as only a few of the front rows are marked at $1, and the 75-cent seats are really better than the higher-priced ones, in our estimation. The rear seats on the lower floor are as usual reserved at 50 cts. each.

On the arrival of the Strafford Guards of Dover this evening, they will be received by a committe of the Calvary company of this city, and taken to Franklin hall. Both companies will appear in uniform, and the committee in charge of affairs will do their utmost to give the visitors an entertainment which will be creditable to themselves and the city.

The officers of the Knights Templar of this city have been invited to visit Newburyport this evening, and join in the reception of the officers of the Grand Encampment of Knights Templar of Massachusetts.

The attention is invited to the advertisement of Jordan, Marsh & Co.'s wholesale-clearing-out bargains, which appears in a column upon our first page. The firm as before announced, intend giving up their wholesale establishment to devote their entire attention to their retail business, and now offer the whole stock, valued at $2,500,000, at retail, to purchasers at wholesale cost prices. This affords a rare chance to procure goods at the lowest prices, and should not be lost sight of. Orders may be sent by mail.

Eleven British vessels loaded with railroad ties arrived at this port from the British provinces between the 14th and 18th insts.

There was quite a carnival of fun in the vicinity of the Concord & Portsmouth railroad station on Wednesday morning of this week; base-ball players, pitchers of cents, players of marbles and hoppers of hop-scotch, gave that region a lively aspect for a while.

It is reported that the British schooner Pleasantville, which arrived here on the 14th inst. from a port in the provinces, has been attached, for the reason that the railroad sleepers which formed her cargo had not been, as was supposed, sold to the Eastern railroad. Some three hundred ties had been taken out and dumped into the pickle box before it was found out.

The schooner Lucy, with stores for Mr. Lemuel B. Caswell's fishing station on Smuttynose island, sailed for the Shoals on Wednesday.

It is asserted for fact that the plans of the managers of the Boston, Concord & Montreal, the Northern, the Concord, the Nashua & Lowell and the Concord & Portsmouth railroads, for a consolidation, are well perfected, and that they will include the wiping out of all the existing corporations and stock, the formation of a new company and the issue of new stock, in varying and just proportions, based on the present value of the stock of the several old companies, in exchange for the old. The corporation will be a New Hampshire one, and will by economy in expenditures be able to compete with lines outside the state for western business.

A short time ago the "Mrs. Jesse James and Man-bear Combination" exhibited in this city, and gathered in a generous harvest of ten-cent pieces. The "man-bear" was merely a human monstrosity, with no particular resemblance to a bear. The young woman who appeared as the widow of the western cut-throat and thief who was murdered by a companion in crime, is said to be a Dover girl.

A lot of land has been surveyed on Noble's island for the piling of several thousand railroad ties.

Several empty gondolas, and two loaded with bricks, came down the river on the 18th inst. Two loaded with coal were towed up river the same day.

A number of gentlemen belonging to this city and Kittery, well known as musicians, have recently been rehearsing with the view of establishing a band in this city. That such a musical organization does not exist here is not for lack of talent, and we hope that those who are at present actively interested in the matter will continue their efforts to make it a success, and have their efforts generously seconded by the public. The names of the present members, and the instruments of each, are as follows: Thomas Critchley, B-flat cornet; Frank Cate, B-flat cornet; Joseph S. Turner, E-flat cornet; Charles M. Lord, clarionet; Joseph Jackson, 2d alto; Arthur Green, alto; Thomas Dean, bass; John Metcalf, tenor trombone; William Dean, bass drum; Willie Anderson, tenor drum. It is intended, if sufficient encouragement is given, to increase the membership to twenty-five or more.

Portsmouth is not the only place in which there are houses to let. Foster's *Democrat*, of Dover, says: "It is reported that there are forty tenements to let in the locality bounded by School, Mechanic and St. John streets, Boston & Maine track, and Franklin street and square. If there was only a revival in the shoe business this state of affairs would not be. We learn that the owners of these tenements will not take less rent than they were receiving two years ago. They hold to the belief that the shoe business will soon be in full blast again in Dover. We hope their expectations will be realized, but would it not be better to lower the rent until the shoe business starts up here again?"

Miss Ida Foster, who went to Allegheny City, Pa., some months ago, to take a position in a large shoe factory there, has returned to this city.

The Portsmouth bridge caught fire on Tuesday evening of this week, but the fire was discovered by the night watchman in time to prevent any serious damage.

The body of Carpenter William D. Jenkins, U. S. N., was brought to this city on Wednesday, April 18th, for burial. Mr. Jenkins was a native of Maine, and was appointed a carpenter in the navy on the 24th of March, 1840, at which time Martin Van Buren was president of the United States, Mr. Jenkins then living in Massachusetts, and being appointed from that state. His last cruise expired in 1868. He was a resident of this city for several years, and was much respected. At the time of his death he was living in Flatbush, N. Y.

The inspection of the engine of the steamtug Naumkeag, on Monday, the 16th inst., was entirely satisfactory. The steamer is officered this year the same as last, Mr. Frank Marr being master and pilot, and Mr. Oscar Marr engineer—both capable men in their respective stations.

Mr. Ira C. Stevens, formerly of this city but now of San Antonio, Texas, is on a brief visit to his old home. Mr. Stevens is engaged in the wool business, and will return about the 1st of May. He reports that upwards of 300 houses were built in San Antonio during the past twelve months.

At the funeral of William W. Nutter, in Newington on the 18th inst., the pall bearers were Messrs. James A. Pickering, Joshua B. Pickering, Thos. Gerrish Furber and Granville W. Knox. There was a service of prayer at the former residence of the deceased, previous to the service in the Congregational church, which were conducted by Rev. W. A. McGinley of this city, the church being filled with the relatives and friends of the deceased. Mr. Nutter left one brother, Alfred Nutter of Lowell, Mass., and four sisters, one of whom is the wife of Benjamin Akerman of Newburyport.

Mr. William H. Goodwin, who has built an elegant residence on Gerrish's island, Kittery, is a native of North Berwick, and for many years was clerk in the office of the late Ex-Gov. Goodwin. He afterward went to Boston, and is now president of the Elliott bank in that city, and a director in the Eastern railroad in New Hampshire. He visited his new house on Wednesday, the 18th inst.

The dry grass in a field near the Kittery railroad station took fire on the 17th inst., and a large part of the surface was burned over.

The finest lot of parsnips seen in this market this season was brought in by Mr. George Leighton of Eliot.

Mr. Edward S. Marshall, of the Marshall house at York harbor, has petitioned the selectmen of the town for a privilege to build a wharf on the sea front in the vicinity of the hotel.

For some time past a dog has been declining the number of chickens and other poultry among the farmhouses on Dover point. The heaviest sufferers were John Roberts, Charles Thompson and Howard Roberts. They organized into a committee of safety and kept on watch for the dog several nights. Last evening while John Roberts was on the lookout, he observed a large-sized dog coming out of a shed with two hogs in its capacious jaws. A shot from Mr. Roberts' rifle brought the brute down, and a second put an end to chicken stealing by that dog any more.—*Dover Democrat.*

The Government Chemist Analyzes two of the Leading' Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.48 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr. Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever prescribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt the truth of these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or the baneful effects produced by the errors of youth, or the close application to business, may be restored and manhood regained.

Third edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt, price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample free of charge. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most criticised work in physiology ever published. Thousands of copies were sold at full price, yet the author, who is a regular graduate of long standing, and one of the most eminent physicians of the day, has now decided to place it within the means of all who need it, and who may be considered as the most competent to give advice on the subject of which it treats. Extract from the Preface: "Nature has ordained that the sexual organs should be the seat of the most exquisite pleasure, and it is only when they are abused that pain and misery are the consequences. Nature, when offended, punishes the offender by withholding her most precious gift, the power of procreation, and by inflicting a variety of painful diseases, which, if not cured, generally lead to imbecility, premature decay, and death. Among the most frequent of these diseases are Spermatorrhœa, or Seminal Weakness, Impotence, Sexual Debility, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Pimples on the Face, Premature Decay, and all those diseases which require the aid of a physician for their cure. Of the disease treated of in this work, we do not hesitate to say that it is the most common, the most destructive, and the most obstinate of any that afflict the human family. Its victims are to be counted by the thousands, and yet no work has been published which has for its object the cure of this class of diseases, or even so much as a chapter devoted to the subject in any other work. The author, in the exercise of his long and extensive practice, has cured many persons who had contracted this disease, and who had been given up by other physicians as incurable. The fact that he has been so successful in curing those who had been pronounced incurable by other physicians, and who had spent hundreds of dollars in vain, is a sufficient guarantee that the author possesses the requisite skill to treat this class of diseases in a manner that is entirely successful in all cases. The author has no doubt that many who have read the advertisement of some quack doctor, and who have been induced to spend their money for worthless medicine, have been led to believe that their diseases are incurable, when, in fact, there is not a single case which may not be cured by a competent physician. Many who have lost their manhood, and who are suffering from the effects of youthful indiscretion, will hail with joy the announcement of a work which promises to lead to their complete restoration to health and vigor. The author trusts that the publication of this work will be the means of preventing much misery and many premature deaths, and he ventures the assertion that no man who shall carefully peruse the chapters which are addressed to his condition need despair of being restored to perfect manhood. The author has no interest in the sale of this work except that of a benevolent character, and he ventures the assertion that no man who purchases and reads this work will think that he has been robbed of his money. The author has no patent medicine to puff, but he offers his services to the public as a gentleman and a scientific and skillful physician, in the confidence that he can merit the patronage he solicits. THE HEART DISEASED

IS YOUR HEART SOUND?

Many people think they have kidney and liver trouble, or dyspepsia, while their hearts are the real cause of all the trouble.

The renowned Dr. Cheadwick, recently said "one third of my patients show signs of heart disease."

The heart weighs about nine ounces, and at every stroke pumps two ounces of blood, and passes through it once in a minute and a half, resting not day or night; therefore this subject should have careful attention.

Dr. Graves, a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as Dr. Graves' Heart Regulator and can be obtained at your druggists, $1, per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Women's Helpers.—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondence here to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

Consequent of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Kidney Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight, and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

Respectfully $1 per bottle or six for $5, and is sold by druggists, who advise inquiries as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaints of either sex this compound is a marvelous and abundant testimonials show.

"Mrs. Pinkham's Liver Pills" says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

The Congressional Record.

The supply of speeches printed "by permission" without having been delivered has at last given out, and the appendix has been put to press. The most remarkable comment on this publication of speeches is to be found in the "Congressional Globe" for the second session of the Thirty-seventh Congress, where two speeches may be found, not delivered, but printed "by permission," which are identically the same, except that one contains a few additional paragraphs. Each speech commences:

"I am reluctant to claim the attention of the committee when matters of more importance might receive its consideration; but in view of the discussions which have already been had in this hall during the present session, I desire in an informal and brief manner to present my views on some of the measures which now engage the attention of Congress and the country."

And each speech is continued in identically the same language, column after column, page after page. The names of the Siamese twin orators were William Allen and R. H. Nugent, and it is rumored that each one bought the speech in good faith from a needy Bohemian. This could not have happened had nothing been printed except what had been spoken in debate.

John B. Bergha, a prominent base ball player in Boston, died April 17th of consumption.

The Postmaster,

Winchester, Mass., says: I am personally acquainted with Mr. and Mrs. Carleton, and was astonished at the remarkable effect of your Sulphur Bitters in curing their son, and its large sale is undoubtedly due to the fact that it is an honest medicine. I know of many others who have been cured by its use, and I do not think too much can be said in its praise. Yours truly. Geo. P. Brown, P. M.

Edward Horton, about thirty years of age, unmarried, was struck by a stone April 17th, in Brockton, Mass., and probably fatally injured.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

KIDNEY-WORT

IS A SURE CURE

for all diseases of the Kidneys and

LIVER

It has specific action on this most important organ, enabling it to move its torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring, to cleanse the System, every one should take a thorough course of it.

SOLD BY DRUGGISTS. Price $1.

KIDNEY-WORT

The Bad and Worthless

are never imitated or counterfeited. This is especially true of a family medicine, and it is positive proof that the remedy imitated is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

HAMPTON BEACH.

What beauty lingered in the air,
When nature left her palace fair,
And wandered o'er the earth new-born,
With seasons all, and night and morn.
'Twas with a hand and heart of love
She showered bounties from above
Upon the spot I'll e'er call home,
E'en all the earth I chance to roam.
O, silver beach so smooth and wide,
Where ever breaks the foaming tide,
You stretch afar from Boar's Great Head,
To Winding river's rocky bed.
The sun's bright rays, thine own sweet breeze,
Seek thy rocks o'er for sky beach-peas,
And finding them thy crags smile,
Bear love tales to a mermaid isle
Opaline waves 'neath all the day;
The moonlight watches her at play
Adown the beach and 'cross the stream,
Bridges making each stray moonbeam.
Aslant the sea and far away,
The smoke of distant cities lay;
And marshes roll forever more
Out from the head of the Great Boar,
Way to the woods, way to the farms,
And hold within their velvet arms
Ponds that steal at early even,
Colors from the sunset heaven.
And looking out across the sea
When right the wind doth chance to be,
A fairy scene I think I spy,
Dazzling white, 'twixt sea and sky;
The Shoals it is, those famed Isles,
Distant from us not many miles;
And with the first pale, trembling star,
The White light proves its beams afar.
And lovers strolling up and down
The glistening beach, the quaint old town,
Tell stories of forgotten lore,
Romances of the days of yore.
Ah! from thy shell across the strand
Enchanted seems the sunset land.
The forest and the far blue hill,
With beauty every heart must fill.
I sit upon the silent shore,
I think e'en now, and ever more,
Yon distant star reflect will be
Forever on the same blue sea.

The Hedge-Hog's Mode of Defence.

The hedge-hog is one of the best protected of living animals. Marching securely under the guardianship of its thorn-spiked armor it recks little of any foe, save man. The formidable array of bristling spines with which the back is more or less covered offers a *cheval de frise* of sharp spikes toward any animal that may present itself as an enemy. Another peculiarity is the power possessed by these creatures of rolling themselves into a round ball by placing the head on the breast, drawing up the legs and curling the body firmly around the members. By this posture the hedge-hogs render themselves invulnerable to almost any animal that may attack them. When in this curious attitude the hedge-hog cannot be unrolled by main force as long as any life remains in the body, for there is an enormously developed muscle which, when contracted, holds the creature in so firm an embrace that it will be torn to pieces rather than yield its point. The spines of this animal are about an inch long, and naturally lie flat on the back, directed toward the tail. But by a peculiar arrangement they are erected when the owner coils himself.

—Your husband is a staid man now, is he not?" asked a former schoolmate of her friend who had married a man rather noted for his fast habits. "I think so," was the reply; "he staid out all last night."

—Dexter has a turnverein, or in plain words, a gymnasium. It is to be conducted on good principles, and will be a good thing for those young men who need exercise, and have conscientious scruples which prevent them from sawing wood.

Skill in the Workshop.

To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organic trouble appears, take plenty of Hop Bitters. His system will be rejuvenated, his nerves strengthened, his sight become clear, and the whole constitution be built up to a higher working condition.

—A Christian who will ask a young man to take a chance in a raffle should not hesitate to invite him to put chips on a faro table. Gambling, as near as can be made out, is gambling, whether the thing is worked for a fair or for a gang of sports.

I am truly thankful that I ever used Dr. Benson's Celery and Chamomile Pills, for they cured my periodical headache." Mrs. J. R. Paddison, Point Caswell, N. C. 50 cts. at druggists.

—"I have shocking news for you," said a gentleman approaching Colonel Wexmore. "Your wife—" Dead, is she?" asked the colonel. "Oh, no. She has returned home." "Oh, Lord!" said the colonel.

*It is not necessary to enter in particulars in reference to the complicated organic and functual difficulties to which the more delicate classes of American women are subject; but we take pleasure in saying that Mrs. Lydia E. Pinkham's Great Remedy for all these troubles has an unbounded popularity.

—A famous North Carolina clergyman, while preaching a few Sundays ago from the text, "He giveth his beloved sleep," stopped in the middle of his discourse, gazed upon his slumbering congregation, and said: "Brethren, it is hard to realize the unbounded love which the Lord appears to have for a large portion of my auditory."

*** "Fools take to themselves the respect given to their office." But Kidney-Wort commands respect for its own solid merits, tested, tried and found not wanting in any essential principle required for the cure of dyspepsia, piles, malaria, and all diseases of the kidneys, bowels and liver: Prepared in dry and liquid form.

—A little news girl in New York related to a reporter that her mother was sick and her father was in a lunatic asylum. The latter failed in business and had never got over it. "What was his business?" was asked. "Speculator." "What did he speculate in?" "Soup greens," was the sobbing reply.

A French author once wrote. "The tongue is the worst part of a bad servant." Wheat Bitters is a public servant, but a benefactor as well. Every tongue that sounds its praises, as a certain cure for blood disorders and everyday ills, speaks the truth.

In the Hop Plaster are united fresh Hops, Gums and Balsams, and its power is wonderful in curing back ache, sprains, bruises, neuralgia, pain in the side or soreness anywhere. Thousands testify to this.

—Young lady (just from boarding school) at dinner table—"Please, Papa, I'd like a leg of the roast chicken." Papa—"You have had one, my dear, and your brother had the other." Young lady (in a sprightly manner)—"Oh, sure enough, a chicken has only two legs. It's a duck that has four."

"I have lived to know that the secret of happiness," said Adam Clark, "is never to allow your energies to stagnate." Wheat Bitteres is a rich blood food, and matchless curative agent. Its use restores flagging energies.

—When she struck him over the head with a tin dipper, for trying to kiss her, he called it the "tintinnabulation of the belle."

R. V. Pierce, M. D.: Dear sir—My wife, who had been ill for over two years and had tried many other medicines, became sound and well by using your favorite Prescription." My niece was also cured by its use, after several physicians had failed to do her any good. Yours truly, Thomas J. Methvin, Hatchers Station, Ga. b

—"But, my dear friend, why did you not marry your husband ten years ago?" "Ah, at that time he was too old for me."

Mrs Cole of Windham, N. H., declares that her life was saved by Hood's Sarsaparilla. She had 37 terrible scrofulous sores.

—In the annual report of the school committee of Grafton, Mass., occured the following soul-stirring paragraph: "Next to the pleasure that pervades the corridors of the soul when it is entranced by the whiling witchery that presides over it consequent upon the almost divine productions of Mozart, Haydn and Handel, whether these are executed by magician concert parts in deep and richly matured melody from artistic modulated intonations of the finely-cultured human voice, or played by some fairy-fingered musician upon the trembling strings of the harp or piano, comes the charming delight we experience from the mastery of English prose."

When you suffer from dyspepsia, heartburn, malarial affections, kidney disease, liver complaint and other wasting diseases. When you wish to enrich the blood and purify the system generally. When you wish to remove all feeling of weakness, weariness, lack of energy, try a bottle of Brown's Iron Bitters and see how greatly it will benefit you. It surpasses all known remedies as an enricher of the blood and a perfect regulator of the various bodily functions. Ask your druggist.

—The Earl of Ashburton has a collection of manuscripts which he values at $800,000. If he were to send them to a magazine editor he would probably discover to his dismay that they were not worth $20. Many an author who has valued his manuscripts at $100 has disposed of them at one cent a pound, after they had been returned "respectfully declined."

WILKIE COLLIN'S last story is called "My Lady's Money." In this country it would have been: "Mother-in-law has got the stamps," or "The Old Woman is Well Heeled," remarks a paragrapher. All Americans do not employ such outrageous slang phrases as the above. In speaking of Ely's Cream Balm, however, they do say: "it's perfect," "it's as fragrant as flowers, and certain death to catarrh," &c., &c. This Balm is not a liquid or snuff, and is easily applied. Thousands of grateful persons attest its efficacy. "One in our family had catarrh for eight years," said R. W. Merrill, Sec'y Phœnix Manuf'g Co., Grand Rapids, Mich. "She ineffectually tried other remedies and several speciality doctors in Boston. Ely's Cream Balm has restored her health and hearing, which were considered incurable." Try it, reader. A COLOSSAL SALE

— OF —

Dry Goods!

— AT —

JORDAN, MARSH & CO.'S,

BOSTON.

From the Manufacturer to the Consumer Direct Without any Intermediate Profit.

$2,500,000 of Desirable Merchandise from the Leading Markets of the World.

To be offered over our Retail counters at the Lowest Prices Ever Known.

The new departure of JORDAN, MARSH & CO., in giving up their Wholesale Business and devoting their entire time to the demands of their enormous Retail Establishment, has been inaugurated by a Colossal Sale of Dry Goods, aggregating $2,500,000 in value.

In giving up the wholesale department, the easiest and most profitable way for us would have been to have made a slight markdown and closed out the stock to our wholesale customers. Instead of doing this we saw the opportunity to show the people of New England that we appreciate their patronage during the last twenty-five years, and decided to remove the wholesale stock to our retail establishment and give the people the whole benefit of cost prices, having cut off the manufacturers', jobbers' and retailers' profits. This is a mark-down of 25 per cent, in all cases, and 50 per cent, in many, from the prices at which these goods are selling to-day.

Bear in mind the fact that these goods are all new and fresh, as they were selected expressly for our spring trade, and they are of such an infinite variety and extent that the wants of all classes of people in all conditions of life can be met, at prices which are not likely to be duplicated in the lifetime of this generation.

The sale was begun on Monday, April 16, and we have such a tremendous crush every day that all of our out-of-town customers who can make their purchases between 8 and 10 A. M. will find it a much more convenient time for making their selections than later in the day. Orders by mail will be promptly filled, when received before the lots are all sold.

See Boston daily papers for particulars of special trains to this great sale.

Popular Clergyman Under A Mule.

It was in the Yosemite, on a steep and rugged mountain road. The party numbered about a dozen, and the jolliest of all was a well-known dominie. Somehow or other his mule stumbled and rolled over and over, the dominie clinging fast to him. When they came to a stop the mule was on top. Both the dominie and the mule were badly bruised. One of the party happened to have a bottle of Perry Davis's Pain Killer. In a few hours they were ready to proceed on their journey.

Ware, the noted horse thief recently arrested in Maine, has owned up in a good many cases, and enabled people to recover their property. Among those fortunate ones are Columbus Burrill and Albert Low of Fairfield, Me., who secure the return of a horse stolen last season, worth at least $300. Mr. Carter of Manchester, Mass., has identified a horse that was stolen from him last February.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

"Manufactured" Naval News.

A recent despatch from Washington to the New York *World* was as follows:

Secretary Lincoln has gone off on a nautical picnic in the Despatch accompanied by Com. Walker and "Com." Wilson. The first named is a real, genuine live commodore; the other is a naval constructor with the rank of commodore—that is, a master machinist and a master carpenter combined under a high sounding title. This is the gentleman who dismissed Black, the colored messenger in the navy department, because Black declined to polish seven pairs of shoes every morning in the commodore's family. These naval constructors insist rigidly on their rank, and actually have had dreams of rank with command—that is, Mr. Naval Constructor Wilson not only wishes to be called commodore, but to command a ship or a naval station, as if he were a line officer.

The Washington *Republican*, aware from the wording of the despatch that it was the production of some naval "dude" or line officers' toady, made a few enquiries, and "learned that Naval Constructor Wilson did not accompany Secretary Lincoln on the Despatch; that a naval constructor is not a master carpenter or a master machinist; that Naval Constructor Wilson did not dismiss a colored messenger named Black; that the said messenger never declined to polish seven pairs of shoes every morning in the naval constructor's family, because he was never asked to do so; that naval constructors, as well as naval doctors, when in charge of bureaus, are entitled to the rank of commodore by law, without being required to 'dream' for a rank; and that finally Mr. Naval Constructor Wilson has never expressed a wish to command a ship or naval station. Otherwise the article is correct."

The Irish Troubles.

The eight men arrested in London on charges of being concerned in a dynamite conspiracy, were arraigned on the 19th inst., and one of them, known as "Norman," confessed, and took the stand as a witness. He swore that he was born in New York state, of Irish parents, his real name being Wm. Henry Lynch; and he was sent to London by a secret society of New York city. He further testified that the Dr. Thomas Gallagher, arrested with the other dynamiters, lived on Manhattan avenue at Green Point, L. I.

Timothy Kelly, another of the men charged with participating in the murders of Lord Frederick Cavendish and Mr. Burke, was put on trial in Dublin on the 19th.

News and Notes.

The sensation in Washington, on the 18th inst., was the finding of indictments against Senator William Pitt Kellogg and Thomas J. Brady. In the afternoon the grand jury came into court and reported that they had found an indictment against Kellogg for receiving money while a United States senator, for services rendered in relation to a contract with the United States witnesses, John A. Walsh, James B. Price, Joseph Cochrain and J. W. Brady. An indictment was also found against Thomas J. Brady for receiving money whilst second assistant postmaster general, for services rendered in relation to a contract with the same United States witnesses as were just mentioned.

Frazier Conliff, the colored man last arrested for the murder of Mrs. Carlton at Watertown, Mass., was discharged on the 19th inst., no evidence having been found against him.

A disastrous flood is reported in Yahualica, Mexico. The river rose with frightful rapidity, swept away several houses and much other property, and drowned six persons.

A foreign "count" has been arrested in Bridgeport, Conn., for forgery.

A fire at the village of Kataw Iwanoskoi, in the government of Orenburg, in Russia, April 18th, destroyed 500 dwelling houses, the telegraph station, post office, a number of stores, a large quantity of coal and wood, and much mining property.

The rush to the store of Jordan, Marsh & Co., Boston, is immense. On the first day of their great sale, Monday, the 16th inst., the doors had to be closed several times during the day, to enable the persons inside to make purchases; and on the 18th it was estimated that at least 4000 persons were in the store at one time, during the latter part of the afternoon.

The schooner Mary J. Russell, Steelman master, bound from Jacksonville, Florida, for Leesburg, New Jersey, was the vessel run down by the steamer City of Merida, April 11th; all hands were saved.

Mr. John Handy Robinson, and Mr. William Randall, will move their families to the Shoals this week.

The British schooner Dahlia, which arrived from Bridgewater, Nova Scotia, on the 19th inst., with 2250 ties to the Eastern railroad, was the twelfth arrival from the provinces within less than a week.

Catching flounders is now in season. One sportsman on the 19th inst. caught thirteen in a short time, but said he wouldn't eat one, and only got them for the hens; but he cleaned them all ready for the fry-pan, notwithstanding his talk.

Mr. J. L. O. Coleman has within a few days sent to Boston by rail sixty tons of old wrought iron.

The schooner Hattie Lewis was on Thursday last reported as being tidenapped up the river, with a load of bricks on board for Boston.

Mr. George H. Sanderson, job printer in Mechanics' block, had three fingers badly jammed in working on the press in his office last Thursday.

There was received at this port on Thursday about 2000 pounds of fish, and 1500 lobsters, from small boats.

Mr. C. W. Andrews, at his market on High street, had fresh mackerel for sale on Wednesday, the 18th inst.—the first lot received in the city this season. Mr. Andrews keeps up with the market, and all the seasonable varieties of fresh fish and the concomitants to go with them can be found at his place, at the lowest prices.

Miss Alice M. Coffin, whose body was brought to this city from Charlestown on Tuesday of this week for interment, was much beloved by her associates. Many very elegant floral tributes were sent to the family from her Sunday school and the city school teachers, and from her classmates and friends,—in such profusion as to entirely cover the grave. She was an only child, and her death is a sad bereavement to the parents.

The horses, carriages, carts and harnesses belonging to the estate of the late Benjamin Causey, sold at auction on Wednesday of this week at fair prices. One of the horses went for thirty-two dollars, and the other was withdrawn from sale on account of claims of one of the heirs.

Mr. Lemuel B. Caswell will leave for the Shoals this week, to get ready for the spring fishing.

Mr. Warren Caswell, of Rye, had planted five and one-half bushels of potatoes previous to the 19th inst. These potatoes had previously been sprouted near the stove, and Mr. Caswell expects to raise about as early a crop as anybody in this vicinity.

Fresh bait was received by some of the fishermen on Thursday.

Mr. E. C. Moody of York planted potatoes on Wednesday, the 18th inst., one day later than he put them in last spring.

Mr. S. C. Forsaith, of Manchester, has bought a piece of land on the York bluff, or Concordville, as it is called, and is erecting a hotel, billiard hall, bowling alley and other buildings, for the accommodation of summer visitors.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her limb was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve, and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

STORER POST, G. A. R.

At a regular meeting of Storer Post, G. A. R., held on the evening of the 18th inst., action was taken upon an invitation from the pastor and wardens of the Court street Christian society, for the post to attend divine service at the Christian church on the 27th of May, the Sunday preceding Memorial day; the post unanimously voted to accept the invitation.

Two new members were initiated.

The quarterly report of Storer Relief Corps (the ladies' charitable organization, auxiliary to the post) was received, and showed the corps to be in good condition, the net gain of membership during the quarter having been fifteen.

John F. Bruce of Fitchburg, Mass., aid-de-camp to the commander-in-chief of the order, paid an unheralded visit to the post, and expressed himself as greatly pleased with the evident interest taken by the members, with the large attendance, and with the work of the post as exemplified by the regular proceedings of the evening.

PISCATAQUA ASSOCIATION.

The Piscataqua Association of Congregational Ministers met at Brentwood on Tuesday, April 17th, with Rev. E. B. Pike. Brothers present, Rev. Messrs. Fitts, Chapman, Robie, White, Stearns, Barnum, Lewis, Peabody, Rand, Drew, Titcomb, Byington, Balch, Hibbard, Barrows, Kimball, Bell, Jackson, Patten, and Hibbard.

Rev. H. S. Kimball of Rochester, moderator, read a concio on "Revivals."

George H. Reed, of Exeter, was examined, and received a license to preach.

A committee consisting of Rev. D. S. Hibbard of Eliot, Me., and Rev. George Lewis of South Berwick, Me., was chosen to prepare resolutions in regard to the death of Rev. Joseph Freeman, late of the 2d parish of York, Me., and presented the following:

Whereas, it has pleased The Master to call our brother, Rev. Joseph Freeman, we, the members of the Piscataqua Association would hereby express our sorrow and sense of personal bereavement at the loss, and record our appreciation of his saintly walk with God, of the faithful manner of his preaching the great truths of the word, and of his ever-acceptable assistance in our meetings; and would extend our sympathies to his widow and children in their bereavement, and to his people in being deprived of his labors.

Revival interest was reported at Milton and Great Falls.

Some over $5000 has been raised toward the rebuilding of the Epping church, and a building committee has been chosen. The building lot has not yet been bought. Aid has been received from churches and individuals outside of Epping.

A sermon was preached by Rev. J. O. Barrows of Atkinson, text Prov. xv: 7, "The memory of the just is blessed; but the name of the wicked shall rot."

The annual meeting of the Piscataqua Missionary Society was held, and the last year's officers were re-elected, viz.: Rev. E. Robie, president; Rev. A. B. Peabody, secretary; trustees, John S. Rand, and Rev. Messrs. Jacob Chamberlain, George Lewis, J. Stearns, and J. C. White.

A vote of thanks was passed to the ladies for the bountiful dinner and supper provided.

The next meeting of the association will be held at Kensington, July 17th.

MARY STUART.

On Tuesday evening next Madame Janauschek will give at Music hall her great impersonation of Mary Stuart, a part in which she has no rival. Of her assumption of this character the Baltimore *American* says:

Her whole performance is one careful, well-rounded and beautifully modeled study. The points are softened or intensified in accordance with the great master's idea. In the earlier scenes Janauschek makes the audience feel Mary's great suffering and her wrongs, but it is not until the great scene between the queens that her strongest power is shown. The beautiful language of the scene in the park was exquisitely given. Then the fear of the meeting, followed by the final rage of Mary, showed the tragic queen of the stage at her best. The company is the best she has had for several years. Miss Emma Wilmot as Queen Elizabeth was quite strong in her scenes with Janauschek, while Miss Henrietta Irving deserves praise for her nurse.

GOSSIPS SAY

That Lotta will play in Music hall on Thursday evening, May 3d.

That the family of the late Thomas H. Fortune are to remove next week to their summer cottage at Kittery Point, and that their desirable residence on State street is to rent.

That Mr. Charles Salter of New York, formerly a resident of Portsmouth, was in this city Wednesday and Thursday of this week.

That a party of shoemakers went fishing on Gunboat shoal, on Thursday, the 19th inst., and were successful in getting a considerable number of good-sized codfish.

That "Pink parties" with pink as the prevailing color for table setting, costumes, flowers, etc., are quite the thing nowadays for either lawn or indoor gatherings.

That the household effects of Wm. C. Robinson, late book-keeper for the Portsmouth brewing company, were put on a schooner lying at Sise's wharf on Thursday last, bound for Philadelphia.

That two hundred and seventy thousand rebate tobacco stamps have been received at the collector of internal revenue's office in this city, for distribution to the tobacco dealers of this state.

That the dust on Thursday last was unpleasantly abundant and obtrusive in the streets of this city.

That there will be few days this summer when the street sprinklers will be needed more than they were on Thursday.

That the steamer Swan was stuck in the mud near Ward's distillery on Thursday, the 19th inst., and remained there nearly six hours, until the rising tide lifted her off, the men not being able to get ashore during that time, owing to the semi-liquid condition of the flats in that vicinity.

That judging from the odor very plainly perceptible on Washington street, near its junction with Court street, there is a pig-pen somewhere in that vicinity.

That a patrol police boat will soon be seen on the river, and that several fish will probably be caught.

SCATTERING SHOT.

Dear Editor: I feel a birthright interest in Portsmouth, and am glad to hear, and to hope everything in its favor. As I sit reading my newspaper in my niece's pretty parlor I am seldom disturbed by the many who come and go, for I am not talkative, and am too old to be a beau, but not too old to be benefitted and entertained by the conversation of my niece's many charming friends.

The other evening I had hardly seated myself, *Transcript* in hand, when quite a company of young ladies, married and single, came in for a chat; catching the name of our Portsmouth *Gazette*, I resolved to float along on the tide of conversation for awhile. I do not now recall *why* the *Gazette* was mentioned, but you will not be displeased to hear that one lady declared that she "never read a paper which had so much in it—perfectly wonderful, the amount of readable matter—little of everything, and quite spicy." The conversation turned upon the contents of a late paper—railroad day, the $5000 spent in Boston, shopping in Portsmouth and Boston; here the ladies all talked at once. As soon as I could take account of stock (so to speak) of their varied opinions, I found that for nearly all substantial dry goods, and small wares, Portsmouth stores compared favorably with Boston; of course the *variety* of selections in choice dress-goods, carpets, etc., was undeniably greater at reliable Boston houses, and the goods cheaper than in Portsmouth; and the question was asked "why, with low rents, Portsmouth could not offer goods at lower prices?"

Here the ladies suddenly changed the subject, and wafted my spirit away to Christ church, as it appeared on Easter evening. They proceeded to praise the choir, they talked of "articulation" and "registers," of "harmonic progression" and "defective modes," of "voices sweet" and "voices ——," of "lack of blending," and "never ending;" compared to the knowledge of these ladies, I saw that my knowledge of music was poverty itself. Then these fair ones, led off by my niece, gave a crack or two at the chimes; true, the majority rather liked "the chiming and the rhyming of the bells," so they (the other belles) soared to yet more lofty prey, even the reverends of the city. Some sharp shot fell from very pretty mouths; they were quite sure that the pastors who had left us, ought not to have gone, and that others could have been better spared. There was some skirmishing about the pulpits; I learned a great amount about inconsistencies, but whether of pulpit or people, I "dinna choose to tell."

At this point the ladies crossed the river to the navy yard, took up "Put's boy," brought him into the circle; now, thought I, it certainly will be, "all hands round." Well, they said he was "too bad" and "too good;" he was "very right" and "very wrong;" they all wanted to see him; my niece wished he was a minister, because he would not be afraid to speak of wrong in church or state; another said "those who were most angry with him, could wish him no greater evil than the place of a common sailor in the navy,"—she did not explain what she meant; I drew my inference, you can draw yours. On the whole they handled "Put's boy" very merrily.

Then these gentle souls wanted to know "what would become of Portsmouth?" and then they mourned like doves, because of the high prices of good entertainments. It was mentioned that for winters passed Dover had provided for the people winter courses of entertainments at most reasonable prices. This statement aroused my niece, whose executive power is something rare. "Ah!" cried she, "if I was a man I would have a course the coming winter for *our* people." "Yes, but the risk," sighed the ladies. "No risk," persisted my niece; "I would have 1500 names pledged as the first step. I would personally ask the people to pledge themselves to take tickets in the fall"—here again, the ladies all talked together, and from the bits of sentences flying about the room I gathered these fragments:

"Be done by responsible people," "Two operas," "Everything as promised," "Two or three first class concerts," "Joseph Cook," "The very best talent," "Helen Potter," "Spend all the money on the course," "Margaret Mather," "Encourage and awaken the city," "Boston Glee Club," "Only needs energy," "Ideal Opera Troupe," "Every fortnight through fall, winter and spring."

During this discussion, I mentally declared that, "if I was younger I would make the attempt for a series of entertainments for Portsmouth next winter, or die in the attempt,"—but here the ladies, never dreaming how they had stirred my old slumbering enthusiasm, began to bid each other good night, and turning to me with sweetest accents, hoped they had not "disturbed me with their chatter?" I gallantly and truthfully replied "far from it," resolving however to mention these ideas to you for private circulation only.

The Government Chemist Analyzes two of the Leading' Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr. Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever pres ribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

126th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, post-paid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. Throughout it nothing whatever that the married or single can either require or wish to know but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can have much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is in the heart.

The renowned Dr. Cleveland, startingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Women," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to have six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

At Hannibal, Mo., on the night of the 17th inst., Jennie Mounce fired into a crowd of men who attempted to break into her house. Her sister and other women inmates had retired. "Murt" Tierney was shot dead, and two other men badly injured. Mounce and her sisters were arrested and locked up.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

KIDNEY-WORT

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with varously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

A Different Story.

The account of the marriage of Ex-Gov. Wm. Sprague of Rhode Island, late candidate of the fusion democracy for governor of that state, was published some weeks ago; and now there comes an appendix.

The *Vindicator*, a paper published at Staunton, Va., on the 16th of March published a statement in which Sprague was represented as having said to the clerk of the court, to the commonwealth attorney, and to Rev. J. D. Hullihon, in order to procure a marriage license and to induce the minister to perform the ceremony, that he brought suit against Mrs. Sprague for a divorce on the ground of adultery; that she answered, charging him with the same offence; that afterwards she withdrew her charges against him, but his remained, and he was granted a divorce on the ground named in his petition, and that the court divided the custody of the children. For the sake of accuracy, the minister reduced the above statement to writing.

Judge Hoardley of Cincinnati and Winchester Britton of Brooklyn, counsel for Mrs. Sprague, in a letter to the *Vindicator* say they can hardly believe it possible that such a perversion of facts could have been made, but that they have seen no contradiction. They ask the editor of the *Vindicator* to publish the facts as they are, in justice to Mrs. Sprague. They then recite that Mrs. Sprague brought suit for a divorce in Rhode Island, charging adultery, cruelty and failure to support. Governor Sprague answered by a cross-bill charging her with adultery. She prepared proof to support all her allegations; but on the trial Governor Sprague and counsel proposed that if Mrs. Sprague would waive proof as to his adultery, he would withdraw his petition and permit the case to proceed on the milder charge of non-support. This proposition was accepted; a decree of divorce was granted Mrs. Sprague on this ground, and she was given the custody of the three younger children, the other child being, under the laws of Rhode Island, not subject to the control of the court. In view of all the facts, the counsel say they have advised Mrs. Sprague to avail herself of the permission of the court to resume her maiden name.

Skill in the Workshop..

To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organic trouble appears, take plenty of Hop Bitters. Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

Private advices from Miragoane, Hayti, state that two government vessels landed about 2000 men there March 31st, who made an attack on the rebels, but were repulsed with a loss of seventy-two killed and 200 wounded and left on the field. The vessels then left for Port au Prince for reinforcements. The authorities at the latter port proclaimed Miragoane as blockaded.

Mrs. Langtry, in an interview reviewing her experiences in America, said that she had been fairly criticised, and adds: "I find that America must have truthful artistic conditions. They think more here of talent than they do in England. There, the principal qualifications seem to be freshness, prettiness, and a certain amount of aptitude. Here, many actresses have grown what would be considered quite *passe*, and yet that is forgotten in their glorious talent."

John Nolan, aged nineteen years, William Russell, aged seventeen, and Thomas Nevin, aged eighteen, have been arrested in Taftville, near Norwich, Conn., for a long series of robberies in New London county, among the places broken into by them being five post-offices. They are the sons of reputable citizens, and have been great readers of dime novels. In a hut in the woods, which was their rendezvous, were found many trashy books, all of the same stamp; and on the person of one of the young fools was found an order to Richard K. Fox for a lot more of such literature. They had planned to go to Leadville and then to Mexico, and become "terrors" to the country. Instead, they will go to state prison.

At Avoca, Minnesota, the body of Mrs. A. Bergman has been found buried in the stable on her former husband's farm. Bergman circulated the story last summer that his wife had run away and left him. A few weeks later he committed suicide by cutting his throat with a razor. He had, it would appear, killed his wife, secreted various trinkets of hers, and her best clothes, and buried the body in the stable, preparatory to stepping off himself. Domestic troubles caused the murder. A revolver was found in the cellar of the house with a chamber discharged, and a bullet in the skull of the dead woman corresponded to its caliber.

A COLOSSAL SALE

— OF —

Dry Goods!

— AT —

JORDAN, MARSH & CO.'S,

BOSTON.

From the Manufacturer to the Consumer Direct Without any Intermediate Profit.

$2,500,000 of Desirable Merchandise from the Leading Markets of the World.

To be offered over our Retail counters at the Lowest Prices Ever Known.

The new departure of JORDAN, MARSH & CO., in giving up their Wholesale Business and devoting their entire time to the demands of their enormous Retail Establishment, has been inaugurated by a Colossal Sale of Dry Goods, aggregating $2,500,000 in value.

In giving up the wholesale department, the easiest and most profitable way for us would have been to have made a slight markdown and closed out the stock to our wholesale customers. Instead of doing this we saw the opportunity to show the people of New England that we appreciate their patronage during the last twenty-five years, and decided to remove the wholesale stock to our retail establishment and give the people the whole benefit of cost prices, having cut off the manufacturers', jobbers' and retailers' profits. This is a mark-down of 25 per cent, in all cases, and 50 per cent, in many, from the prices at which these goods are selling to-day.

Bear in mind the fact that these goods are all new and fresh, as they were selected expressly for our spring trade, and they are of such an infinite variety and extent that the wants of all classes of people in all conditions of life can be met, at prices which are not likely to be duplicated in the lifetime of this generation.

The sale was begun on Monday, April 16, and we have such a tremendous crush every day that all of our out-of-town customers who can make their purchases between 8 and 10 A. M. will find it a much more convenient time for making their selections than later in the day. Orders by mail will be promptly filled, when received before the lots are all sold.

See Boston daily papers for particulars of special trains to this great sale.

Popular Clergyman Under A Mule.

It was in the Yosemite, on a steep and rugged mountain road. The party numbered about a dozen, and the jolliest of all was a well-known dominie. Somehow or other his mule stumbled and rolled over and over, the dominie clinging fast to him. When they came to a stop the mule was on top. Both the dominie and the mule were badly bruised. One of the party happened to have a bottle of Perry Davis's Pain Killer. In a few hours they were ready to proceed on their journey.

This is indeed an enlightened age, and yet there are thousands of people ignorant of the fact that a slight cold neglected often terminates in consumption. *Adamson's Botanic Balsam* cures Coughs and Colds as by magic. Trial size, 10 cts. Larger bottles, 75 cts.

The annual conference of the Methodist Episcopal church of New Hampshire met in Concord on the 18th inst., with a large attendance. At nine o'clock in the orenoon the Lord's supper sacrament was administered under the superintendence of Bishop Simson, and an hour later the business session commenced. Rev. S. E. Quimby, of Tilton, was re-elected secretary, with several assistants, and the regular standing committees were appointed, following which the usual routine business of the conference was transacted.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

Jordan, Marsh & Co.'s Colossal Sale of Dry Goods.

Which began Monday morning, April 16th, is certain to be the popular topic with the ladies for several weeks to come. Every day, from the time of opening until the closing hour, their magnificent dry goods palace is thronged with thousands of eager purchasers, who, in the fullest confidence of the veracity of every statement put out by this notable firm, are on the alert to secure some of the unprecedented bargains to be seen on every counter. The reason for this tremendous sale is given in their column advertisement in our to-day's issue, and there can be no doubt that all who are fortunate enough to visit this establishment will reap a benefit which will far exceed their expectations. It is an amusing sight to watch ladies going up Temple place and along Washington street. Nearly every one has a package done up in Jordan, Marsh & Co.'s wrapping paper.

Protection vs. Free Trade.

The neighbors of Judge Kelley, of Philadelphia, the champion of "protection," gave him a complimentary banquet on his 70th birthday, and he improved the occasion to tell them something of what the protective tariff has done for the country, by comparing the record of the free trade decade, from 1850 to 1860, with that of the war tariff period, included in the next twenty years. From 1849 to 1860, said the judge, although the California mines were yielding $100,000,000 a year, the money did not stay at home to develop our industries, but went abroad to pay for imports which doubled during that time; and in 1860, through buying much and selling little, the country was "steeped in bankruptcy."

With the new tariff came a mighty change, and of its wonderful results he says: In 1860 the production of steel in America in competition with England was a mere experiment, and we now produce one-third of the world's production of steel. From 1850 to 1860 the production of American pig-iron was "practically stationary," employing in 1860 39,000 hands; in 1880 it employed 140,000; the capital has risen from $50,000,000 to $230,000,000, the wages from $12,000,000 to $55,000,000, the value of products from $60,000,000 to $296,000,000. The chemical industry "did not exist" prior to 1860, and now pays $12,000,000 in wages.

In 1860, "we could not make a thoroughly American pleasure carriage;" now the carriage manufacture employs 105,000 hands and pays $38,000,000 in wages. "More pleasure carriages are built in Ohio alone than are produced in Great Britain and France combined." In 1860 we had 30,000 miles of railway, in 1880 we had 95,000, and now 120,000, or more than there is in all Europe. What do we care for the ocean, asks Mr. Kelley, when we have our own domestic trade? We lead the world in cereal productions, and yet we export less than ten per cent of our product, so vast has become our home market. While the annual income of Great Britain (that is, all her industries) was $5,780,000,000 in 1880, that of the United States in the same year was $7,030,000,000. These are excellent facts for free trade theorists to dodge.

A Slight Omission.

A few weeks since an old woman, upward of ninety years of age, died at a place called Eglington, near Londonderry, Ireland. The usual arrangements for the funeral were made, including a wake. The coffin was closed and taken to the place of interment, where the service was duly gone through, the coffin lowered, and the grave filled in. On returning home, however, the relatives were amazed to find the corpse of the old woman lying on the bed upon which she expired. They had simply forgotten to put her in the coffin. They took her to the grave in a cart, dug up the empty coffin, placed her in it, and eventually had her securely planted.

—The other day a chicken hawk was circling proudly around over one of the many peach orchards that infest Delaware. Finally it spotted a chicken, and circled and circled until it felt sure of its prey. Meanwhile the chicken looked calmly on, and made not the slightest effort to get away. Nearer and nearer came the hawk, until it felt perfectly satisfied, and then it swooped down as swift as any well-bred thunderbolt. Making a deathly grab at the chicken, the hawk broke its bill off, and in another instant that hawk was eaten up, feathers and all. The moral of this fable should teach all chicken hawks that it is folly to think they have a sure thing every time, and that the hen that seems the easiest prey is often a spring chicken escaped from a New York boarding house.—*Puck.*

A Needed Caution.

There will be inferior imitations of successful articles, and that most remarkable of all floor coverings, "LINOLEUM" is no exception. Beyond all controversy, the superiority of the American make of these goods is proven. The best English goods never reach this market for the high quality of the American goods completely supercedes them. Only inferior grades are imported, and in use will look dirty and unsatisfactory. The Walton Trade Mark with the word "LINOLEUM" is on the back of every square yard of American goods and all carpet dealers keep it.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod1ag3;8d

Outrageous Insinuation.

Three gentlemen happened to meet on the street, yesterday, when the following conversation ensued:

Jones—"Well, Brown, how much money is going to be spent on the New Hampshire legislature, this summer?"

Brown—"You couldn't count it, neither could I."

Smith—"I'd like to be chairman of the committee on railroads."

Jones again—"By hokey, I'd be contented with the chairmanship of the committee on privileges and elections."

This was the conversation, word for word, of three men who are more or less interested in New Hampshire affairs. It is a strong insinuation that somebody is going into the New Hampshire legislature to bid for votes, and that some members of the New Hampshire legislature have votes to sell. But insinuations, like all ordinary talk, are cheap. Let us wait a while and see what we shall see.—*Boston Post.*

California Olives.

Olive growing is one of the most interesting features of agriculture in California. The state possesses some beautiful groves, and one ranch owner, Ellwood Cooper of Santa Barbara, is said to have derived a profit of $2,200 an acre from his plantation. Others, however, express doubts as to whether this species of fruit culture can be made generally and permanently profitable. One continual source of apprehension must always be the scale worm, which threatens most of California's fruit trees, the olive not excepted; but for them, and possibly in spite of them, California could easily raise an olive crop as large as that of Italy, which yearly sells for $50,000,000.

—Herbert Spencer considers the wearing of pointed-toed shoes and skin-tight trousers a well defined mark of mental imbecility. This level-headed remark reassures us as to the soundness of Mr. Spencer as a philosopher.

—It is suggested that "a very good way to increase the membership of a church is to pay the pastor a sum sufficient to enable him to socialize his people." Though few may know just what that means, all ministers will cordially indorse that statement.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very *fact* lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE CUT in the center. Price 25 cents. Seabury & Johnson, Chemists, New York. feb21,was&gtsep15

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve, and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINCKLEY,

OF THE
WORLD.
Mrs. S. A. Allen's
WORLD'S
Hair Restorer
IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

SUPREME COURT, APRIL TERM.

CARPENTER J.

In State vs. Lorenzo M. Carpenter, for embezzling money belonging to Edward F. Tuttle, the verdict was not guilty.

John F. Fowler, for breaking and entering, and George P. Fowler, for larceny, each got three months in jail.

Alvin Janvrin, indicted for assault with intent to kill, pleaded guilty of simple assault, and was fined $10 and costs.

William Robinson of Newton, for selling liquor, was fined $50 and costs. [Eight indictments were found against Robinson.]

No. 19, Moody vs. Stott, action for trespass, tried by court, verdict $99. Harriman for plff.; Leavitt & Knight for deft.

No. 20, Moody vs. Thurston, same result and same counsel.

In No. 39 on the equity docket, Isabella J. Ellis vs. John Ellis, divorce was decreed for habitual drunkenness. Drury for libellant.

Hubbard vs. Hubbard, divorce decreed for extreme cruelty.

The court was engaged on Thursday and Friday in hearing an appeal of Elvin Newton of Portsmouth from the decision of the court of probate appointing a guardian over his minor son. Mr. Newton applied to be guardian, and after a hearing in the probate court Mr. James Janvrin was appointed; and from the decree to this effect the appeal is claimed. Witnesses were heard before the court. The minor elected Mr. Brennan, the husband of his aunt, in the petition, to be the guardian. The controvery seems to develope considerable ill feeling. A postponement was asked by counsel for the appellee, on the ground that two persons attempted to be summoned as witnesses had evaded the process of the court. Wiggin and Eastman for Newton; Frink & Batchelder for appellee.

The court held that Newton, the father, could go no further than to give evidence as to the fitness of Janvrin for the office of guardian. The minor had the right of election, and in case a guardian was erected, the only question was as to his being a suitable person. The question was reserved for the law term, and the case continued.

Etta Jackson vs. Charles W. Jackson, divorce case, was heard on Friday. Bartlett for libellant; Eastman for libellee.

At the coming in of the court in the afternoon on Friday, Hon. Joseph F. Wiggin presented the following resolutions which had been adopted at a meeting of the bar, and asked that they be entered upon the records of the court:

Whereas, The members of the bar have learned with regret of the death of Hon. Lory Odell,

Resolved, That by the death of Lory Odell the bar of this county has lost one of its oldest members, who for more than half a century had been an officer of this court; a student in the office of Jeremiah Mason, a well read lawyer, and a member of the bar who had ever maintained the dignity and observed the proprieties of his profession.

And Whereas, The members desire also to express their profound grief at the death of William Russell Foster,

Resolved, That we will ever hold in remembrance his sound professional acquirements, his quickness of perception, his refined tastes, his gentlemanly bearing, his upright character, and his many other estimable qualities, and we tender to his family and friends our heartfelt sympathy in their sudden bereavement.

Resolved, That these resolutions be entered upon the records of the court, and copies sent to the respective families of the deceased.

The court was addressed by William H. Hackett, Charles E. Batchelder, Walter Harriman, John S. H. Frink and Edw. G. Eastman.

Judge Carpenter briefly responded, and ordered the resolutions to be entered upon the records of the court as requested by the members of the bar.

POLICE COURT.

FRIDAY, April 20th; *Bufford J.*

Edward Lolley and George Tighe confessed to stealing a blanket from the door of John Kelley's store on Market street, on Thursday, April 19th, and were sentenced to pay a fine of $10 each, and one-half the costs, taxed at $9.24. In default of payment they were sent to jail.

GOSSIPS SAY

That the Boston *Advertiser* of Friday last is authority for the statement that Hon. Frank Jones will not oppose the consolidation of the Eastern and Boston & Maine railroads.

That the same paper admits that Mr. Jones "could have defeated the consolidation had he decided to oppose it, as it was believed during his absence he would do."

That not an officer of the city government assumes the responsibility of putting the steamer Swan in the north pond.

That some one should assume the responsibility of taking her out, as the city has no money to expend in playing with toys.

That Hon. James W. Emery of this city has passed the present week in Washington.

That in the distribution of class honors at the New Hampton Institute, in this state, Fred A. Fernald of Kittery was awarded the salutatory address to deliver.

That steam will be shut off for three days at the Portsmouth Shoe factory next week, after which work will proceed as usual.

That the first crocus blossom that appeared in the Public Garden at Boston this spring opened on the 19th inst., more than three weeks later than these flowers bloomed in some of the gardens of this city.

That two thousand dollars were being distributed this week to parties in Portsmouth who are holders of stocks in some of the gold mines of Idaho, being the regular monthly dividend.

That Wm. W. Dixon, the well known boat builder of Kittery, has just completed for Arthur H. Rand of this city a boat which will rank among the best on the river.

SUNDAY SERVICES.

Rev. Arthur May Knapp, of Watertown, Mass., will preach for the South Parish on Sunday, morning and evening. Miss Flora S. Hayes of Kittery, who sang in this church last Sunday, will sing again to-morrow.

Elder H. L. Hastings will preach in the Advent church.

Rev. B. S. Gould of New York will preach in the Pearl street church.

Have you got your tickets for Tuesday evening at Music hall, when Janauschek will impersonate "Mary Stuart?"

Osgood Lodge, No. 48, I. O. O. F., will on Thursday evening, April 26th, celebrate by a banquet, with speeches, singing, instrumental music, etc, the 64th anniversary of Odd Fellowship in the United States. The social gatherings gotten up by this lodge for several winter's past have been noted for the ample provisions furnished, and the management intend that this one shall be no exception to the rule.

Washington despatches say that Hon. Thos. L. Tullock, postmaster of Washington, has been obliged to leave the city on account of his health.

Lieut. William H. Reeder is detached from the navy yard near this city, and ordered to torpedo instruction.

"Only a Farmer's Daughter" is a skillfully constructed and strong play, and does not flag from the opening of the piece until the especially happy denouement in the last act. Not only is the plot full of interest, but the characters are well drawn, and offer opportunity for excellent acting. The company gave a careful and effective performance throughout, and the audience present signified their approval by frequent applause.—*Philadelphia Bulletin.*

At Music hall on Wednesday evening next. See advertisement.

There has been no more enjoyable occasion in Franklin hall this season, and no nicer a party, than when on Thursday evening last the Cavalry entertained the Strafford Guards of Dover.

A carpenter named Kelly, at work on the Eastern railroad station in Beverly, Mass., was struck by the first passenger train from this city on the 20th inst., and killed. Two trains were passing through the station at the same time, at a good rate of speed. He stepped from one track to avoid being hit, and upon the other just in time to get struck by the other train.

We clip the following from the Dover *Republican* of the 19th inst.: "J. Albert Walker, Esq., of Portsmouth, was in town to-day, and said, in conversation with prominent Dover men, that the people of Portsmouth are not opposed to the leasing of the Eastern to the Boston & Maine railroad. Mr. Walker is pretty good authority, and we think he is about right. All sensible and unselfish folks ought to favor the union, and no doubt will do so."

Charles C. Walker and Daniel Hamilton, of Saco, left Boston by the Boston & Maine railroad on the 18th inst. Being partly drunk, they thought it would be a funny thing to do to refuse payment of their fare, and tried it on. On arriving in Malden they were arrested and locked up, and next day in court pleaded guilty to charges of drunkenness and evading fare, Walker also pleading guilty to a charge of assaulting the conductor of the train. Their fines and costs amounted to $44.80, which made their ten mile "free" ride a rather costly one.

The projected improvements in the Cocheco river, for which the sum of $25,000 is available, consist of a cut-off through Allen's point at the "lower narrows," the cut to have a depth of five feet at mean low water, and a width of fifty feet on the bottom, the sides of the water-way and of the bank above water to have a slope of forty-five degrees; above and below the cut-off a channel is to be dredged to the same width and depth as the cut-off, connecting with the present five-foot channel; and the present channels at Trickey's shoal and Clement's point are to be made sixty feet wide on the bottom, with a depth of five feet at mean low tide. These improvements will involve the removal of about 19,000 cubic yards of solid matter, exclusive of the work on the cut-off.

An ice cream festival was held in Brooks' hall, South Eliot, on Wednesday evening, the 18th inst., the object being to raise money to make up a deficiency in the salary of Rev. H. B. Mitchell, pastor of the Methodist Episcopal church. Before partaking of the refreshments the audience was entertained for an hour by Miss Grace Varrell of Portsmouth and Miss Nellie Paul of Kittery. Miss Varrell's selections were rendered in a very pleasing manner, and were highly enjoyed by all present. Miss Paul recited a laughable and interesting piece in a manner which deserved the applause it received. The entertainment was gotten up by a few of the enterprising ladies connected with the church, and netted a profit of about $20.

A roof is being built at the western end of the Eastern railroad station, to extend out a distance of fifty or seventy-five feet, for the purpose of affording protection to passengers alighting from the rear cars of trains from Boston.

An informal meeting of the common council was held in the council chamber last Thursday evening, to dis-cuss the several items to be included in the next appropriation bill.

The Government Chemist Analyzes two of the Leading' Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, PH. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr. Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever pres ribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and expensive engravings, 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25, by mail, prepaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

As a general work it is pronounced the most extensive work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Argus.

N. B.—YOUNG and MIDDLE AGED MEN can save money, time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience.

Beautiful, healthy Hair is the sure result of using Kathairon.

THE ART DISSECTED

IS YOUR HEART SOUND?

Many people think themselves sick or for Kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The reason Dr. Graves' Heart Regulator says "one-third of my patients show signs of heart disease." The heart weighs about nine ounces, and yet nearly twenty-eight pounds of blood passes through it once in a minute and a-half, resting six day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as Dr. Graves' Heart Regulator and can be obtained at your Druggists, $1 per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of the correspondence she receives would lead her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its especial burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

Impressed with the many portion of the system, and gives sweet life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1, per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and thousands of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her 1 ome in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

Mrs. Pinkham's Liver Pills, "acts like magic," are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All send respect her as an angel of Mercy whose sole ambition is to do good to others.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

The advertisement for the engraving of the new postal note will soon be issued. The government will do the work, unless private parties bid lower than the government can. The post office officials do not think the notes will circulate much as money.

The Postmaster,

Winchester, Mass., says: I am personally acquainted with Mr. and Mrs. Carleton, and was astonished at the remarkable effect of your Sulphur Bitters in curing their son, and its large sale is undoubtedly due to the fact that it is an honest medicine. I know of many others who have been cured by its use, and I do not think too much can be said in its praise. Yours truly. Geo. P. Brown, P. M.

James Dolan, the state prison convict who was recently pardoned by Gov. Butler (the governor supposing Dolan to have been on his death bed,) is said to be in New York, having a good time. TRUTHS BY ELLIOTT BARNES.

CULLED FROM HIS AMERICAN PLAY, "ONLY A FARMER'S DAUGHTER."

Love is duty—duty is love.

Is it ever kind to be cruel?

Mothers, Heaven watch over their little ones left behind.

God gives to man no greater boon than a true and loving wife.

A love that stops to count the cost—why, that's no love at all.

The wife of an unfaithful husband owes no love, obedience, or respect.

A girl that leaves her father's house an honored bride should not return a deserted wife.

When a husband's honor is at stake, prayer, not pistols, should guide the mother of his child.

A beautiful woman often lives to bewail her youthful folly and regret her girlhood loveliness.

A designing woman will not stop at the ruin of a family, when it stands between her and the man she loves.

A man in the pursuit of fame may so far neglect his home that, although innocent of crime, the act itself becomes one.

"Its not one's duty to inflict pain upon the anxious heart of a confiding wife by exposing the weaknesses of the truant, fickle husband.

What a subject for thought in the following lines, spoken by the child:—

"Oh, I am not afraid to die. I'll say a little prayer, shut my eyes very tight, and then if you kill me, I'll go right away to my dead mamma in Heaven."

A husband who gives to the world his brightest hours, and saves for his home but the dull refuse of exhausted energies, lives a serious mistake, and often, when too late, regrets a wasted life.

Sammy Green, the farm lad, is quite a character in the play. Something of him may be judged by the two speeches below:—Ignorant clown, am I? Well, see here. If raising your hand to a woman is part of the attributes of a gentleman, then I'm glad I'm an ignorant clown, by gosh! Another:—

There was a tamal big crowd in the store, and when I bowed over to a fellow I knowed, the auctioneer knocked off a baby's cradle to me, and I swan to man he made me pay for it, too!

A pure play, healthy in its teachings, intensely interesting and amusing.

The New York press consider it the best American drama.

KIDNEY-WORT

IS A SURE CURE for all diseases of the Kidneys and LIVER

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

SOLD BY DRUGGISTS. Price $1.

KIDNEY-WORT

The Bad and Worthless are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

WHEAT BITTERS
THE BEST AND The Richest BLOOD, BRAIN and NERVE
-F-O-O-D-
CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.
The Phosphates of the Wheat are its most valuable food property, and, when properly prepared, the most acceptable nutriment with which to build up the system.
The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to sustain them it is wise to BUILD FOR HEALTH.
Wheat Bitters are prepared, by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These acts in themselves a basis, to which is added the sweet and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls, being in doubly effective when used with food, so as to nourish while it corrects.
Sold by druggists, $1.00 per bottle.

Daily Chronicle.

At Brainerd, Minn., Sheriff Mortz and party have captured eight tramps who had been robbing citizens at the railroad bridge. A policeman was shot by the tramps and others of the posse wounded. One of the tramps was also wounded. Firearms were freely used.

Much distress and sickness attributed to dyspepsia and chronic diarrhœa is occasioned by humor in the stomach. Hood's Sarsaparilla is the remedy.

It is reported that W. K. Sanderson, station agent of the Eastern railroad at Rowley, Mass., will shortly resign his position.

A love-sick youth in Bellevue,
Hugged his girl black and blue,
St. Jacob Oil prescription,
Cured her of the caniption,
And this little story is true.

At Atchison, Kansas, Clara J. Wilson was arrested last Thursday after having fired the stables of the exposition building, and threatening to burn the town.

In the Hop Plaster are united fresh Hops, Gums and Balsams, and its power is wonderful in curing back ache, sprains, bruises, neuralgia, pain in the side or soreness anywhere. Thousands testify to this.

Louise Ingersoll was burned to death, last Friday, at Woodward's cove, Grand Menan, N. B. A block of wood, which she had heated to warm her bed, ignited and set fire to the coverings.

Benjamin Johnson, the celebrated English play writer, said, "to speak, and to well, are two things." The patrons of Wheat Bitters all combine this attribute. They speak uniformerly well of the cures which attend the use of the Bitters. Have you tried them, reader?

Stillman Flagg of Winslow, Me., committed suicide by hanging on the 20th inst. The excitement of an alleged shooting affair by Lorenzo D. Getchell, to which Flagg was a party, and the trial thereof, unsettled his mind. The deceased was seventy-two years old and leaves four daughters.

Kalamazoo, Mich., Feb. 2, 1880.

I know Hop Bitters will bear recommendation honestly. All who use them confer upon them the highest encomiums, and give them credit for making cures—all the proprietors claim for them. I have kept them since they were first offered to the public. They took high rank from the first, and maintained it, and are more called for than all others combined. So long as they keep up their high reputation for purity and usefulness, I shall continue to recommend them—something I have never before done with any other patent medicine. J. J. Babcock, M. D.

Col. Walker, who died recently in Indiana, was one of the democrats charged with participation in the infamous plot of the so-called Sons of Liberty in 1864. His friends say that if there was anything in the accusation his motive was not disloyalty, so much as the desire for revenge on Gov. Morton.

WILKIE COLLIN'S last story is called "My Lady's Money." In this country it would have been: "Mother-in-law has got the stamps," or "The Old Woman is Well Heeled," remarks a paragrapher. All Americans do not employ such outrageous slang phrases as the above. In speaking of Ely's Cream Balm, however, they do say: "It's perfect," "it's as fragrant as flowers, and certain death to catarrh," &c., &c. This Balm is not a liquid or snuff, and is easily applied. Thousands of grateful persons attest its efficacy. "One in our family had catarrh for eight years," said R. W. Merrill, Sec'y Phœnix Manuf'g Co., Grand Rapids, Mich. "She ineffectually tried other remedies and several speciality doctors in Boston. Ely's Cream Balm has restored her health and hearing, which were considered incurable." Try it, reader. Price, 50 cents.

A collision occurred last week off Bilboa, Spain, between the English steamer Thames and the Spanish steamer Magdalena Vicenta. The latter was sunk, with five of the persons on board. Two of the crew of the Thames were also drowned.

"Mean people take advantage of their neighbor's difficulties to annoy them." Mean diseases, such as piles, rheumatism, constipation, dyspepsia, malaria, lame backs, etc., take advantage of people's exposures and attack them. It is then that Kidney-Wort appears on the field and by its timely agency puts to rout this flock of evil ailments. It is a friend in need and therefore a friend indeed.

Frederick W. Eames was shot dead in Watertown, N Y., Friday, by Charles Higham, a pattern-maker. in Eames' Vacuum Brake works. Higham was jailed. He claimes that Eames beat him with a cane, and that he shot Eames in self-defence. Eames had just taken possession of the works after a lawsuit of several months.

"My skin has been covered with scaly sores, has become clean, smooth and soft as a lady's. My hands were covered with little dry scabs. They have disappeared and I'm better than I have been for twenty years, using Dr Benson's Skin Cure.—A. M. Noble, N. C., July 3, 1882.

"Buchu-Paiba."
Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists.

—The state engineer of California says the work for which the office was created has been finished, and that its continuance is an unnecessary expense. The state papers do not know how to classify him.

If disease has entered the system the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than Iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparation, a positive cure for dyspepsia, indigestion, kidney troubles, etc.

—The Pullman train hadn't run more than ten miles before the robbers headed it. "You're lucky," said one of the passengers to the leader of the gang, "the porter hasn't been through the car yet."

"The celebrated Vegetable compound for females, which within a few years has made the name of Mrs. Lydia E. Pinkham known in every part of the civilized world, relieves suffering by the safe and sure method of equalizing the vital forces and thus regulating the organic functions. It is only by such a method that disease is ever arrested and removed.

—A Cincinnati man, caught in the belting and whirled around at the rate of a mile in about two minutes, was rescued uninjured. When asked if he wasn't frightened, he answered: "No; I thought my wife had caught me and was running me out by the back of the neck."

"Their Occupation Gone."
R. V. Pierce, M. D., Buffalo, N. Y.: I was attacked with congestion of the lungs, soreness over the liver, severe pains in the joints, a burning fever, and general giving a way of the whole system. Failing to find relief in remedies prescribed, I tried your "Golden Medical Discovery." It effected my entire cure in three weeks. Your medicines had only to be used to be appreciated. If every family would give them a trial, nine-tenths of the doctors would, like Othello, find their occupation gone. Yours truly, L. B. McMillan, M. D., Breesport, N. Y. a

—A negro in Mobile, Ala., created a sensation and caused himself to be suspected of murder by making a false grave and putting near it a corn sack saturated with blood. His object was to "hoodoo" the witches who protected a supposed buried treasure of which the negro was in search. The detectives and vigilance committee who were working up the case and knew they'd got a sure thing, must have been awfully disgusted when a newspaper man elicited the truth.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 80 Summer St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Summer street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever pres ribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hail-stones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. A man who is ill with many hail-stones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

Jeremiah Coakley, switchman at Norwood, Mass., on the New York & New England railroad, was struck by a freight train last Thursday forenoon, and badly injured.

This is indeed an enlightened age, and yet there are thousands of people ignorant of the fact that a slight cold neglected often terminates in consumption. *Adamson's Botanic Balsam* cures Coughs and Colds as by magic. Trial size, 10 cts. Larger bottles, 75 cts.

David Whitney, nearly eighty years of age, of South Attleboro, Mass., left home about noon on Wednesday of last week, stating that he was going to the woods to gather witch hazel, and had not been found up to Saturday.

Mr. C. B. Littlefield, 1133 Elm street, Manchester, N. H., says: "Brown's Iron Bitters are giving perfect satisfaction. I take pleasure in recommending them."

The provincial parliament house at Ottawa, Ont., was burned on the night of the 19th inst., with its invaluable library of books on Canadian history. The building and contents were insured to the amount of $176,000. The fire is supposed to have been incendiary, and it is suspected that the "invincibles" had something to with it.

"I have lived to know that the secret of happiness," said Adam Clark, "is never to allow your energies to stagnate." Wheat Bitteres is a rich blood food, and matchless curative agent. Its use restores flagging energies.

Irving Loper, a young man who shot himself on March 31st at Southington, Conn., died last Friday at the New Haven hospital. He committed suicide because his employer threatened to expose his financial irregularities. He lived twenty-one days with a bullet in his brain, which the physicians feared to remove.

We feel we are doing the public a favor in calling their attention particularly to Hood's Sarsaparilla. This is not a patent medicine, but a proprietary article, possessing real curative properties, and its effects upon the blood are very positive. Spring debility, biliousness, dyspepsia and all troubles caused by impure blood readily yield to this excellent medicine. We think those who give it a trial for that "out of sorts" feeling from which so many suffer and which is peculiar to this season, will be quite satisfied with the results.

A second attempt to commit suicide was made at Brockton, Mass., Friday morning, the 20th inst., by Charles Smith, aged twenty-five years, by cutting his throat. Smith hung himself on the previous Monday, but was cut down before death ensued. His mother committed suicide last August by cutting her throat.

Old, Reliable, Sure,
The best and purest, is the "G. O. Taylor Old Bourbon." Highly recommended for medical use. Bottled only by Charles H. Graves & Sons, and sold by druggists and grocers everywhere.

The Railroad Union.

There seems to be a growing sentiment with every one who has given the subject the benefit of practical, common sense judgment, that the union of the Boston & Maine and Eastern railroads having from the nature of things become inevitable, will be found, in its results, beneficial to all the patrons of the road, from the fact that the business will be done better and at the same time cheaper than if money was wasted in competitive rivalry. The result will be seen in lengthened double tracks and in additional accomodations which can be afforded to the people without additional tax upon the traffic. This view seems to be entertained by the leading freighters over the road, a class of persons who never have protested against the proposed plan.

Another feature of the proposition which commends itself to the people of Portsmouth and Dover is the stability which it will add to the investment of those cities in the stock of the Portsmouth & Dover railroad. An eminent jurist in this state remarked last week to a gentleman of this city, "Of course all you Portsmouth people will be glad of this measure, which will remove any chance of loss by your heavy investment in the Portsmouth & Dover railroad." The contingency of the city of Portsmouth at some time making a loss upon its $344,600 investment in the Portsmouth & Dover railroad, has often been hinted at—nay, predicted—by many. It is doubtless the removal of the possibility of any such result which has induced far-seeing men like Frank Jones, Chas. H. Sawyer, J. Albert Walker, E. H. Winchester and others, to look upon this proposition not with any consideration as to results affecting themselves solely, but as to its financial effect upon the cities in which they dwell and have an interest.

It is idle to suppose, with the property of the two roads controlled by one idea as to its management, with a direction determined to cease building new lines of rail and running duplicate trains between the same points in order that one road can keep the business away from the other, but with a policy intent upon an economy the results of which will be a saving to the public, because in all useless competitive struggles of this kind it is the public in the end that pays for the waste, that thinking business men who look ahead in matters of this nature, whose comprehension of a business proposition is ample enough to consider all of its effects, can have but one conclusion in the premises. As a leading customer of the Eastern and Portsmouth & Dover said recently, "The union is inevitable, and of course we can make nothing in opposing it; and one of the results will be to afford the patrons on the lines of the Eastern and the Maine a fairer showing, because these lines will not be obliged to do the business from places east of Portland at a losing rate."

The fact is that the roads are now converging to the point where some of the older shareholders more than twenty-five years ago insisted it was for the combined interests of the roads and the public that they should meet.

WILLIAM RUSSELL FOSTER.

The following was the eulogy of Chas. E. Batchelder, Esq., before the Supreme court last week, on the late Wm. Russell Foster:

May it please your honor: Not duty or propriety alone, but the high esteem, respect and personal friendship which I entertained for Mr. Foster, impel me to say a few words in commemoration of his life and character.

William Russell Foster was born at Portsmouth, on the eleventh day of April 1855, and died there on the tenth day of March 1883, in the twenty-eighth year of his age.

Descended on both sides from old and illustrious families, which as yet show no sign of that decadence which is popularly supposed to be the fate of all old families, his home life and early instruction were most careful and thorough.

His early education was obtained in the schools of his native city and at Phillips Academy, a school concerning which it may well be said as Ulysses said of the Isle of Ithaca, "Rugged, but kindly, nurse of youth;" for I know of no preparatory school where young men are so well instructed to be manly and generous as in this institution.

Having completed his preparatory course he was admitted to Harvard College in 1871, and was graduated after a successful course in 1875. It was at his entrance into college that my acquaintance with him began, and acquaintance ripened into a friendship which the associations of later years rendered intimate, and I can truly say that intimacy did not in his case, as so frequently happens, diminish my appreciation of his many good qualities, but only served to render them more prominent.

Upon his graduation from college at the early age of twenty Mr. Foster entered the office of J. S. H. Frink as a student-at-law, and was admitted to the Rockingham Bar in 1877. He immediately commenced the practice of his profession at Portsmouth, and the next year was elected City Solicitor, which position he held for three successive years. He performed all the duties of that office with fidelity and ability, and showed that he possessed not only the care and patience required to become a good criminal pleader, but in the more important duties of the position, the management of civil causes involving large interests to which the city of Portsmouth was then a party, he exhibited a sound knowledge of legal principles and managed these causes with ability and success.

In November 1882 Mr. Foster, not prematurely with respect to himself, but too late for the service of the state, was elected Solicitor of Rockingham county, for the two years succeeding June 1883, and his experience as solicitor of the city of Portsmouth gave promise of able and successful management of the duties of the office to which he had been elected.

Having thus briefly sketched his life I will mention, without indiscriminate eulogy, for such praise is not just to the living, nor does it add to the honor of the dead, some of his prominent characteristics.

The most striking of these was his wonderful memory. Everything which he had ever seen, heard or read, seemed to be indelibly photographed upon his mind, and the storehouse of his memory was filled with thoughts classified and arranged so that he had at instant command all the wealth of his great and varied acquisitions.

He was not obstinate nor opinionated. While a matter was pending his mind was open to conviction. Though of singularly quick perception, seeing at a glance the drift of any measure and ready to pronounce upon it while others were deliberating or doubting, yet if the matter appeared doubtful, he would zealously explore every source of information, and, when he had examined the whole field, would make up his mind with reference to all the arguments and facts which he had been able to discover. After he was convinced of the correctness of his judgment in this manner he was tenacious of his opinion and ready to defend it with cogent reasoning.

Another striking characteristic of Mr. Foster was his unvarying courtesy to his professional brethren. In all his intercourse with them he exhibited this trait in a marked degree, and never forgot to show courtesy to the opposing counsel even in the heat of a trial. It has been well said by one of our ablest law writers that there is no power at the bar so potent for success on all occasions as a self-relying courtesy. A lawyer degrades himself and his profession every time he so far forgets himself as to fret and grow angry or petulant in the conduct of a case. He cannot afford to quarrel with the court. He ought not with the bar. Mr. Foster was a gentleman by his instincts, by his training and by the promptings of a kind and gentle heart. His relations with the bar were thus easily and uniformly those of mutual respect, esteem and confidence.

Mr. Foster was not alone a student of law, it might almost be said that he took all knowledge for his province. He was especially fond of history and general literature. The conditions of life in his native city, an atmosphere singularly full of a sense of repose and of literary association, undoubtedly combined with his natural inclination to turn his studies in these directions. But his information extended to all subjects and he could talk intelligently and interestingly upon all, displaying a mind full of varied and extensive information.

Bearing the name of a distinguished elocutionist, he was himself possessed of elocutionary powers of a high order, and his services as a reader were in frequent demand at public and private entertainments. A good presence, courteous manners, an expressive countenance and a voice of unusual flexibility and power, contributed to the pleasure of his hearers and without doubt would have insured his success as an advocate had his life been spared a few years longer.

In another respect his life was worthy of imitation. No man could purchase him. His sense of justice was strong and clear, and no one could induce him to act otherwise than in accordance with his honest convictions. No man could make a bargain with him whereby a criminal should escape justice. An offer to do so would be instantly spurned by him. On this account those who try to purchase clemency by a bargain with the prosecuting officer, hoping his love of ease will enable them to succeed, were not in favor of the election of Mr. Foster as county solicitor, and this argument was used against him unsuccessfully at the time of his nomination.

His years were few, but if it be true that

"He liveth long who liveth well"

our brother's life was long, and though we cannot well compare his life and its achievements with those who have lived out the allotted years, yet we can say with truth that every duty which life had brought upon him had been well performed, which is all that could have been said of them at an equal age. In all the relations of life he was without reproach; a well equipped lawyer, a good citizen, a dutiful son, a loving and affectionate brother, a firm and faithful friend.

His work is done, and his record is a source of pride to those who know and loved him. He has been stricken down in his early manhood, and there is at least this compensation, that he will live forever young in our memories. Let us remember that

"Life in its large extent is scarce a span,"

and live prepared for the summons whenever it shall come.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

MUSIC HALL.

Wednesday, April 25th.

3d year of the phenomenal success. Signal triumph of the American drama. A responsive chord in every heart that each time it is seen makes it seem brighter, purer, stronger than before. ELLIOTT BARNES' Greatest American Play,

ONLY A FARMER'S DAUGHTER!

A most perfect representation, as played 150 nights in New York. The Peerless Dramatic Company, led by the Brilliant Society Artist,

LILLIAN BILLINGS,

Acknowledged by the entire world as the handsomest woman on the stage, with a great cast, including Zelma Vladimer, Jos. Adelmann, Emma Fraud and La Petite Gilroy, the greatest living Child Actress, and a Complete Artistic Organization.

With the exception of Mr. A. M. Palmer's celebrated Union Square Company, the dramatic organization put together for the production of this great American play has never been excelled on the American stage.

FATAL ACCIDENT.

Mr. Lemuel B. Caswell's schooner, the Lucy, Capt. William Kenniston, started from this city for the Shoals on Saturday, having on board stores, furniture, etc., for Smuttynose island. She had the foresail and jib set, and was progressing favorably, but after passing through the narrows Capt. Kenniston ordered the mainsail hoisted, against the wishes of the rest of the party, as there were eleven persons on the deck, which was so lumbered up with furniture that it was extremely difficult to get around. When off Fort point, in jibing, Capt. Kenniston was thrown overboard, having probably been struck by the mainboom; he caught the mainsheet and clung to it for about a minute, when he let go, the schooner being at the time going rapidly through the water with a fresh breeze. A dory was put out from the Lucy as quickly as possible, and the inward-bound fishing schooner Hattie N. Reed also promptly sent a boat to aid in lifting the insensible body of Capt. Kenniston from the water; he was taken on board the Lucy, and every effort made to resuscitate him, without avail; and after it was evident life was extinct the body was taken to Newcastle in a dory, and brought from there to his home in this city. He was about sixty-five years of age, and leaves a family.

POOL TOURNAMENT.

This is the last week of the pool tournament at the Eureka Pool Rooms, No. 31 Congress street, as the prizes will be awarded on Monday next, the 30th inst.; the highest runs yet made are one thirteen, and three twelves; unless this record is beaten the thirteen will take the first prize, and the three twelves will have to play off on the 30th. The patronage of the pool rooms shows no sign of diminution, and in the hair-dressing saloon Mr. Preble and his assistant find steady employment.

PROSPECTING TOUR.

Early in May a party of gentlemen from this city and vicinity, numbering from six to ten, will visit Idaho to inspect some of the promising mines on the Snake river which are largely owned here. The party expect to be absent about five weeks, and will go thoroughly equipped for roughing it in a rough country. Photographic views will be taken of mining camps and natural scenery on the Snake, Shoshone and Columbia rivers. The superintendent of one of the mines which the party is going out to investigate writes to a member of the party, "Bring the most disbelieving doubters, and we will send them home the most gladly-disappointed men that ever inspected mining property."

JANAUSCHEK.

Francesca Romana Madalena Janauschek, who makes her second appearance in Music hall on Tuesday evening, was born at Prague, Bohemia, in 1837. At ten she was a brilliant pianist, at fifteen she entered the conservatory, and at sixteen she went on the stage at Prague. Shortly afterward she joined a travelling company at a salary of $14 per month. Eventually she was engaged at Cologne for $42 per month. At eighteen she was leading lady at the Stadt theatre, where she remained for eleven years, closing as a star. After starring through Europe for a year and a half she accepted a position at the Royal theatre at Dresden, in order to acquire the title of "Royal actress," and remained there a year. In 1867 she came to America with her own company. Opening in New York as "Medea," she played there and in other cities, (acting exclusively in German,) to large and appreciative audiences. After leaving this country she gave her attention to the English language, which she is said to have mastered in a year. Those of our people who heard her in "Mother and Son" know how well she is versed in our tongue, and how effectively she performs her part.

GOSSIPS SAY

That there are five cripples between the ages of ten and sixteen years, all with crutches, attendants at one Sabbath school in this city.

That the third Newcastle bridge is completed save the new railing, which will be put on this week.

That the new wing and tower at the Pepperell house, Kittery Point, are rapidly approaching completion, and that similar improvements will be made to the western end of this hostelry as soon as the "season" closes.

That a pretty little cottage is being built on Broad street, opposite Pearson's greenhouses.

That the cultivation of hops is being seriously considered by some of the farmers in and around Portsmouth, and that the high price and the ready and never-failing market for this commodity in Portsmouth should be a sufficient inducement to wide-awake and energetic farmers to experiment at least in the cultivating of the plant.

FROM ACROSS THE RIVER.

KITTERY, ME., April 21st.

To the Editor of the Chronicle: The resident of Kittery, who has no local paper in which to unfold his views, naturally turns to the CHRONICLE as an organ of his notes.

I am glad to notice at last economy on the navy yard; but why is it always governed by the personal interest of the officers, when a stride is made in favor of reform? Every one is curious to know why the steamer "Emerald" is allowed to run on Wednesdays and Saturdays and Sundays; why it should not be taken off altogether, or run every day. An enquiry at the yard from one of the officers shows that "our servants will not stay with us unless they can have a boat to town twice a week, and on Sundays besides." So it seems that the Kitchen Cabinet governs the official acts of those in command, and there is a power behind the throne stronger than the ruler. Q.

FREIGHTS.

Recent engagements to this port are: a schooner of seventy-six tons to carry cement from Rondout, N. Y., discharging at Dover, thirty cents a barrel; a schooner from Hoboken to discharge at Dover, coal at $1.15 per ton, and discharged; two schooners from Hoboken, to discharge at Dover, $1.05, and discharged; one schooner, 176 tons, from Hoboken to discharge at this city, coal at $1.25.

William Kelley, who was killed by the cars in the Eastern railroad station at Beverly, Mass., on Friday last, was forty-five years old, and leaves a widow and six children.

Roller skating carnival in Franklin hall, Tuesday evening, April 24th. Mr. F. F. Billings, of Boston, will supply a plenty of skates, and the Portsmouth band will furnish music.

Mr. Barnes' play bears the unmistakable stamp of originality and genius, and it is not improbable that "Only a Farmer's Daughter," will prove to be that famous American play for which we have been waiting so long. Its plot is full of interest, its dialogue beautiful with poetry and sparkling with wit, while its characters are firmly drawn and brilliantly colored.—*New York Times.*

At Music hall on Wednesday evening. Tickets now on sale at Goodrich's.

After our forefathers landed on Plymouth Rock and gave the first hours to prayer and thanksgiving, the women of the company went to work over the washtub; so in New England after Sunday comes Monday, when millions of yards of cloth in the shape of garments are washed and hung out-doors to dry. We have seen it stated frequently that we have had during the last winter eight stormy Sabbaths in succession; but no one writes of the Mondays following, which have been favorable for the work of the housewife. There has been *no Monday since last fall* in which the weekly wash could not be "hung out a-drying" with satisfactory success. Let us remember our mercies, and that cleanliness comes next to godliness. G.

The Gifford Compo. Shoe Machine Co. pay a quarterly dividend of two per cent, May 1st.

The Eastern railroad directors' car went through this city to the eastward on Saturday forenoon, with the eleven o'clock train.

Mr. Richard May, recently a compositor in this office, has gone to Newburyport to accept a situation on the daily *Germ.*

The Concord railroad and the Manchester & Lawrence road will each pay a dividend of five per cent, May 1st.

Hartley W. Mason leaves this city this morning on his way to Europe, whither he goes for the benefit of his health.

The schooner Horace R. Sturgis, Pearson master, arrived at the navy yard on Saturday morning last at seven o'clock, in tow of the tug Wm. Sprague, having left Boston on the evening previous. She had on board ninety sticks of yellow pine timber and mast timber, for the department of construction and repair, from George Neville, contractor, of Norfolk, Va.; a considerable portion of the cargo with which she arrived in Boston was discharged at the navy yard there.

To all using garden hose the Revere Rubber Co. commend the "Eden" hose as the best for service and durability in all places where hydrant water is obtainable.

The fishing schooner Ocean King arrived at Gloucester, Mass., April 20th, from the Western banks, with her flag at half-mast for the loss of two of her crew, William Stone and John McKenney, who went astray in a fog while visiting their trawls.

The coroner's jury, in the case of Almatia Heal who died at Lincolnville, Me., last fall under suspicious circumstances, rendered a verdict on the 14th inst. that "the said Almatia Heal came to her death by poison administered on or about six o'clock in the evening of the 12th day of November, 1882." The matter rests for the present.

DIED.

☞ The funeral of Mrs. Caroline E. Stewart will take place this (Monday) afternoon at three o'clock, from her late residence No. 107 Water street.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOYE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be unlearned and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of manhood, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and Chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25, by mail, postpaid, on receipt of price. Illustrated sample 4½ cts. Send now.

THE SCIENCE OF LIFE, OR, SELF-PRESERVATION,

is beyond all comparison the most valuable work on Physiology ever published. There is nothing what ever that the married or single can desire or wish to know but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book by a great deal than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or receiving the Author, who may be consulted on all diseases requiring skill and experience.

President Arthur Ill.

President Arthur was taken sick on board the U. S. S. Tallapoosa at Savannah, Ga., on Thursday night. At 2:30 Friday morning he called for his servant, when it was discovered that he was very sick with a congestive chill, and it was only after some hours of work by the ship's doctor that the pain subsided. The president kept his bed until late Friday afternoon, and it was not until sunset that he went on deck to get the evening breeze.

Owing to his illness the proposed plan of returning in the Tallapoosa was abandoned, and he started from Savannah for Washington in the cars on Saturday afternoon. A Charleston, S. C., despatch sent at a late hour Saturday night reported that he had another chill at nine o'clock that evening, on the train, and that orders had been issued to rush the train through to Washington at the highest possible speed; also that Dr. Lincoln of Washington had been telegraphed for, to meet the train.

"Rough on Rats."

Clear out rats, mice, roaches, flies, ants, bed-bugs, skunks, chipmunks, gophers, 15c. Druggists.

—Said the night-watchman, when about dusk he was invited to drink a cup of coffee, "No, thank you. Coffee keeps me awake all night." And then he saw his blunder, was very much embarrassed, and tried to explain it. But it was no use.

Mother Swan's Worm Syrup.

Infallible, tasteless, harmless, cathartic; for feverishness, restlessness, worms, constipation. 25c.

—A traveller stopping at a village inn during a thunder storm said to a bystander, "Why, you have very heavy thunder here." "Yes, replied the man, "we do, considering the number of inhabitants."

—"Dr. Benson's Celery and Chamomile Pills for the cure of Neuralgia are a success."—Dr. G. P. Holman, Christianburg, Va. 50 cts. at druggists,

—"Well," observed a fourteen-years-old boy, knocking the ashes off his cigarette, and throwing down a printed catalogue of "a valuable private library to be sold at public sale"—"well, he must have been a dry old stick. Five thousand books in his library, and not a single dime novel about Injuns or pirates among 'em!"

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters, my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

—"So you mean to tell me," she said pleadingly, "that you wouldn't give a fifty-dollar bill for this beautiful duck of a bonnet?" "I do just that, decidedly," he replied. "Why so, Archibald?" "Because the fifty-dollar bill is the biggest."

Dr. T. A. Smurr, Ottawa, Ill., says: "Brown's Iron Bitters give entire satisfaction."

—A man in Detroit fell on the icy street Saturday and broke one of his cheek bones. The amount of astonishment the accident created was startling. The physician asked the sufferer: "Stranger, where in thunder did you come from?"

☞ Nothing so simple and perfect for coloring as the Diamond Dyes. For carpet rugs, better and cheaper than any other dye stuffs.

—A Boston artist painted a string of ten trout so naturally that the man who bought it told everybody that he had purchased a picture of 575 trout all on one string.

A French author once wrote, "The tongue is the worst part of a bad servant." Wheat Bitters is a public servant, but a benefactor as well. Every tongue that sounds its praises, as a certain cure for blood disorders and everyday ills, speaks the truth.

—Rev. Thomas K. Beecher is in California and has just sent to Elmira for his gun. We are afraid that by the time it gets to him the rabbit will have moved.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is a positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Daily Chronicle.

A Boston Girl's Stratagem.

Ladies who have been vexed by the staring of young men in horse cars will be pleased to learn of a plan that has been invented for abating the nuisance and of the result of its first public trial. The discoverer is a Boston young lady of attractive personal appearance, who, perceiving that the youths who had from time to time annoyed her were scrupulously careful about their attire, conceived the idea of giving them the notion that something was wrong therewith.

Accordingly, the other day, when she had borne for ten minutes the unyielding stare of one who sat upon the opposite side of the car, she began to gaze intently at a point upon his coat situated midway between his neck and shoulder. Her look, at first careless, soon became more intent; than a trace of apprehension crept into it; finally it was reinforced by amusement, and a slight smile animated her features.

The youth, who had at first responded to her evident interest by an engaging grin, began to look sober when he saw her earnestness, and when she smiled he made frantic efforts to look down his back and at his coat collar, in which endeavor he made ingenious contortions, but was unable to see what was the matter with him.

The young lady's attention, however, became more concentrated and her amusement more marked; he was sure he had run against some paint somewhere or that a water bug or other interesting specimen was climbing up his person; he withdrew his interest from the lady and concentrated it upon himself, and felt the humid dews of perspiration coming out all over him.

At length human endurance could no longer resist the suspense, and he left the car, followed by a gentleman who had observed the incident. He then betook himself to a neighboring bar room and called a waiter and asked him what the deuce was on his neck. "Nuffin, sah," responded the servitor. "Thank goodness" said the youth, with a sigh of relief; "the blamed thing must have fallen off."

—A California paper says: "One of our wealthiest citizens left his eastern home sixteen years ago and arrived in San Francisco with only one shirt to his back, since which time he has accumulated twelve millions." Just think of it, twelve million shirts! A big shirt tale, that.

"My skin has been covered with scaly sores, has become clean, smooth and soft as a lady's. My hands were covered with little dry scabs. They have disappeared and I'm better than I have been for twenty years, using Dr. Benson's Skin Cure.—A. M. Noble, N. C., July 3, 1882.

—A married woman who had escaped from a burning hotel by jumping out of the window said she didn't blame the proprietor because there is in every bedroom a rope provided for the safety of the guests. "Then why didn't you avail yourself of it?" asked the inquisitive newspaper reporter. "Because I couldn't," she answered sharply, as if the question was a foolish one; "my husband was using it trying to save his dog."

Everybody Likes

to be called handsome, especially the young ladies. But that is simply impossible as long as their face is covered with pimples, blotches and sores. But wait, there is no need of this; one or two bottles of Sulphur Bitters will remove all such disfigurations, and make your face fair and rosy.—*Fannie Bell, Editress.*

—It is related of a small boy in one of the public schools that he was asked where the zenith was. He replied: "The spot in the heavens directly over one's head." To test his knowledge further the teacher asked: "Can two persons have the same zenith at the same time?" "They can." "How?" "If one should stand on the other's head.

All men agree on one point, viz: That death from heart disease is rapid. The symptoms sometimes manifest themselves for years, and then again only for months. All of the thousands who have used Dr. Graves' Heart Regulator as soon as these symptoms appear, have been saved. It is the *only specific* for that malady.

—"Pa, I wish you would buy me a little pony," said Johnny. "I haven't got any money to buy you a pony, my son. You should go to school regularly, my son, study hard, and become a smart man; and some of these days, when you grow up, you will have money of your own to buy ponies with." "Then, I suppose pa, you didn't study much when you were a little boy like me, or else you would have money now to buy ponies with, wouldn't you pa?"

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

—"Is anybody waiting on you?" said a polite dry-goods clerk to a young lady from the country. "Yes, sir," replied the blushing damsel; "that's my fellow outside; he wouldn't come in the store."

Kalamazoo, Mich., Feb. 2, 1880.

I know Hop Bitters will bear recommendation honestly. All who use them confer upon them the highest encomiums, and give them credit for making cures—all the proprietors claim for them. I have kept them since they were first offered to the public. They took high rank from the first, and maintained it, and are more called for than all others combined. So long as they keep up their high reputation for purity and usefulness, I shall continue to recommend them—something I have never before done with any other patent medicine. J. J. Babcock, M. D.

—A police judge at St. Joseph, Mo., remarked in dismissing a case, the other day: "I shall dismiss every case of woman-insulting where it can be shown that the woman first flirted with the accused."

Could Hardly Stand on her Feet.

R. V. Pierce, M. D. Buffalo, N. Y.: Dear sir—I must tell you what your medicine has done for me. Before taking your "Favorite Prescription" I could hardly stand on my feet, but, by following your advice, I am perfectly cured. The "Favorite Prescription" is a wonderful medicine for debilitated and nervous females. I cannot express how thankful I am to you for your advice. Yours truly, Mrs. Cornelia Allison, Peosta, Ia.

—A hungry little girl was begging in Des Moines. A man dropped a five-cent piece into her hand. A tramp came along told the child that he had eaten nothing in a week, so impressed her with his greater distress that she forgot her own, and gave him the coin. Then he went to the nearest groggery and bought a glass of whiskey. The climax of the story is a tremendous whipping, given to the tramp by the original donor of the nickel.

—"Good morning, Mr. Blank. Pa told me to bring back your snow shovel, which he borrowed last fall, and says he will be very much obliged if you will lend him your spade and rake and wheelbarrow. He says he will send the spade back in time to borrow your lawn-mower."

If disease has entered the system the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than Iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparation, a positive cure for dyspepsia, indigestion, kidney troubles, etc.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever gave relief for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hail-stones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. A man who is it with many hail-stones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

Captain Bushrod B. Taylor, of the navy, died in Washington on Saturday night, April 21st, of congestion of the liver. He entered the service in 1849.

The Jamestown arrived at St. Thomas March 30th, and expected to sail April 13th for Newport, R. I.

Mr. C. B. Littlefield, 1133 Elm street, Manchester, N. H., says: "Brown's Iron Bitters are giving perfect satisfaction. I take pleasure in recommending them."

The Coming Candidate.

There is a general boom going through the democratic newspapers in favor of the nomination of Mr. Tilden as the democratic candidate for president. Mr. Tilden is described as robust in health, young in physical condition, gay and festive in his manner, sound of mind and memory, and as having been out to pasture long enough to run well as a candidate after proper grooming. He is expected to be able to occupy a proper position on the tariff issue, harmonize the democracy, squelch all cheaper candidates, and lead the democratic hosts to victory or "perish in the last ditch," as the campaign of '84 may determine.

Mr. Benjamin Harris Brewster, as a Philadelphia lawyer, may be regarded as a success; but when he becomes "Brewster, Attorney General," and undertakes to manage a department in such a way that all the federal courts of the various districts in the United States must be deprived of jurors because of the larish expenditure of the public money in the retainers of lawyers who in ordinary practice could not earn or collect one tithe of the sum awarded by the Department of Justice (?), "Brewster, A. G.," like another member of the cabinet, naturally goes out at the rear end of the cart.

News and Notes.

President Arthur arrived in Washington at half-past nine o'clock on Sunday evening, the 22d inst., in excellent health, having enjoyed his southern trip very much, and not had a day's sickness. The authors of the sensational despatches from Savannah and Charleston relative to his dangerous illness, are supposed to be closely related to Ananias, Beelzebub and Baron Munchausen, and to be acquaintances of the reporter who recently discovered a meteor covering an acre of ground in Texas.

A church in Dedham, Mass., was struck by lightning on Friday morning last, and badly injured.

Two freight trains on the Grand Trunk railway collided near Wales, Ont., Saturday. Thirty cars and two locomotives were smashed, causing a loss to the company of $60,000.

The schooner Two Brothers, Captain Balke, from San Francisco April 17th for Salt Point, capsized Thursday afternoon, the 19th, off Bodega head. All hands, including the captain, five men, and Capt. Schernberg, a passenger, were lost. The vessel drifted into Bogra bay bottom up.

At the term of court in Calais, Me., this week, several important cases will come before Judge Libbey, among others a libel suit of Rev. John Morse against the Bangor *Commercial*, in which the damages are laid out at $20,000. The alleged libel consists of an article published in the *Commercial* in June, 1880, charging Mr. Morse, while settled in Dexter, with certain immoral practices.

The late signal service officer at Lynn, Mass., Mr. Henry Hutchinson, offers his services to the government without pay, on condition that the government will renew the sending of weather despatches to the station in that city. The Lynn service was recently cut off for pretended lack of appropriations, as was the case at many other cautionary-display stations.

Mrs. Francis A. Phillips, wife of the solicitor general, fell dead in Washington, D. C., on Saturday evening, the 21st inst., while making her toilette preparatory to going out.

A little child of Mrs. Charles Puffer of Duck Pond, Me., was burned to death Friday, having set her clothes on fire with matches.

Robie Rowe, aged sixteen years, son of Robert Rowe, was drowned at Richmond, Me., Saturday forenoon, by the upsetting of a sailboat. Getchell, his companion, was rescued by a brother of the drowned boy.

A tornado in Mississippi and Tennessee did immense damage on the 22d inst. At Wesson, Miss., thirteen persons were killed, and at Beauregard twenty-three were killed, many being wounded in each town; the towns of Tillman and Lawrence suffered terribly, and in Tillman several persons were killed.

A despatch of the 22d inst. from Madrid, Spain, says an explosion occurred in a dynamite factory at Laperuce, Leon, Sunday. The bodies of seven victims have been recovered, and it is feared that more will be found.

Twenty persons have been arrested in the town of Milltown Malbay, county Clare, Ireland, on a charge of conspiracy to murder landlords, agents and officials. Two of the prisoners have turned informers.

United States Senator Henry B. Anthony was taken ill very suddenly upon the street in Providence, R. I., Saturday, becoming dazed, and having to be carried home.

The count of the money in the United States treasury has been completed, the amount in the vaults agreeing with that on the books, except that there is an excess of three cents in favor of the treasurer. No count had taken place previously for a number of years, one treasurer after another having accepted the book records as correct, without having a count made. Treasurer Gilfillan was not willing to retire without knowing exactly how matters stood.

Mrs. Louisa B. Stephens, widow of R. D. Stephens, has just been elected to succeed her husband as president of the First National bank of Marion, Iowa, and is said to be the first woman ever occupying the position. She is reputed to be a woman of thorough business habits and good qualifications, as well as energetic and popular.

On April 13th a number of persons in North Easton, Mass., while under the influence of liquor, covered a large dog with kerosene, and than set the animal on fire; the poor beast died in great agony. On the 20th inst. officers arrested Warren and Herbert Smith, John Barlow and Almanda Madden as participants in the affair.

John McKinnon and William Stone, two of the crew of the fishing schooner Ocean King, before reported as having been lost by the schooner on the Western banks while tending their trawls, were landed at Halifax, N. S., on the 21st inst. by the schooner Herman Babson of Gloucester, which picked them up in an exhausted condition on Monday afternoon, the 16th, they having been in their dory without water, and without other food than raw fish, since the previous Thursday at 4:30 o'clock in the morning. They were unable to climb on board the schooner without aid, when picked up.

Herring struck in at Gloucester, Mass., Wednesday night of last week, when about a barrel of them were taken in a trap at Kettle island. Last year the school struck in on the 25th of March, nearly a month earlier than this year.

The fishing schooner A. R. Crittenden, of Gloucester, reports the loss on the Western banks of one of her crew, Lyman Latham, who was capsized in a dory while attending to his trawls. His dory mate was rescued.

A Gloucester despatch of April 21st reported the arrival at that port within the previous twenty-four hours of fourteen schooners from the Western banks and eight from Georges, with 720,000 lbs. of codfish and 50,400 lbs of halibut.

AROUND HOME.

Roller skating carnival in Franklin hall, Tuesday evening, April 24th. Mr. F. F. Billings, of Boston, will supply a plenty of skates, and the Portsmouth band will furnish music.

A correspondent writes: "Allow me to ask through your columns why there has been no statement, for the past two years, of the expenses of Memorial day, as heretofore? As we are all interested in the welfare of Storer Post, why keep this from the public?" Perhaps some one will answer the query of our correspondent, who is a lady not only "interested in the welfare of Storer Post," but in all other good works as well.

Coat-makers are referred to the advertisement of Mr. Wm. P. Walker in another column.

C. Sullivan & Co. on Monday received from the Shoals 700 lobsters, of extra size and quality, being hard shelled and full of meat.

The Perkins Chair Co., of this city, have contracted to furnish six railroads with their patent chairs.

The *Granite Monthly* for the present month contains a sketch and a steel-plate likeness of Senator Blair. The other prominent feature is Mr. Tullock's history of Methodism in Portsmouth, with a table of interesting statistics as to pastors, presiding elders, church membership, etc. Mr. Tullock seems to have given much labor to the preparation of this history, and it will be read by many both within and without the denomination with no small degree of interest.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Sy up for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codjan9,84

Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach,** and all diseases that arise from impure blood. **Sciatica, Inflammatory** and **Chronic Rheumatism, Neuralgia, Gout,** and **Spinal Complaints** can only be effectually cured through the blood.

For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa,** arising from internal ulceration, and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness,** and **General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where our directions are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vinility and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT.

MONDAY, April 23d; *Batchelder J.*

Frank S. Jones and John T. Whiteman, seamen attached to a coasting schooner, were assessed $9.90 each, fine and costs, for drunkenness.

SUPREME COURT, APRIL TERM.

CARPENTER J.

On Monday, the 23d, the entire day was occupied with equity case No. 25, Whittaker and others (of Haverhill, Mass., heirs at law of Hannah Marsh) vs. Moses Marsh, admr. of Hannah Marsh. An appeal from the Probate court, wherein it was sought to have the accounts of said Moses, passed by the Probate court, set aside because the sum of $2000 belonging to the estate, and interest, is not accounted for, and because other sums which came into the hands of the admr. were not accounted for. Mrs. Marsh died Nov. 29th, 1881. The question was whether the property of the wife had become the husband's, or was a part of her estate and liable to be distributed to her heirs, the appellants. Stickney, Frink and Brackett (of Haverhill) for appellant; Wiggin & Fuller for appellee.

The docket was finally called on Monday afternoon.

The court comes to Portsmouth on Tuesday to hear case Nathan Jones vs. the proprietors of the Portsmouth Aqueduct Co., for damages alleged to have been caused to the plaintiff's land by reason of the draining off of water in the enlargement of the company's reservoir, which caused the land to be drained.

METHODIST APPOINTMENTS.

The following are among the appointments for the Dover district, made by the annual conference of the Methodist Episcopal church in session at Concord on Monday, April 23d:

G. J. Judkins, presiding elder;
Candia and Deerfield, W. H. Stuart;
Dover, J. M. Durrell;
Epping, F. E. White;
Exeter, C. J. Fowler;
Fremont and Danville, to be supplied;

Newmarket, H. Woodward;
Rochester, Wm. Eakins;
Seabrook, G. W. Buzzell;
South Newmarket, C. W. Taylor;
Portsmouth, J. E. Robins.

THE RETURN OF THE SONS.

The adjourned meeting of citizens favoring a public reception of the sons and daughters of Portsmouth on the coming 4th of July was called to order in the city rooms on Monday evening by Col. Wm. H. Sise; and Mr. Walker, of the committee appointed to draw up a programme, reported the following:

"Your committee deem it advisable that the citizens extend an invitation to the sons and daughters of Portsmouth abroad to return on July 4th next, provided that the necessary funds for the expense attending the reception be paid by subscription. For a programme your committee suggest the reception of the various delegations, with an address of welcome, at Frenchman's lane; and that a military and civic procession be formed, and act as escort to the visitors for a march of about one hour through the principal streets to Market square, there to be dismissed. For the entertainment of the public in the afternoon we would recommend an out-door band concert of an hour or more; and for sports would suggest a boat race and marine bicycle race, for liberal prizes; or similar arrangements. For the evening entertainment a reunion of the sons and daughters, and such literary and musical exercises as may hereafter be arranged, at Franklin hall. And for the evening, band concerts on Market and Haymarket squares, and fireworks on Market square. Three first-class bands are recommended to be hired."

This report was signed by J. Albert Walker, James M. Carr, and John W. Parsons.

Col. Sise thought that instead of sending out printed invitations as was done ten years ago, to the number of 4000, an advertisement in certain city papers would suffice. He said that of the committee of 100 of ten years ago, twenty-three are dead, (mostly young men,) and seventeen others have moved from the city.

On motion of Mr. M. Crowley a committee of five, viz.: Marcellus Eldredge, Samuel Dodge, J. Albert Walker, Michael Crowley and A. W. Odiorne, with Col. Sise added, was appointed to select a committee of forty to carry out the details; and Judge Bufford being called to the chair, the committee retired, and on returning reported forty names.

It was then voted to increase the committee to fifty, adding the nominating committee as five of the additional members; also that Col. Sise be chairman of the general committee, and Walter H. Page secretary. The committee were empowered to fill vacancies and add to their number if necessary, the list at adjournment being as follows:

Wm. H. Sise, chairman, Alfred Stavers, E. H. Winchester, Willard J. Sampson, Ed. S. Fay, Frank Jones, John W. Parsons, John S. Treat, Marcellus Bufford, William R. Martin, Joseph H. Gardiner, John Laighton, Thomas Entwistle, Wallace Hackett, Marcellus Eldredge, John Pender, Calvin Page, Arthur W. Walker, Daniel J. Vaughan, D. Webster Barnabee, George A. Blaisdell, Daniel Marcy, William W. Cotton, John E. Colcord, John Sise, Samuel Dodge, James M. Carr, John H. Hutchinson, E. P. Kimball, Charles A. Hazlett, Charles H. Mendum, J. Horace Kent, George B. French, Andrew P. Preston, James R. May, John H. Broughton, John H. Slater, Albert Laighton, J. Albert Walker, Henry M. Clark, A. R. Yates, John O. Ayers, William S. Hazel, Augustus W. Hodgdon, O. H. Cook, J. H. Thatcher, B. F. Webster, T. Salter Tredick, Michael Crowley, Walter H. Page, (secretary.)

The meeting then adjourned without day.

The committee met at the call of the chairman, and adjourned to Friday evening. Alderman Stavers tendered the use of rooms in Franklin buildings for the meetings of the committee.

WOMAN'S TEMPERANCE LEAGUE.

The following are the officers of the Woman's Temperance League, elected at the meeting held in Temperance hall on Thursday afternoon, April 19th:

President, Mrs. Silas Philbrick;
1st Vice Pres., Mrs. Alfred W. Haven;
2d Vice Pres., Mrs. James Sanborn;
Secretary, Mrs. R. D. Smart;
Treasurer, Mrs. D. H. Spinney;
Chaplain, Mrs. Joseph T. Pettigrew;
Cor. Secretary, Miss Hannah Candage;
Asst. Treas., Mrs. Susan Deverson.

The meetings will be held once in two weeks from now until the first of October, instead of weekly as formerly.

GOSSIPS SAY

That Mr. Henry Wallace, late a member of the bank watch, moved with his family to Lynn, Mass., on Monday last.

That the first cunners to be taken in this harbor this season were caught near Wood island on Saturday, the 21st inst.

That the fleet of British schooners which have already made one trip to this port from the provinces this spring with railroad ties, will make several trips before the season is over.

That Boston parties have been examining the Frisbee farm on Gerrish's island, Kittery, with a view to purchasing.

That an investigation which will doubtless cause considerable legal controversy will soon be made respecting the ownership of certain valuable real estate at Newcastle.

That the steamer Pinafore made two trips to this city from the Shoals on Sunday last.

That all the pulpits in Concord save the Roman Catholic were filled by Methodist clergymen on Sunday last, Rev. Mr. Robins of this city occupying the pulpit of the First Baptist church.

That the Pepperell house at Kittery Point will open its doors to the advance guard of summer boarders the first week in May.

That the Sagamore bridge is to be extensively repaired.

That the Marine Bicycle company shipped one of their crafts to New Orleans on Monday of this week.

That Rev. Charles A. Holbrook, formerly of this city, has accepted charge of a church in Aurora, Ill., and with his family will shortly remove there.

See advertisement of half fare on Eastern railroad between this city and Boston to-day. Tickets good on any regular train, either way.

This evening, at Music hall, the leading tragedienne of the day, Madame Janauschek, will appear as "Mary Stuart," the hapless Queen of Scots, a character in which she has no rival. Seats are still to be secured at Goodrich's.

Services will be conducted in the Hanover street chapel this (Tuesday) afternoon at three o'clock, and in the evening at 7:30, by Mrs. H. L. Hastings of Boston, to continue as the interest manifested may render advisable; a cordial invitation is extended to all to attend these meetings. Elder Hastings is expected to be present during the week.

[*For other local matter, see second page.*]

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch,

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries, that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is a work of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters, my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

KIDNEY-WORT

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it has been tested and proved by the whole World Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

I CURE FITS!

I do not mean by this to stop them for a time and then have them return again, I mean a radical cure. I make the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.

WHEAT BITTERS

THE BEST The Richest BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, AND ACCEPTABLY AND RELIABLY.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most nourishing substances with which to build up the system.

The Blood, Brain and Nerve are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by *fermentation* but by solution and are richest in the Phosphates, while the starchand impurities are eliminated. These salts in themselves are food, to which is added the best and choicest medicinal qualities, necessary to make it a Nerve and Blood Builder. This is a powerful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

"The celebrated Vegetable compound for females, which within a few years has made the name of Mrs. Lydia E. Pinkham known in every part of the civilized world, relieves suffering by the safe and sure method of equalizing the vital forces and thus regulating the organic functions. It is only by such a method that disease is ever arrested and removed.

A. S. Sands, superintendent of the almshouse and city farm at Bangor, Me., died Sunday afternoon after a very brief illness. He has been a very efficient officer for the past five years.

Startling Debility,

Both nervous and general, lack of self-confidence and will power, impaired memory, despondency, weak back, and kindred affections, are common results of youthful follies and pernicious practices, pursued in solitude. Means of unfailing and perfect cure are suggested in large illustrated treatise, sent for three letter postage stamps. Address World's Dispensary Medical Association, Buffalo, N. Y.

Work at the Keelridge mine at Iron Mountain, Mich., the shaft of which caved in some weeks ago, burying nine men, has been abandoned, as it was found impossible to take the bodies out, the earth caving-in faster than the men could take it out, and the cavity being of such a nature that it cannot be timbered. The danger was so great the men refused to work.

In the Hop Plaster are united fresh Hops, Gums and Balsams, and its power is wonderful in caring back ache, sprains, bruises, neuralgia, pain in the side or soreness anywhere. Thousands testify to this.

In the superior court for Henry county, Ga., Leonidas Johnson, colored, was indicted for felonious assault on a young country girl, and convicted. Johnson was sentenced, and was about to be remanded to jail, when a sensation was created in the court house by the appearance of Mrs. Cook, a lady of the county, who identified the prisoner as the man who had recently perpetrated an outrage on her person while she was alone at her home in the country, and unprotected. This startling revelation created such excitement that it was with difficulty the officers prevented the citizens from lynching the villain.

***Mean people take advantage of their neighbor's difficulties to annoy them." Mean diseases, such as piles, rheumatism, constipation, dyspepsia, malaria, lame backs, etc., take advantage of people's exposures and attack them. It is then that Kidney-Wort appears on the field and by its timely agency puts to rout this flock of evil attendants. It is a friend in need and therefore a friend indeed.

There is much excitement in trotting circles at Toronto, Ontario, over frauds perpetrated last year, and which have just come to light. The mares Lady Reveller and Labelle were entered in Canadian races as Canadian bred, obtaining allowance in weight therefor. It has just been found that they were bred in Kentucky, and at a meeting of the Ontario Jockey club they were perpetually disqualified. They made a clean sweep of everything in Canada last year.

WILKIE COLLIN'S last story is called "My Lady's Money." In this country it would have been: "Mother-in-law has got the stamps," or "The Old Woman is Well Heeled," remarks a paragrapher. All Americans do not employ such outrageous slang phrases as the above. In speaking of Ely's Cream Balm, however, they do say: "it's perfect," "it's as fragrant as flowers, and certain death to catarrh," &c., &c. This Balm is not a liquid or snuff, and is easily applied. Thousands of grateful persons attest its efficacy. "One in our family had catarrh for eight years," said R. W. Merrill, Sec'y Phœnix Manuf'g Co., Grand Rapids, Mich. "She ineffectually tried other remedies and several speciality doctors in Boston. Ely's Cream Balm has restored her health and hearing, which were considered incurable." Try it, reader. Price, 50 cents.

I know Hop Bitters will bear recommendation honestly. All who use them confer upon them the highest encomiums, and give them credit for making cures—all the proprietors claim for them. I have kept them since they were first offered to the public. They took high rank from the first, and maintained it, and are more called for than all others combined. So long as they keep up their high reputation for purity and usefulness, I shall continue to recommend them—something I have never before done with any other patent medicine. J. J. Babcock, M. D.

In the case of Chadbourne & Kendall against the J. B. Brown heirs, for $8,000 damages, caused by the bursting of a water pipe in the Falmouth hotel, Portland, Me., which flooded the former's store, the jury declared Saturday for the plaintiffs in the sum of $3,866.

If disease has entered the system the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than Iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparation, a positive cure for dyspepsia, indigestion, kidney troubles, etc.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and secure remedy. "Poverty is the tribute, virtue pays to vice." Imitation is the concession failure makes to success. Benson's Plasters are paroded in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York. feb21,wns&gtsept23

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which the city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr. Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever prescribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hail-stones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. A man who is hit with many hail-stones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

Every effort to extinguish the fire which has been burning in the Bear Valley mine at Shamokin, Pa., for the past three months having failed, the mine is now being flooded. It will require six months' time to extinguish the fire in this way, and put the mine into operation again.

Having examined the formula from which *Adamson's Botanic Cough Balsam* is prepared, we recommend it as a safe and reliable medicine for the cure of asthma, coughs, colds, all diseases of the throat, chest and lungs.

Thomas H. Ellis and wife of Asbury Park, N. J., were arrested April 23d, and over $2,000 worth of dresses, etc., which were stolen from cottages there last fall, were found at their house.

Mr. C. B. Littlefield, 1133 Elm street, Manchester, N. H., says: "Brown's Iron Bitters are giving perfect satisfaction. I take pleasure in recommending them."

In the supreme court, at Lancaster, in the case of S. S. Sleeper & Co. of Boston vs. A. T. Barron, a verdict was returned for $154.90, being some $300 less than amount recovered at a former trial, which gives costs to the defendant. The case has been in court eleven years, and has been four times tried.

News and Notes.

Gov. Butler of Massachusetts on the 23d inst. issued an order to the state Board of Health, Lunacy and Charity, ordering the board to take charge of the Tewksbury almshouse, and superceding the board of trustees of that institution. The health board declined to take charge without the attorney general advise them that they must, and the question was referred to him for his opinion; and Frank B. Sanborn, suggested to the board by Butler as a suitable person for superintendent, positively refused to take the situation. It is very evident that whatever else may be the outcome of the Tewksbury investigation, it will be run for all it is worth as an advertising agency for Benjamin F. Butler.

A San Francisco despatch states that Capt. P. H. Holton of the steamer M. S. Latham suicided on April 21st. He was a native of Boston, aged fifty years.

Capt. Norwood, with a company of cavalry, has driven a party of Cree Indians into the British territory, after a skirmish in which three Indians were killed and some stolen cattle recaptured.

Mr. Henry Tomlinson, a prominent citizen of North Stonington, R. I., was thrown from his carriage on the 18th inst., while speeding a young horse against one driven by Dr. Edwin Knowles, and received fatal wounds, a large hole being crushed through the skull over the ear, and the ear being nearly severed. He lay senseless until his death, Friday morning, the 20th.

The national board of health at Washington is informed that a terrible plague has appeared in some Persian villages near the town of Suleemania, in Turkey, and that physicians sent there by the Turkish government to investigate the nature of the disease had been driven away by the excited inhabitants.

Geo. Dean, while calling at the house of a man named Colt, at Luzerne, N. Y., April 22d, for improper purposes, was attacked by Colt, Colt's ten-years-old son, and Nancy White, and fatally wounded. The elder Colt shot him in the breast, while the son stabbed him, and the woman hacked his arm with an axe. The family had been badly dealt with by Dean.

An ingenious swindle with bogus certificate checks was developed in Worcester, Mass., April 23d. A party calling himself Henry Klein, commercial traveller, has passed checks at Springfield, Philadelphia, Washington, Del., Steubenville, Ohio, and Hartford, signed Lewis Robb & Co., and certified across the face with "O. K. if properly presented, Waite, cashier," in ink, over "First National bank, Worcester," in a rubber stamp. Checks came to Worcester for collection from New York banks. The firm is not known in Worcester, and the certification is a fraud.

Timothy Kelly, the alleged Phœnix park murderer, in whose case the jury at Dublin, Ireland, failed to agree on a verdict, on Friday, April 21st, was again placed on trial Monday 23d. A man named Glyn, who identified Carey at the enquiry in Kilmainham court house as a man whom he saw in Phœnix park on May 6th last, testified that he saw four men in the park on the evening of that day, but Kelly was not one of them. The court then adjourned.

Eighty-three persons were killed and over 300 wounded by the recent cyclone in the Mississippi vally.

Thomas Moran, aged twenty-nine years, of Springfield, Mass., was run over by a locomotive on the Pennsylvania road in Jersey City, N. J., April 23d, and his left leg was taken off. He was removed to the hospital in a dying condition.

H. W. Love, a so-called temperance reformer, and editor of a paper called the *Review*, at Rutland, Vt., has been held in $5000 to answer to a charge of attempted rape upon a young girl.

A private letter from Capt. Boyton, dated at Bordeaux, France, March 24th, states that the famous swimmer was then enroute to Spain, where he expected to navigate some of the largest rivers in the kingdom. He was to first visit Madrid.

A Chicago despatch says W. L. Church, Jr., late comptroller of Hyde Park, Ill., is missing, and his accounts are $7,700 short.

The Thomas iron works at Gore, Ohio, and the Bessemer works at Straitsville, Ohio, have closed on account of strikes against a reduction of wages.

Frederick Nicholls Crouch, the composer of "Kathleen Mavourneen," is now living at Baltimore at an advanced age. He is in needy circumstances and a movement has been started by musicians in Baltimore and other cities to make up a fund for his benefit.

On Saturday night, April 21st, Officer McGrath of Hingham, Mass., arrested Samuel T. Allen and J. T. Prior, both of Quincy, while they were in the act of seining smelts from a boat anchored off Ringbolt rock at Hingham. Prior resisted and drew a revolver, but he was disarmed before he could use it. In the boat were found 4423 smelts, 200 herring and about 100 alewives. Allen and Prior were held in $500 each for examination on a later date.

AROUND HOME.

Mr. James E. Lathrop of Dover, "in behalf of the Dover board of trade and interested citizens," makes through the papers the following proposition: "To G. Q. Dow or any other party who will secure to Dover a shoe manufacturing company, with a weekly pay-roll of $3,000 and five years occupation, I will guarantee to raise and pay the sum of $2,000 cash, and the firm shall have various other favors of great value."

The tax of York county last year was $22,500. This year it is $20,000, of which amount Kittery is taxed $568.95; Eliot $440.81; York $667.11; Wells $578.39; Kennebunk $1,199.54. The number of polls in the county is 15,504, and the estate valuation $22,423,960.

Cyrus Goodwin and Charles Pierce are building a summer boarding house near the place of Richard Pickernell, on the Eliot road, Kittery.

Rev. D. B. Sewall has been engaged by the First Congregational church of York for another year.

Among the late transfers of real estate in York county are the following: Kittery—Augustus H. Adams of Kittery to Nellie A. Milne of Boston, Mass., real estate in Kittery for $1; Nellie A. Milne to Augustus H. Adams, land in Kittery for $1. Eliot—Mary A. Junkins of Eliot to John A. Wadleigh of Kittery, land in Eliot for $1000. York—James A. Horne of Dover to Elisha R. Brown of Dover, real estate at Cape Neddick for $275; Thomas S. Floyd et al., of Albany, to Elisha R. Brown of Dover, land at Cape Neddick for $250.

A HARBINGER OF SPRING.

Spring is a season full of climatic coquetting. One day abounds in sunny smiles, and then follow bleak, raw winds from snow-clad mountain tops.

But the sun is on time, if the season is late. The days begin earlier. The morning naps are disturbed by an earlier rumble of milk carts and the tramp upon the sidewalk of men going down town. But the most irrepressible and unsubdued noise which serves to keep awake the drowsy occupant of his bed-chamber, is the robin's song.

There is nothing more persistent than the long story by which the early morning robin seeks to rob us of our rest. Sometimes we fancy we can, in our half awake condition, make into intelligible English what he is saying on the tree top. "Wake up, old fellow-fellow-fellow low low low; don't you hear that we are around again this spring? What do you want of sleep, sleep, sleep—'eep-'eep? Why don't you get up and make a noise too, too, too, too, too? Do you want an item for the paper, paper, paper? Say Mr. and Mrs. Robin R. Breast have taken rooms in this tree, tree, tree, and will spend the season making it noisy up here, here, here, here, here!"

If there is anything which tends to make a man unappreciative of the language of birds before breakfast, it is to have a pair of these big-bellied robins come and occupy a limb close above one's window, and there, as soon as the morning sun begins to gild the earth, rise up before even the early bar keepers get about, and fill the air with an unceasing chatter. It's all very sweet as an occasional concert, but when one has a season ticket to the entertainment it is like living near the man who practices on the trombone in an August night. Birds are good in their places. We can appreciate instances of quail and others of the feathered tribe, properly served, but when the robin insists that before tired naturer's sweet restorer has finished its night duty, the ear shall be filled by sounds of merriment at unreasonable hours of the early morn, we incline to the opinion that the robin is a disturber of the peace, and would be in better business if prospecting for the early worm, instead of keeping awake well behaved persons who have never done him any harm.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 5, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor; and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,
A. L. HINCKLEY,

THE *Admiration* OF THE *WORLD.*
Mrs. S. A. Allen's WORLD'S
Hair Restorer
IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT.

TUESDAY, April 24th.

William Plummer, for drunkenness, was fined $3, costs $6.90. Brentwood in default of payment.

GOSSIPS SAY

That the light snow of Tuesday morning last caused many people to look up their last year's diaries, when to their surprise they learned that one year ago, on the 24th of April, 1882, the north milipond was frozen over strong enough for people to cross from the Eastern railroad round-house to Goose point, Christian Shore, on the ice.

That on the morning of April 28th, 1882, four inches of snow covered the ground in this vicinity, but rapidly disappeared during the day.

That Miss Norah Bartlett scored another triumph at the Boston Museum an Monday evening last, "easily leading all the ladies in careful preparation and fine acting."

That white and purple hyacinths were in bloom in front of the Lord mansion, on the corner of State and Middle streets, April 24th.

That Major Urch is now engaged in tearing up the second Newcastle bridge, which he will rebuild as thoroughly as was done with the third bridge, now completed.

That the Perkins Chair Co. have sold 20,000 of their chairs to the Maine Central railroad.

That a New York lawyer was in town on Tuesday in the interest of a rival railway chair concern, but the evidence taken here showed that the New York inventor was antedated several years by Portsmouth parties.

That the United States line-of-battle ship Swan, Admiral Nelson commanding, was laid up in the north pond on Tuesday, April 24th.

That the crew of the Swan were mustered out of the service on Tuesday, and the gallant little craft ceased her cruises about the pond on that day.

That there is still some ancient mud left in the bottom of the pond—enough for all practical purposes as a nuisance the coming summer.

That many new and handsome awnings are being put up around town this week.

"ONLY A FARMER'S DAUGHTER."

The play bearing the above name was performed in Manchester, and the *Mirror* said of it:

The play is a strong one, highly emotional and sensational, and the interest awakened in the first act increases throughout the drama, and until the denouement leaves the audience in the best of feeling. The plot of the play is peculiar and original, and brings about many strong situations and an abundance of life and action, while the dialogue is also excellent, each sentence contributing its share to the developments of the piece, with no useless words to consume time. The run of the play is that an ambitious and handsome literary man, whose weakness is flattery, marries a farmer's daughter, takes her into society, and eight years afterwards a villainous friend and a scheming woman plan their separation, their object being to obtain the husband's property. The scheme would have succeeded but for a dream in which the literary man experiences the keenest anguish, and awakening from his troubled sleep, his joy to find that it "was nothing but a dream" is almost uncontrollable, and results in the dismissal of the schemers.

At Music hall this evening. Tickets at Goodrich's.

Workmen were on Tuesday engaged in raising the grade of Water street, at each end of Liberty bridge. It is said the grade will in some places be raised several feet. Need enough of it.

Persons having oxen or young cattle which they wish to secure pasturage for, close at home, where they will have the best of feed and abundance of water, whether the season be dry or wet, can be accommodated if they make early application to Porter R. Emery, manager of the Burnham farm on Gerrish's island, Kittery Point. Letters addressed to Mr. Emery at the Kittery Point post-office will receive prompt attention. See the advertisement in another column of this paper.

Mr. Wm. E. Hadley's house, on Elm street, is being painted in fashionable tints.

The Portsmouth Shoe Co. shuts down on Wednesday night, to take an account of stock on Thursday, and will resume operations on Monday of next week.

Mr. Editor: In reply to a query in the CHRONICLE of April 24th, I would state that as treasurer of the Memorial Day Committee of last year I received and disbursed the funds raised for the occasion. I shall be happy to show my statement and vouchers, as rendered to the general committee, to anyone who may desire to see them. J. W. PARSONS.

The statement that there are no funds for jurors in United States courts till after July does not apply to the May term of the Circuit court to be held in this city, as the United States marshal has funds enough for this purpose on hand.

The May fair at Exeter will be held on Wednesday, the second day of May, in the town hall. A hot dinner will be served at half-past twelve o'clock. A short operetta will be given in the evening, after which dancing will be in order. The May festivity is one of the most interesting annual observances at Exeter.

Any person desiring to purchase a good whale-boat, well found in sails and gear, suitable either for pleasuring or fishing, will do well to call on E. S. Newton & Co., Commercial wharf.

The schooner Cocheco, Capt. R. H. Seaward, arrived at Philadelphia on the 21st inst., ten days from the St. John's river, Florida, with 170,000 feet of lumber at $7 per thousand feet.

There was a slight fall of snow on the night of the 23d inst. It did not amount to much, but traces of it could be seen in shady spots after sunrise on the 24th.

The steamer Ann towed to Dover on Tuesday of this week two gondolas, (the H. P. Spinney, Capt. Cheney, and Capt. Drew's gondola,) both loaded with coal for the Cocheco Manufacturing Co. The H. P. Spinney has made, since the opening of navigation, twenty trips between this city and Dover,—six trips a week,—carrying sixty tons of coal each trip, a total of 1400 tons already carried up by this one gondola this season.

The Rockingham County Temperance Association will hold their next annual convention in Seabrook, at the Advent chapel, on Thursday, April 26th. Instead of the usual collation furnished, a picnic dinner will be had.

Mr. Frank L. Preble, for several years past a draughts-man in the department of construction and repair at the navy yard, will shortly go to Boston to accept a position with a civil engineer in whose office he formerly studied.

Mr. Farmer, a diver who was last season employed on the removal of the Badger's island ledge, arrived in this city on Tuesday, with two associates. The "band stand" and drill sloop have been placed in position, and work will proceed at once.

The court of commissioners of Alabama claims on the 22d inst. rendered judgment for the claimant in the sum of $285, in the case of Mark H. Wentworth, administrator.

The schooner Vraie, now putting out 380 tons of Shamokin stove coal at C. E. Walker & Co.'s wharf, is being calked by Mr. Benjamin M. Bailey.

The schooners Flying Dart, Helen Mar, Dauntless and other small crafts, brought in from 400 to 500 lbs. each of fish on the 23d, the price obtained being $1.50 per hundred pounds. James Hafey came in from the Shoals on the 24th with a small boat loaded with fish; and Joseph A. Caswell came in from Duck island the same day with 135 lobsters. The previous Tuesday Caswell brought in 100 lobsters, they being scarcer than ever this spring. The wholesale price received by the boat fishermen for lobsters is eight cents each.

The steamer Pinafore is now making frequent trips between the Shoals and this city.

Mr. Dennis J. Lynch, late in the grocery business in this city, will leave for Boston next week to become associated in business with Farrell & Co., wholesale liquor dealers on Haymarket square, Boston.

The schooner Chilion, Call master, came down the river with a load of bricks on the 23d inst., and made fast to the draw pier of the bridge to await a chance to run for Boston; the G. W. Raitt, also loaded, was at the same time lying at C. E. Walker & Co.'s coal wharf, having been there two days awaiting a slant.

On Friday evening, April 20th, the members of the Second Methodist Episcopal church of Kittery gave an entertainment in the vestry, consisting of select readings, and singing by the members of the Sunday school, assisted by Mrs. Geo. E. Damon of Boston. Everything passed off in the very best manner; the singing and reading were excellent, especially that rendered by Mrs. Damon, who promises to rank among the first of elocutionists. The entertainment concluded with a sale of refreshments for the hungry, and aprons for the needy.

The steamer James Sampson, which went on the marine railway at Kittery on Friday, April 20th, has while there received all needed repairs, had a new bearing for her main shaft put in, and one coat of paint put on her hull. After leaving the ways she will receive a second coat of paint and undergo the government inspection, and probably recommence her regular trips to Kittery Point via Newcastle the first of next week. She will come off the railway to-day.

A gentleman named Milliken, of South Berwick, is engaged to teach school in district five of Ogunquit, Wells, and Miss Cook of Eliot in district thirteen. Both schools open the first week in May.

Mr. Frank L. Preble of this city on Saturday last made a survey near the Marshall house, York harbor, for a wharf for a landing for the steamer City of Portsmouth, belonging to the Portsmouth & York Beach Steamboat Co.; the wharf will abut on land belonging to Mr. E. S. Marshall, not far from the stable of the hotel, and will enable the steamer to land passengers without entering the river. A meeting of the selectmen, to consider the question of granting a license for the wharf, was called for the 25th inst. The work on the wharf at Concordville is in a good state of forwardness, the holes for the iron pillars being all drilled, and a good portion of the iron and wood for the structure already on the ground.

The lobster smack Addie & Hattie arrived from the eastward on Monday with 2000 lobsters to Randall & Caswell.

Capt. A. E. K. Benham has returned to duty as captain of the yard, after a brief absence.

Chief Engineer Charles H. Loring, U. S. N., a member of the board to report on the advisability of discontinuing and selling one or more of the government navy yards, arrived at this yard on the 20th inst.

[*For other local matter see second page.*]

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be safely laid and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or any other cause rendering marriage improper and manhood precarious.

This startling, revised and enlarged, just published, Work is unlike all others, being the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth the price of the book. Bound in beautiful French cloth, gilt-lined, full gilt. Price only $1.25, by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE, OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance of dissatisfaction.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience.

WHY SHE'S SO CHARMING.

Pretty may sing of hours fair,
With oh, such wealth of golden hair;
Such eyes, such lips! such—I don't care,
They can't compare with Jessie!

Painters may blend their colors bright,
With rainbow tints and soft moonlight,
But never in their wildest flight
Could they come near my Jessie.

Sculptors may chisel from the stone
Ideals that need but breath alone
To live and move, and yet not one
Could ever equal Jessie.

You ask me why this maiden rare
So charming is beyond compare?
Well, her papa's a millionaire—
An only child my Jessie!

—"What we want," said the tramp, "is a war. Then I can volunteer, be sick and live comfortably in the hospital, instead of having to skirmish for grub."

Florida strawberries usually sell for $1. per quart basket, when first brought to Northern markets. Wheat Bitters bring the same price per bottle during all seasons. The first are a luxury. The latter is a necessity—because it cures most human maladies.

—The extremity of forethought: Methodical man going through the formalities of an introduction—"Let me present you, sir, to my wife and my daughter. The elder lady is my wife!"

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

—A Cincinnati man dreamed he was dead and in hell; and when he woke up and found he was in Cincinnati he was a good deal disappointed.

☞ Nothing so simple and perfect for coloring as the Diamond Dyes. For carpet rags, better and cheaper than any other dye stuffs.

—The Middletown (N. Y.) *Mercury* says: "A lady residing in this village, the mother of a bright little boy, who was talking to him the other night just as she was putting him to bed about the efficacy of prayer, told him that if he would ask God for anything that he particularly desired she had no doubt his request would be granted. The little fellow knelt at his mother's knee, and prayed God to send him 'fifty little sisters and one hundred little brothers.' The prayer was never finished, for the mother, aghast at having her house turned into an asylum, lifted the boy to his feet and tucked him into bed without a moment's unnecessary delay."

—A clergyman preached a sermon which one of his auditors commended. "Yes," said the gentleman to whom it was mentioned, "It was a good sermon, but he stole it." This was told to the preacher. He resented it and called the gentleman to retract what he had said. "I am not," replied the aggressor, "very apt to retract my words, but in this instance I will. I said you had stolen the sermon. I find I was wrong; for on returning home, and referring to the book whence I thought it was taken, I found it there."

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters, my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, AND ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly cooked, the most acceptable nutrients with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by *fermentation* but by solution, and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish as it corrects.

Sold by druggists, $1.00 per bottle.

All men agree on one point, viz: That death from heart disease is rapid. The symptoms sometimes manifest themselves for years, and then again only for months. All of the thousands who have used Dr. Graves' Heart Regulator as soon as these symptoms appear, have been saved. It is the *only specific* for that malady.

Very wide ribbons brocaded with single huge roses are among the importations. The question is, what can be done with them?

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

"Their Occupation Gone."

R. V. Pierce, M. D., Buffalo, N. Y.: I was attacked with congestion of the lungs, soreness over the liver, severe pains in the joints, a burning fever, and general giving a way of the whole system. Failing to find relief in remedies prescribed, I tried your "Golden Medical Discovery." It effected my entire cure. Your medicines have only to be used to be appreciated. If every family would give them a trial, nine-tenths of the doctors would, like Othello, find their occupation gone. Yours truly, L. B. McMillan, M. D., Breesport, N. Y. *a*

If disease has entered the system the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than Iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparation, a positive cure for dyspepsia, indigestion, kidney troubles, etc.

The newest sateens are combinations of apricot, red rasberry, strawberry, or gray tints, plain tints with shaded roses, palm leaves or bulbous blossoms on tinted ground, matching the plain material.

I know Hop Bitters will bear recommendation honestly. All who use them confer upon them the highest encomiums, and give them credit for making cures—all the proprietors claim for them. I have kept them since they were first offered to the public. They took high rank from the first, and maintained it, and are more called for than all others combined. So long as they keep up their high reputation for purity and usefulness, I shall continue to recommend them—something I have never before done with any other patent medicine. J. J. Babcock, M. D.

The Petersham felt hat for young ladies and misses is as masculine as any worn by youths in their teens. Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syhilitic Diseases, Canker, Faintness at the Stomach**, and all diseases that arise from impure blood. **Sciatica, Inflammatory** and **Chronic Rheumatism, Neuralgia, Gout,** and **Spinal Complaints** can only be effectually cured through the blood.

For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm** VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa,** arising from internal ulceration, and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness,** and **General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever pres ribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hail-stones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. A man who is it with many hail-stones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

SPRING AND SUMMER MATERIALS

In place of originality, we have oddity. Queer monstrosities, of few or many-sided figures; of great circular spots or rings, causing one to look as if dressed up in leaves torn from a school geometry or astronomy. Flying fowl wander over desert surfaces of fine wool or satin, where heads of beasts peer likewise at you, while the exuberance of tropical forests is imitated by palm leaves a foot in length, feathery grasses turning everyway, mammoth flowers, and the like. Again if one chooses, a plain bit of goods can be queerly covered with circles or other mathematical figures cut from velvet or satin, and put on in applique; or yet richer results may be brought about by purchasing velvet leaves or sprays and deftly sewing them on some handsome ground-work. In this last idea there are beautiful possibilities; but in most of what has gone before, the discerning eye sees nothing but a craving for queerness, which gives good evidence that real brain power is lacking. To tell the whole truth, moreover, these thoughts are not entirely novel. They have been seen before, but this season are taken up and wafted on wings of popularity to high position. Frequent absurdity ensues, of course, for what more absurd than a short dolman covered with spots three inches in diameter? From such examples one can draw conclusions.

BABIES IN BLACK.

What more absurd than to dress a baby in black silk stockings? Yet it is done, and thought so very, very stylish. Fashion indeed dances quite a whirl in black silk stockings, and they may be pronounced as all the go. Second to black come solid colors in stylish shades, such as crushed strawberry, crushed rasberry, etc.; while ranking thirdly are alternating stripes of two colors. Now what has been said of stockings leads up to the fact that black and white are to be especially fashionable. When I say "white," however, do not understand me as always meaning "white." Much oftener, such soiled white, falling under the head of cream white, that one is set thinking, and wonders if that "cream" might not have been saved over from Noah's ark. Yet there will be pretty muslins, dotted, sprigged, bestarred, white enough to be in good taste; to say nothing of the immense family of "reilings" which have quite supplanted the bunting tribe which overran us some seasons ago. Black gloves will be often worn to match the black silk stocking; but fashion is consistently queer in clinging to muddy tans, and they will give finish to many a dainty toilette, though yellow and terra cotta are still in vogue. The subject of color being touched upon, one sees in fancy the various

YELLOW TOP KNOTS

On bonnets that are so numerous and so piquant that the staidest Methodist parson might feel impressed thereby. Sometimes a single bright yellow ball is set exactly on top of a flat capote, with what singular results one may imagine. Again, there may be a cluster of three or four balls, or one or two small ostrich tips do duty. Sometimes these ornamentations are set on the side, but they are nothing if not a very bright orange color; frequently a reddish orange. When the flowery kingdom incident on spring opens fairly on us, we may expect notable peculiarities from this sudden rushing after very bright yellow, and as a forecast I can mention a broad-brimmed straw where a veritable bank of bright yellow blossoms swept in an almost entire circuit. What shall be said, too, regarding long silk gloves of bright orange color? Shall they not cause the good Methodist dignitary to stare, and not only he, but divines of all degrees who gather to our May anniversaries? To bright red silk gloves we become accustomed last summer, and when shown this season they fail to make much impression. By midsummer we shall get used to orange color, but by the time we get used to a thing it is about time for it to be a possible thing no longer. It is time for it to be laid away to give place to the next impossible-looking thing.

SPIDERS FASHIONABLE.

Beyond a doubt, spiders are fashionable. Great, crawling spiders, ever so big, with ever so many sprawling legs. They nestle among scarfs, pin together kerchiefs, stand as solitary sentinels in finish to standing linen collars, or sprawl on the left side of the corsage or on a bonnet. Bugs do the same, and indescribable creatures of unknown species. All are welcome, provided they are large enough, and are of metal. Not many together, but one alone, showing off conspicuously. Then, too, we have pins and pins. Stuck here, there, anywhere, and coming in conveniently where a bug or a spider would be inconvenient. Pins of gold, silver, colored metal, or tiny bugs or blossoms pretending to be pins.

Like the sticking of pins, however, comes now the reflection that I have told you really nothing practical about your spring clothes, and you will think your correspondent as queer as Fashion herself. In apology, let me say I have presumed each one of you to be provided with Lord & Taylor's spring catalogue, where the ground is covered so completely, that, driven from the field, I take refuge in telling you only of queer things. Yet I do now bethink me of something practical. Briggs' transfer papers, which in this age of braiding and embroidery are a benediction. You put down one of these transfer designs, run a warm iron over it, and behold your pattern traced, whether it be a monogram on your true lover's handkerchief, a pair of slippers for your clerical adviser, a pinafore for baby, a dress for yourself, or a tidy for the good man's chair. Everything is provided. Kate Greenaway designs, crosses, and I know not what, for church work; sprays, vines, while still greater variety is given by patterns for cross-stitch. An attractive book filled with newest designs is given away, and that, together with patterns, can be found at leading wool and fancy stores. LUCY CARTER.

News and Notes.

Wyatt Banks, colored, an accomplice in the murder of Add Wiser, the Robertson county, Texas, jailer, was hanged in Franklin, Texas, April 23d.

Frank Fyle, Daniel Tomlinson, Charles Farris and Edward Farris have been held at Dover, Del., to await the action of the grand jury for participation in the murderous attack on O'Brien's circus on the night of April 21st.

At Stewartsville, Ky., J. D. Clarke, of the firm of Clarke & Franks, was shot and killed by his partner, J. T. Franks, April 23d. He had accused Franks of stealing the firm's money, from which a quarrel arose. Franks shot Clarke five times.

In Greenville, S. C., Ben Perry shot P. Anderson dead in his yard on Sunday night, April 22d, then went to a negro meeting, told his wife that he had murdered Anderson, and then gave himself up to the authorities. The degrees threaten to take him from jail and lynch him.

Bivins, Hawley and Bennett, three of a gang of five desperadoes imprisoned at Brainerd, Minn., made their escape April 23d by cutting through the wooden walls of the jail. They were captured on the Thursday previous by a sheriff's posse. During the fight incident to the capture, the other two desperadoes were killed.

A despatch of April 23d from Chetopa, Kansas, says: "Yesterday afternoon a disciple of Pere Hyacinthe secured a school house a few miles west of here, to lecture or preach in, and shortly after he had entered he was seized by a number of German Catholics present, bound with cords, and carried off. They first brought him into the edge of Chetopa, but refused to take him before a magistrate or allow him to procure a lawyer. They then drove him to Oswego, took him before the county attorney, who, when he found the man had committed no crime, advised them to let him go, which they did. He then returned to Chetopa, and is now proceeding against the parties by law for infringement of personal liberty."

The cyclone of April 22d in the Mississippi valley was even worse than at first reported. A despatch from Jackson, Miss., reports ten killed. At Georgetown, Miss., two churches were demolished, many persons being killed or wounded; John Crawford's family of five persons, Mrs. Fowler, with three sons and a daughter, the children of John Beasley and Wm. Ryan, a family named Parker, and other persons, were killed in their houses. Near Hohenlinden, La., thirty persons were killed, and at Pine Bluff seventeen. No estimate can be made of the destruction of property.

A grand convention of land leaguers met in Philadelphia April 25th.

Capt. Augustus C. Rand, Mate Thomas Pender, and Second Mate Willis Rand, of the steamer Tropic, are under arrest in Philadelphia for violating the neutrality laws by landing armed men and munitions of war at Miragoane, Hayti, this country and Hayti being at peace. The steamer has also been seized.

The United States troops in New Mexico, under command of Gen. Crook, left Wilcox April 24th for Gaudaloupe canon, to wage war against the Chiricahaus Indians. Crook has 200 soldiers and 200 Indian scouts.

Mrs. Langtry appeared at Meriden, Conn., recently. The Meriden folks were bound to see her, but they didn't propose to make themselves bankrupt by so doing. So they formed syndicates of about twenty persons each, and each syndicate bought one admission ticket. The first man (by lot) of the syndicate went in and gazed at her for five minutes, and then went out and gave his return check to number two, who in turn went in for a few minutes and then gave his check to number three, and so on until all the members of the syndicate had feasted their eyes upon the Lily. In this way the actress really played to more people than the theatre would have seated, although at no time did the house seem more than half full.

Slade the Maori, Jem Mace, Tom Early of Boston, and other pugilists, sailed from New York for Liverpool on the steamer Arizona, April 24th. Patti sailed in the same vessel.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtJan9,84

PASTURAGE.

AT THE BURNHAM FARM, Gerrish's Island, Kittery, a limited number of **CATTLE** will be taken to **pasture** during the season, at fair rates. Prompt application is advisable, as no more animals will be received than there is abundant accomodation for. The feed on the place is of extra quality, the water abundant and good, the forest shelter from sun and wind all that is needed; and there is low land enough to meet all the wants of a dry season. Cattle taken to pasture will receive the same care and attention as those belonging on the farm, without responsibility. Apply to PORTER R. EMERY, Manager.

Post-office address, "Kittery Point, Me."

THE WONDER

is becoming universal as to how such an immense sale could be created in LOWELL for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counters a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where our directions are faithfully regarded. We would bid you, dear sight get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINCKLEY,

Mrs. S. A. Allen's
WORLD'S
Hair Restorer
IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." This is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

GOSSIPS SAY

That a family at Newcastle, whose house was recently sold to out-of-town parties, was obliged to move to this city, there being not a vacant tenement in that town save one or two summer residences, and those are engaged.

That a portion of Shapleigh's island is to be sold to clear off an indebtedness.

That Hugh J. McDonald of this city is telegraph operator at the Eastern railroad station in Dover.

That elegant white marble steps and buttresses are being put in at Mayor Treat's suburban residence on the Creek road.

That the residence of Daniel E. Leavitt, Esq., on State street, is being extensively renovated, and fitted up with double bay windows, piazzas, a handsome flight of granite steps, etc.

That not for many years has there been such a brushing up and repairing of private houses about town as is being done this spring.

That Hon. Frank Jones is negotiating for a block of 12,000 shares of Eastern railroad stock, in the interest of the non-consolidationists.

That all who choose to credit this bit of gossip, including the marines on the navy yard, can do so without infringing on any moral law.

That a cattle ranch owned by several Portsmouth gentlemen, and situated in one of the western territories, paid sixteen per cent on the money invested, besides increasing its stock of cattle thirty per cent, last year.

That in spite of the orders of Secretary Treat, of the municipal navy, the flag-ship Swan, of the millpond squadron, was on the 25th inst. still engaged in making her venturesome cruises around the pond.

That a gentleman of this city recently found among a lot of ancient documents that came into his possession, a will dated at Newcastle, Province of New Hampshire, in 1695, the will having been duly probated in the town of Portsmouth, Jan. 4th, 1696, "in the seventh year of His Majesty's reign."

That D. Foxwell Stoddard will carry on a farm at Hampton, and move his family to that town.

That Capt. J. W. Shackford, of the steamship Illinois, running between Philadelphia and Liverpool, has been appointed to the command of Jay Gould's yacht Atalanta, at a salary of $5000 a year.

That the captain will have a salary not bad to take, and that the yacht will have a thoroughly competent commander.

THE NEW ENGINE.

The new engine "Robert L. Walker," which has recently been running on the Eastern railroad and branches, made a number of regular trips in place of other engines, arriving in this city one day on the local freight, (No. 255,) and the next day taking through to Portland, from Boston, the train which arrives here at ten minutes before three o'clock.

The weight of this engine is thirty-nine tons and 1800 lbs.; cylinders 17x24, and driving wheels four feet and nine inches in diameter. She has two fire boxes, with a patent water damper which makes a combustion that arrests and consumes all of the smoke and gas; a circulating pipe leading from the boiler and filled with water passes through the damper and prevents it from burning. Forward of the boiler is the patent spark-consumer, and at the end of each trip a door placed underneath it is opened, and the collected cinders are pushed out of another door placed on the side. She was tested at two hundred and sixty pounds steam pressure to a square inch, but carries only one hundred and thirty-five pounds; and she has all the modern improvements, including patent oil cups on the sides, and the Westinghouse brake.

The principal feature of the engine is the ingenious arrangement by which the sparks and smoke are consumed during the process of replenishing the fires. This is secured by a lever which turns the damper, and when one of the boxes is being fired the damper is turned to it, preventing any escape of sparks, etc., from it. It was invented by Mr. Robert L. Walker, and the machine was built at the Taunton Locomotive works.

Mr. W. J. Cutting, from the locomotive works, and Mr. W. F. Fisher, fireman employed by Mr. Walker, accompanied the engine to describe her working. On the trip when she drew freight train 245 she was in charge of Mr. Charles Bishop, engineer, and Mr. Charles H. Fowler, fireman, of the regular train. The engine goes to Chicago.

Mr. Walker, though not a builder of locomotive engines, is a thorough mechanic, and has obtained what has for years been experimented on, a plan to create a perfect combustion, avoiding smoke and sparks. That he has succeeded is beyond a doubt, and he is very generally congratulated by railroad men on the success of his invention.

Mr. George W. Pickering will raise a barn on the Brackett lot in Newington this week; the frame is nearly all ready, and the building will measure thirty by thirty-three feet on the ground. Mr. Pickering will at some future time erect a house on the place, over a cellar already dug.

The first appearance in this city of Lotta, the famous and popular actress, will take place on Thursday evening, May 3d, at Music hall, on which occasion prices will be as follows: Reserved seats, lower floor, 75cts and $1; balcony, 75 cts; admission 50 cts and 35 cts. Tickets will go on sale at Goodrich's on Friday morning at nine o'clock.

At an adjourned meeting of the trustees of the Rice Public library of Kittery, Edward F. Safford of Kittery Point was chosen a trustee to fill the vacancy caused by the death of the late Ichabod Goodwin. Moses A. Safford, Esq., of Kittery, was elected president of the board of trustees.

Mr. James Kehoe is preparing to open a retail fish market in the small building near the Spring market, occupied for the same purpose last year by him and Mr. John Caswell, under the firm name of Caswell & Co.

On and after June 1st the life-saving station at Rye, hitherto known as Station No. 7, First District, will be called simply the Rye Beach station. Station No. 6, First District, at Biddeford Pool, Me., will be called Fletcher's Neck station; No. 1, Second District, near the mouth of the Merrimac river, will be called Plum Island station. The stations close for the season on Tuesday, May 1st, to re-open Sept. 1st.

The whistling buoy on Boon island ledge does not work; it will be put in good condition as soon as possible.

The Eastern railroad station at Hampton is being shingled and otherwise repaired.

M. B. Leavitt's Gigantican Minstrels will give an entertainment in Music hall on Wednesday evening, May 2d.

Work has begun on the site of the new building for the bank watch, in the rear of the Rockingham bank building.

Now is the time to paint your house; white lead is said to be cheaper at present than at any previous time since the commencement of the war. Pryor & Matthews, at the old stand No. 16 Market street, in addition to their large stock of builder's hardware, garden tools, etc., keep constantly on hand Masury's railroad colors, white lead of warranted purity, ready-mixed paints of all shades, varnishes, and whatever else is needed for the painting of buildings, carriages, etc.

Repairs were commenced on the York beach steamboat, now lying at Jones' wharf, on Tuesday.

Judge Carpenter of the Supreme court was engaged on Wednesday of this week in hearing the case Jones against the proprietors of the Portsmouth Aqueduct. A view was had of the premises. Wheeler of Dover for the plaintiff; Frink for the company.

The county commissioners have been engaged for several days this week in hearing two highway cases and a cemetery case, in Londonderry.

The lowering run at C. E. Walker & Co.'s coal-pocket has been dropped ten feet.

Mr. Ebenezer Fall, of Wakefield, died in that town on Wednesday morning, the 25th inst., at seven o'clock. He was a native of Lebanon, Me., but had been connected with the North Conway division of the Eastern railroad for the past twenty years, and at the time of his death was master mechanic of that division, and member-elect of the state legislature from Wakefield. His age was about sixty-five years, and he leaves a widow, two sons and two daughters.

Mr. Ezra Bradbury, station master at Kittery for the Eastern railroad, has been in the employ of the road for thirty years, and station master nearly all that time. Mr. Bradbury also tends the draw of the bridge, which is a laborious job, the draw being an antiquated piece of work, fifty years behind the age; he does it well, too, and the brickers and other crafts having frequent occasion to use the draw would be sorry to see any change made in the draw tender, though they would not be displeased to see a new draw.

Carrie Gilmore, of Worcester, Mass., is to give an exhibition of expert roller-skating in this city.

It is now intimated that the Fitchburg and Old Colony roads would like to lease the Boston & Lowell, which lease in either event would shut off central New Hampshire from the control of a direct and natural tunnel to Boston, and that at the large end. Such a result, in the opinion of many, would be much more injurious to New Hampshire's interests than consolidation, properly regulated. For ourselves we are of that opinion unreservedly.—*Nashua Telegraph.*

A heavy storm of wind and snow in Utah ended on April 24th in a gale which blew two trains from the track of the Utah Northern railroad.

Henry G. Allen, aged sixty-eight years, and Mrs. S. J. Douglass, aged seventy-two, were united in matrimony at Westfield, Mass., April 22d.

The steamship Italy was damaged to the amount of $5000 by a fire in her lamp-room, while lying at her pier in New York on April 24th.

Charles H. Newhall of Lynn, Mass., fifty years old, cut his throat, inflicting a probably fatal wound, April 24th.

Post No. 5, G. A. R., of Lynn, Mass., netted about $13,000 by a recent fair.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

300th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Maj. Ben. Perley Poore has severed finally his connection with the paper for which he has written for more than forty years. He began his letters to the Boston *Journal* before most of the present writers for the press were born, and his writings would fill a great many volumes. Now he has resigned from the paper altogether, and accepted an editorial position on the Sunday *Budget*, of Boston.

Herr Janner, who was director of the Ring theatre in Vienna at the time it was burned, when several hundred persons lost their lives, and who was convicted of negligence in connection with that disaster and sentenced to imprisonment, has been pardoned by the emperor. He has served only one half the time to which he was sentenced.

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

The empire puff worn at the bottom of the skirt has been revived in Paris.

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters, my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

Late importations of Paris dresses have larger tournures and hip draperies.

Dr. T. A Smurr, Ottawa, Ill., says: "Brown's Iron Bitters give entire satisfaction."

Buckles, large and small, are the popular millinery ornaments this season.

New pelisses are made of mixtures of silk and wool in Indian or Persian patterns, and in oriental blending of colors. They are lined with apricot, strawberry or olive twilled silk, and finished with bows of wide satin ribbon.

Little girls' dresses of Turkey red or blue percale are made with low, square necks and short sleeves, to wear over white guimpes. Blue bows are on the red dresses and red bows are on the blue ones. There are twelve tucks down the front and back of the long waists, and embroidered ruffles cover the skirt. Their white pique dresses are trimmed with open guipure embroidery, and shrimp-pink bows are worn with these.

KIDNEY-WORT

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

I CURE FITS!

When I say I cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and P. O. address.

DR. H. G. ROOT, 183 Pearl St., New York.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease, to any sufferer. Give Express and P. O. address.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hailstones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. A man who is hit with many hailstones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

James Powers hung himself in Boston on the evening of April 24th, while in a police station, under arrest for drunkenness.

Mr. C. B. Littlefield, 1133 Elm street, Manchester, N. H., says: "Brown's Iron Bitters are giving perfect satisfaction. I take pleasure in recommending them."

The dead body of an infant was found in a brook at Lynn, Mass., April 24th; it had the appearance of having been born alive, and scalded to death.

John L. Sullivan, the Boston pugilist, has had hemorrhage of the lungs.

"The virtue of prosperity in temperance; the virtue of adversity is fortitude," wrote Bacon. Wheat Bitters has been called a temperance medicine. It is however, a peerless remedial agent. Try it, reader for billiousness, kidney disease and debilitated physical condition. You will never regret it. Your druggist sells it. $1.

AROUND HOME.

A horse stolen a short time since from L. P. Day of Westborough, Mass., by Henry F. Beekman of Seabrook, a notorious thief not long out of state prison, was found on the 26th inst. at the Sea View house, Rye beach, having been received by Mr. Lougee from a horse dealer named Jonathan Mooney, who got the animal in a trade.

The Boston *Transcript* says: "The Eastern and Boston & Maine consolidation negotiations have so far progressed that it is now understood that Messrs. Samuel C. Lawrence of Medford, Richard Olney of Boston and Frank Jones of Portsmouth, N. H., representing the Eastern railroad company, will be added to the list of Boston & Maine railroad directors at the next annual meeting of the Boston & Maine stockholders. Meanwhile these gentlemen will be invited to make themselves familiar with the business by sitting with the Boston & Maine directors."

Mr. Frank L. Preble, who on Wednesday of this week vacated the position of draughtsman in the department of yards and docks at the navy yard near this city, left on the following day for Waltham, Mass., to enter the office of Charles F. Parks, civil engineer and architect at Waltham and Boston.

The schooner Sarah Purves, Raymond master, arrived at the navy yard on the 26th inst. from Boston, with lumber which has been treated with a wood-preserving process at the Boston yard. Capt. Raymond formerly resided in this city, and at one time sailed the schooner Wave Crest, later being in command of the schooner Elizabeth M. Smith. The latter vessel was on one occasion dismasted off Cape Ann, while on the passage from Boston to the Shoals with a load of furniture, but the captain managed to get her to the Shoals without assistance, and for his pluck and skillful seamanship received a gift of $300 from the underwriters. The schooner was afterward cut through by ice, and sunk, off Long Island, and Capt. Raymond and his crew were in an open boat for some twenty-four hours before reaching a place of safety. A daughter of the captain's, who was a thorough schooner-sailor, for some years sailed with him as chief mate of the Elizabeth M. Smith.

James Morrissey left this city this week for Dakota, where he proposes to settle.

A night or two before the recent appearance in this city of Barlow, Wilson & Co.'s minstrels, the company played in Salem, Mass., and reported to the police of that city that during the performance their trunks, stored in a room below, had been broken into, and diamonds, jewelry and money to the amount of $1300 stolen. It was hinted at the time that the "robbery" was merely an advertising dodge, but the thieves have been caught, and all the plunder recovered except a mourning ring and $120 in money. Mrs. Lorenzo Pierce of Beverly tried to sell the stolen goods to a Salem jeweller, and was arrested, when she confessed that her brother, William Donohue, with William Ahern and one other person, committed the theft. One of the young men left open a window of the hall where the baggage was stored, and the others climbed in and broke open the trunks.

Capt. N. H. Brown, of Derry, has received $2000 back pension.

Ex-Gov. Natt Head has returned from Florida in improved health.

James L. Fletcher, of Salem Depot, has recently received $800 back pension.

The Elm house at Meredith Village has been sold to H. H. Piper of Holderness.

Over 3,000 pairs of shoes are made daily at Wallace's shoe factory in Rochester.

The late Hon. William H. Duncan, of Hanover, bequeathed $6000 to St. Thomas' Episcopal church of that town, one-third of it for temporary use, and the balance to constitute a permanent fund.

The citizens of Epsom held a town meeting on April 18th, and voted to exempt from taxation for a term of ten years the machinery and stock in trade of the new shoe factory, together with the buildings and property of the company.

Two hundred thousand white-fish have been put into the waters of Newfound lake. A lot of trout will probably soon be planted in waters about Manchester.

The Laconia Car company have received orders for twenty-two new narrow-guage cars, (seven passenger, ten platform, and five box,) for a Maine road, and have upon the blocks five standard-guage passenger cars for Boston & Maine railroad.

The average salary of Methodist ministers in this state is said to be $560 per annum. The highest salary paid in the conference is $2,000, at Nashua. There are only sixteen stations altogether where the pastor's salary reaches or exceeds $1,000, and four of these are in Lawrence and Haverhill, Mass., which are included in the New Hampshire conference limits.

The Manchester Locomotive Works has brought a suit against the Concord railroad for $9,000 rebate freight. Other Manchester corporations have similar suits pending.

At Danville, Va., W. T. Dodson got $5000 insurance on his life. Then he hired two negroes, for $50, to supply him with a corpse, which they did by enticing to Dodson's house a third negro, and there killing him. Dodson then poured kerosene over the corpse and about the room, set it on fire, and fled. The neighbors put out the fire, and now Dodson is in jail for his crimes, which he confesses.

At Grand Forks, Dakota, eleven men are under arrest for murdering two brother named Ward. The latter were claim-jumpers.

A ruffian who was recently lynched for murder by a mob in Jacksonville, Ill., turned out to be a son of Quantrell, the bloodthirsty Missouri guerilla.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINCKLEY,

THE *Admiration* OF THE WORLD. *Mrs. S. A. Allen's* WORLD'S *Hair Restorer* IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, April 26th, Mayor Treat in the chair:

Present the full board, except Ald. Stayers.

The records of the last meeting were read and approved.

Bill of Morris Tobin, for whitewashing the police station, was ordered paid.

Col. Wm. H. Sise, chairman of the committee on the reunion of '83, asked permission for the committee to "occupy the council room when desired by them and not required by the city." Referred to the committee on city lands and buildings, with power.

Luther E. Martin asked leave to encumber Washington and Court streets for building purposes. Granted, the obstruction to be under the restrictions of the street commissioner.

The report of the city marshal for the quarter ending March 31st, 1883, was received, showing the number of arrests to have been 186; persons lodged, 119. Amount of fines and costs collected, $409.95; witness fees paid, $124.70; net receipts paid into the treasury, $285.25. Report referred to the committee on police.

The following was passed: "Ordered, that in view of the great expense entailed upon the city by reason of the large quantities of debris placed in the streets through the erroneous impression that the street commissioner is authorized to remove the same without cost to the depositors, the mayor is instructed to notify the inhabitants that hereafter such matter only as is placed in barrels the contents of which do not exceed two bushels will be removed from the streets at the expense of the city, and that all persons putting rubbish in the streets except as above provided for will be proceeded against under the 17th chapter of the ordinances."

An ordinance relating to restraining the selling of goods by itinerant peddlers on the streets was received from the common council, in the passage of which the concurrence of the aldermen was asked. Voted to give a public hearing on Thursday evening next upon the petition.

In the Common Council, an ordinance providing for the appropriations for the current year was read, and referred to the committee on bills on second reading.

Each board adjourned for one week.

MARINE COLLISION.

As the flag-ship Swan, of the north pond squadron, was on the 26th inst. running down the pond from a cruise to Brewery bay, she collided with her tender, the Flatfoot. The cause of the collision is not clear, as the accounts conflict; but it appears to have been the fault of the engineer of the flag-ship, who failed to give the engine a turn sideways at the proper time. No damage was done to either craft; but Capt. Harrie B. Palfrey, of the Flatfoot, who was steering at the time of the collision, turned a double-back-action handspring over the taffrail into the seething waters, from which he was rescued in gallant style by the admiral commanding. It is understood that Secretary Treat, of the municipal navy department, will not order a board of enquiry, as he says the Swan has only followed the example set her for years past by the ships of the national navy, of running into everything in the shape of an island or a ship that couldn't get out of the way.

GOSSIPS SAY

That the street sprinklers are likely to lie idle this season, as Mr. A. K. Brown, who has for several years past done the sprinkling to the general satisfaction of the public, has become discouraged, and will not run his carts the coming summer.

That Mr. James O. Spinney, the popular Market street hairdresser, will start for the west on Tuesday of next week.

That Mr. Orwin Griffin, janitor of Odd Fellows' hall, was the recipient on Wednesday evening, 25th inst., of an elegant silver watch, from the brethren of New Hampshire Lodge.

That Osgood Lodge of Odd Fellows on the evening of the 26th inst. celebrated the 64th anniversary of Odd Fellowship in the United States, by a banquet, speeches, toasts and responses, singing, and instrumental music, at Odd Fellows' hall.

That the officers of Storer Post, G. A. R., say they will have a hundred and thirty men in line on Memorial day.

That a bon-bon skating carnival, with the Salem Cadet string band to furnish music, is on the card for next week.

That Mr. Ammi Rand, cook at Atkins' eating house, has been in that business thirty-eight years.

That Newcastle people who are obliged now to use the Wentworth house bridge, so-called, complain that it is badly out of repair.

That the navy yard ferry steamer Emerald, which started running on her former time table on the 25th inst., was hauled off at noon on the 26th, a rigid scrutiny of the financial locker failing to disclose the presence of any shot.

That the reason the officers of the yard prefer to patronize a private steamer rather than to "chip in" and keep the Emerald running, is the fear that it might get the navy department into a bad habit of thinking that they can afford to find their own means of transportation right along, as well as can the mechanics and laborers employed on the yard.

THE VALVE SUITS.

The mayors and city solicitors of the several New Hampshire cities who recently met in Boston to consult in relation to the valve suits, appointed Judge Foster, of Keene, as counsel to manage the defense, in place of J. Y. Mugridge, who declined to act further, on account of a pressure of other business.

At a recent regular meeting of the Dover city councils, Councilman Pray, member of a joint committee appointed some months before to look after the patent-valve case, reported in substance as follows, according to the *Democrat*:

That he and the other councilmen on the committee were of opinion that the city was liable in damages for infringement of the patent, and thought the patent a valid one, on the basis of the New York decision. That the Amoskeag Co., which made the steam fire engines with the valve attached and sold them to the city, ought to pay for selling what they did not own and had no right to sell; but there is no attempt of anybody to get any remedy from that source, while the fact of the manufacture and sale by that company without protest, complaint or action at law against them constitutes all the defence the city has in the case. That Dover had the right to withdraw from the pool with the other cities, and should do so. The report intimated that the patent attorneys in the case were interested on both sides, and concluded by offering the following resolution:

That a committee consisting of one alderman and two members of the common council be appointed to settle the suit in regard to the patent valve at a total cost to the city not exceeding two thousand dollars.

The *Democrat* in its report says "the common council voted to lay the whole matter upon the table. Nobody seemed to care to take the responsibility of adopting the report, and showing the white feather in face of the enemy."

On Tuesday evening, April 24th, at a special meeting of the city government of Dover, Mayor Lothrop briefly addressed the councils, after which the following resolution was passed without a dissenting vote: "That these boards are firmly determined to defend as heretofore in the patent suit of Norton vs. Manchester, Concord, Nashua, Portsmouth and Dover. That we believe we are bound in honor to continue in the pool of cities; that the combination has thus far operated in our favor, and that we have authority for believing that we have a good chance to win, and we are satisfied with the management of our case."

A REMARKABLE FAMILY.

There was a remarkable gathering in the Parker house at Boston on April 24th, when twenty-two persons, all closely related, sat down to dinner. It was a gathering of the Nowell family, of Sanford, York county, Me., and included ten persons (five brothers and five sisters) who fifty or sixty years ago were young people in that town, with their nephews, nieces, brotherr-in-law and sisters-in-law. The father of this family of ten, who was for many years a deputy sheriff of York county, died at the age of seventy-two years; the mother died next, at the age of seventy-nine; and these two deaths have been the only ones which have occurred in the family for more than seventy-two years.

The combined ages of the ten brothers and sisters is 677 years, an average of nearly sixty-eight years; the oldest, George, a well-to-do farmer near the old homestead in Sanford, is aged seventy-eight; the second, Oliver, an old attache of the Boston custom house, lives in Somerville, Mass.; then in order come Susan, wife of Amasa Wentworth of Dedham, Mass., many years an overseer in the Great Falls mills; Phebe, widow of Capt. Nicolas Varina of Newburyport; John A. Nowell, wholesale grocer on Blackstone street, Boston, for over forty years past, —an "old line whig," a freesoiler of 1848 and a member of the Buffalo free soil convention about that time, and one of the early republicans; Ebenezer, station agent at Salmon Falls for the Boston & Maine railroad; Theodate, wife of John S. Haines, long postmaster of Great Falls; Ann, the youngest daughter, unmarried, for many years a teacher in Charlestown and Boston, Mass., and now a teacher in Great Falls; and James, the youngest son and youngest child, a farmer in Berwick, Me.

The occasion was one of great interest; the elder brother, George, presided at the table, and after one of Parker's best dinners remarks were made by the gentlemen in turn, and a most graceful and eloquent address was read by Mrs. L. A. W. Fowler of Dedham, Mass., the senior niece present. A. B. Wentworth, Esq., the senior nephew, added some interesting remarks consisting of reminiscences of the home life of the family, and at the conclusion of the dinner the party adjourned to one of the parlors of the hotel, where all hands joined in singing "Auld Lang Syne," "Home, Sweet Home," and kindred airs, before separating for their various homes.

The sale of reserved seats for Lotta's entertainment at Music hall commences this (Friday) morning at nine o'clock, at Goodrich's Congress block bookstore.

The "pop-valve" of the new shifting engine No. 1, employed in the yard of the Eastern railroad in this city, has got altogether too much "pop" to it, and keeps popping pretty much all the time, to the frequently manifested terror of horses and the annoyance of their drivers.

The Boston & Maine railroad company will pay a dividend of four dollars per share on May 15th.

Mr. S. A. Preble one day this week sold seven fowls of the Brahma variety, whose united weight was 70 1-2 lbs.

[*For other local matter see second page.*]

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Enfeebled vitality, nervous and Physical debility, premature decline of man, or, in fact, impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 5; by mail, postpaid, on receipt of price. Illustrated sample six cts. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is decidedly the most extensive work on Physiology ever published. There nothing which every man should read or single either requires or wish to know but what is fu explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can now much of the suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Where "Dude" Came From.

An exchange says the just now popular word "dude," meaning an empty-headed, languid-mannered young swell who hangs his hair, proves to be no foreign importation, but, like many another expressive term, to be of good New England parentage. The word has been used in the little town of Salem, in this state, for twenty years, and, it is claimed, was coined there. It is common there to speak of a dapper young man as a "dude of a fellow," of a small animal as "a little dude," of a sweetheart as "my dude," and of an æsthetic youth of the Wilde type as a dude. But how the word attained so sudden and widespread a notoriety puzzles Salem. Its revival at New York is credited to a disgusted Englishman, who remarked, after visiting a rich club, that the young men were all "dudes."

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

—The body of a man with a pencil behind his ear, a pair of shears in his right hand and his pockets filled with gold has been excavated at Pompeii. He is supposed to have been an editor.

"Rough on Corns."

Ask for Wells' "Rough on Corns," 15c. Quick, complete, permanent cure. Corns, warts, bunions.

—The poet who once wrote some verses about "Cold swims the moonlight on the snow" is hereby informed that the season is at hand for a poem beginning "Hot floats the horse-fly in the soup."

☞ Nothing so simple and perfect for coloring as the Diamond Dyes. For carpet rags, better and cheaper than any other dye stuffs.

—The mayor of Chicago delivers a lecture to the newspaper reporters once a year. In other American cities the reporters lecture the mayor, but Chicago was always original.

Florida strawberries usually sell for $1. per quart basket, when first brought to Northern markets. Wheat Bitters bring the same price per bottle during all seasons. The first are a luxury. The latter is a necessity—because it cures most human maladies.

—Ingersoll's father once offered a prayer that occupied an hour and seventeen minutes in its delivery. It isn't surprising that the colonel has a prejudice against religious exercises.

—"Dr. Benson's Celery and Chamomile Pills for the cure of Neuralgia are a success."—Dr. G. P. Holman, Christiansburg, Va. 50 cts. at druggists.

—In Lowell a minstrel show and the city council both had a quorum on Tuesday evening, and the councilmen were about crazy the next day when they knew of it.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

—The reason that æsthetics so admire the stork is that he can stand for hours on one leg, and look as though he didn't know anything and didn't want to.

Humbugged Again.

I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters, my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

—It may be the wicked who stand on slippery places, but judging from the remarks made, we should say it was the wicked who fall down on slippery places.

Dr. T. A. Smurr, Ottawa, Ill., says: "Brown's Iron Bitters give entire satisfaction."

KIDNEY-WORT

Kidneys, Liver and Bowels.

The Bad and Worthless

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to circulate notices in which the great and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are the most valuable food property, and also, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which govern the growth of every day work and life, and in order to save sickness it is wise to use BULLFROG BREAKFAST.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impurities are eliminated. These make in themselves a tonic, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Startling Debility,

Both nervous and general, lack of self-confidence and will power, impaired memory, despondency, weak back, and kindred affections, are common results of youthful follies and pernicious practices, pursued in solitude. Means of unfailing and perfect cure are suggested in large illustrated treatise, sent for three letter postage stamps. Address World's Dispensary Medical Association, Buffalo, N. Y. c

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

The trial of Michael Fagan, charged with the murder of Mr. Burke in Phœnix park, Dublin, was resumed Thursday, April 26th. Joseph Smith, the informer, swore that Edward McCaffrey was in Phœnix park on the evening of May 6th. James Carey, however, denied that he saw McCaffrey there on that evening. Counsel for the defence regard the conflict between the two statements as important.

If disease has entered the system the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than Iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparation, a positive cure for dyspepsia, indigestion, kidney troubles, etc.

The seven prisoners, Dr. Gallagher, Bernard Gallagher, Whitehead, Dalton, Ansburgh, Wilson and Curtin, who are charged with treason and felony, in connection with the unlawful use of explosives, were again arraigned for examination in the Bow street police court, at London, on Thursday morning, April 26th. A few witnesses for the prosecution were examined, and the hearing was then adjourned until Thursday next.

Kalamazoo, Mich., Feb. 2, 1886.

I know Hop Bitters will bear recommendation honestly. All who use them confer upon them the highest encomiums, and give them credit for making cures—all the proprietors claim for them. I have kept them since they were first offered to the public. They took high rank from the first, and maintained it, and are more called for than all others combined. So long as they keep up their high reputation for purity and usefulness, I shall continue to recommend them—something I have never before done with any other patent medicine. J. J. Babcock, M. D.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE CUT in the center. Price 25 cents. Seabury & Johnson, Chemists, New York. febz1,was&gteeop63

Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach,** and all diseases that arise from Impure Blood. **Sciatica, Inflammatory** and **Chronic Rheumatism, Neuralgia, Gout,** and **Spinal Complaints** can only be effectually cured through the blood.

For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa,** arising from internal ulceration, and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness,** and **General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which the city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr. Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever prescribed for me. I have recommended it to ever so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hailstones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. A man who is all with many hail-stones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

The ship British Commerce, bound for Melbourne, Australia, has been sunk in the English channel by collision with the ship County of Aberdeen, from Calcutta, and twenty-five of her crew drowned.

Mr. C. B. Littlefield, 1133 Elm street, Manchester, N. H., says: "Brown's Iron Bitters are giving perfect satisfaction. I take pleasure in recommending them."

Secretary Chandler on the 25th inst. issued instructions to Rear Admiral Baldwin, commanding the United States naval forces on the European station, to proceed with his personal staff to St. Petersburg, Russia, to attend the forthcoming coronation of the czar.

AROUND HOME.

The reunion committee had a meeting on Friday evening, and Messrs. Martin, Odiorne, Crowley, Dodge and Parsons were appointed to arrange a list of subcommittees, which they did, the list as arranged by them being adopted. It was voted that the sub-committees have power to add to their number, if necessary. The committee adjourned for one week, and will hold weekly meetings hereafter, at which it is important that the chairmen of the several sub-committees be present if possible, and report progress.

The steamer Allentown, and the schooners Princeton, L. G. Potter, Hattie N. Gove and William Slater, with an aggregate of 3900 tons of coal, arrived at this port on Friday, all to J. Albert Walker. One of the schooners, the L. G. Potter, had 1023 tons.

A large sloop has been put on the river to serve as a water boat for supplying vessels in the lower harbor, steamboats, etc., with water as required.

A case which has been in the courts since 1875 has been decided by the Supreme court of the United States in favor of the owners of the schooner Jesse Williamson, Jr., formerly owned in this city. The suit was brought against William H. Sise and others to recover in the sum of $7000 for damage done to a barge in tow of a steamer in Long Island sound, and which was run into by the schooner. A verdict has been rendered several times in favor of the owners, but in each case the plaintiff has appealed to a higher court.—*Times.*

A housewife of this city recently killed a hen two years old, and took from her forty eggs in embryo, and a full pint of grease.

The contractors for the removal of Gangway rock are fitting their drill-platform with a tide-breaker of railroad iron. It is reported that they offered the contractors previously engaged on the work $1000 for the privilege of using a tide-breaker similar to the one on the drill-platform placed on the rock last year, it being protected by a patent; but the offer was refused.

Mr. William C. Ham, of Boston, formerly of this city, and son of Street Commissioner Wm. F. Ham, has been very ill at his home in Boston with rheumatism, and is yet far from well.

Biddeford is paving her business street with Belgian blocks, and the city council has granted an electric light company permission to erect poles and stretch wires in the street. There is said to be quite a building boom ahead.

The up freight on the Boston & Maine railroad broke apart between Kennebunk and Wells, on Thursday, the 26th inst. The train was badly disabled. No person was injured.

James McPhillips, thirty-five years old, and married, a section hand on the Boston & Maine railroad, jumped off a freight locomotive at the freight-house in Dover on Friday morning last, and was struck by the locomotive of an incoming train. He was thrown a considerable distance, his skull badly fractured at the base of the brain, his arms broken, and he received internal injuries, probably fatal.

Col. J. H. Kent, for many years the New Hampshire correspondent of the Boston *Traveller*, not being able to see the consolidation question through the Hitchcock spectacles, has quit the service of that paper, and is now at work for the Boston *Journal*. He is succeeded on the *Traveller* staff by that accomplished and conscientious journalist, James T. Furber, whose unbiased opinions on "the proposed union" will henceforth be a feature of the paper.—*Manchester Mirror.*

Col. S. H. Dumas of the Boar's Head hotel at Hampton beach has purchased the adjoining Granite house and land and will make many improvements in both hotels before the opening of summer business.

It is reported as probable that Charles F. Freeman, who in 1879 murdered his little daughter in Pocasset, Mass., by stabbing her to the heart with a knife while his wife held a light, will soon be released from the insane asylum where he has ever since been confined. Freeman and his wife fancied they were commanded by God to sacrifice the child; they may be hereafter afflicted with a delusion that it is their Christian duty to murder some other person.

Deputy sheriffs were on April 25th fired on while returning to Collins, Tex., with a gang of captured horse thieves. A posse started in pursuit of the interfering desperadoes, but failed to find them. They did, however, discover the hanging bodies of two Mexicans, who had been lynched probably by the same gang.

Matt Louis of St. Louis, Mo., sentenced to be hanged June 8th, for wife murder, has faced a jury four times for this crime. He has been three times convicted and twice sentenced to death. It is believed that this time he will swing.

"LINOLEUM" is neat, carpet-like in appearance and of extraordinary durability. It is elastic to the tread, handsome, and never cold like the ordinary oil cloth. The American make has completely superceded the best English goods and only the inferior grades can now be imported. The Walton Trade Mark with the word "LINOLEUM" is printed on the back of every square yard of Domestic goods and all carpet dealers keep it.

An attempt was made on April 26th to blow the bottom out of a huge granite tower, ninety feet high and thirty feet square, which remained standing when the Flint mill was burned in Fall River, Mass., some time ago. Twenty-five pounds of Atlas powder were used, but the tower still stands. A number of stones were blown out with terrific force, and a piece weighing forty pounds struck James Maguire, about sixty yards from the tower, hurting him so that he soon died.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, April 25.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 2288; Sheep and Lambs 8420; Swine 12,481; Veals 155; Horses 86; number of western cattle 1958; number of northern and eastern cattle, milch cows &c, 330.

Prices of Beef Cattle per 100 lbs, live weight—Extra quality $6 62½ @ 7 25; first quality $5 75 @ 6 50; second quality $4 50 @ 5 62½; third quality $4 00 @ 4 37½; poorest grades of coarse oxen, bulls, etc., $3 00 @ 3 87½.

Brighton hides 7½c ℔ lb.
Brighton tallow 6½ @ 7c ℔ lb.
Country hides, heavy ones 7c ℔ lb; light ones, 6c ℔ lb.
Country tallow 4 @ 4½c ℔ lb.
Calf skins 11 @ 12½c ℔ lb.
Sheep skins $1 25 @ $2 00 each.
Lamb skins $1 25 @ $2 00 each.
Sheared skins 25c each.

There has been a larger supply of western cattle brought into market this week than there was last. Most of the cattle were of a very good quality, but few lots selling for less than 6½c ℔ lb live weight. A very few extra beeves were sold at 7½c ℔ lb live weight, but mostly the sales ranged from 6¾ @ 7c ℔ lb live weight for butchers' cattle. A part of the western cattle were intended for the English markets. Prices have declined from ½ @ ¾c ℔ lb from those of our last quotations. There was rather more life to the trade than there was one week since, and most of the beef cattle were sold before noon on Tuesday.

Working oxen have been in moderate demand with a fair supply in market. We note sales of 1 pr, 6th 6 ft 6 in, L W 2500 lbs, at $130; 1 pr, 6th 7 ft 2 in, L W 2800 lbs, $190; 1 pr, 6th 6 ft 8 in, L W 2800 lbs, $150; 1 pr, 6th 6 ft 6 in, L W 2800 lbs, $125; 1 pr, 6th 7 ft, L W 3000 lbs, $180; 1 pr, 6th 7 ft 6 in, L W 3500 lbs, $200.

Milch Cows, Springers, &c—Trade has not been very choice for a week or two past for common grades of cows. We note sales of 1 new milch cow at $50; 2 at $56 each; 2 new milch cows at $41 each; 1 extra new milch cow at $70; 3 springers at $35 each; 1 cow and calf at $50; 1 do at $38; 1 new milch at $34.

Veal Calves—Prices ranged from 3¼ 7c ℔ lb, live weight, or from $2 @ $5 ℔ head for those of a poor quality.

Sheep and Lambs—Those from the west were all owned by butchers, sheep costing 6 @ 7½c ℔ lb, lambs 7½ @ 8½c ℔ lb live weight. There is seldom any western sheep or lambs offered in the market for sale, agents being employed to buy and ship direct to the butchers from the west each week.

Swine—Store pigs sell at 7 @ 10c ℔ lb, live weight, or from $3 @ $7 ℔ head for small pigs. Fat hogs cost, landed at the slaughter houses, from 7¾ @ 8½c ℔ lb, live weight.

Boat for Sale.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have the great faith in it as a blood purifier. Very truly yours,

Mrs. S. A. Allen's
WORLD'S
Hair Restorer
IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

ANNIVERSARY CELEBRATION.

On Thursday evening, April 26th, at Odd Fellows' hall, Osgood Lodge, I. O. O. F., observed the 64th anniversary of the introduction of Odd Fellowship into the United States, by a banquet, interspersed with speaking, vocal and instrumental music, etc. In the absence of Bro. Chas. A. Sinclair, Bro. S. C. Whittier officiated as master of ceremonies. About three hundred persons were present, including members of the lodge and their ladies, the clergymen of the city, and other invited guests.

Prayer was offered by Rev. Dr. Alden, and this was followed by a recitation and singing, by Miss Kennedy and the quartette; an address on the past, present and future of Odd Fellowship, by Rev. John A. Goss; music by Spear's orchestra, of Rye; remarks by Rev. Messrs. Gaskins, Robins, McGinley and Alden, and other visitors; flute solo, by Mrs. Philbrick of Rye.

TEA.

At nine o'clock a procession was formed, and proceeded to the upper hall, where a bountiful supper was served; the arrangement of the tables was admirable, and they were loaded with almost everything the most fastidious taste could crave, flowers in liberal quantity adding their beauty and fragrance. At the conclusion of the banquet toasts were offered, and responded to as follows:

"The Smith Family," response by C. Dwight Hanscom.

"Osgood Dramatic Club," response by Charles E. Hatch.

"Symphony Concerts," response by W. W. McIntire.

"Rye Orchestra," selections by orchestra.

"Committee of Arrangements," response by J. S. Perry.

"The Lady Assistants," response by J. Shaw.

An original poem was read by Bro. John A. Goss.

"A Brother in Difficulty," response by Charles Hodgdon.

Song, "Call John," by quintette.

Violin solo, by Miss Fannie Hoyt.

Piano solo, "Shower of Blossoms," Miss Ida Jenness, of Rye.

Flute solo, Mrs. Philbrick.

Song, "Auld Lang Syne," by quartette, all present joining in.

Thus ended the last of a series of most successful entertainments given by Osgood Lodge during the winter and spring, the last being the most enjoyable of all.

AN OLD ACQUAINTANCE.

Last fall a young girl named Lillie Hutchins, belonging at Kittery Point, broke into a house there and stole some money, and then came to this city with another girl, hired a team and drove to the Wentworth, and had a good time generally until she was interfered with by the police, who after chasing her at night through half a dozen back yards and over a score or more of wood piles and fences, finally treed her on the roof of a house, and captured her. It turned out that she was "wanted" in Lawrence, Mass., where she had been at work in a mill, for stealing costly dresses and other articles from a boarding house; and for this she was sent to a Massachusetts industrial school. On Friday last as Asst. Marshal Cole was walking through Ladd street he met the girl, greeted her by name, and courteously escorted her to the police station. It is said she was taken from the industrial school by W. D. Tripp of Taunton, a philanthropic gentleman and an assistant in the state department of indoor poor, and that she required his kindness and confidence by stealing $50 of his money, and running away with it. Lillie does not appear to be a very moral young person. She was taken to Massachusetts by Boston officers Friday evening.

LETTER FROM YORK.

YORK, MAINE, April 27th.

Mr. Editor: I am not much at writing for the papers, and I don't know but I shall make a fool of myself, (which my wife says I can't do), but I am impelled to write to the GAZETTE as it is an old friend. One of my neighbors trades at Dover, and he says the Dover folks tell him that the city authorities of Portsmouth have passed a law which forbids us country people from selling our produce in the streets or at any corner, but the object is that we must sell to the stores.

Now I always had a few good customers for our eggs, etc., in Portsmouth. My wife used to live in one of the first families of the place as a domestic before I married her, and the folks there think everything of her butter. But now it is said we must sell it to the stores. As I drove through paved street recently, I noticed more stores empty than I ever have seen in forty years, going to Portsmouth, and it occurred to me that your traders were pursuing a narrow kind of policy and were driving us York people to trade at Dover. At any rate, we shall not come to Portsmouth if we cannot have free trade. I am a little hard of hearing, and I am informed that hereafter all produce must be sold without any noise so that the traders in paved street shall not be disturbed. It is too bad, after we run the risk of our horses being scared on the bridge, and pay a heavy toll, that we can't sell our eggs, etc., for cash at the houses, and go to the stores and get our goods at cash prices.

I think your traders are making a mistake, as I know several farmers in York that have already left off going to Portsmouth, and trade at Kittery or Great Falls and Dover, and I expect the next time I should venture to come to Portsmouth, to see more stores closed than ever before. AGAMENTICUS.

P. S. I shall still take the GAZETTE for old acquaintance sake.

THE APPROPRIATIONS BILL.

The appropriations bill for the current year, as introduced in the common council at the last meeting, is as follows:

AN ORDINANCE MAKING APPROPRIATIONS FOR THE YEAR 1883.

Be it ordained by the City Councils as follows:

There shall be raised and is hereby ordered to be raised, on the polls and estates of the inhabitants of this City, and non-residents to pay the current expenses of the City for the year ending December 31, 1883, and to pay such debts of the city as are required to be paid the current year, the sum of one hundred and eighteen thousand dollars, which with the sums to be received from the railroad and savings banks taxes, and other income of the City, shall be appropriated as follows:

GOSSIPS SAY

That the steamer General Bartlett, which made several excursions to this port last year, has been chartered by Portland parties to run between that city and the islands in Casco bay this season.

That a private roller skating rink has been established in the hall in Badger's block.

That C. Dwight Hanscom, Esq., has been examined by a board of Boston physicians and surgeons for an increase of pension.

That more than two-fifths of the soldiers of New Hampshire drawing pensions from the general government have been aided in their claims by senator Blair, he declining in all cases to accept fees.

That the statistics takers of ward three report a loss of eighty from the enrollment list of last year.

That Rev. Charles B. Pitblado, formerly of this city, has been transferred from the New Hampshire conference to the Southern New England conference.

That the fruit stores of Portsmouth are better stocked with foreign and domestic fruits than are the same kind of stores in any other city of the state.

That Cyrus L. Brown and family left for Minneapolis on Friday.

That Mr. M. E. C. Nute, of Farmington, is happy in the possession of a fire bucket that belonged to a hand fire brigade in Portsmouth 120 years ago, the bucket bearing the mark "N. Moses, 1761."

AN INTERESTING BOOK.

The Blockade and the Cruisers: by J. R. Soley, Professor in the United States navy.

This is the first number of a contemplated series of volumes upon "the Navy in the Civil War," issued by Charles Scribner's Sons, of New York. It contains a list of maps, with some account of the preparations for action in the war, on the part of the navy; and tells of the blockade, the squadrons, the blockade runners, the combat of the Monitor and Merrimac, and the destruction of the Albermarle, in which one of our townsmen took an active part. It gives also an extended account of the commerce destroyers, and has a list of vessels of the navy on March 4th, 1861—in commission, available or unserviceable,—and a list of those constructed or projected from 1861 to 1865.

There is very much in Prof. Soley's book which will interest persons in this locality, whence went forth so many officers and men in the ships of the navy, so many of which were at different periods of the war in the waters of our harbor. The events long enough since transpired to to have a fair, authentic recital appear in the present form, and we think the book is written in a candid and frank spirit, with an ardent purpose to tell the true story of our naval exploits. The book can be had of M. Goodrich at the moderate price of $1, and we are pleased to learn that it is largely sought for by those interested in naval affairs.

The sale of reserved seats at Music hall for Thursday evening, May 3d, commenced at Goodrich's on Friday morning last at nine o'clock, and the number of tickets taken before night assured a full house to greet Lotta on her first appearance in this city, which will also be her last appearance here for at least two years, as she intends spending that length of time in Europe.

In Salem, Mass., April 26th, Mrs. Ellen A. Waite was granted a divorce from her husband, the "Rev." Arthur A. Waite, on the ground of adultery. It is not likely that "pious fraud" will ever show himself in this part of the country again.

Rev. S. J. Gould has assumed the pastorate of the Pearl street Freewill Baptist society.

[*For other local matter see second page.*]

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidney, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

A fire occurred Thursday at Warsaw, Russia, in a cabinet maker's workshop. Sixteen of the workmen were unable to effect the escape, and were burned to death.

Don't Despair.

If you are weak and weary from some so-called chronic disease, don't give up. Sulphur Bitters has given hope to many invalids, where hitherto there was nothing but despair. It will build up and renew your whole system.—*Editor Weekly Express.*

The bark Payson Tucker, just launched in Portland, Me., is the second new vessel that has been named for the general manager of the Eastern and Maine Central railroads within a year or so.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. All men agree on one point, viz: That death from heart disease is rapid. The symptoms sometimes manifest themselves for years, and then again only for months. All of the thousands who have used Dr. Graves' Heart Regulator as soon as these symptoms appear, have been saved. It is the *only specific* for that malady.

The new Boston & Maine railroad bridge over Broadway, Dover, cost $20,000, including grading. A new bridge over the Cocheco will be built this summer.

Humbugged Again.

I say so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters, my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

KIDNEY-WORT

The Bad and Worthless

are never *imitated or counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it has been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., which variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The marriage is now published, with a notice of its repudiation by the bride, on the ground that it was without consent of her parents and in a parish to which the parties did not belong.

WILKIE COLLIN'S last story is called "My Lady's Money." In this country it would have been: "Mother-in-law has got the stamps," or "The Old Woman is Well Heeled," remarks a paragrapher. All Americans do not employ such outrageous slang phrases as the above. In speaking of Ely's Cream Balm, however, they do say: "it's perfect," "it's as fragrant as flowers, and certain death to catarrh," &c., &c. This Balm is not a liquid or snuff, and is easily applied. Thousands of grateful persons attest its efficacy. "One in our family had catarrh for eight years," said R. W. Merrill, Sec'y Phœnix Manuf'g Co., Grand Rapids, Mich. "She ineffectually tried other remedies and several speciality doctors in Boston. Ely's Cream Balm has restored her health and hearing, which were considered incurable." Try it, reader. If disease has entered the system the only way to drive it out is to purify and enrich the blood. To this end, as is acknowledged by all medical men, nothing is better adapted than Iron. The fault hitherto has been that iron could not be so prepared as to be absolutely harmless to the teeth. This difficulty has been overcome by the Brown Chemical Company of Baltimore, Md., who offer their Brown's Iron Bitters as a faultless iron preparation, a positive cure for dyspepsia, indigestion, kidney troubles, etc.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

A curious accident happened in the dental rooms of Dr. J. H. Gidney, in New Haven, Conn., April 26th. A small kettle exploded with a report like that of a cannon; panes of glass in the windows were blown out, and a flying piece of the kettle struck a young man tending it on the arm, inflicting a wound. The kettle was used in vulcanizing artificial teeth, and was tightly closed when in use. There was too much pressure for the kettle's resistance. The inmates of the building were thoroughly frightened.

One Experience from Many.

I have been sick and miserable so long and caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said, "Hurrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.

Why suffer longer from dyspepsia, indigestion, want of appetite, loss of strength, lack of energy, malaria, intermittent fevers, etc.? Brown's Iron Bitters never fail to cure these diseases. They act like a charm on the digestive organs, removing all dyspeptic symptoms, such as belching, heartburn, biliousness, etc. Remember it is the only iron preparation that will not blacken the teeth or give headache. TERRIBLE SUFFERING.

Kidney and Bladder Complaints of Many Years Duration—His Word Good as Gold—Case of City Assessor Francis Gomard, 89 Sumner St., Lowell, Mass.

"His word is as good as a bank note at any bank in Lowell, and I know it," was the opinion of a well known citizen in speaking of City Assessor Francis Gomard. Your reporter found Mr. Gomard at his pleasant home, which, with many others, adorns Sumner street and fronts the charming park of South Common. Mr. Gomard said, "I had been, as many of my friends in Lowell know, a great sufferer from kidney and urinary troubles for a long time. My physician said it was the result of diseased kidneys and enlargement of the prostrate gland. I had suffered terribly, and although my doctor's treatment had been the best which this city afforded, I got no better. I said finally, 'Doctor, it's no use. You have done all that is in your power to do, I know that; but I must get help from some other source or die.' Finally I was induced to try Dr Kennedy's FAVORITE REMEDY, a medicine which had been recommended very highly for kidney diseases. I received help at once. It has acted like a charm with me. Why so? Dr. Kennedy's FAVORITE REMEDY is an honest preparation, and I know it. I didn't think anything would help me, but this has given me better health than any medicine ever prescribed for me. I have recommended it to over so many of my friends in the city of Lowell, and with the same result. They think there is nothing like Dr. Kennedy's FAVORITE REMEDY."

What Mr. Gomard says can be depended upon, as any one acquainted with the gentleman knows.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hailstones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. Irish National League of America.

The great land league convention in Philadelphia last week resulted in the practical union of all Irish-American societies having for their object the improvement of the condition of the Irish at home. The title of the new organization is the Irish National League of America, and Alexander Sullivan was elected president. President Sullivan is thirty-five years of age, and was born in Maine. He stumped the state of Michigan for the constitutional amendment giving negroes the right of suffrage, and was an active abolitionist. He was a republican until 1872, when, being a strong friend of Greely, he supported the liberal movement, and has since been a democrat. He studied law with Algernon S. Sullivan of New York, and has been for a number of years in successful practice in Chicago.

News and Notes.

Green B. Raum on April 28th tendered his resignation of the office of commissioner of internal revenue, to take effect April 30th.

Walter Davis, a grocer of Harrodsburg, Ky., was shot dead as he was leaving the cars on April 27th, by Capt. Philip B. Thompson. The improper intimacy of Davis with Thompson's wife is said to have caused the act. Thompson was a member of the 46th and 47th congresses, and is a member-elect of the 48th. He is a democrat, and his character has been good.

Mrs. Jane Anthony, the wife of a liquor dealer in New York, threw herself before an approaching Philadelphia express train at Jersey City, N. J., on the afternoon of April 27th. Lawrence O'Brien, the switchman, attempted to save her, but the woman resisted, and in the struggle both fell on the track. The wheels of the train passed over Mrs. Anthony, and cut her body in two. O'Brien was hurled from the track, and lived only ten minutes. He was a cripple, having lost a portion of his right leg seven months ago while rescuing a child who was in danger of being struck by a train. He was thirty-eight years of age, and leaves a widow. Mrs. Anthony had not lived with her husband for some time.

Miss Edith Fish, whose engagement to Mr. Oliver Hugh Northcote has been announced, is the youngest daughter of Ex-Secretary Fish, and is devoted to fox-hunting. She is one of the most fearless and expert horsewomen in New York society. Mr. Northcote is the fifth son of Sir Stafford Northcote. He is in his 29th year, and is one of the eight children, his eldest brother being heir to the title of baronetcy. His father is the head of one of the oldest families of England. The family estate at Hayne, in Devon, is very valuable, and the hall is one of the finest buildings in Great Britain.

Edward Hanlan, the famous Canadian oarsman, says he only learned to swim last summer. He can now swim only a little, the muscles of his arms quickly becoming tired—a singular confession, he admits, for a sculler to make. His wife wants him to retire from the sculling profession, and he says he thinks he will soon follow her advice.

J. Kerr, who robbed a Chicago bank of $150,000, has been arrested at Lima, Peru.

The supreme court at Springfield, Mass., granted nineteen divorces, April 25th.

In English fashionable circles there is to be a reform in dancing. The polka, the schottische, and the waltz are to give place to the German lendler and the polonaise, as danced at the German court. A dance called the cournelle, which has been a favorite dance in Vienna, has also been introduced at the English court balls, and is expected to create a furor when it finds its way over here. This is the natural result of the bob-up-and-down "Boston dip" and the still more ungraceful and ridiculous racquet that have turned ball rooms topsy-turvy for many months.

The Newburyport *Herald* remarks: "The New Hampshire law makers have granted a bounty of ten cents each for every dead crow produced before the proper authorities. This has led to a curious traffic. A young man in Newbury married the daughter of a New Hampshire man. The young man shoots crows near his home in Massachusetts, and sells them to his father-in-law at seven cents each; the old man gets ten cents bounty, thus making three cents himself. The Granite State must be wealthy to afford to pay for shooting crows in Massachusetts."

Thirty-seven fares of cod and halibut arrived at Gloucester, Mass., last week, from the Georges, Grand and Western banks, the totals of fish being 1,565,000 lbs. of cod and 120,400 lbs. of halibut.

Rear Admiral Edward Middleton, on the retired list of the navy, died in Washington, D. C., April 28th. He was born in South Carolina, and entered the navy in 1828.

AROUND HOME.

Mr. Albert G. Furber of Newmarket went to Boston last week to undergo an operation for the restoration of his sight, which is said to have been entirely successful.

Orders were on Saturday received by the equipment department on the navy yard to cease all work on the U. S. S. Omaha.

Chief Engineer Charles H. Loring, of the board to report on the advisability of discontinuing one or more of the government yards, was at this navy yard last week in pursuance of that duty, none of the other members of the board being present. The full board some time ago made an inspection of the yard.

About twenty young ladies and gentlemen of this city went to Kittery on Friday evening of last week by the steamer Mystic, to pay a surprise visit to a young lady of that town, Miss Mabel Wentworth. The party, reinforced by a number of young people of Kittery, enjoyed themselves so well that it was between one and two o'clock before they left for home, their means of transit back to this city being a two-horse barge supplied by Mr. Cottle of Kittery.

Hanscom & Manent are building a wharf in Kittery near the Hill & Stover wharf, so-called.

The telephone exchange at South Berwick has been abolished, and subscribers in that town now have to communicate with each other by way of Great Falls.

The wife of William A. Butler of South Berwick cut her throat with a knife on the night of April 27th, while deranged, inflicting a wound which it was feared would prove fatal.

The house and stable of Joseph Smith, near the Eastern railroad station in Biddeford, were burned on the night of April 27th, with a portion of their contents, including a horse; loss $2000; partially insured.

At the Maine conference of the Methodist Episcopal church, held in Portland last week, it was stated in the annual report for the Portland district that the church at Kennebunk was re-opened last July, the extensive repairs having been completed; also that $1825 has been paid on a fine church in course of construction at Old Orchard, and that $1500 more will be needed to complete it.

Walter J. Harris and Mrs. Mary J. Allen, an eloping couple from the Yarmouth, Me., poorhouse, recently put up at a hotel in Saco, and were detained in Saco jail till the Yarmouth authorities could come after them. The errant lovers are between sixty and seventy years old, and have for some years been town charges at Yarmouth. What the Yarmouth authorities should want to catch them for we cannot see.

John Townsend of Saco captured near the little falls one day last week an enormous turtle, weighing nearly fifty pounds. It was the largest ever caught in that vicinity.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codtjan9,84

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINKLEY,

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

On Printing—J. Albert Walker, Wm. H. Sise, John W. Parsons, James R. May, Samuel Dodge, Willard J. Sampson, D. Webster Barnabee, William R. Martin, J. Horace Kent.

The chairman of the general committee on Saturday received from J. Albert Walker, Esq., a letter in which he stated that owing to the exactions of his private business it would be impossible for him to act efficiently as chairman of the committee on finance, and he therefore felt obliged to decline serving in that capacity.

CIRCUIT COURT.

SATURDAY, *Clark J.*

In case of Bruce and others vs. Manchester & Keene railroad and others, Hon. W. L. Foster appeared for the M. & K. R. R. and urged his motion to dismiss the suit for want of prosecuting by the complainant. The court, on inspection of the record, finding that the time in which complainant could proceed with taking his testimony had not expired, denied the motion.

GOSSIPS SAY

That Professor Lucius M. Hardy, son of Rev. A. C. Hardy, formerly of this city, has been chosen principal of the Yates Institute, an Episcopal school for boys at Lancaster, Pa.

That several shoemakers, with their families, moved out of town during last week.

That Mr. Charles A. Hazlett of this city has been elected a member of the Wheelmen's Tourist club of Great Britain, for the year 1883.

That it cost the city last year to collect the ashes placed by the citizens on the sidewalk the sung little sum of twenty-four hundred dollars.

That the appropriation bill reported by the common council last week very properly contains no reference to money for the "Return of the Sons" project.

That all the money required for the reception of the returning wanderers can be raised by private subscription.

That the singing of the male choir at Christ church on Sunday evening was a very attractive feature of the services.

That Mr. Sylvester Wright will before long remove with his family to Springfield, Ill.

A BUSY PLACE.

Mr. Daniel Mason, who runs the saw and planing mill on the corner of Green and Vaughan streets, is overrun with work in sawing out timber and lumber for Mr. E. C. Spinney of Kittery, and other parties in this vicinity; his 58-inch circular saw is running about all the time, one saw being in use while the others are being put in order. Mr. Mason is also sawing up the cedar logs for the Perkins Chair Co. Eleven men have been employed all winter, and it is more than probable that he will have to increase his force, for if one may judge by the looks of things around the mill the present force is scarcely sufficient to remove the slabs and debris so as to get room for the stock that is being sawed. We are glad that Mr. Mason's business is one that keeps so many persons busy, and hope that he is reaping a good pecuniary reward, for he deserves it, as he is one of the hardest workers in our city. One such establishment, giving renumerative employment to ten or a dozen men, is of more real benefit to the city than a dozen talks about the starting of industries which are never started, or a score of long newspaper articles to prove that the city is larger to-day than it was half a century ago. X.

GROWING UP WITH THE COUNTRY.

Mr. Charles P. Salen was on April 16th elected city clerk of Cleveland, Ohio, carrying the full vote of his party (the democratic) in the city councils, notwithstanding there had been much talk about his youth and inexperience, he being the youngest city clerk by many years that Cleveland ever had. Mr. Salen is a native of Portsmouth, having been born here on the 5th of December, 1860, so that he is now but little more than twenty-two years of age. His parents came to this country from Prussia in 1842, and our old and middle-aged citizens will well remember Mr. Salen senior, as a photographer who divided his time between Boston and this city twenty years or more ago; he removed to Cleveland in 1865 with his family, and has since resided there. The elder Salen has never voted anything but the democratic ticket; and the subject of this sketch was an active democratic worker long before he was of voting age. Last fall he was largely instrumental in establishing the Cleveland *Tribune*, of which he became the managing editor, and which under his conduct has been the most energetic and aggressive organ of the democracy in that region, aiding largely to the recent defeat of the republicans in municipal affairs.

The shoe factory will start up with a full force at noon to-day.

A choice musical entertainment was given in Chickering hall, Boston, on Thursday evening of last week, the participants all being ladies, and advanced pupils of Mrs. Edna A. Hall. Among them was Miss Edith Wendell of this city, of whom the *Traveller's* critic says: "Miss Wendell created a sensation by her singing of 'Regnava nel silenzio,' by Donizetti, in which she displayed a degree of power, feeling and finished virtuosity, well worthy of a professional artist."

Fifteen hundred dollars in Portsmouth city 6's of 1893 were sold at auction in Boston on Saturday, at 116.

The stock and fixtures in the saloon on Vaughan street lately kept by F. H. Newman were sold at sheriff's sale on Saturday, and brought fifty-nine per cent of the appraised value. The lot included a billiard table and a pool table, with their various paraphernalia.

The schooner Satellite, Aderton master, in going down the river on Saturday forenoon was carried against the Gangway rock band-stand, causing some damage to it and the tide-breaker.

The schooner Alice Montgomery, Capt. Lavender, arrived in the lower harbor on Friday evening last, sixteen days from Pensacola, having on board 2130 bales of cotton for the mills in Great Falls. This is the first arrival of cotton here, direct from a cotton port, for a long time.

Boatmen complain of large quantities of coal-tar floating in the river, which they allege comes from the gas works.

George W. Barsantee, formerly of this city, and later for some years a resident of Dover, where he was employed at the Eastern railroad station, has moved his family from Dover to Charlestown, Mass., where he is employed in a rubber factory.

An establishment called the Cascade house, in South Hampton, was raided on Thursday of last week by Sheriff Kent and Deputy Hoyt, who upon searching found a bar in a shed on the premises, with a supply of liquors, and another bar and fixings in the cellar of the house; there were also found in the place several female "boarders." Charles A. Hazeltine, proprietor of the mill, was taken to Exeter, and committed to jail in default of $800 bail, to answer to four complaints. On Friday George N. Goodwin of South Hampton was arrested on a complaint charging him with leasing the Cascade house to Hazeltine for the purpose of selling liquor, and was held to answer to the charge before the supreme court.

Mr. Jeremiah Towle has moved with his family to South Newmarket.

The adjourned annual meeting of trustees of the New Hampshire Asylum for the Insane was held at Concord on Saturday last. The trustees from this part of the state who were present were Dr. J. F. Hall of this city, Dr. Wm. G. Perry of Exeter, and Mr. E. J. Randall of Great Falls.

The whole amount of stock in the Boston & Maine railroad, owned in the town of Exeter, is 1690 shares. The number of stockholders is 220. Of this number eighty-one are owners of only one share each. At market value the shares represent $279,906.25.

Prof. Bailey of Boston will give an exhibition of fancy skating at the Franklin hall roller-skating rink this (Monday) evening. Music by Portsmouth band.

The last minstrel show of the season will be given on Wednesday evening by Leavitt's Giganteans, at Music hall.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

PASTURAGE.

AT THE BURNHAM FARM, Gerrish's Island, Kittery, a limited number of **CATTLE** will be taken to **pasture** during the season, at fair rates. Prompt application is advisable, as no more animals will be received than there is abundant accommodation for. The feed on the place is of extra quality, the water abundant and good, the forest shelter from sun and wind all that is needed; and there is low land enough to meet all the wants of a dry season. Cattle taken to pasture will receive the same care and attention as those belonging on the farm, without responsibility. Apply to PORTER R. EMERY, Manager.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt their assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood restored.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or Self-Preservation, the author, who may be consulted on all diseases requiring skill and experience. Address

Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASES

IS YOUR HEART SOUND?

Many people think themselves well and do not care for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheadinne, of Cincinnati, says "one-third of my subjects show signs of heart disease."

The heart weighs about ten ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders, to be known as **Dr. Graves' Heart Regulator** *and can be obtained of your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

The Irish War.

A printer named Gibney was arraigned in the Dublin court, April 27th, for conspiracy to murder Poole, a Fenian centre, who had turned informer. Two other men, named Healey and Kingston, were arraigned at the same time on the same charge. A man named Devine turned informer, and his evidence led to the issuing of warrants for the arrest of eight other persons.

O'Herlihy and Kennedy, alias Featherstone, who were taken to Liverpool from Cork, were arraigned in court April 27th, charged with having been engaged in the dynamite conspiracy. They were remanded for a week.

The trial of Fitzharris, alias "Skin the Goat," the car driver charged with participating in the murder of Cavendish and Burke, was last week set for April 30th.

A nitro-glycerine manufactory has been discovered at Northampton, England.

Doing the Square Thing.

Editor Lamar of the Macon, Ga., *Telegraph* takes back what he said about Editor Thornton of the Atlantic *Post-Appeal* during the late gubernatorial canvas, and says he is particularly sorry that in the heat of political excitement he basely slandered Mrs. Thornton. Editor Thornton accepts the apology, and says he regrets that he called his brother Lamar a scalawag, villain and polecat.

Skinny Men.

Henry D. Debosny was hanged last Friday in Elizabethtown, N. Y., for the murder of his wife last summer.

How can you remain a sufferer from dyspepsia when worse cases than yours are being cured by Hood's Sarsaparilla. Try it.

Among the deeds recorded last week in New York were three conveying property in Mott street to three Chinamen who have declared their intentions of becoming American citizens. They paid $31,500 for their purchases.

☞Don't wear dingy or faded things when the ten-cent Diamond Dyes will make them good as new. They are perfect.

The grand jury at Dover, Del., returned indictments against eleven persons charged with rioting, in connection with the attack on O'Brien's circus troupe.

Mr. William Knights, Great Falls, N. H., says he received decided benefit from using Brown's Iron Bitters.

William Macduff, a diamond broker of New York, early in the morning of April 27th shot his wife, his six-years-old son, and himself; all were dead when found, which was not for several hours after three pistol-shots were heard by the neighbors. No reason for the crime is known, as the family had apparently always lived happily.

Florida strawberries usually sell for $1. per quart basket, when first brought to Northern markets. Wheat Bitters bring the same price per bottle during all seasons. The first are a luxury. The latter is a necessity—because it cures most human maladies.

The Bad and Worthless

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it has been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies are worthless, no matter what their style or name is, and especially those with the word "Hop" or "Hope" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hail-stones having been quite so large, but as some people said they were as large as potatoes anybow, it must have been a very severe storm. A man who is hit with many hail-stones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

The Railroad Problem.

The Portsmouth *Journal* quotes from a cotemporary the suggestion that "in case of an accident happening on the Boston & Maine railroad, the Eastern stockholders must pay the entire damages accruing therefrom, as such damages are charged to operating expenses." It is well to be sympathetic in behalf of T. C. Weeks and the holders of his collaterals, but it is the public who have the most interest in this question. Suppose that an accident happens on the Eastern. Should the history of the "Pullman" train repeat itself,—a train whose mishaps at Revere and Seabrook cost more than the profit it has ever left for the company, when the rates at which the Eastern transports the Maine Central passengers is reckoned,—who is to respond to the judgments obtained for the damages? Whence is to be drawn the money with which to pay the cost of such accidents? Will the mortgagees give way and do without their interest to recompense the unsecured creditors for their heavy damages? Will the Portsmouth & Dover or the Eastern in New Hampshire consent to pass their dividends, and waive for a year or two, with the Wolfeboro or the Portland, Saco & Portsmouth, the customary rentals?

The receipts of the Eastern for the year ending Sept. 30, '82, were..$1,158,208.67
Interest, rentals, renewals, etc., (and of this interest eleven months was at 4½ per cent, and now the rate to be paid is six per cent)..... 1,074,306.85
Surplus..... $83,802.82

Now what does a collision cost? That at Marblehead Junction, in the olden times, when verdicts were far less than are rendered to-day, cost..... $ 86,000
At Wenham the cost was..... 34,000
The Revere accident up to Nov., 1875, had absorbed..... 510,600
Seabrook, as far as then settled..... 70,000

So one can judge as to how far the public may gain or lose if an accident should occur on the Eastern. Nearly ten years ago, Ex-President Lawrence stated in his annual report that the direct competition with the Boston & Maine railroad had cost the Eastern a million and two hundred thousand dollars. Who paid for this? Not the through business; that always gets a light charge from the trunk roads; but patrons on the line of the Eastern had to suffer to enable freighters at points east of Portland to profit by the intense competition. The roads, with an apparent understanding, were nevertheless cutting rates. Men in Maine laughed, and encouraged the rivalry, and we in New Hampshire and eastern Massachusetts paid the expenses. Is there any economist who fails upon careful examination of the facts, to see the true question here presented?

A Reporter in War Paint.

Gen. Patterson, of the third regiment, New Hampshire National Guard, has appointed an honorary staff of twelve braves at the head of which is Col. J. E. Pecker, the New Hampshire correspondent of the Boston *Journal*. The staff is expected to make a sensation at the coming inauguration of Gov. Hale, June 7th, when it will appear in full feather.

We can imagine the valiant Pecker sheathing his sword to draw his pencil as he parades the streets of Concord, and discovers en route some public character who has not been interviewed upon the senatorial or the railroad question. Verily the pencil is mightier than the sword.

An Instrument Light.

Such is a word, says the Boston *Transcript*, is the unique apparatus on exhibition at the rooms of the Portable Electric Light Company, 22 Water street, Boston. It occupies the space of only five square inches and weighs but five pounds, and can be carried with ease. The light requires no extra power, wires or connections, and is so constructed that any part can be replaced at small cost. The chemicals are placed in a glass retort; a carbon and zinc apparatus, with a spiral platinum attachment, is then adjusted so as to form a battery, and the light is ready. The pressure on a little knob produces an electric current by which the spiral of platinum is heated to incandescence. The Portable Electric Light company was recently incorporated with a capital of $100,000, under the laws of Massachusetts. Some of the prominent business men of the state are identified with this enterprise. In addition to its use as a lighter, the apparatus can also be used in connection with a burglar-alarm and a galvanic battery.

News and Notes.

Albert H. Beals, of the firm of Fickett & Beals, spice dealers, of Boston, shot and killed his partner, A. P. Fickett, on board the steamer Bristol, Sunday night, while on the sound, mistaking him for a burglar.

Congressman Thompson, of Kentucky, who last week shot a man named Davis for encroaching on his family rights, is said to have had a number of fights before. Some years ago there was a fight in a Kentucky court room between a man named Davis and his two sons on one side, and Thompson and his father and brother on the other, in which all were killed except the present Congressman Thompson. It is not stated whether or not there is any relationship between this Davis family and the Davis of Harrodsburg last week killed by Thompson.

The counterfeiters seem to be unusually active. A great deal has been heard lately of a wonderful counterfeit dollar, which it is said cannot be detected by its weight or ring. The reason it can't be so detected has not been announced by the secret service officials of the government, but it is very simple. It is merely because the dollar is just as good as the one made by the government. Its weight is the same, its stamping is as good, and it is made of the same material, silver, the fineness of which is identical with that of the standard piece. It is understood that this dollar is being circulated in vast numbers, being issued by some private parties. The reason for its utterance is simply because the standard dollar contains eighty-six to eighty-eight cents of silver only, upon which the government puts its stamp and calls it 100 cents. There is therefore, a margin of from twelve to fourteen cents profit in their manufacture.

The house in Watertown, Mass., in which Mrs. Etta G. Carleton was murdered six weeks ago, was burned by an incendiary fire on the morning of April 29th. The building had been repaired, repapered, etc., since the murder, and was valued at $5000.

The extensive saw mills at East Great Works, Me., ten miles above Bangor, were burned April 29th; loss $120,000. About 200 men are thrown out of employment.

A tornado in northwestern Texas, Friday night, did great damage at Bonham, Palo Pinto and Benton. Many buildings were destroyed, and seven lives were lost in Benton alone.

The grand jury of the United States circuit court at Portland have indicted John C. Friend of Etna and Dr. John B. Benjamin of Carmel, for conspiring and defrauding United States pensioners. It is alleged that Friend and Benjamin have been for years acting as claim agents, and have charged exorbitant rates. The government claims it can show that they have extorted at least $20,000, and probably much more, from pensioners. Benjamin has been arrested, but Friend has cleared out.

In the United States circuit court at Portland, Me., last week, C. A. Jenness pleaded guilty to a charge of larceny of United States property, and was sentenced to five days in Portland jail, and to pay $20 fine, with costs.
